4. Infection Control

In order to provide an effective and efficient Cleaning Service, the Service Provider must understand how infection/germs spread:

- 4.1. Germs are extremely small and can only be seen under a microscope. They are found everywhere, for example:
- i. In/on human beings
 - ii. On food
 - iii. In water
 - iv. On fixed and movable assets (surfaces)
 - v. Toilet facilities
 - vi. Kitchen facilities, and
 - vii. Dust in the air
- 4.2. Germs, just like human beings need:
- viii. Food
 - ix. Time (germs will multiply by dividing every 10 – 20 minutes)
 - x. Moisture (a moist environment)
 - xi. Temperature (ideal conditions for microorganisms to multiply is between 20° C and 50°C). This means that one germ, under ideal conditions, will multiply to about 1 million in 3½ hours. If any one of these four conditions is removed, it dramatically reduces the rate at which germs multiply.
- 4.3. In order for infection to spread, the germs need:
- xii. A source (somewhere for infection to start)
 - xiii. A route (a way for infection to travel from one person to the next, from hand to object, from cloth to surface, etc.)
 - xiv. A target (someone/somewhere new to infect).

5. Colour Coding and Infection Control

In order for TPT to manage infection control as far as possible, the following Colour Coding will be utilized:

Microfibre cleaning cloths:

Yellow	Kitchen
Blue	Offices, Passages, Doors, Pictures and Furniture
Red	Toilet Bowls and Urinals
Green	Mirrors, Walls, Sinks, Toilet Doors, Basins & Showers
White	Use of office equipment & Machinery
Yellow Duster	Dust Removal on surfaces

Mops:

Red Mop	Toilet
Blue Mop	Offices and Passages

Brooms:

Red broom	Toilet
Blue Broom	Offices and Passages

The purpose of colour coding in cleaning is to prevent cross contamination of germs and infection control.

10. Specification for Sweeping

Sweeping is a maintenance cleaning technique, the object being to remove as much coarse dirt and letter as possible from the floor. Three types of sweeping techniques are commonly used:

10.1. Sweeping with a broom

Manual sweeping with a broom. Method used mainly on the following types of surfaces:

- a) Vinyl/Cushion
- b) Asphalt tiles
- c) Linoleum
- d) Profiled rubber
- e) Terrazzo
- f) Marble/Reconstituted marble
- g) Quarry tiles

- h) Concrete
- i) Porcelain
- j) Ceramics
- k) Wood/Laminates
- l) Slate.

10.2. Sweeping with a mop sweeper

- a) Unlike a broom, the mop sweeper cannot be used on a rough surface. The removable mop head can be laundered or washed and re-used.
- b) Dispersion of dust into the air is lower than with a broom.
- c) Areas of 1000 m² can be swept within an hour.

10.3. Sweeping with a sweeping machine

- a) Instead of the dirt and litter being collected in from of the broom or mop sweeper and having to be picked up in a dust receptacle, a sweeping machine deposits the dirt and litter in a hopper which has to be emptied frequently. Rubber seals on the sides and back of the machine ensure that re-dispersion of dust is kept to a minimum.
- b) The sweeping machine can be used on rough and uneven floors. Large areas can be cleaned much quicker than using the traditional manual sweeping.

11. Specification for Mopping

Mopping can be carried out in four different ways:

11.1. Spot Mopping

This mopping technique is applied by using a wrung-out mop head to access wet/sticky dirt. It is crucial that the wet/sticky dirt is picked up from the floor and not just smeared over a large area.

11.2. Damp Mopping

This mopping technique is applied by plunging the mop into a detergent solution and then wrung out in a bucket, leaving the mop damp. The floor is then cleaned, by mopping in a figure eight pattern.

11.3. Wet Mopping

This mopping technique differs from damp mopping in that after plunging the mop into a detergent solution, the mop is only lightly wrung out and the solution then applied to the floor. The mop is then fully wrung out in the bucket and the dirty solution picked up from the floor.

			Page 16 of 50 Rev 01	

12. Specification for Wet Scrubbing with a Mechanical Scrubber

- a) The mechanical scrubber is used in large areas where traffic and soiling on the floor surface is severe, for e.g. workshops. The cleaner drives or stands behind the scrubber (dependent of size of scrubber). This method of scrubbing the floor surface is less physical and more suitable for industrial soiled areas, e.g. oil, grease, etc.

13. Specification for Polishing (Buffing)

Buffing methods can be divided into three different categories:

13.1. Dry Buffing

Dry buffing relies purely on the mechanical action of a floor cleaning or polishing pad or brush driven by a single brush machine to repair scuffing and other superficial surface blemishes on floors, treated with acrylic polymers. It is also used to enhance the gloss on untreated floors, such as rubber profile floors, which have been cleaned with combined maintenance products.

13.2. Spot and Full Spray Buffing

The spray application of detergents when combined with the buffing action provides both superior cleaning characteristics as well as partly replenishing polymer, removed from the floor. This method is most successful on floors treated with acrylic polymers.

13.3. Spot Spray Buffing

- a) Spot spray buffing is based on the principle that certain floor areas are exposed to abnormal amount of traffic and wear and require more intensive maintenance. Examples of such areas would be:
- Near entrance doors
 - Lift lobbies.
- b) The best cleaning maintenance is to spot spray these areas and dry buff the rest of the floor area, as spray buffing is slower than dry buffing.

Spot spray buffing is applied as follows:

- Apply a fine mist of spray buffing mixture.
- Spread the mixture over a small area (approx. 2m²) using a single brush machine fitted with an appropriate working element
- Make sufficient passes over the same floor area. To dry the floor to a high shine, more than four passes are required, else too much spray has been applied to the floor
- Turn pads over before they clog up and lose their cleaning ability.
- Wash out pads and hang up to dry.

- d) Change rinse water and or solution when visible dirty/contaminated.
- e) In the event that the floor must be buffed/polished, place wet floor signs, even if polishing the floor.
- f) Adjust the handle correctly to your waist height and place the cord over your shoulder and behind you.

absorbed into surfaces and or tile profile. Rinse off.

- k) Change the pads when both the used surfaces are dirty. At all times be aware of employees walking past you and make sure you pause your side to motion as they pass you. Never leave your machine plugged on should you need to leave the work area, even for a few minutes.

Unplug the machine!

- l) When complete, inspect floor to ensure smooth, clean surface.
- m) Unplug the machine and wind the cord around the machine.
- n) Wash mops, buckets and pads and hang them out to dry.
- o) Clean and store machine and consumable.

15. Work Instruction for Vacuuming of Carpet

85% - 95% of carpet soiling is dry soiling, thus the importance of efficient vacuuming cannot be overstated.

- a) Vacuum bags on vacuum cleaners: The performance of any type of vacuum cleaner is largely dependent on the condition of its filtration system. The disposable paper filter bag provides the most efficient method of filtration. Cloth bags are less effective and if they are used, throughout cleaning of the filter cloth is essential if vacuum efficiency is to be maintained.
- b) Types of soiling on carpets:
- Dry soil
 - Water soil
 - Oily soil
 - Combination of the above (water and dust = mud).
- a) The above soils may be presented in any of the three levels in the carpet:
- Soiling on the surface – spots and sills are the most visible on carpets.
 - Soiling present in mid-pile
 - Soiling held in the backing of the carpet

- b) Spots removal from carpets:
- Spots can be removed with the correct spot removal procedure. Only use a white absorbent cloth or towel to remove spots.
 - Try to attend to spillage immediately, before it has time to set. The longer the spot remains on the carpet, the more difficult it could be to remove.
 - Blot up spillage with paper towels or if spillage is dry and encrusted, use a blunt knife or spatula to remove encrustation.
 - If spot is cleaned by blotting the spillage, follow the work instruction below for deep cleaning of carpets.
 - Do not rub or scrub the spot as it will spread the stain and may cause pile damage.
 - Once spot is dry, vacuum the carpet.

16. Work Instruction for Cleaning Carpets

- a) Before the operation commences, the contractor must liaise with the Facilities/SHEQ Manager in order that the necessary preparations can be made.
- b) The direct extraction method of cleaning carpets must be used, and the following procedure adopted:
- Thoroughly vacuum all areas to be deep- cleaned, ensuring that surface soils are removed, and pile lifted.
 - All stains and chewing gum must be treated appropriately.
 - Sticky substances such as chewing gum to be removed with a freeze spray.
 - Water soluble stains to be removed by neutral dry foam.
 - Solvent soluble stains to be removed by a soluble remover.
- c) Shampoo and extraction chemicals must conform to the following minimum requirements:
- They must leave a dry, powdery, crystalline residue
 - They must leave a PH of between 5.5 and 8.0
 - They must not contain bleach or fluorescent brightening agents.
- d) Following wet cleaning and drying, all areas must be thoroughly vacuumed to remove shampoo residue.
- e) Carpet edging to be damp-wiped clean after carpet cleaning.

NOTE: The cleaning method described above is the only cleaning method allowed.

3 SUBMITTING OF BID DOCUMENTS

- 3.1 A Bid, which shall hereinafter include reference to an RFP or RFQ, shall be submitted to Transnet no later than the closing date and time specified in accordance with the directions issued in the Bid Documents. Late Bids will not be considered.
- 3.2 The Bid Documents must be completed in their entirety and Respondents are required to complete their Bid submissions legibly in non-erasable ink.

- 3.4 The Respondent's return address must be stated on the reverse side of the sealed envelope.

4 USE OF BID FORMS

- 4.1 Where special forms and/or formats are issued by Transnet for the submission of Bids, Respondents are required to submit their Bids by completion of the appropriate sections on such official forms and/or formats and not in other forms and/or formats or documents bearing their own terms and conditions of contract. 6 VALIDITY PERIOD

- 6.1 The Respondents must hold their Bid valid for acceptance by Transnet at any time within the requested validity period after the closing date of the bid.
- 6.2 Respondents may be requested to extend their validity period for a specified additional period. In such instances, Respondents will not be allowed to change any aspect of their Bid, unless they are able to demonstrate that the proposed change/s is as a direct and unavoidable consequence of Transnet's extension of the validity period.

7 SITE VISITS / BRIEFING SESSIONS

Respondents may be requested to attend a site visit or briefing session where it is necessary to view the site in order to prepare their Bids, or where Transnet deems it necessary to provide Respondents with further information to allow them to complete their Bids properly. Where such visits or sessions are indicated as compulsory in the RFX Document, Respondents are obliged to attend these meetings as failure to do so will result in their disqualification.

8 CLARIFICATION BEFORE THE CLOSING DATE

Should clarification be required on any aspect of the Bid before the closing date, the Respondent must direct such queries to the contact person listed in the RFX Document in the stipulated manner.

9 COMMUNICATION AFTER THE CLOSING DATE

A Bid, in respect of which any such unauthorised communication has occurred, may be disqualified.

11 RETURNABLE DOCUMENTS

All returnable documents listed in the RFX Documents must be submitted with Respondent's Bid. Failure to submit mandatory returnable schedules / documents will result in disqualification. Failure to submit other schedules / documents may result in disqualification.

12 DEFAULTS BY RESPONDENTS

If the Respondent, after it has been notified of the acceptance of its Bid fails to:

- 12.1 enter into a formal contract when called upon to do so within such period as Transnet may specify; or

- 12.3 furnish satisfactory security when called upon to do so for the fulfilment of the contract; or

Transnet may, in any such case, without prejudice to any other legal remedy which it may have, proceed to accept any other Bid or, if it is necessary to do so, call for Bids afresh, and may recover from the defaulting Respondent any additional expense incurred by Transnet in calling for new offers or in accepting a less favourable offer.

Failure to observe this requirement may result in the particular item(s) concerned being excluded in the matter of the award of the business.

16 EXCHANGE AND REMITTANCE

- 16.1 The Respondent should note that where the whole or a portion of the contract or order value is to be remitted overseas, Transnet shall, if requested to do so by the Supplier/Service Provider, effect payment overseas directly to the foreign principal or manufacturer of such percentage of the contract or order value as may be stipulated by the Respondent in its Bid Documents.
- 16.2 It is Transnet's preference to enter into Rand-based agreements. Transnet would request, therefore, that the Respondent give favourable consideration to obtaining forward exchange cover on the foreign currency portion of the Agreement at a cost that is acceptable to Transnet to protect itself against any currency rate fluctuation risks for the duration of any resulting contract or order.
- 16.3 The Respondent who desires to avail itself of the aforementioned facility must at the time of bidding furnish the information called for in the Exchange and Remittance section of the Bid Documents and also furnish full details of the principals or manufacturer to whom payment is to be made.
- 16.4 The South African Reserve Bank's approval is required before any foreign currency payments can be made to or on behalf of Respondents.

Any such submission shall be subject to review by Transnet's Legal Counsel who shall determine whether the proposed amendments /alternative(s) are acceptable or otherwise, as the case may be. Respondents will be afforded an opportunity to withdraw an unacceptable deviation, failing which the respondent will be disqualified.

20 CONTRACT DOCUMENTS

- 20.1 The contract documents will comprise these General Bid Conditions, the Terms and Conditions of Contract and any schedule of "Special Conditions" which form part of the Bid Documents.
- 20.2 The abovementioned documents together with the Respondent's Bid response will constitute the contract between the parties upon receipt by the Respondent of Transnet's letter of acceptance / intent, subject to all additional amendments and/or special conditions thereto as agreed to by the parties.
- 20.3 Should Transnet inform the Respondent that a formal contract will be signed, the abovementioned documents together with the Respondent's Bid response [and, if any, its covering letter and any subsequent exchange of correspondence] as well as Transnet's Letter of Acceptance/Intent, shall constitute a binding contract until the final contract is signed.

- 24.3 Such security, if required, shall be an amount which will be stipulated in the Bid Documents.
- 24.4 For the purpose of clause 24.124.1 above, Transnet will supply a Deed of Suretyship form to the successful Respondent for completion and no guarantee in any other form will be accepted. A copy of such form will be supplied to Respondents on request. For this purpose a Deed of Suretyship form will be provided which shall be completed and returned to Transnet or a designated official by the successful Respondent within 30 [thirty] calendar days from the date of the letter of acceptance. No payment will be made until the form, duly completed, is delivered to Transnet. If it is unable to meet the desired critical delivery period, Transnet reserves the right to purchase such supplies as may be required to meet the emergency outside the contract if immediate delivery can be offered from any other source. The *Total or Partial Failure to Perform the Scope of Supply* section in the Terms and Conditions of Contract will not be applicable in these circumstances.

32 PLANS, DRAWINGS, DIAGRAMS, SPECIFICATIONS AND DOCUMENTS

In the event of any departures or variations between the foreign specification(s) quoted in the Bid Documents, full details regarding such departures or variations must be furnished by the Respondent in a covering letter attached to the Bid. 33.2 In the case of a representative or agent, written proof must be submitted to the effect that such representative or agent has been duly authorised to act in that capacity by the principal. Failure to submit such authorisation by the representative or agent shall disqualify the Bid.

33.3 When legally authorised to prepare and submit Bids on behalf of their principals not domiciled in the Republic of South Africa, representatives or agents must compile the Bids in the names of such principals and sign them on behalf of the latter.

33.4 South African representatives or agents of a successful foreign Respondent must when so required enter into a formal contract in the name of their principals and must sign such contract on behalf of the latter. In every such case a legal Power of Attorney from their principals must be furnished to

Transnet by the South African representative or agents authorising them to enter into and sign such contract.

33.5 If payment is to be made in South Africa, the foreign Supplier/Service Provider [i.e. the principal, or its South African agent or representative], must notify Transnet in writing whether, for payment by electronic funds transfer [EFT]:

- a) funds are to be transferred to the credit of the foreign Supplier/Service Provider's account at a bank in South Africa, in which case the name and branch of such bank shall be furnished; or
- b) funds are to be transferred to the credit of its South African agent or representative, in which case the name and branch of such bank shall be furnished.

33.6 The attention of the Respondent is directed to clause 24 above [Securities] regarding the provision of security for the fulfilment of contracts and orders and the manner and form in which such security is to be furnished.

- 4.3 In particular, without limiting the generality of paragraph 4.2 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
- a) prices;
 - b) geographical area where Goods or Services will be rendered [market allocation];
 - c) methods, factors or formulas used to calculate prices;

5 DISQUALIFICATION FROM BIDDING PROCESS

- 5.1 If the Bidder / Supplier has committed a transgression through a violation of paragraph 3 of this Integrity Pact or in any other form such as to put its reliability or credibility as a Bidder / Supplier into question, Transnet may reject the Bidder's / Supplier's application from the registration or bidding process and remove the Bidder / Supplier from its database, if already registered.
- 5.2 If the Bidder / Supplier has committed a transgression through a violation of paragraph 3, or any material violation, such as to put its reliability or credibility into question, Transnet may after following due procedures and at its own discretion also exclude the Bidder / Supplier from future bidding processes. The imposition and duration of the exclusion will be determined by the severity of the transgression. The severity will be determined by the circumstances of the case, which will include amongst others the number of transgressions, the position of the transgressors within the company hierarchy of the Bidder / Supplier and the amount of the damage. The exclusion will be imposed for up to a maximum of 10 (ten) years. However, Transnet reserves the right to impose a longer period of exclusion, depending on the gravity of the misconduct.
- 5.3 If the Bidder / Supplier can prove that it has restored the damage caused by it and has installed a suitable corruption prevention system, or taken other remedial measures as the circumstances of the case may require, Transnet may at its own discretion revoke the exclusion or suspend the imposed penalty.

6 DATABASE OF RESTRICTED SUPPLIERS

- 6.1 The process of restriction is used to exclude a company/person from conducting future business with Transnet and other organs of state for a specified period. No Bid shall be awarded to a Bidder whose name (or any of its members, directors, partners or trustees) appear on the Register of Tender Defaulters kept by National Treasury, or who have been placed on National Treasury's List of Restricted Suppliers. Transnet reserves the right to withdraw an award, or cancel a contract concluded with a Bidder should it be established, at any time, that a bidder has been restricted with National Treasury by another government institution.
- 6.2 All the stipulations on Transnet's restriction process as laid down in Transnet's Supply Chain Policy and Procurement Procedures Manual are included herein by way of reference. Below follows a condensed summary of this restriction procedure.
- 6.3 On completion of the restriction procedure, Transnet will submit the restricted entity's details (including the identity number of the individuals and registration number of the entity) to National Treasury for placement on National Treasury's Database of Restricted Suppliers for the specified period of exclusion. - 6.4 The decision to restrict is based on one of the grounds for restriction. The standard of proof to commence the restriction process is whether a "*prima facie*" (i.e. on the face of it) case has been established.
- 6.5 Depending on the seriousness of the misconduct and the strategic importance of the Goods/Services, in addition to restricting a company/person from future business, Transnet may decide to terminate some or all existing contracts with the company/person as well.
- 6.6 A supplier or contractor to Transnet may not subcontract any portion of the contract to a restricted company.
- 6.7 Grounds for restriction include: If any person/Enterprise which has submitted a Bid, concluded a contract, or, in the capacity of agent or subcontractor, has been associated with such Bid or contract:
 - a) Has, in bad faith, withdrawn such Bid after the advertised closing date and time for the receipt of Bids;

 - g) has submitted false information regarding any other matter required in terms of the Preferential Procurement Regulations, 2017 issued in terms of the Preferential Procurement Policy Framework Act which will affect the evaluation of a Bid or where a Bidder has failed to declare any subcontracting arrangements;
 - h) caused Transnet damage, or to incur costs in order to meet the contractor's requirements and which could not be recovered from the contractor;
 - i) has litigated against Transnet in bad faith.

7 PREVIOUS TRANSGRESSIONS

- 7.1 The Bidder / Supplier hereby declares that no previous transgressions resulting in a serious breach of any law, including but not limited to, corruption, fraud, theft, extortion and contraventions of the Competition Act 89 of 1998, which occurred in the last 5 (five) years with any other public sector undertaking, government department or private sector company that could justify its exclusion from its registration on the Bidder's / Supplier's database or any bidding process.
- 7.2 If it is found to be that the Bidder / Supplier made an incorrect statement on this subject, the Bidder / Supplier can be rejected from the registration process or removed from the Bidder / Supplier database, if already registered, for such reason (refer to the Breach of Law Form contained in the applicable RFX document.)

8.1 Transnet shall also take all or any one of the following actions, wherever required to:

- g) If the Supplier subcontracted a portion of the bid to another person without declaring it to Transnet, Transnet must penalise the Supplier up to 10% of the value of the contract.

9.1 A conflict of interest includes, inter alia, a situation in which:

- a) A Transnet employee has a personal financial interest in a bidding / supplying entity; and

10 DISPUTE RESOLUTION

10.1 Transnet recognises that trust and good faith are pivotal to its relationship with its Bidders / Suppliers. When a dispute arises between Transnet and its Bidder / Supplier, the parties should use their best endeavours to resolve the dispute in an amicable manner, whenever possible. Litigation in bad faith negates the principles of trust and good faith on which commercial relationships are based. Accordingly, following a restriction process as mentioned in paragraph 6 above, Transnet will not do business with a company that litigates against it in bad faith or is involved in any action that reflects bad faith on its part. Litigation in bad faith includes, but is not limited to the following instances:
