

**SPECIFICATION FOR THE PROCUREMENT OF TOYOTA DOUBLE CAP BAKKIE**

NATURE OF SERVICE	QCTO TOYOTA DOUBLE CAP CANOPY TO CARRY AND DELIVER EQUIPMENT
<p><b>SPECIFICATION FOR THE PROCUREMENT OF TOYOTA DOUBLE CAP BAKKIE</b></p>	<p><b>TYPE OF THE VEHICLE TO INSTALL THE CANOPY</b></p> <ul style="list-style-type: none"> <li>• <b>Toyota Hilux double cap</b></li> <li>• <b>Model: T03 Hilux DC 3.0 D4D Raider</b></li> <li>• <b>Year: 2024</b></li> <li>• <b>Colour: Grey</b></li> </ul> <p><b>FIXTURES AND ACCESSORIES OF THE CANOPY</b></p> <p><b>Canopy Shell:</b> The main structure, often made from fibreglass, aluminium, or steel, is designed to fit a specific Toyota Bakkie double cap.</p> <p><b>Roof Racks:</b> These are mounted on top of the canopy and used for transporting bicycles, kayaks, ladders, pipes, and other bulky items. They come in various shapes and sizes to suit different needs.</p> <p><b>Slide Floors:</b> installed inside the load bed, which allow easy access to cargo by sliding out. Options include universal slide floors, full bed slides, and cargo slides with barriers.</p> <p><b>Storage Drawers and Cargo Systems:</b> These are modular drawer units fitted inside the canopy for organized storage. Ideal for tools, camping gear, or service equipment.</p> <p><b>Windows and Ventilation:</b> The canopy must include sliding or fixed windows, mesh screens, and ventilation systems to improve airflow and visibility.</p> <p><b>Locking Mechanisms and Security Features.</b> High-quality canopies include secure locking systems to protect stored items. Some models offer central locking integration with the vehicle.</p>

**Interior Lighting LED: Lighting** strips or dome lights are often added for visibility inside the canopy during low-light conditions.

**Weather Sealing and Insulation Rubber seals:** The insulation materials help keep the canopy dustproof, waterproof, and temperature controlled.

NB.Site visit is compulsory to view the bakkie
