CONTRACT TITLE INSTALLATION OF A02 MOVING HEAD STRUCTURE FOR TRANSNET SOC LTD (REG. NO 1990/000900/30) OPERATING AS TRANSNET PORT TERMINALS RICHARDS BAY (HEREINAFTER REFERRED TO AS "TPT RCB")

Document reference	Title	No of pages
C2.1	Pricing Assumptions	3
C2.2	Price Schedule	3

C2.1 PRICING ASSUMPTIONS

1. The conditions of contract

1.1. How goods and services are priced and assessed for payment

Clause 11 in NEC3 Supply Contract, December 2009 (SC)(with amendments April 2013) core clauses states:

Identified and defined terms 11 (11) The Prices are the amounts stated in the price column of the Price Schedule. Where a quantity is stated for an item in the Price Schedule, the Price is calculated by multiplying the quantity by the rate.

(12) The Price Schedule is the price schedule unless later changed in accordance with this contract.

Assessing the amount due 50.2 The amount due is

- the Price for each lump sum item in the Price Schedule which the Supplier has completed,
- where a quantity is stated for an item in the Price Schedule, an amount calculated by multiplying the quantity which the Supplier has completed by the rate,
- plus other amounts to be paid to the Supplier,
- less amounts to be paid by or retained from the Supplier.

Any tax which the law requires the Purchaser to pay to the Supplier is included in the amount due.

This confirms that the Supply Contract is a priced contract where the Prices are derived from a list of items of goods and services which can be priced as lump sums or as expected quantities of goods and services multiplied by a rate, or a mix of both.

1.2. Function of the Price Schedule

Clause 53.1 states: "Information in the Price Schedule is not Goods Information". This confirms that instructions to do work or how it is to be done are not included in the Price Schedule but in the Goods Information. This is further confirmed by Clause 20.1 which states, "The Supplier Provides the Goods and Services in accordance with the Goods Information". Hence the Supplier does **not** Provide the Goods and Services in accordance with the Price Schedule. The Price Schedule is only a pricing document.

1.3. Preparing the price schedule

It will be assumed that the tendering supplier has read Pages 11 and 12 and Appendix 5 of the SC Guidance Notes before preparing the price schedule. Items in the price schedule may have been inserted by the Purchaser and the tendering supplier should insert any additional items which he considers necessary.

TRANSNET PORT TERMINALS

DESCRIPTION OF THE WORKS: PROVISION AND INSTALLATION OF A02 MOVING HEAD
STRUCTURE REPAIRS FOR TRANSNET PORT TERMINAL RICHARDS BAY (TPT RCB)

Whichever party provides the items in the price schedule the total of the Prices is assumed to be fully inclusive of everything necessary to Provide the Goods and Services as described at the time of entering into this contract.

1 As the Supplier has an obligation to correct Defects (core clause 43.1) and there is no compensation event for this unless the Defect was due to a Supplier's risk, the lump sum Prices and rates must also include for the correction of Defects.

2 There is no adjustment to lump sum prices in the price schedule if the amount, or quantity, of work within that lump sum item of goods or services later turns out to be different to that which the Supplier estimated at time of tender. The only basis for a change to the Prices is as a result of a compensation event. See Clause 60.1.

3 Hence the Prices and rates tendered by the Supplier in the price schedule are inclusive of everything necessary and incidental to Providing the Goods and Services in accordance with the Goods Information, as it was at the time of tender, as well as correct any Defects not caused by a Purchaser's risk.

4 The Supplier does not have to allow in his Prices and rates for matters that may arise as a result of a compensation event. It should be noted that the list of compensation events includes those arising as a result of a Purchaser's risk event listed in core clause 80.1.

1.4. Format of the price schedule

(From Appendix 5 on page 78 of the SC Guidance Notes)

Entries in the first four columns in the price schedule in section C2.2 are made either by the Purchaser or the tendering supplier.

If the Supplier is to be paid an amount for the item which is not adjusted if the quantity of work in the item changes, the tendering supplier enters the amount in the Price column only, the Unit, Quantity and Rate columns being left blank.

If the Supplier is to be paid an amount for the item which is the rate for the item multiplied by the quantity completed, the tendering Supplier enters the rate which is then multiplied by the Quantity to produce the Price, which is also entered.

If the Supplier is to be paid an amount for an item proportional to the length of time for which the goods and services are provided, a unit of time is stated in the Unit column and the length of time (as a quantity of the stated units of time) is stated in the Quantity column.

The price reflected below must be fixed, firm and complete. Failure to provide a fixed and firm price will declare the tender nonresponsive.

- The price must be rates in Rands, Exclusive of Vat.
- Invoicing and payment will be done monthly on all work completed in the previous months.
- The price must be for the full scope and include all requirements.

-
- Failure to quote on all items will render the tender non-responsive and disqualified.
