FORM B — TERMS OF REFERENCE AND BID SPECIFICATION

B.1 Background and Motivation

Fetakgomo Tubatse Local Municipality, situated in the Sekhukhune District of Limpopo Province, is one of the largest municipalities in the district both in terms of land size and population. It was established through the amalgamation of Fetakgomo and Greater Tubatse municipalities in 2016, creating a vast jurisdiction with diverse socio-economic and spatial characteristics. The municipality is rich in mineral resources, particularly platinum, which has spurred industrial activity and urban growth. However, this rapid expansion has also brought about significant socio-spatial challenges, including uneven development, sprawling settlements and inadequate service delivery.

These challenges prompted the municipality to develop the City Development Strategy Vision 2043, a long-term plan aimed at guiding sustainable urban growth and addressing disparities across its territory. To better manage development, the municipality was demarcated into six distinct regions, each defined by specific characteristics such as a commercial hub, industrial hub, light Industry and energy hub among others. This regional approach allows for tailored interventions that respond to the unique needs of each area, ensuring that development is not concentrated in one part of the municipality while neglecting others.

A critical component of the Vision 2043 is the recognition of the need for robust infrastructure planning. The municipality faces significant backlogs in basic services such as roads, water, sanitation and electricity, which hinder economic growth and quality of life. To address this, a long-term infrastructure plan and Capital Expenditure Framework were identified as essential tools to prioritise investments, allocate resources efficiently and ensure that infrastructure development keeps pace with population growth and industrial expansion. Without such interventions, the municipality risks deepening inequalities and missing opportunities for inclusive development.

One of the pressing operational challenges has been the shortage of earthmoving equipment (yellow equipment), which is vital for road maintenance and service delivery. To overcome this constraint, the municipality resolved to appoint a panel of companies under a lease-to-buy programme for 36 months, ensuring, that equipment is available for immediate use while gradually building municipal ownership capacity. This innovative approach not only addresses the current shortage but also strengthens local economic

participation by involving private companies in service delivery, thereby enhancing efficiency and sustainability in infrastructure management.

B.2 Objective

The objective of this tender is to invite suitably qualified and experienced service providers to submit proposals for the lease-to-buy of machinery and equipment (Yellow Plant) programme for 36 months to the Municipality, on an as and when needed basis.

B.3 Scope of Services

The Municipality requires proposals from suitably qualified and capable service providers to provide services in relation to the provision of finance leases or outright purchases of machinery and equipment (Yellow Plant) on a lease-to-buy programme. of the following machinery and equipment, quantities of which are to be confirmed when the need arise.

Fetakgomo Tubatse Local Municipality Fleet Department will determine the funding method when placing an order for the Yellow Plant Machines.

The appointed service providers will be required to finance the entire machine/equipment procurement and delivery process (including initial licensing and registration of the vehicles) irrespective of the funding method.

The appointed service providers will be required to facilitate the fitments of all the required attachments and accessories as well as modifications required to ensure the vehicle is “fit-for-purpose”,

B.4 Purchase Orders

Services shall be rendered only upon receipt of a written official order from the Fetakgomo Tubatse Local Municipality.

Accounts shall be rendered as indicated on the official order or in the contract, as the case may be.

B.5 Delivery Period

ANNEXURE F — CERTIFICATE OF INDEPENDENT BID DETERMINATION (MBD 9)

1. This Municipal Bidding Document must form part of all bids.
2. Section 4(1)(b)(iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition, meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a take all reasonable steps to prevent such abuse;*
 - b reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and*
 - c cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.*
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

6.

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
