3. PRODUCTION REQUIREMENTS

The introduction of the new Preferential Procurement Regulations of 2022

(PPR2022) repealed the Preferential Procurement Regulations of 2017 and all its instructions and procedures. As a result, the application of the local content is no longer a compulsory requirement. The Electoral Commission in its preferential procurement has however adopted the use of local content as part of the specific goals together with the status levels of contribution as follows;

Specific goal	B-BBEE status level of contributor	Designated local content
Points out of 20 (refer to table below for breakdown)	10	10
Proof required	• B-BBEE status level certificate, CIPC B-BBEE certificate or B-BBEE sworn affidavit (as applicable) • Disclosure certificate (not older than 3 months) • Proof of ownership Share certificates for companies CK1, CK2 or disclosure certificate for CCs Copies of IDs for owners	• Declaration • Annexures B, C, D and E • Bill of materials • Questionnaire A

In the 80/20 scoring principle, local content will account for 10 points and the other 10 points will be for status level of contribution.

Specific Goals Points Breakdown for Local Content

B-BBEE Status Level of Contributor	Number of Points
1	10
2	9
3	6
4	5
5	4
6	3
7	2
8	1
Non-compliant contributor	0

Local content	Number of Points
100% local	10
100% local with exemption from dtic	5
Not 100% local	0

- 3.1 Where local content production is applied, compliance with all the requirements must be adhered to for the purpose of claiming preferential points for scoring purposes. No preferential points will be awarded for the requirements not complying with the provisions of local content and production. No bid will be disqualified either on the basis of choosing not to adopt local production and content.

4. MINIMUM LOCAL CONTENT REQUIREMENTS

- The stipulated minimum threshold percentages for local production and content in terms of the Department of Trade, Industry and Competition (dtic) for certain elements of the required PVC bag is 100%.
- Where filament yarns, dyes and chemicals not manufactured locally in South Africa will require exemption by the Department of Trade, Industry and Competition (the dtic) and the bidders have to apply to the dtic for such exemption.

5. IN CASE WHERE RAW MATERIALS ARE NOT AVAILABLE LOCALLY

- If the raw material or input for the PVC bag is not available locally, the bidders should obtain written authorisation from the Department of Trade, Industry and Competition (the dtic) should there be a need to import such raw material or input. A copy of the authorisation letter must be submitted together with the bid proposal and sample PVC bag at the closing date and time of the bid.
- The exchange rate used for the calculation of local production and content will be the exchange rate published by the South African Reserve Bank (SARB) at 12:00 on the date of the advertisement of the bid.
- The rates of exchange quoted by the bidder in paragraph 3.1 of the Declaration Certificate will be verified for accuracy.

Important Note on Determining Local Content:

SERVICE PROVIDERS INITIALS / SIGNATURE

Important: Failure to complete/sign/initial this page in original ink will invalidate your tender!! Failure to sign/initial any alterations or corrections made may also invalidate your tender!! The use of any correction fluid, tape or similar products may invalidate your tender submission!!

A declared local content of 100% is not a true reflection if the dtic issued an authorisation letter(s) to import some of the raw materials. In such instances bidders are expected to declare the actual local content percentage (%) of less than 100% for the fact that an authorisation letter(s) was provided by the dtic. Bidders will not be disqualified during the bid evaluation process for not meeting the required local content threshold. The purpose thereof is to encourage the bidders to declare the exact local content, for example. if a bidder indicates that he/she will be importing dyes and chemicals or other raw materials then it is not possible to have 100% local content if there is any portion of import no matter how small it may be. All the supporting documents for the preferential procurement claims must be submitted for the purpose of claiming the preferential points.

6. CALCULATION OF THE LOCAL CONTENT

- The South African Bureau of Standards (SABS) approved technical specification number SANS 1286:2017 will be used to calculate local content.
- The Declaration Document for Local Content (Annexure B) together with Annexure C (Local Content Declaration: Summary Schedule) must be completed, duly signed and submitted by the bidder at the closing date and time of the bid.
- The SABS approved technical specification and the *Guidance on the Calculation of Local Content* together with the Local Content Declaration Templates [Annexure C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annexure C) and E (Local Content Declaration: Supporting Schedule to Annexure C)] are accessible to all potential bidders on the dtic's official website: <http://www.thedticc.gov.za/sectors-and-services-2/industrial-development/industrial-procurement/> at no cost.
- The local content (LC) expressed as a percentage of the bid price will be calculated in accordance with the following formula:

$$LC = (1 - x/y) * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

- Prices referred to in the determination of x will be converted to Rand (ZAR) by using the exchange rate published by the SARB at 12:00 on the date that the bid has been advertised.
- Please note that the bid price must include all applicable costs **INCLUDING VAT, however for the purposes of completion of annexures B, C, D and E – local content declarations and schedules – prices must EXCLUDE VAT.**

- **The Bill of Materials (BOM),** including all raw materials to be utilised in the production process must be included.
- The schedule must clearly indicate all the materials to be used which materials are produced locally in South Africa, and which materials are imported.
- The proposed format for the BOM may be indicated as follows:

e.g. fabric dye	5%	No	Yes	Yes
e.g. silk screen ink	10%	Yes	No	Not applicable
