|            | SECTION 1   |          |      |        |
|            | BILL No.1   |          |      |        |
|            | PRELIMINARIES   |          |      |        |
|            | The Principal Building Agreement shall be the JBCC Series Edition 4.1, March 2005 as recommended by the Joint Building Contract Committee and as amended by this Tender Enquiry.  |          |      |        |
|            | 2. The Preliminaries shall be JBCC Series 2000, May 2005 for use with the Principal Building Agreement as recommended by the Joint Building Contracts Committee and as amended by this Tender Enquiry shall be deemed to be incorporated herein.  |          |      |        |
|            | 3. Tenderers are referred to the abovementioned documents for the full intent and meaning of each clause thereof. These clauses are hereinafter referred to by clause number and heading only.  |          |      |        |
|            | 4. Where standard clauses or alternatives are not entirely applicable to this contract, such modifications, corrections or additions as are necessary, are given as far as possible under each relevant clause heading. Additional Preliminary clauses are contained in Section C hereof.   |          |      |        |
|            | 5. No claim whatsoever shall be entertained in respect of errors or omissions in pricing due to brevity of descriptions of items which are fully described when read in conjunction with the relevant clauses of the said Principal Building Agreement, Preliminaries and Preambles.  |          |      |        |
|            | 6. The Tenderers shall allow opposite each of the clauses whatever costs and charges he may consider necessary for the carrying out, complying with and due observance of the provisions, conditions and requirements set out herein. Only priced items will be considered in respect of any adjustment of this Section. Any items left unpriced will be understood to be provided free of charge and no claim for any extras arising out of the Tenderer's omission to price any item will be entertained. |          |      |        |
|            | Carried to Collection  Section 1  Bill No. 1  Preliminaries   |          | R    |        |
|            |   |          |      |        |

| 7. Where modifications or amendments as described are made, such modifications and/or amendments shall supercede any conflicting provisions in the relevant clauses of the Standard Preliminaries or the Principal Building Agreement and the Tenderer shall make due allowance for whatever costs and charges he may consider necessary for the carrying out and observance of the provisions of the clauses as modified and/or amended.   |   |  |
|---|---|--|
| 8. Where any item is not relevant to this specific contract, such item is marked N/A.   |   |  |
| 9. If Alternative A as set out in clause B10.3 hereinafter is to be used for the adjustment of the preliminaries, each item priced is to be allocated to one or more of the three categories by insertion of "F","V","T" as the case may be against the price in the "rate" column immediately preceding the "amount" column, where "F" denotes a fixed amount (amount not to be varied), "V" denotes an amount variable in proportion to value, and "T" denotes an amount proportionate to time. |   |  |

|    | SECTION C: SPECIFIC PRELIMINARIES  |      |   |          |
|----|--|------|---|----------|
|    | Section C: Specific Preliminaries:   |      |   |          |
|    | C1. Proprietary branded products   |      |   |          |
|    | The contractor shall take delivery of, handle, store, use, apply and/or fix all proprietary branded products in strict accordance with the manufacturer's instructions after consultation with the manufacturer's authorised representative.   |      |   |          |
| 94 | F: V: T:   | Item |   |          |
|    | C2. Trade Names, etc.  |      |   |          |
|    | All materials, fittings, finishings, etc., specified hereinafter under a trade name, catalogue number or reference, must be exactly as described. The Architect's approval in writing must be obtained for the use of any alternative to the specification before the submission of tenders otherwise the specified materials, fittings, finishings, etc., will be assumed to have been allowed for in the tender.   |      |   |          |
|    | The Contractor must take delivery of, handle, store, use, apply and/or fix all proprietary branded products in strict accordance with the manufacturer's instructions after consultation with the manufacturer's authorised representative.  |      |   |          |
| 95 | F: V: T:   | Item |   |          |
|    | C3. Contractors responsibility   |      |   |          |
|    | The Employer, the Principal Agent and the other professional consultants shall not be responsible for any act or omission on the part of the Contractor which may result in any patent or latent defects, in materials or workmanship, breach or neglect of any local regulations. The Contractor shall at all times be responsible for any such neglect, deviation or wrong act, whether the same is discovered before or after the final certificate, or any other Certificate, has been approved. |      |   |          |
| 96 | F: V: T:   | Item |   |          |
|    | C4. Overtime   |      |   |          |
|    |  |      |   |          |
|    |  |      |   | $\vdash$ |
|    | Carried to Collection Section 1  |      | R | $\vdash$ |
|    | Bill No. 1 Preliminaries   |      |   |          |

|    |   | 1    | 1 | 11 |  |
|----|---|------|---|----|--|
|    | Should overtime be required to be worked for any reason whatsoever, the costs of such overtime are to be borne by the contractor unless the principal agent has specifically authorised in writing, prior to the execution thereof, that costs for such overtime are to be borne by the employer. |      |   |    |  |
| 97 | F: V: T:  | Item |   |    |  |
|    | C5. As built drawings   |      |   |    |  |
|    | The position of construction breaks and the extent of individual concrete pours are to be recorded by the contractor on the structural engineer's drawings and are to be submitted to the principal agent and the structural engineer for their records.  |      |   |    |  |
|    | Three full sets of as-built drawings shall be submitted to the Principal Agent no later than fourteen days after practical completion.  |      |   |    |  |
| 98 | F: V: T:  | Item |   |    |  |
|    | C6. Construction Instructions   |      |   |    |  |
|    | Contract instructions issued on site are to be recorded in triplicate in a site instruction book which is to be maintained on site by the Contractor. The Contractor shall supply and have available at the site of the works at all times, the following site books:                             |      |   |    |  |
|    | a) Construction Instruction Book:   |      |   |    |  |
|    | Receiving and recording instructions in a suitable A4 size triplicate book kept on site. Instructions issued shall be recorded by the Architect or other Employer's Agents to whom the Architect has delegated authority to in the book.  |      |   |    |  |
|    | Only instructions issued in such book shall be recognised.  |      |   |    |  |
|    | b) Daily Record Book:   |      |   |    |  |
|    |   |      |   |    |  |
|    |   |      |   |    |  |
|    |   |      |   |    |  |
|    | Carried to Collection   |      | R |    |  |
|    | Section 1 Bill No. 1  |      |   |    |  |
|    | Preliminaries   |      |   |    |  |
|    |   |      |   |    |  |

|     | The Contractor shall record in triplicate in a suitable A4 size triplicate book kept at the site, a daily record of work done, all site visits by the Principal Agent and other professional personnel and all events affecting the Works, such as progress, issue of plans, breakdown of machinery, etc. The labour, plant and material on site shall be recorded as well as work performed. Entries must be made by the Contractor and must be signed and forwarded to the Principal Agent for his countersignature on a daily basis. Copies of these records shall be for the Architect, Quantity Surveyor and Contractor. |      |   |  |

| 99  | F: V: T:  | Item |   |  |
|     | C7. Labour record   |      |   |  |
|     | At the end of each week the contractor shall provide the principal agent with a written record, in schedule form, reflecting the number and description of tradesmen and labourers employed by him and all subcontractors on the works each day.  |      |   |  |
| 100 | F: V: T:  | Item |   |  |
|     | C8. Plant record  |      |   |  |
|     | At the end of each week the contractor shall provide the principal agent with a written record, in schedule form, reflecting the number, type and capacity of all plant, excluding hand tools, currently used on the works.   |      |   |  |
| 101 | F: V: T:  | Item |   |  |
|     | C9. Encroachment  |      |   |  |
|     | During the course of the building operations, the Contractor shall be held entirely responsible for any encroachment onto any adjoining properties, buildings, etc., or servitudes and the cost of any remedial measures as required by the Principal Agent shall be borne by the Contractor.   |      |   |  |
| 102 | F: V: T:  | Item |   |  |
|     | C10. Method Statement   |      |   |  |
|     |   |      |   |  |
|     | Carried to Collection   |      | R |  |
|     | Section 1   |      |   |  |
|     | Bill No. 1<br>Preliminaries   |      |   |  |
|     |   |      |   |  |

|     | The Tenderer shall produce, when required to do so by the Principal Agent, a Method Statement outlining the methods of construction and labour and plant resources that he proposes to use in the execution of the Works. Any approval given or observation made by the Principal Agent shall not relieve the Contractor of his sole responsibility to adopt the methods of construction and to provide the labour and plant resources necessary for the due and proper timeous execution of the Works. |      |   |  |
|-----|---|------|---|--|
| 103 | F: V: T:  | Item |   |  |
|     | C11. Unauthorised Persons/Workmen on Premises   |      |   |  |
|     | The Contractor shall at all times strictly exclude all unauthorised persons from the Works and the site and shall set up notice boards to that effect.  |      |   |  |
|     | No workmen or labourers (except security guards) are to be allowed under any circumstances to sleep or deposit any kit on the premises. The Contractor must provide any necessary independent shelter or shed required for any labour or watchmen on site, to the approval of the Employer.   |      |   |  |
| 104 | F: V: T:  | Item |   |  |
|     | C12. Mode of Procedure  |      |   |  |
|     | Notwithstanding anything to the contrary contained herein the Principal Agent at all times reserves the right to direct the order in which the various parts of the Contract are to be executed. The Contractor shall give priority to any individual section or portion of the Works that, in the opinion of the Principal Agent, requires to be expedited.  |      |   |  |
|     | Should it appear, in the Principal Agent's opinion, that work in any area is not being executed in accordance with the requirements of the Contract Programme, the Contractor shall provide additional manpower and resources and shall work additional overtime and do everything else required to bring the work back to programme to the satisfaction of the Principal Agent and to the Contractor's cost.   |      |   |  |

|     | C13. Location of Temporary Buildings and Temporary Services   |      |   |   |
|-----|---|------|---|---|
|     | The Contractor shall provide all necessary temporary works, including temporary roads, tracks, crossings, hardstanding and services, hoardings, dust screens, tunnelling, etc., required for his own and sub-contractors use during the construction and maintenance period.  |      |   |   |
|     | There is no guarantee given or implied that Site conditions will be such that the Contractor will be able to erect such temporary works, roads, hardhats, offices, stores and temporary accommodation within the site boundaries and it shall be the Contractor's responsibility to adopt whatever measures he deems necessary in this regard and to obtain all necessary permission and pay all costs in connection therewith. |      |   |   |
| 106 | F: V: T:  | Item |   |   |
|     | C14. Office accommodation   |      |   |   |
|     | The contractor shall provide, maintain and remove on practical completion air conditioned office accommodation with suitable tables and chairs for meetings to be held on the site. Such offices shall be kept clean and fit for use at all times [12.2.18]   |      |   |   |
| 107 | F: V: T:  | Item |   |   |
|     | C15. Storage Facilities   |      |   |   |
| 108 | The Contractor shall provide a Container for storage of materials.  | Item |   |   |
| 109 | F: V: T:  | Item |   |   |
|     | C16. Removal and Making Good of Temporary Works, etc, on Completion   |      |   |   |
|     | The Contractor shall remove (except where specifically stated otherwise) all temporary works, roads, services and the like used for this contract and shall make good to the entire satisfaction of the Principal Agent any damage resulting therefrom.   |      |   |   |

|            | SECTION 1  |          |      |        |
|            | BILL No. 2   |          |      |        |
|            | HEALTH AND SAFETY  |          |      |        |
|            | MODEL PREAMBLES  |          |      |        |
|            | The tenderer is referred to the "General Preambles for Trades 2017" for supplementary and comprehensive expansion of descriptions, appropriate provision for which shall be deemed to have been included in all relevant rates.  |          |      |        |
|            | SUPPLEMENTARY PREAMBLES  |          |      |        |
|            | Supplementary preambles and/or specifications are incorporated in these bills of quantities to satisfy the requirements of this project. Such supplementary preambles and/or specifications shall take precedence over the provisions of the General Preambles.  |          |      |        |
|            | The contractor's prices for all items throughout these bills of quantities shall take account of and include where applicable for all of the obligations, requirements and specifications given in the General Preambles and in any supplementary preambles and/or specifications.   |          |      |        |
|            | Prior to pricing the principal contractor must familiarize him/herself with the Occupational Health and Safety Act No. 85 Of 1993, Construction Regulations 2014, other relevant Regulations and Standards as well as project specific Health & Safety specifications.   |          |      |        |
|            | The items in this Bill do not contain quantities hence the Contractor must insert his own quantities based on his individual requirements to comply with the Health and Safety obligations and demands of the Occupational Health and Safety Act No. 85 of 1993, Construction Regulations 2014, other relevant Regulations and Standards as well as project specific Health & Safety Specifications. |          |      |        |
|            | The costs included herein must incorporate Community Liaison Officer (CLO).  |          |      |        |

|            | SECTION 2   |          |      |        |
|            | BILL No. 1  |          |      |        |
|            | EARTHWORKS (PROVISIONAL)  |          |      |        |
|            | Quantity Split:   |          |      |        |
|            | Note that the total quantity per each item is split into the various buildings and appears below each description as follows:   |          |      |        |
|            | A0 - DWG 14 Male Ablutions<br>A1 - DWG 35 - Female Ablutions<br>AD - DWG 04 - Staff Ablutions   |          |      |        |
|            | MODEL PREAMBLES   |          |      |        |
|            | The tenderer is referred to the "General Preambles for Trades 2017" for supplementary and comprehensive expansion of descriptions, appropriate provision for which shall be deemed to have been included in all relevant rates. |          |      |        |
|            | SUPPLEMENTARY PREAMBLES   |          |      |        |
|            | Proprietary products in descriptions:   |          |      |        |
|            | Proprietary products shall be used as specified. Substitute products of similar quality and specification may only be used with prior approval by the Principal Agent.  |          |      |        |
|            | Nature of material to be excavated:   |          |      |        |
|            | The material to be excavated is assumed to be predominantly of a composition that will allow excavation in "earth" as specified, but including a percentage of excavation in "soft rock" and "hard rock".                       |          |      |        |
|            | Carting away of excavated material:   |          |      |        |
|            | Descriptions of carting away of excavated material shall be deemed to include loading excavated material onto trucks directly from the excavations, or alternatively, from stock piles situated on the building site.           |          |      |        |
|            |   |          |      |        |
|            | Section 2   |          | R    |        |
|            | Bill No. 1<br>Earthworks (Provisional)  |          |      |        |

|   | I | 1 | II |  |
|---|---|---|----|--|
| Dewatering of excavations:  |   |   |    |  |
| The Contractor shall allow for removing seepage and other water from subterranean sources from the excavations by pumping, baling or otherwise. Accurate records of all such dewatering shall be kept to determine the total volume of water so removed and a clear distinction shall be made between water from subterranean sources and other water |   |   |    |  |
| Density testing on filling:   |   |   |    |  |
| Rates for filling, etc. shall include for all density and soil type testing to prove that the specified compaction is achieved. When additional testing is done on instruction of the Principal Agent and these tests are successful, they will be paid for additionally.   |   |   |    |  |
| Imported fill:  |   |   |    |  |
| "Filling and bedding to trenches etc. to be in compliance with SABS 1200 DB and LB respectively"  |   |   |    |  |
| Classification of excavated material  |   |   |    |  |
| "Hard rock' shall mean granite, quartzitic sandstone or other rock of similar hardness, the removal of which requires drilling, wedging and splitting or the use of explosives.   |   |   |    |  |
| "Soft rock" shall mean hard material, the removal of which warrants the use of pneumatic tools and includes hard shale, ferricite, compact ouklip and material of similar hardness.   |   |   |    |  |
| "Earth" shall mean all ground other than that classified as "hard rock" or "soft rock" and shall include made-up ground and any loose stones or pieces of concrete not exceeding 0,03m <sup>3</sup> in volume.  |   |   |    |  |
|   |   |   |    |  |
|   |   |   |    |  |

|            | Section 2 Bill No. 2 Concrete, Formwork and Reinforcement  |          |      |        |

| Formwork:  |   |   |
|--|---|---|
| Descriptions of formwork shall be deemed to include use and waste only (except where described as left in or permanent), for fitting together in the required forms, wedging, plumbing and fixing to true angles and surfaces as necessary to ensure easy release during stripping and for reconditioning as necessary before reuse.   |   |   |
| The vertical strutting shall be carried down to such construction as is sufficiently strong to afford the required support without damage and shall remain in position until the newly constructed work is able to support itself.   |   |   |
| Formwork to soffits of solid slabs etc., shall be deemed to be to slabs not exceeding 250mm thick unless otherwise described.  |   |   |
| Formwork to sides of bases, pile caps, ground beams, etc., will only be measured where it is prescribed by the Engineer for design reasons. Formwork necessitated by irregularity or collapse of excavated faces will not be measured and the cost thereof shall be deemed to be included in the allowance for taking the risk of collapse of the sides of the excavations, provision for which is made in Earthworks. |   |   |

|            | Quantity Split:   |          |      |        |
|            | Note that the total quantity per each item is split into the various buildings and appears below each description as follows:   |          |      |        |
|            | A0 - DWG 14 Male Ablutions<br>A1 - DWG 35 - Female Ablutions<br>AD - DWG 04 - Staff Ablutions   |          |      |        |
|            | MODEL PREAMBLES   |          |      |        |
|            | The tenderer is referred to the "General Preambles for Trades 2017" for supplementary and comprehensive expansion of descriptions, appropriate provision for which shall be deemed to have been included in all relevant rates.   |          |      |        |
|            | SUPPLEMENTARY PREAMBLES   |          |      |        |
|            | <u>Flashings</u>  |          |      |        |
|            | Flashings shall be approved by roof sheeting manufacturer and fixed to the sheeting with S10 clips to obviate any direct fixing perforations. Prior to flashings being fixed, all troughs at the apex shall be stop-ended to the full depth of the sheet in order to prevent any penetration of wind drived water. The trough shall be lipped at the eaves end to form a drip. Flashing flanges shall be notched to the sheet profile where necessary. All these operations must be performed with special tools available from the manufacturer. Care shall be taken to ensure that no sheeting or flashing will be cut with abrasive disc on roof surface in order to prevent steel splatter from penetrating colour coated areas. The flashings shall be supplied with a paint finish consisting of a full top coat silicon modified polyester Colour: |          |      |        |
|            | Quality Assurance   |          |      |        |
|            | The manufacturer shall be assessed and certifed as complying with ISO 9001: 2008 Quality Management System  |          |      |        |
|            | Carried to Collection   |          | R    |        |
|            | Section 2 Bill No. 5 Roof Coverings Etc.  |          |      |        |

| Guarantee  |   |  |
|--|---|--|
| Z200 Galvanized Metal or equal approved sheeting shall be laid in strict accordance with manufacturer's specifications by an approved contractor. The employer shall be provided with a ten year written guarantee on materials by the manufacturer.   |   |  |
| <u>Safety</u>  |   |  |
| The contractor shall exercise special care when handling long length sheeting, particularly in windy conditions. Should work be interrupted for any reason, all loose sheeting and incomplete sections must be adequately secured against possible movement by wind and gravity  |   |  |
| Handling and Storage   |   |  |
| The contractor shall ensure that all materials used on site for cladding, etc are transported, handled and stored in accordance with the manufacturer's recommendations. Material damaged shall be rejected and replaced with undamaged material at the contractor's expense. Repair of damaged material will not generally be permitted. Rates are to include for preventing damage and protecting sheets through all stages of construction  |   |  |
| Inspection Prior to Installation or Erection   |   |  |
| Before commencing with installation, the contractor shall verify that the following items have been checked and accepted:  a. The entire structure or the portion thereof to be sheeted has been correctly aligned, levelled and grouted b. Purlins and sheeting rails are at the correct spacing and are within the specified tolerances  c. The corners of the roof are square and the wall framework is perpendicular or as specified  d. No protrusions such as bolt heads, splice plates, cleats, etc. appear on the face of the framework  e. All members to which roofing and cladding are to be fixed in aesthetically sensitive areas are true and square  f. Paint and any other materials that may be incompatible with the sheeting, have been painted over or so dealt with that direct contact with the sheeting is avoided  g. The contact faces between the purlins or the girts and the cladding are in the same plane. Should the alignment be inadequate, the contractor shall request instructions from the engineer before proceeding with the fixing of the cladding |   |  |
| Counted to Collection  | R |  |
| Section 2  |   |  |
| Bill No. 5<br>Roof Coverings Etc.  |   |  |

| Protrusion through Sheeted Surfaces  |   |  |
|--|---|--|
| Protrusions such as pipes, ducts and the like, shall be adequately flashed where they pass through the sheeting surface. Where ribs have to be cut away to permit penetration, additional framing is to be installed as required to support the sheeting. Depending on the position of the penetration through the roof, special attention shall be given to back flashing the sheeting to the ridge or point of water entry. In all cases, all cutting and flashings shall be so arranged that adequate provision is made for the drainage of all troughs and corrugation |   |  |
| Cleaning of Roofs, etc   |   |  |
| All debris, etc arising from the fixing of the cladding shall be removed from the sheetin as the fixing progresses. In addition, off-cuts of insulation, surplus fastners and sealants, mandrels from pop rivets, off-cuts of flashings and sheeting, surplus flashing, food packaging, cartons, bottles, cans, etc shall not be left on the roof or in the gutters. Care shall be taken to ensure that no such material enters, blocks or partially impedes the flow of water into the outlets, downpipes, etc  |   |  |
