1. Scope of Work

This specification requirement covers all the requirements that will be needed to inform the service provider to carry out what is expected from him/her:

This specification states the minimum requirements relating to the equipment required and in no way absolves the service provider from responsibility for sound engineering practice. Any omissions or sub-standard requirements of this specification must be brought to the attention of Transnet Engineering KOEDOESPOORT at tender stage and optional prices for addressing such omissions must be provided.

2. Information Required

Tenders will not be considered if full particulars of all relevant equipment requested are not submitted at the tender stage, to ensure an objective assessment of the offer can be made.

3. Technical Requirements:

All equipment whether detailed in this specification or not shall comply with the requirements of the Occupational Health and Safety Act 85 of 1993 as amended.

4. Codes of Practice, Regulations & Standards:

The tenderer shall specify which statutory or industry rules will be applied for the equipment to be working successfully and safely and shall indicate the designed life span.

5. Operational Parameters:

5.1 Environment:

The equipment will be required to operating in the climatic conditions of Pretoria:

5.2 Safety Features:

The tenderer shall indicate all the safety features installed on the equipment and describe fully its operational standard/s.

5.3 Special Requirements:

The tenderer shall indicate any tooling, lifting attachments etc. which is not considered to be standard accessories for the equipment at hand and will be required to operate the equipment effectively and safely.

6. Specific Requirements:

ITEM NO.	REQUIREMENTS	DETAILS OF OFFER Comply (Yes) / Do not comply (No)
	Specification for Short Term Rental of Material Handling Equipment for Welgedacht, Ermelo and Vryheid.
