1. PROJECT PURPOSE, BACKGROUND, GOALS, OBJECTIVES AND PROBLEM STATEMENT

1.1 Purpose

The purpose is to request approval to appoint a service provider for a duration of 24 months to (A) Research, perform Data Analysis, and (B) Develop and Implement a Procurement Strategy and (C) Transformative Procurement Policy that will assist the Gauteng Provincial Government (GPG) departments to achieve the set target of 40% on Township Economic Revitalization (TER) in line with the Township Development Act (TEDA) and designated groups, and where applicable the revised Preferential Procurement Regulation (PPR) 2022.

1.2 Background

The Gauteng Department of Economic Development (GDED) launched a thirty-day (30) roadshow on township economy revitalisation in Gauteng – the first one kicked off on 21 July 2014. During this period, the provincial government visited 50 townships in Gauteng to listen, share ideas and communicate with communities on ways to revitalise and transform the economies of townships. This is part of the government's new agenda to radically change the provincial economy.

The challenges facing GPG are not unique to the province but are common to all other provinces in the country. Gauteng province is mostly affected since it's the economic hub of the country. It is important to note that if the Gauteng province as the economic hub can succeed in growing township economy, this will have a positive impact on the majority of designated communities and other provinces will be able to learn best practices and grow their own economies.

To maximize the participation of township-based suppliers in government procurement processes, the Gauteng Provincial Treasury (GPT), embarked on a drive to register township suppliers on the Central Supplier Database (CSD) and the Gauteng Provincial Government (GPG) Supplier Database. Various campaigns and roadshows were held to register suppliers to create awareness of the registration process and qualifying criteria.

In addition, a help desk was established to allow suppliers to walk in and register their businesses, thereby creating a one-stop-shop (assisting with qualifying criteria such as tax matters, bank account verification, CIPC issues, CSD registration etc.).

Government should be encouraged to refocus its attention on markets that have greater potential for productivity enhancement of township residents. Spatial implications of township revitalisation by Municipalities may need rethinking due to township entrepreneurs that may have achieved the success of selling goods and services outside the geographical confines of the township, in an inner-city or suburban neighbourhood.

These markets are more lucrative and sustain demand for a greater diversity of goods and services. Yet, municipal policies have a determining impact on where, when, and how micro-enterprises may operate, usually with the intention to either control or exclude the institutional incongruence between national, provincial, and municipal objectives.

The Gauteng Provincial Treasury (GPT) to provide leadership, guidance, and oversight to all GPG departments, entities, agencies, and municipalities and intervenes when Gauteng spend targets in relation to the provincial public procurement budgets are not met.

1.3 Goals and objectives of the Project

The goal of the project is to appoint a service provider for a twenty-four (24) month period to:

(A) Conduct and perform Data Research and Data Analysis

(B) Develop and Implement a Transformative Procurement Strategy

(C) The Developed Transformative Procurement Policy to support the procurement strategy that will assist the Gauteng Provincial Government (GPG) departments to achieve the set target of 40% on Township Economic Revitalization (TER) in line with the Township Development Act (TEDA) and designated groups, and where applicable the revised Preferential Procurement Regulation (PPR) 2022.

The appointed service provider will develop and implement a Procurement Strategy that will be practical and simple to apply. The Procurement Strategy will consolidate existing strategies and evaluate the methodology for practical implementation.

The Procurement strategy needs to:

- Assess the socio-economic environment of Township suppliers
- Quantify the number of suppliers
- Types of commodities per corridor
- Identify low-hanging fruits that can be implemented by the province
- Indicate what is achievable and not achievable
- Develop monitoring and reporting tools
- The procurement strategy needs to indicate opportunities for employment and entrepreneurship

Page: 6 of 25

Procurement strategic objectives are as follows:

- Ensure Gauteng Provincial departments achieve the set 40% target for TER, in relation to the interventions required for a successful TER strategy, inclusive of all designated groups.
- Ensure an appropriate legal and regulatory framework
- Promoting manufacturing and production activities in the township
- Support economic infrastructure, and supplier and enterprise development
- Support internal and/ external financing, funding, and investment programmes
- Support in ensuring access to markets
- Stimulate and support entrepreneurship programmes in the township
- Stimulate and support identified GPT partnerships and stakeholders
- Promote innovation and indigenous knowledge systems
- Ensure collaboration between Gauteng departments, Local government and Government agencies, parastatals, and Private sector
- Target private sector and all public sector bodies, particularly at provincial and local government spheres, to impact township enterprise goods and services procurement decisions.

1.4 Problem Statement

Work in township micro-enterprises offers the unemployed, particularly the youth, a point of entry into the labour market. The township economy provides opportunities to acquire skills, gain on-the-job experience and build social networks.

If township enterprises are to be strengthened and increase their contribution to an inclusive, labour-absorbing, and growing economy, three key outcomes from this strategy are necessary. The government needs to:

- Create the appropriate enabling environment based on strategic focus areas to revitalize the township economy,
- Establish the economic and social value of the township economy, and
- Ensure that the township economy becomes the key player in the provincial economy.

Township Economic Development Act (TEDA) is supported by this strategy together with the Transformative Procurement Policy that enforces Government institutions to successfully implement the actions required for the procurement targets to be achieved.
