6.3.5 The Supplier shall consult with Eskom on the rectification plan and Eskom undertakes within 7 (seven) Business Days after submission to it of the rectification plan, to advise whether the plan is acceptable which acceptance will not be unreasonably withheld or delayed.

6.3.6 On Eskom's acceptance, the Supplier shall implement the rectification plan in the form and on the terms acceptable to Eskom.

6.3.7 The Supplier's failure to re-establish its Black Ownership status, as contemplated in clause 6.3.4, within a 12 (twelve) month period shall constitute a breach of material provisions of the Agreement in terms of clause 34.2.

6.4 Local Procurement

- 6.4.1 The Supplier shall aim to set aside 30% (thirty percent) of its procurement spend on service providers from Black Designated Groups that are within the district municipality of the Mine, and where such service providers are not available within the district, the entire province will be considered. In order to ensure compliance, Eskom reserves the right, as it deems fit, to request information to check and verify services being provided by the Supplier's service providers.
- 6.4.2 The Supplier shall provide copies of invoices, proof of payment, B-BBEE certificate of the service provider and proof of address if different from one in the certificate as well as evidence that the service provider is either youth or disabled.

6.5 Skills Development

- 6.5.1 As part of the Agreement, the Supplier shall train candidates in the skills according to the distribution identified in the skills development matrix of the SDL&I Commitments in **Annexe C** of the Agreement. Candidates shall consist of currently unemployed graduates from universities; Further Education and Training campuses ("FETs") and schools. Candidates should also come from historically disadvantaged communities within the district municipality of the Mine. - 6.5.2 For the Supplier to fulfil its obligations in respect of skills development, the Supplier shall:
- 6.5.2.1 provide the specified number of individuals with sufficient on-the-job and other skills training in the specified trade or discipline to reach the level of competence required to pass the level of qualification stated in the SDL&I Commitments and accordingly to be certified to that level; provided that if there is no industry standard test or certification for the trade or discipline in question then the Supplier shall provide sufficient on-the-job and other skills training in that trade or discipline to enable that individual to reach the level of competence stated in the SDL&I Commitments so that that person is generally regarded as being employable in that trade or discipline. The cost of providing skills

development training shall be borne by the Supplier and not passed over to Eskom;

6.5.2.2 register and pay for the testing and evaluation of that individual in the specified trade test (if applicable); and

6.5.2.3 provide the details below in the Progress Reports for each individual in respect of which the Supplier will claim fulfilment of the skills development element of the Supplier's SDL&I Commitments:

6.5.2.3.1 the names of the individuals as well as copies of identity documents and, if applicable, the specified trades in respect of which the individuals are to be trained; and

6.5.2.3.2 details of individuals who have successfully completed the skills development for the relevant period (including details of their personal information and certified copies of their test results and certificates received, if applicable).

6.6 Performance Requirements in Respect of SDL&I Commitments

6.6.1 To ensure compliance to the agreed upon SDL&I Commitments, the Supplier shall be required, at Signature Date, to prepare and submit to Eskom a detailed plan ("the **SDL&I Plan**") showing how the Supplier will satisfy its SDL&I Commitments as set out in **Annexe C**.

6.6.2 The Parties shall meet on each anniversary of the Commencement Date, for the duration of the Contract Period, to discuss the SDL&I Commitments in terms of the Agreement, and where appropriate, agree in writing on a set of annual milestones which the Supplier shall satisfy with regard to the SDL&I Commitments. At such meetings, the Parties shall review the Supplier's performance with regard to fulfilling the SDL&I Commitments of the Agreement. The SDL&I Commitments shall be equally weighted between the Local Procurement and the skills development obligations as set out in **Annexe C**, to determine whether the Supplier has fulfilled the SDL&I Commitments of the Agreement for that particular Year.

6.6.3 Without prejudice to any other rights or claims that Eskom may have under the Agreement or otherwise, in the event that the Supplier fails to meet any of the targets set out in the SDL&I Plan within the prescribed timelines or fails to provide Progress Report(s) as contemplated in clause 27.2, Eskom shall be

entitled to withhold an amount equal to 2.5% (two point five percent) from each payment becoming due to the Supplier under the Agreement after the relevant date at which the target(s) should have been met, until the Supplier has met all of its targets as set out in the SDL&I Plan.

- 6.6.4 The Supplier shall notify Eskom of its achievement of the relevant target(s) set out in the SDL&I Plan providing evidence thereof in accordance with the requirements in **Annexe C**. Once Eskom is satisfied with the evidence provided, Eskom shall without undue delay and within 30 (thirty) days release and pay to the Supplier the amounts withheld in respect of the Supplier's failure to meet the target(s) set out in the SDL&I Plan, free of any interest or surcharge. No money withheld shall be paid back to the Supplier if at the end of the Contract Period the Supplier has not met all of its SDL&I Commitments as set out in the SDL&I Plan.

7. Legal Compliance and Audits

- 7.1 The Supplier shall ensure compliance with the regulatory requirements of the Department of National Treasury's Central Supplier Database ("**CSD**") in accordance with the Public Finance Management Act ("**PFMA**"). Eskom shall not Off Take Contract Coal due to the Supplier's non-compliance with CSD requirements, in which event Supply shall be suspended with immediate effect.
- 7.2 The Supplier warrants that it is complying and will continue to comply with all its obligations under all current and future applicable South African and International Regulatory Framework applicable to a Mine and mine associated infrastructures, including but not limited to the Specific Environmental Management Acts ("**SEMA**"); the MPRDA; the NWA; NEMA; the National Environmental Air Quality Act, No. 39 of 2004; the Hazardous Substances Act, No. 15 of 1973; the National Heritage Resources Act, No. 25 of 1999; the Mine Health and Safety Act, No. 29 of 1996; the Occupational Health and Safety Act, No. 85 of 1993 ("**OHSA**"); and the Compensation for Occupational Injuries and Diseases ("**COID**") Act No. 130 of 1993; as amended.
- 7.3 Eskom shall be entitled to conduct audits and inspections in respect of the provisions of this clause 7 to ensure the Supplier's compliance herewith and the Supplier agrees to co-operate with Eskom in this regard. To that end, Eskom and its designated representatives, including without limitation, its attorneys, auditors, safety and health representatives, environmental representatives, engineers and geologists shall at all reasonable times, with reasonable prior notice to the Supplier, have access to the Mine and facilities utilised for the production and supply of Contract Coal under the Agreement and to all books and

records, wherever located, reasonably required by Eskom in order for Eskom to assess the Supplier's compliance with its obligations in terms of this Agreement, which access will be at Eskom's expense and risk.

- 7.4 Eskom will provide feedback on outcomes and non-compliances identified from the audit and inspections conducted in 7.3 above. The Supplier shall provide Eskom with an action plan and the Parties shall mutually agree on the action plan, including the timelines, to address the identified risks. Should the parties be unable to agree on the risks and/or the action plan, then the dispute will be resolved in terms of Section 9.
- 7.5 The Supplier shall address the agreed non-compliances as indicated in 7.4 and shall report on progress of addressing such non-compliances during the scheduled technical meetings or as and when required.
- 7.6 In the event that Eskom is approached by the Government of South Africa or any regulatory authority under the SEMA, MPRDA, NEMA and/or NWA with a view to remedying pollution relating to or resulting from the Parties' respective rights and obligations under the Agreement, the Supplier shall assist Eskom by making appropriate representations and taking appropriate steps to mitigate any statutory liability which Eskom may have under that legislation.
- 7.7 Eskom shall not at any time or for any reason be liable for any rehabilitation and/or closure costs incurred in connection with the Mine, save where Eskom caused the pollution, nor the possible cost of remedying pollution under NEMA and the NWA. To the extent that, after taking the steps referred to in clauses 7.2 and 7.6, Eskom incurs any such costs, for which Eskom is not responsible, then the Supplier shall compensate Eskom for all reasonable costs and expenses incurred by it, provided that Eskom shall take all reasonable steps to mitigate its loss and shall be obliged to prove such loss.
- 7.8 The Supplier shall comply with the provisions detailed in **Annexe D: The Safety and Health Requirements** and **Annexe E: The Environmental Legal Requirements**.
- 7.9 Where either Party's employees, agents and/or its representatives enter the premises of the other Party, they shall comply with any Applicable Laws, including but not limited to, those laws set out in clause 7.2 above.
- 7.10 In the event of material changes to the legislation referred to in clause 7.2 or the introduction of new legislation which results in an increase or reduction of the direct cost of producing and Delivering Contract Coal at the Delivery Point ("**the Cost Differential**"), the then applicable Price may (subject to clause 7.12 below) be increased or reduced as the case

may be, by a pro rata portion of the Cost Differential, and following early notification to, and agreement by Eskom.

- 7.11 Subject to clause 7.10, the pro rata portion shall be equal to the proportion which the value (expressed in Rand) of the sales to Eskom in terms of the Agreement bears to the aggregate of all sales from the Mine(s).
- 7.12 Eskom shall at any time, for the purpose of clause 7.10, upon reasonable notice to the Supplier, be entitled to audit the Supplier's costs related to the production and Delivery of such coal at the Delivery Point and financial information relating to the Supplier's income as a result of sales of coal. In the event that Eskom, as a result of its audit, disputes the Cost Differential, Eskom and the Supplier shall attempt to resolve the dispute amicably within 20 (twenty) days after a dispute being declared by either of them in this regard. Where Eskom and the Supplier are unable to resolve the dispute, either Eskom or the Supplier may then refer the dispute to an independent expert for determination in accordance with clause 30.
- 7.13 Where either Party's employees, agents and/or its representatives enter the premises of the other Party, they shall be required to comply, and each Party shall procure that they comply, with the relevant legislation set out in clause 7.2 above and other health and safety rules applicable to the premises of the other Party. The Parties hereby agree, in terms of section 37(2) of the OHSA (if applicable) that the other Parties are relieved of any of their liabilities in terms of section 37(1) of the OHSA in respect of any act or omissions of either Party's employees, agents and/or its representatives to the extent permitted by the OHSA.

8. Indemnity

- 8.1 Without prejudice to any rights of Eskom in terms of this Agreement or at law, including without limitations, any other indemnities or warranties or undertakings contained elsewhere in this Agreement, the Supplier irrevocably and unconditionally indemnifies Eskom (and its successors in title), its shareholders, directors, officers and employees and holds them harmless against:

- 8.1.1 all and any loss, liability, damage, cost or expense claims of whatsoever nature howsoever arising suffered, incurred or sustained by any of Eskom, its shareholders, directors, officers and employees arising out of, pursuant to, or in connection with any negligent act or omission of the Supplier and/or any employee and/or director and/or any representative and/or sub-contractor and/or other personnel of the Supplier;

- 8.1.2 any loss, liability, damage cost or expense, suffered, incurred or sustained by Eskom arising out of, pursuant to, or in connection with a breach by the Supplier of any of the provisions of this Agreement and/or any failure by the Supplier to comply with any Applicable Laws (including, without limiting the generality of the foregoing, any laws relating to any of the ABC Laws);
- 8.1.3 any and all losses, liability, damage, cost or expense, suffered, incurred or sustained by Eskom arising out of, pursuant to, or in connection with a breach by the Supplier of any of the warranties and undertakings contained in clause 4 and 5;

each of the foregoing being referred to as an "**Indemnified Loss**".

- 8.2 Each Indemnity contained in this clause 8 shall be a separate Indemnity and shall in no way be limited or restricted by any reference to or inference from the terms of any other indemnity or any other provision of this Agreement.
- 8.3 The Supplier shall be obliged to pay Eskom any amount due to Eskom in respect of any Indemnified Loss as soon as Eskom or the relevant person indemnified in terms of this clause 8 is obliged to pay the amount thereof or as soon as Eskom or the relevant person indemnified in terms of this clause 8 actually suffers the Indemnified Loss.

SECTION 3: RISK AND OWNERSHIP OF COAL

9. Risk and Ownership of Contract Coal

- 9.1 The risk in, and ownership of, the Contract Coal Delivered in terms of the Agreement shall pass to Eskom upon Delivery, notwithstanding the provisions of clause 16.
- 9.2 Eskom shall be entitled to use all Contract Coal Supplied to it in terms of the Agreement for consumption at any Power Station owned and/or operated by Eskom from time to time and Eskom shall be entitled to use the Contract Coal in accordance with its sole requirements including selling or disposing of such coal to any third party.
- 9.3 The Supplier shall Deliver Contract Coal to the designated Delivery Point in the quantities and at the rates set out in the Agreement for Off Take by Eskom.

SECTION 4: QUANTITIES, DELIVERY, OFF TAKE AND SUPPLY OF COAL

10. Coal Quantities

- 10.1 The Supplier shall at all times throughout the duration of the Agreement ensure that the Coal Resource remains sufficient to enable the Supplier to comply with all its obligations in terms of the Agreement.
- 10.2 Any quantities of Contract Coal not Delivered in a Year and for which the Supplier has paid a penalty in terms of clause 12.3, shall not be carried over to the next Year.

11. Planning and Supply of Contract Coal

- 11.1 The Parties shall use their reasonable endeavours to ensure that all Delivery and Off Take of Contract Coal is spread evenly across each day and Month and so as to comply with the limits stipulated in clause 10.1 above and clause 7 of the Coal Supply Agreement.
- 11.2 Eskom shall, before the end of the second week of the last Month of each Quarter specify, in the Technical Liaison Meeting, the quantity of Contract Coal that shall be Supplied for each Month of the subsequent Quarter such that:
- 11.2.1 the quantity specified in respect of each Month will not be:
- 11.2.1.1 less than the Minimum Monthly Quantity; and
- 11.2.1.2 not more than the Maximum Monthly Quantity; and
- 11.2.2 the quantity to be Supplied each Year will not be:
- 11.2.2.1 less than the Minimum Annual Quantity stipulated in Table 1 of the Coal Supply Agreement; and
- 11.2.2.2 more than the Maximum Annual Quantity stipulated in Table 1 of the Coal Supply Agreement; and
- 11.2.3 it takes into account the provisions of any rectification plans agreed to by the Parties.
- 11.3 Either Party may request at the Technical Liaison Meeting to Deliver or Take Off less than the Minimum Monthly Quantity and/or Minimum Annual Quantity or in excess of the Maximum Monthly Quantity and/or the Maximum Annual Quantity applicable to any Month or Year, provided that the other Party shall not be obliged to agree to such quantity below the minimum quantities or above the maximum quantities as set out in Table 1 of the Coal

Supply Agreement, save for a Delivery in respect of an Under Supply in terms of a rectification plan approved by the other Party. Should the Parties not agree to a request made in terms of this clause 11.3 the Monthly Quantity and/or Annual Quantity shall apply.

11.4 Once the Monthly Quantity for each month of the subsequent Quarter has been determined in terms of clause 11.2, Eskom shall issue a written order for the Delivery of Contract Coal for each Month in the subsequent Quarter ("**the Drawdown Order**") in respect of the quantities so determined. The Supplier shall Deliver and Eskom shall Take Off:

11.4.1 not less than the Minimum Monthly Quantity and not more than the Maximum Monthly Quantity during each Month of the subsequent Quarter; and

11.4.2 not less than the Minimum Quarterly Quantity and not more than the Maximum Quarterly Quantity during the subsequent Quarter.

11.5 For avoidance of doubt, the quantities set out in each Drawdown Order shall expressly exclude any quantities planned for Supply under any agreed rectification plan. Where applicable, such quantities shall be noted separately in the Drawdown Order.

12. Under Delivery

12.1 In the event of an actual or expected Under Delivery:

12.1.1 the Supplier shall, within 3 (three) Business Days, submit a rectification plan to Eskom, which plan shall set out a schedule of how the Supplier shall make up the actual or expected shortfall in the shortest time reasonably possible, but in any event before the end of the Quarter, or before the expiry of the Agreement where the remaining period of the Agreement is less than a Quarter;

12.1.2 the Supplier may Deliver Qualifying Alternative Coal, subject to Eskom's written approval, which approval shall not be unreasonably withheld or delayed, as part of the rectification plan;

12.1.3 the Supplier shall source such Qualifying Alternative Coal and Deliver it to the Delivery Points or to such other points as approved by Eskom, provided that the Supplier shall be liable for any reasonable additional direct costs which Eskom may have to incur (including all penalties for which Eskom may become liable to its transport contractors as a result of the shortfall). Eskom shall be entitled to the cost savings which may result from the Delivery and/or Take Off of such Qualifying Alternative Coal;

- 12.1.4 the Supplier shall consult with Eskom on the rectification plan and, Eskom undertakes, within 7 (seven) days after submission to it of the rectification plan, to advise whether the plan is acceptable, which acceptance will not be unreasonably withheld or delayed; and
- 12.1.5 on Eskom's acceptance, the Supplier shall implement the rectification plan in the form and on the terms acceptable to Eskom and make up the actual or expected shortfall in accordance with the rectification plan.
- 12.2 Where, as a result of the Under Delivery, Eskom takes any coal from its own stockpiles to manage the shortfall, Eskom shall be entitled to recover from the Supplier its reasonably incurred and demonstrable costs for additional direct handling and stockpiling.
- 12.3 In the event of:
- 12.3.1 the Supplier failing to submit and implement the rectification plan in terms of clause 12.1; or
- 12.3.2 Eskom's rejection of the rectification plan; or
- 12.3.3 the Supplier's failure to make up the Under Delivery in another manner acceptable to Eskom;

then Eskom shall be entitled to recover from the Supplier a financial penalty calculated as:

$$P = \left[(API\#4 \times ZAR - CLT) \times 0.77 \times \frac{[x]}{23.0} \right] - CP$$

where:

- P*: is the effective penalty in Rand per ton;
- API#4*: is the past month's average of API#4 index price of RB1 grade coal, Free on Board (FOB) Richards Bay and in US Dollars per ton as published by Argus/McCloskey;
- ZAR*: is the exchange rate for United States Dollar and South African Rand (ZAR:USD) ruling at financial close of the preceding Month as published by the South African Reserve Bank;
- CLT*: is the Coal Line Tariff, being the indicative average tariff in Rand per ton, for the Month, charged by TFR for main line services from Mpumalanga to Richards Bay inclusive of the port charges levied by the Richards Bay Coal Terminal;

- 0.77: represents a yield factor that accounts for the combined yield of the primary and secondary washes and for any lost earnings on middlings product;
- [x]: is the expected Calorific Value of Contract Coal in MJ/kg on an Air Dried basis;
- 23.0: is a typical Calorific Value of run-of-mine export coal in MJ/kg on an Air Dried basis;
- CP: is the Price of Contract Coal in Rand per ton assuming a Calorific Value of [x] on an Air Dried basis.

12.4 The quantity of any Under Delivery shall be measured:

- 12.4.1 in any Month, as the Minimum Monthly Quantity in respect of that Month less the quantity of Contract Coal actually Delivered in that Month;
- 12.4.2 in any Quarter, as the difference between the Minimum Quarterly Quantity in respect of that Quarter and the quantity of Contract Coal actually Delivered in that Quarter; and
- 12.4.3 in any Year, as the difference between the Minimum Annual Quantity in respect of that Year and the quantity of Contract Coal actually Delivered in that Year.
- 12.4.4 For avoidance of doubt, when calculating the quantity of an Under Delivery, the Supplier must first meet the Minimum Quarterly Quantity each Quarter before any quantity of Contract Coal Delivered in terms of a Supplier rectification plan is credited against that rectification plan.

12.5 Any Under Delivery shall, unless otherwise agreed to in writing between the Parties, only constitute a material breach of a material term for purposes of clause 31 if such Under Delivery occurred more than 3 (three) times during any rolling 12 (twelve) Months; and:

- 12.5.1 in any Month, is less than 50% (fifty percent) of the Monthly Quantity in respect of that Month; or
- 12.5.2 in any Quarter, is less than 60% (sixty percent) of the Minimum Quarterly Quantity in respect of that Quarter; or
- 12.5.3 in any Year, is less than of 70% (seventy percent) of the Minimum Annual Quantity in respect of that Year.

12.6 Where Eskom is responsible for the transportation of Contract Coal, Eskom shall be entitled, but not obliged to recover from the Supplier any penalties for the cancellation and/or

underutilisation of rail and/or road transport resulting from any rectification plan accepted by Eskom or any Under Delivery, determined in accordance with **Annexe F: The Rules of Rail Transportation** and/or **Annexe G: The Rules of Road Transportation**, as the case may be.

13. Under Off Take

- 13.1 In the event of an actual or expected Under Off Take, Eskom shall, within 3 (three) Business Days thereof submit a rectification plan to the Supplier, consult with the Supplier thereon and obtain the Supplier's reasonable acceptance of the rectification plan (which may not be unreasonably withheld or delayed), implement the rectification plan and make up the Under Off Take in accordance with the rectification plan by Taking Off additional Contract Coal in order to make up the Under Off Take within the shortest time reasonably possible, but in any event within the Quarter after the date on which the Under Off Take arose or before the expiry of the Agreement where the remaining period of the Agreement is less than a Quarter.
- 13.2 Should Eskom fail to submit a rectification plan to the Supplier, fail to implement such rectification plan, fail to make up the Under Off Take within a reasonable period pursuant to any of the effort under clause 13.1, Eskom shall make full payment to the Supplier in respect of the quantity of the Under Off Take ("**Prepaid Under Off Take**") not made up within the timelines set out in clause 13.1 without applying premiums or penalties to the Price.
- 13.3 Eskom shall remain entitled to Take Off and the Supplier obliged to Deliver the Prepaid Under Off Take in terms of the Agreement within the applicable quantity limitations, set out in clause 11, unless otherwise agreed. When the Prepaid Under Off Take is Supplied, appropriate adjustments to the Price paid shall be made for quality of the Contract Coal actually Taken Off.
- 13.4 Eskom shall further be liable for the payment of any reasonable demonstrable additional direct handling and stockpiling costs incurred by the Supplier occasioned by any Under Off Take subsequently made up, provided that the Supplier shall notify Eskom in writing before incurring any additional costs and shall seek Eskom's involvement in minimising such additional costs.
- 13.5 The quantity of any Under Off Take shall be measured:
- 13.5.1 in any Month, as the Minimum Monthly Quantity in respect of that Month less the quantity of Contract Coal actually Taken Off in that Month;

- 13.5.2 in any Quarter, as the difference between the Minimum Quarterly Quantity in respect of that Quarter and the quantity of Contract Coal actually Taken Off in that Quarter; and
- 13.5.3 in any Year, as the difference between the Minimum Annual Quantity in respect of that Year and the quantity of Contract Coal actually taken Off in that Year.
- 13.5.4 For avoidance of doubt, when calculating the quantity of an Under Off Take, Eskom must first meet the Minimum Quarterly Quantity each Quarter before any quantity of Contract Coal Taken Off in terms of an Eskom Rectification Plan is credited against that Rectification Plan.
- 13.6 Any Under Off Take shall, unless otherwise agreed to in writing between the Parties, and unless paid for in terms of clause 13.2, only constitute a material breach of a material term for purposes of clause 31 if such Under Off Take:
- 13.6.1 has not been made up as set out in clause 13.1 above within 90 (ninety) calendar days after the Under Off Take first occurred;
- 13.6.2 occurred more than 3 (three) times during any rolling 12 (twelve) Months; and
- 13.6.3 in any Month, is less than 50% (fifty percent) of the Monthly Quantity; or
- 13.6.4 in any Quarter, is less than 60% (sixty percent) of the Minimum Quarterly Quantity; or
- 13.6.5 in any Year, is less than 70% (seventy percent) of the Minimum Annual Quantity.
- 13.7 Where the Supplier is responsible for the transportation of Contract Coal, the Supplier shall be entitled, but not obliged to recover from Eskom any reasonably demonstrable penalties actually and reasonably incurred for the cancellation and/or underutilisation of road transport resulting from any rectification plan accepted by the Supplier or any Under Off Take, determined in accordance with **Annexe G: The Rules of Road Transportation**.

SECTION 5: PRICE ADJUSTMENTS, INVOICING AND PAYMENTS

14. Price Adjustments

- 14.1 If the published value of any index in the third column of Table 2 of the Coal Supply Agreement is changed after it has been used in calculating a Price Adjustment Factor, the calculation shall be repeated and a correction included in the Supplier's next invoice.

- 14.2 If the value of any index in the third column of Table 2 of the Coal Supply Agreement for the applicable Month is not yet published and available for the calculation of the Price Adjustment Factor in any Year, the most recent published index shall be used. The calculation of the Price Adjustment Factor shall then be repeated when the applicable index is published and made available, and a correction shall be included in the Supplier's next invoice.
- 14.3 In the event that any index in the third column of Table 2 of the Coal Supply Agreement is no longer published and the Parties are unable to agree on a replacement index, the matter shall be referred for expert determination in accordance with clause 30.1.
- 14.4 In the event that the matters referred to in clauses 14.1 to 14.3 are disputed by any Party, the matter shall, notwithstanding the provisions of clause 29, be referred to an independent expert for determination in accordance with clause 30.1 at least 6 (six) Months before the commencement of the next Year.
- 14.5 Should Parties have not resolved any dispute as set out in clause 14.4 above before the commencement of the next Year, the adjustment sources in use before the dispute was declared shall be applied on a provisional basis until the dispute has been resolved, where after the determination of the independent expert as referred to in clause 14.4 shall be applied retrospectively and any necessary adjustment payments shall be made.
- 14.6 For the avoidance of doubt, the annual price adjustment each Year shall be based on the Base Price and disregarding the monthly Price adjustments.

15. Adjustments of Other Monetary Amounts

Unless specified otherwise, any other monetary amount used in the Agreement and which is expressed in South African Rand shall also be adjusted annually, by the Price Adjustment Factor, on the Price Adjustment Date.

16. Invoicing and Payment

- 16.2 The amount payable in respect of each invoice shall, in the absence of manifest error and without set off, and provided that it has been timeously rendered, be payable within

60 (sixty) days of receipt of the invoice by Eskom, provided that disputed items or amounts on an invoice shall only be payable when the dispute has been resolved by agreement between the Parties or otherwise, in terms of the Agreement.

- 16.3 Eskom shall be entitled, but not obliged to recover from the Supplier any costs and/or any penalties incurred by Eskom as contemplated in clauses 12.1.3, 12.2, 12.3, and 12.6.
- 16.4 In the event that Eskom elects to recover the costs and/or penalties as set out in clause 16.3 above, Eskom shall, notwithstanding the provisions of clause 16.2 above, be entitled to set-off the said costs and/or penalties against any invoice rendered by the Supplier.
- 16.5 Without prejudice to any other of its remedies in law and/or the Agreement, the Supplier shall be entitled to recover interest on any amount payable by Eskom in terms of the Agreement which is overdue, at the prime overdraft lending rate charged from time to time by First National Bank of Southern Africa Limited less 2% (two percent). The amount of such prime rate shall *prima facie* be proved by a certificate signed by any manager or accountant (whose appointment need not be proved) of any branch of such bank.

SECTION 6: QUALITY OF COAL

17. Determination of Coal Quality

- 17.1 The Parties shall implement the provisions of clause 17.2 or clause 17.3, whichever is applicable, for the purpose of determining coal quality, reporting and resolution of disputes relating to the qualities of coal Supplied in terms of the Agreement.

17.2 Certification of Coal at the Power Station or Eskom Nominated Site

- 17.2.1 Where facilities for the determination of coal quality, for payment purposes, are available at the Power Station or Eskom nominated site, Contract Coal qualities shall be determined at such Power Station or Eskom nominated site.
- 17.2.2 Eskom undertakes, as soon as reasonably possible but in any event within 30 (thirty) days of Eskom notifying the Supplier, to implement the provisions relating to the determination of coal quality at the Power Station or Eskom nominated site (including the yet to be developed **Annexe A: The Coal Quality Certification Procedure**).
- 17.2.3 In order to ensure compliance with the provisions of clause 17.2.1 Eskom shall ensure that:

17.2.3.1 prior to acceptance by Eskom, coal contained in each Consignment, train and/or truck is determined and certified to meet the Quality Specifications and is identified as such in accordance with the processes and procedures set out in **Annexe A**; and

17.2.3.2 where the coal quality determination process indicates that the coal does not meet any one of the Quality Specifications set out in Table 3 of the Coal Supply Agreement such coal may not be accepted by Eskom, subject to the provisions of **Annexe A**.

17.2.4 Eskom shall be responsible for the determination and certification of coal quality at the Power Station or Eskom nominated site and the related costs thereof. In this regard, Eskom shall ensure that acceptable facilities are available for the determination and certification of coal quality and shall be responsible for the maintenance of the facilities thereof.

17.2.5 Eskom shall ensure that a daily report of the coal quality results is submitted simultaneously to Eskom and the Supplier.

17.2.6 Disputes in respect of the coal quality results shall, notwithstanding the provisions of clause 29, be dealt with in terms of the dispute resolution procedure included in **Annexe A**.

17.3.1 Where facilities for the determination of coal quality, for payment purposes, are not available at the Power Station or Eskom nominated site, Contract Coal qualities shall be determined at the Mine.

17.3.2 In order to ensure compliance with the provisions of clause 17.3.1 the Supplier shall ensure that:

17.3.2.1 prior to Delivery to Eskom, coal contained in each separate stockpile is sampled and pre-certified to meet the Quality Specifications and is identified as such in accordance with the processes and procedures set out in **Annexe B: The Coal Quality Management Procedure**;

17.3.2.2 only coal that has been sampled, pre-certified and identified in accordance with the provisions of clause 17.3.2.1, may be placed on the Pre-Certified Stockpile. The Supplier shall only Deliver Contract Coal to Eskom from

Pre-Certified Stockpiles allocated for Delivery to Eskom in terms of the Agreement; and

17.3.2.3 where the pre-certification process indicates that a product stockpile does not meet any one of the Quality Specifications set out in Table 3 of the Coal Supply Agreement such stockpile may not be delivered to Eskom, subject to the provisions of **Annexe B**.

- 17.3.3 The Supplier shall be responsible for the sampling of coal and associated costs related to pre-certification. In this regard, the Supplier shall ensure that acceptable auto-mechanical sampling equipment is available and used for sampling of coal and shall be responsible for the maintenance thereof.
- 17.3.4 Eskom shall, at its cost and including the cost of transport, procure the analysis of such samples by the Nominated Laboratory.
- 17.3.5 The Supplier shall submit a daily report to Eskom in the format set out in **Annexe B**. Eskom reserves the right to amend **Annexe B** from time to time in order to align same with its operational arrangements and shall notify the Supplier in writing of any such amendments within 7 (seven) days of the amendments being effected.
- 17.3.6 Eskom shall procure that the Nominated Laboratory shall submit a daily report simultaneously to Eskom and the Supplier of the analysis results.
- 17.3.7 Eskom may provide on-site representatives to monitor the sampling and pre-certification processes. The Supplier consents that Eskom's on-site representatives shall have full access to the sampling and the pre-certification process.
- 17.3.8 The Supplier undertakes to grant to Eskom and its representatives, on request, access to all available geological information relating to the Coal Resource.
- 17.3.9 Eskom shall further be entitled to conduct site visits on reasonable notice to the Supplier, to monitor the Supplier's application of effective grade and contamination controls.
- 17.3.10 Disputes in respect of the analytical results shall, notwithstanding the provisions of clause 29, be dealt with in terms of the dispute resolution procedure included in **Annexe B**.

17.3.11 In order to ensure assurance of the pre-certification process and that the Contract Coal Supplied to Eskom is of consistent quality the Supplier shall be required to adhere to the mixing/blending, pre-certification sampling and load-out controls processes and procedures as set out in **Annexe B**. Eskom may provide surveillance and conduct variability tests as set out in **Annexe B**.

17.3.12 **Verification of Pre-Certified Stockpiles at the Mine, Power Station or Eskom Nominated Site**

17.3.12.1 Eskom shall be entitled, at its own cost and in line with applicable ISO standards, to conduct Verification of the Pre-Certified Stockpiles either at the Mine or upon delivery at the Power Station or any other Eskom nominated site in accordance with the processes and procedures set out in **Annexe B**.

17.3.12.2 Where variances occur between the pre-certification results and the Verification results, the remedies stipulated in **Annexe B** shall apply.

18. Adjustments for Moisture Content

18.1 In the event of high rainfall at the Mine, such that only the Total Moisture content of the coal exceeds the Quality Specification limit set out in the fourth column of Table 3 of the Coal Supply Agreement, the Supplier must make a formal request in writing for approval to Deliver such coal. The Supplier's request must state the quantity (in millimetres per 24 (twenty four) hour period) of rain that has fallen as well as the Total Moisture content of the coal at the time of the request being made. Eskom may, at its sole discretion, give the Supplier such approval and coal so accepted shall not be classified as Reject Coal and accordingly the provisions of clauses 19.1 to 19.4 shall not apply to such coal, but will be subject to the moisture adjustment in terms of clause 18.2 Eskom's acceptance or rejection of such request must be in writing and provided no later than the day following such request from the Supplier.

18.2 For invoicing purposes, the mass of any Contract Coal accepted by Eskom and coal Delivered in terms of clause 18.1 shall be adjusted by multiplying the mass of such coal, as determined in accordance with clause 23.2, by the Tonnage Adjustment Factor (TAF). The Total Moisture content as stated in the Supplier's request in terms of clause 18.1 shall be used in the calculation of the Tonnage Adjustment Factor. Examples and the formulae used for this calculation are provided in **Annexe I: Adjustments for Moisture Content**.

18.3 For the purposes of converting the Calorific Value (CV) of coal from an Air Dried to an As Received Basis in order to determine the energy Delivered for invoicing purposes, the CV

of coal measured on an Air Dried basis by the Nominated Laboratory shall be adjusted by multiplying the Air Dried CV by the CV Adjustment Factor (CVAF). Examples and the formulae used for this calculation are provided in **Annexe I**.

19. Reject Coal

19.1 In the event that coal is Supplied which does not meet any one of the parameters in the Quality Specifications, such coal shall constitute Reject Coal. The following price reduction will be applicable to Reject Coal:

19.1.1 If any quality parameter is within 10% (ten percent) of the applicable reject level for that parameter, Eskom shall pay the Supplier a fixed amount of R30.00 (thirty Rand) per Ton for such coal, which amount shall be not be adjusted for the duration of the Agreement; or

19.1.2 If any quality parameter deviates from the applicable reject level by more than 10% (ten percent), Eskom shall not be liable to pay the Supplier for such coal.

19.2 Coal delivered to Eskom in terms of the Agreement shall also be deemed to be Reject Coal in the event that:

19.2.1 the Supplier did not adhere to the illustrated Coal Process Flow;

19.2.2 coal delivered to it in terms of the Agreement has not been delivered from a Pre-Certified Stockpile; or

19.2.3 during the sampling and stockpile management of the coal delivered, the Supplier did not adhere to the processes set out in **Annexe B: The Coal Quality Management Procedure**.

19.3 The onus to rebut the deeming provision of this clause 19 shall be on the Supplier.

19.4 Reject Coal supplied shall not constitute Supply or Delivery and shall not reduce the Monthly, Yearly or Total Energy Quantity to be supplied in terms of the Agreement.

19.5 If and to the extent that Reject Coal is mixed or co-mingled with other coal so that it is no longer separately identifiable, Eskom may have to burn such Reject Coal. The Parties record and agree that Reject Coal will be of no value to Eskom and will adversely affect Eskom in various ways including, without limitation, to:

19.5.1 its coal handling facilities, pulverisers, boilers and back-end plant;

19.5.2 boiler efficiency;

- 19.5.3 ash handling facilities;
 - 19.5.4 compliance with air emission licence conditions; and
 - 19.5.5 load losses in the generation system.
- 19.6 The Parties further agree that the price reduction in clause 19.1 constitutes the agreed reduction or lack of value of Reject Coal to Eskom and the adverse effects referred to herein. The price reduction and the non-payment of transport costs by Eskom in terms of clauses 19.8 and 23.1.4 will, as between the Parties, not constitute a penalty(ies) as contemplated in the Conventional Penalties Act, No. 15 of 1962.
- 19.7 To the extent that Reject Coal is not mixed or co-mingled with other coal, Eskom reserves the right, at its sole discretion, to dispose of the Reject Coal. The Supplier shall be liable for any demonstrable and reasonable additional costs occasioned by the disposal of such coal, including the cost of transporting the coal from the Mine to the Power Station or any other Eskom nominated site.
- 19.8 Eskom shall not be liable to refund any transport costs to the Supplier in respect of Reject Coal irrespective of the extent to which Reject Coal deviates from the quality parameters.

20. Foreign Material and Ultra-fines

- 20.1 The Supplier shall ensure that each Consignment of Contract Coal is substantially free from Foreign Material which does not arise during the proper mining and processing of coal. The Supplier shall further ensure that no Ultra-fines are added or blended into the Contract Coal to be Delivered to Eskom.
- 20.2 In the event that the Supplier delivers coal, from a Pre-Certified Stockpile, that is contaminated with Foreign Material or Ultra-fines, Eskom shall reserve the right to instruct the Supplier to immediately stop the Supply and return the identified contaminated stockpile coal, until the root cause or lack of quality control is identified and the following shall occur:
- 20.2.1 Upon identification of Foreign Material or Ultra-fines, Eskom shall provide evidence of the Foreign Material or Ultra-fines, including but not limited to photographic evidence, within 48 (forty eight) hours.
 - 20.2.2 Eskom shall instruct the Supplier to temporarily stop supply from the identified contaminated stockpile and may return coal from the identified contaminated stockpile.

- 20.2.3 Eskom and the Supplier shall jointly conduct and conclude an investigation of the source and/or the root cause of the Foreign Material or Ultra-fines contamination within 72 (seventy two) hours of stoppage.
- 20.2.4 In the event that during the investigation it is concluded that the other stockpiles may be affected, Eskom reserves the right to extend the stoppage to the entire operation.
- 20.2.5 Upon conclusion of the investigation, the Supplier shall provide Eskom the root cause and the remedial action plan in writing. Eskom undertakes to respond in writing within 24 (twenty four) hours after of submission of the remedial action plan advising if the plan is acceptable.
- 20.2.6 On Eskom's acceptance the Supplier shall implement the remedial action plan on the terms and form as accepted and the Supplier shall resume Supply.
- 20.2.7 In the event that Eskom does not accept the remedial action plan, which acceptance shall not be unreasonably withheld, the Supplier may not resume supply. Either party may declare a dispute and then refer the dispute to an independent to expert for determination in terms of clause 30.
- 20.2.8 In the event that the investigation is inconclusive, the Party responsible for transportation needs to provide evidence of the in-transit vehicle tracking to give assurance that the Contract Coal was not tampered with. The Supplier may resume Supply following written notification from Eskom to resume Supply. Despite the investigation being inconclusive, there may be a reasonable requirement for additional and/or improved controls to be implemented to prevent a recurrence and the Supplier shall implement such additional and/or improved controls forthwith.

 - 32.1.2.4 natural catastrophes such as earthquake, hurricane, typhoon, volcanic activity floods (other than heavy rains), fire, 'Acts of God', or explosions."

- 32.1.4 The Affected Party shall be relieved of performance of its obligations in terms of the Agreement during the period that a Force Majeure Event occurs and its consequences continue (but only to the extent it is so delayed or prevented from performing partially or at all by the Force Majeure Event), and, provided that notice has been given in terms of clause 32.1.5, shall not be liable for any delay or failure in the performance of any of its obligations in terms of the Agreement or losses or damages whether general, special or consequential which the other Party ("the Unaffected Party") may suffer due to or resulting from any such delay or failure.
- 32.1.5 The Affected Party shall give written notice to the Unaffected Party at the earliest possible opportunity in writing of the occurrence of the event constituting the Force Majeure Event, together with details thereof and a good faith estimate of the period of time for which it shall endure.
