The public entity is listed as a Schedule 3A Public Entity in terms of the Public Finance Management Act (PFMA).

SAWS is tasked with providing timely and accurate scientific data in the field of meteorology to the broader South African society: a combination of both public good and commercial services. The organisation plays a vital role in South African public life, not just as a provider of key services, but also in empowering citizens to adapt the effects of the ever-changing weather.

### 3 BACKGROUND

### 4.3 Various departments within SAWS work closely with a wide range of stakeholders; the perception survey is essential to the work of the organisation which relies heavily on the continued goodwill and engagement of its many external stakeholders and partners. The survey should also seek to:

- Evaluate the nature and quality of relationships between SAWS and its stakeholders and identify areas of improvement
- Determine whether stakeholders do recommend SAWS goods and services to others
