

PART 4: SITE INFORMATION

Core clause 11.2(16) states

"Site Information is information which

- describes the Site and its surroundings and
- is in the documents which the Contract Data states it is in."

In Contract Data, reference has been made to this Part 4 of the contract for the location of Site Information.

1. Description of the Site and its surroundings

1.1. General description

The *Works* entails the supply, install and commission Motion Sensors on 4 of telecoms high sites. The high sites are found in between Volksrust and Heidelberg.

1.2. Existing buildings, structures, and plant & machinery on the Site

On each High site, there is a building/container and a fixed tower to which there are microwaves and antennas installed. The *Contractor* shall ensure that all the works being carried out does not damage the existing building/container.

1.3. Subsoil information

Each High site has a blanket underneath and concrete stones on top to protect against lightning or power surges. The perimeter of each site has palisades with razor wire at the top to prevent unauthorised access.

1.4. Hidden services

There may be underground cables supplying electricity or water pipes providing services to other neighbouring sites. Services include conduits (oil, water and sewage), electrical cables and any other structure that may be present. The *Employer* shall inform the *Contractor* through a baseline risk assessment of any possibilities in anticipation.

1.5. Other reports and publicly available information

The *Employer* shall provide all the standard layouts/drawings for all the sites in which the Motion Sensors are to be installed.
