2.2.12.12 The tenderer must record and reference all information submitted contained in other documents for example cover letters, brochures, catalogues, etc. in the returnable schedule titled **List of Other Documents Attached by Tenderer**.

2.2.13 Information and data to be completed in all respects

Accept that tender offers, which do not provide all the data or information requested completely and in the form required, may be regarded by the CCT as non-responsive.

2.2.14 Closing time

2.2.14.1 Ensure that the CCT receives the tender offer at the address specified in the General Tender Information prior to the closing time stated on the front page of the tender document.

2.2.14.2 Accept that, if the CCT extends the closing time stated on the front page of the tender document for any reason, the requirements of these Conditions of Tender apply equally to the extended deadline.

2.2.14.3 Accept that, the CCT shall not consider tenders that are received after the closing date and time for such a tender (late tenders).

2.2.15 Tender offer validity and withdrawal of tenders

2.2.15.1 Warrants that the tender offer(s) remains valid, irrevocable and open for acceptance by the CCT at any time for a period of 120 days after the closing date stated on the front page of the tender document.

2.2.15.2 Notwithstanding the period stated above, bids shall remain valid for acceptance for a period of twelve (12) months after the expiry of the original validity period, unless the City is notified in writing of anything to the contrary by the bidder. The validity of bids may be further extended by a period of not more than six months subject to mutual agreement and administrative processes and upon approval by the City Manager.

2.2.15.3 A tenderer may request in writing, after the closing date, that the tender offer be withdrawn. Such withdrawal will be permitted or refused at the sole discretion of the CCT after consideration of the reasons for the withdrawal, which shall be fully set out by the tenderer in such written request for withdrawal. Should the tender offer be withdrawn in contravention hereof, the tenderer agrees that:

- a) it shall be liable to the CCT for any additional expense incurred or losses suffered by the CCT in having either to accept another tender or, if new tenders have to be invited, the additional expenses incurred or losses suffered by the invitation of new tenders and the subsequent acceptance of any other tender;
- b) the CCT shall also have the right to recover such additional expenses or losses by set-off against monies which may be due or become due to the tenderer under this or any other tender or contract or against any guarantee or deposit that may have been furnished by the tenderer or on its behalf for the due fulfilment of this or any other tender or contract. Pending the ascertainment of the amount of such additional expenses or losses, the CCT shall be entitled to retain such monies, guarantee or deposit as security for any such expenses or loss.

2.2.16 Clarification of tender offer, or additional information, after submission

Provide clarification of a tender offer, or additional information, in response to a written request to do so from the CCT during the evaluation of tender offers within the time period stated in such request. No change in the competitive position of tenderers or substance of the tender offer is sought, offered, or permitted.

Note: This clause does not preclude the negotiation of the final terms of the contract with a preferred tenderer following a competitive selection process, should the CCT elect to do so.

Failure, or refusal, to provide such clarification or additional information within the time for submission stated in the CCT's written request may render the tender non-responsive.

2.2.17 Provide other material

2.2.17.1 Provide, on request by the CCT, any other material that has a bearing on the tender offer, the tenderer's commercial position (including joint venture agreements), preferencing arrangements, or samples of materials, considered necessary by the CCT for the purpose of the evaluation of the tender. Should the tenderer not provide the material, or a satisfactory reason as to why it cannot be provided, by the time for submission stated in the CCT's request, the CCT may regard the tender offer as non-responsive.

2.2.17.2 Provide, on written request by the CCT, where the transaction value inclusive of VAT **exceeds R 10 million**:

- a) Audited annual financial statement for the past 3 years, or for the period since establishment if established during the past 3 years, if required by law to prepare annual financial statements for auditing;
- b) a certificate signed by the tenderer certifying that the tenderer has no undisputed commitments for municipal services towards a municipality or other service provider in respect of which payment is overdue for more than 30 days;
- c) particulars of any contracts awarded to the tenderer by an organ of state during the past five years, including particulars of any material non-compliance or dispute concerning the execution of such contract;
- d) a statement indicating whether any portion of the goods or services are expected to be sourced from outside the Republic, and, if so, what portion and whether any portion of payment from the municipality or municipal entity is expected to be transferred out of the Republic.

Each party to a Consortium/Joint Venture shall submit separate certificates/statements in the above regard.

2.2.17.3 Tenderers undertake to fully cooperate with the CCT's external service provider appointed to perform a due diligence review and risk assessment upon receipt of such written instruction from the CCT.

2.2.18 Samples, Inspections, tests and analysis

Provide access during working hours to premises for inspections, tests and analysis as provided for in the tender conditions or specifications.

If the **Specification** requires the tenderer to provide samples, these shall be provided strictly in accordance with the instructions set out in the Specification.

If such samples are not submitted as required in the bid documents or within any further time stipulated by the CCT in writing, then the bid concerned may be declared non-responsive.

The samples provided by all successful bidders will be retained by the CCT for the duration of any subsequent contract. Bidders are to note that samples are requested for testing purposes therefore samples submitted to the CCT may not in all instances be returned in the same state of supply and in other instances may not be returned at all. Unsuccessful bidders will be advised by the Project Manager or dedicated CCT Official to collect their samples, save in the aforementioned instances where the samples would not be returned.

2.2.19 Certificates

The tenderer must provide the CCT with all certificates as stated below:

2.2.19.1. Broad-Based Black Economic Empowerment Status Level Documentation

In order to qualify for preference points for HDI and/or Specific Goals, it is the responsibility of the tenderer to

submit documentary proof, as either certificates, sworn affidavits or any other requirement prescribed in terms of the B-BBEE Act or any other legislation relevant for the points claimed for that specific goal.

Tenderers are further referred to the content of the Preference Schedule for the full terms and conditions applicable to the awarding of preference points.

2.2.19.2 Evidence of tax compliance

Tenderers shall be registered with the South African Revenue Service (SARS) and their tax affairs must be in order and they must be tax compliant subject to the requirements of clause 2.2.1.1.2.h. In this regard, it is the responsibility of the Tenderer to submit evidence in the form of a valid Tax Compliance Status Pin issued by SARS to the CCT at the Supplier Management Unit located within the Supplier Management / Registration Office, 2nd Floor (Concourse Level), Civic Centre, 12 Hertzog Boulevard, Cape Town (Tel 021 400 9242/3/4/5), or included with this tender. The tenderer must also provide its Tax Compliance Status PIN number on the **Details of Tenderer** pages of the tender submission.

Each party to a Consortium/Joint Venture shall submit a separate Tax Clearance Pin.

Before making an award the City must verify the bidder's tax compliance status. Where the recommended bidder is not tax compliant, the bidder should be notified of the non-compliant status and be requested to submit to the City, within 7 working days, written proof from SARS that they have made arrangement to meet their outstanding tax obligations. The proof of tax compliance submitted by the bidder must be verified by the City via CSD or e-Filing. The City should reject a bid submitted by the bidder if such bidder fails to provide proof of tax compliance within the timeframe stated herein.

Only foreign suppliers who have answered "NO" to all the questions contained in the Questionnaire to Bidding Foreign Suppliers section on the **Details of Tenderer** pages of the tender submission, are not required to register for a tax compliance status with SARS.

2.2.20 Compliance with Occupational Health and Safety Act, 85 of 1993

Tenderers are to note the requirements of the Occupational Health and Safety Act, 85 of 1993. The Tenderer shall be deemed to have read and fully understood the requirements of the above Act and Regulations and to have allowed for all costs in compliance therewith.

In this regard the Tenderer shall submit **upon written request to do so by the CCT**, a Health and Safety Plan in sufficient detail to demonstrate the necessary competencies and resources to deliver the goods or services all in accordance with the Act, Regulations and Health and Safety Specification.

2.2.21 Claims arising from submission of tender

The tenderer warrants that it has:

- a) Inspected the Specifications and read and fully understood the Conditions of Contract.
- b) Read and fully understood the whole text of the Specifications and Price Schedule and thoroughly acquainted himself with the nature of the goods or services proposed and generally of all matters which may influence the Contract.
- c) Visited the site(s) where delivery of the proposed goods will take place, carefully examined existing conditions, the means of access to the site(s), the conditions under which the delivery is to be made, and acquainted himself with any limitations or restrictions that may be imposed by the Municipal or other Authorities in regard to access and transport of materials, plant and equipment to and from the site(s) and made the necessary provisions for any additional costs involved thereby.
- d) Requested the CCT to clarify the actual requirements of anything in the Specifications and Price Schedule, the exact meaning or interpretation of which is not clearly intelligible to the Tenderer.
- e) Received any notices to the tender documents which have been issued in accordance with the CCT's Supply Chain Management Policy.

The CCT will therefore not be liable for the payment of any extra costs or claims arising from the submission of the tender.

2.3 The CCT's undertakings

2.3.1 Respond to requests from the tenderer

2.3.1.1 Unless otherwise stated in the Tender Conditions, respond to a request for clarification received up to one week (where possible) before the tender closing time stated on the front page of the tender document.

2.3.1.2 The CCT's representative for the purpose of this tender is stated on the General Tender Information page.

2.3.2 Issue Notices

If necessary, issue addenda in writing that may amend or amplify the tender documents to each tenderer during the period from the date the tender documents are available until one week before the tender closing time stated in the Tender Data. The Employer reserves its rights to issue addenda less than one week before the tender closing time in exceptional circumstances. If, as a result a tenderer applies for an extension to the closing time stated on the front page of the tender document, the CCT may grant such extension and, shall then notify all tenderers who drew documents.

Notwithstanding any requests for confirmation of receipt of notices issued, the tenderer shall be deemed to have received such notices if the CCT can show proof of transmission thereof via electronic mail, facsimile or registered post.

2.3.3 Opening of tender submissions

2.3.3.1 Unless the two-envelope system is to be followed, open tender submissions in the presence of tenderers' agents who choose to attend at the time and place stated in the tender conditions.

Tenders will be opened immediately after the closing time for receipt of tenders as stated on the front page of the tender document, or as stated in any Notice extending the closing date and at the closing venue as stated in the General Tender Information.

2.3.3.2 Announce at the meeting held immediately after the opening of tender submissions, at the closing venue as stated in the General Tender Information, the name of each tenderer whose tender offer is opened and, where possible, the prices indicated.

2.3.3.3 Make available a record of the details announced at the tender opening meeting on the CCT's website (<http://www.capetown.gov.za/en/SupplyChainManagement/Pages/default.aspx>.)

2.3.4 Two-envelope system

2.3.4.1 Where stated in the tender conditions that a two-envelope system is to be followed, open only the technical proposal of tenders in the presence of tenderers' agents who choose to attend at the time and place stated in the tender conditions and announce the name of each tenderer whose technical proposal is opened.

2.3.4.2 Evaluate the quality of the technical proposals offered by tenderers, then advise tenderers who have submitted responsive technical proposals of the time and place when the financial proposals will be opened. Open only the financial proposals of tenderers, who have submitted responsive technical proposals in accordance with the requirements as stated in the tender conditions, and announce the total price and any preferences claimed. Return unopened financial proposals to tenderers whose technical proposals were non responsive.

2.3.5 Non-disclosure

Not disclose to tenderers, or to any other person not officially concerned with such processes, information relating to the evaluation and comparison of tender offers and recommendations for the award of a contract, until after the award of the contract to the successful tenderer.

2.3.6 Grounds for rejection and disqualification

Determine whether there has been any effort by a tenderer to influence the processing of tender offers and instantly disqualify a tenderer (and his tender offer) if it is established that he engaged in corrupt or fraudulent practices.

2.3.7 Test for responsiveness

2.3.7.1 Appoint a Bid Evaluation Committee and determine after opening whether each tender offer properly received:

- a) complies with the requirements of these Conditions of Tender,
- b) has been properly and fully completed and signed, and
- c) is responsive to the other requirements of the tender documents.

2.3.7.2 A responsive tender is one that conforms to all the terms, conditions, and specifications of the tender documents without material deviation or qualification. A material deviation or qualification is one which, in the CCT's opinion, would:

- a) detrimentally affect the scope, quality, or performance of the goods, services or supply identified in the Specifications,
- b) significantly change the CCT's or the tenderer's risks and responsibilities under the contract, or
- c) affect the competitive position of other tenderers presenting responsive tenders, if it were to be rectified.

Reject a non-responsive tender offer, and not allow it to be subsequently made responsive by correction or withdrawal of any material deviation or qualification.

The CCT reserves the right to accept a tender offer which does not, in the CCT's opinion, materially and/or substantially deviate from the terms, conditions, and specifications of the tender documents.

2.3.8 Arithmetical errors, omissions and discrepancies

2.3.8.1 Check the responsive tenders for:

- a) the gross misplacement of the decimal point in any unit rate;
- b) omissions made in completing the Price Schedule; or
- c) arithmetic errors in:
 - i) line item totals resulting from the product of a unit rate and a quantity in the Price Schedule; or
 - ii) the summation of the prices; or
 - iii) calculation of individual rates.

2.3.8.2 The CCT must correct the arithmetical errors in the following manner:

- a) Where there is a discrepancy between the amounts in words and amounts in figures, the amount in words shall govern.
- b) If pricing schedules apply and there is an error in the line item total resulting from the product of the unit rate and the quantity, the line item total shall govern and the rate shall be corrected. Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as tendered shall govern, and the unit rate shall be corrected.
- c) Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer's addition of prices, the total of the prices shall govern and the tenderer will be asked to revise selected item prices (and their rates if Price Schedules apply) to achieve the tendered total of the prices.

Consider the rejection of a tender offer if the tenderer does not correct or accept the correction of the arithmetical error in the manner described above.

2.3.8.3 In the event of tendered rates or lump sums being declared by the CCT to be unacceptable to it because they are not priced, either excessively low or high, or not in proper balance with other rates or lump sums, the tenderer may be required to produce evidence and advance arguments in support of the tendered rates or lump sums objected to. If, after submission of such evidence and any further evidence requested, the CCT is still not satisfied with the tendered rates or lump sums objected to, it may request the tenderer to amend these rates and lump sums along the lines indicated by it.

The tenderer will then have the option to alter and/or amend the rates and lump sums objected to and such

other related amounts as are agreed on by the CCT, but this shall be done without altering the tender offer in accordance with this clause.

Should the tenderer fail to amend his tender in a manner acceptable to and within the time stated by the CCT, the CCT may declare the tender as non-responsive.

2.3.9 Clarification of a tender offer

The CCT may, after the closing date, request additional information or clarification from tenderers, in writing on any matter affecting the evaluation of the tender offer or that could give rise to ambiguity in a contract arising from the tender offer, which written request and related response shall not change or affect their competitive position or the substance of their offer. Such request may only be made in writing by the Director: Supply Chain Management using any means as appropriate.

2.3.10 Evaluation of tender offers

2.3.10.1 General

2.3.10.1.1 Reduce each responsive tender offer to a comparative price and evaluate them using the tender evaluation methods and associated evaluation criteria and weightings that are specified in the tender conditions.

2.3.10.1.2 For evaluation purposes only, the effects of the relevant contract price adjustment methods will be considered in the determination of comparative prices as follows:

- a. If the selected method is based on bidders supplying rates or percentages for outer years, comparative prices would be determined over the entire contract period based on such rates or percentages.
- b. If the selected method is based on a formula, indices, coefficients, etc. that is the same for all bidders during the contract period, comparative prices would be the prices as tendered for year one.
- c. If the selected method is based on a formula, indices, coefficients, etc. that varies between bidders, comparative prices would be determined over the entire contract period based on published indices relevant during the 12 months prior to the closing date of tenders.
- d. If the selected method includes an imported content requiring rate of exchange variation, comparative prices would be determined based on the exchange rates tendered for the prices as tendered for year one. The rand equivalent of the applicable currency 14 days prior to the closing date of tender will be used (the CCT will check all quoted rates against those supplied by its own bank).
- e. If the selected method is based on suppliers' price lists, comparative prices would be the prices as tendered for year one.
- f. If the selected method is based on suppliers' price lists and / or rate of exchange, comparative prices would be determined as tendered for year one whilst taking into account the tendered percentage subject to rate of exchange (see sub clause (d) for details on the calculation of the rate of exchange).

2.3.10.1.3 Where the scoring of functionality forms part of a bid process, each member of the Bid Evaluation Committee must individually score functionality. The individual scores must then be interrogated and calibrated if required where there are significant discrepancies. The individual scores must then be added together and averaged to determine the final score.

2.3.10.2 Decimal places

Score financial offers, preferences and functionality, as relevant, to two decimal places.

2.3.10.3 Scoring of tenders (price and preference)

2.3.10.3.1 Points for price will be allocated in accordance with the formula set out in this clause based on the tender sum / amount as set out in the **Price Schedule (Part 5)**.

2.3.10.3.2 Points for preference will be allocated in accordance with the provisions of **Preference Schedule** and the table in this clause.

2.3.10.3.3 The terms and conditions of **Preference Schedule** as it relates to preference shall apply in all respects to the tender evaluation process and any subsequent contract.

2.3.10.3.4 Applicable formula:

Either the 80/20 or 90/10 preference point system will apply to this tender and the lowest acceptable tender will be used to determine the applicable preferences

The 80/20 price/preference points system will be applied to the evaluation of responsive tenders up to and including a Rand value of R50'000'000 (all applicable taxes included), whereby the order(s) will be placed with the tenderer(s) scoring the highest total number of adjudication points.

Price shall be scored as follows:

$$Ps = 80 \times \left(1 - \frac{(Pt - Pmin)}{Pmin}\right)$$

Where: Ps is the number of points scored for price;
Pt is the price of the tender under consideration;
Pmin is the price of the lowest responsive tender.

Preference points shall be based on the Specific Goal as per below:

2.3.10.5 Risk Analysis

Notwithstanding compliance with regard to any requirements of the tender, the CCT will perform a risk analysis in respect of the following:

- reasonableness of the financial offer
- reasonableness of unit rates and prices

- c) the tenderer's ability to fulfil its obligations in terms of the tender document, that is, that the tenderer can demonstrate that he/she possesses the necessary professional and technical qualifications, professional and technical competence, financial resources, equipment and other physical facilities, managerial capability, reliability, capacity, experience, reputation, personnel to perform the contract, etc.; the CCT reserves the right to consider a tenderer's existing contracts with the CCT in this regard
- d) any other matter relating to the submitted bid, the tendering entity, matters of compliance, verification of submitted information and documents, etc.

The conclusions drawn from this risk analysis will be used by the CCT in determining the acceptability of the tender offer.

No tenderer will be recommended for an award unless the tenderer has demonstrated to the satisfaction of the CCT that he/she has the resources and skills required.

2.3.11 Negotiations with preferred tenderers

The CCT may negotiate the final terms of a contract with tenderers identified through a competitive tendering process as preferred tenderers provided that such negotiation:

- a) does not allow any preferred tenderer a second or unfair opportunity;
- b) is not to the detriment of any other tenderer; and
- c) does not lead to a higher price than the tender as submitted.

If negotiations fail to result in acceptable contract terms, the City Manager (or his delegated authority) may terminate the negotiations and cancel the tender, or invite the next ranked tenderer for negotiations. The original preferred tenderer should be informed of the reasons for termination of the negotiations. If the decision is to invite the next highest ranked tenderer for negotiations, the failed earlier negotiations may not be reopened by the CCT.

Minutes of any such negotiations shall be kept for record purposes.

The provisions of this clause will be equally applicable to any invitation to negotiate with any other tenderers.

In terms of the City's SCM Policy, tenders must be cancelled in the event that negotiations fail to achieve a market related price with any of the three highest scoring tenderers.

2.3.12 Acceptance of tender offer

Notwithstanding any other provisions contained in the tender document, the CCT reserves the right to:

2.3.12.1 Accept a tender offer(s) which does not, in the CCT's opinion, materially and/or substantially deviate from the terms, conditions, and specifications of the tender document.

2.3.12.2 Accept the whole tender or part of a tender or any item or part of any item or items from multiple manufacturers, or to accept more than one tender (in the event of a number of items being offered), and the CCT is not obliged to accept the lowest or any tender.

2.3.12.3 Accept the tender offer(s), if in the opinion of the CCT, it does not present any material risk and only if the tenderer(s)::

- a) is not under restrictions, has any principals who are under restrictions, or is not currently a supplier to whom notice has been served for abuse of the supply chain management system, preventing participation in the employer's procurement,
- b) can, as necessary and in relation to the proposed contract, demonstrate that he or she possesses the professional and technical qualifications, professional and technical competence, financial resources, equipment and other physical facilities, managerial capability, reliability, experience and reputation, expertise and the personnel, to perform the contract,
- c) has the legal capacity to enter into the contract,
- d) is not insolvent, in receivership, under Business Rescue as provided for in chapter 6 of the Companies Act, 2008, bankrupt or being wound up, has his affairs administered by a court or a judicial officer, has suspended his business activities, or is subject to legal proceedings in respect of any of the foregoing, complies with the legal requirements, if any, stated in the tender data, and
- e) is able, in the opinion of the employer, to perform the contract free of conflicts of interest.

If an award cannot be made in terms of anything contained herein, the Employer reserves the right to

consider the next ranked tenderer(s).

2.3.12.4 Not to make an award, or revoke an award already made, where the implementation of the contract may result in reputational risk or harm to the City as a result of (inter alia):

- a) reports of poor governance and/or unethical behaviour;
- b) association with known family of notorious individuals;
- c) poor performance issues, known to the City;
- d) negative social media reports; and
- e) adverse assurance (e.g. due diligence) report outcomes.

2.3.12.5 The CCT reserves the right to nominate a standby bidder at the time when an award is made and in the event that a contract is terminated during the execution thereof, the CCT may consider the award of the contract, or non-award, to the standby bidder in terms of the procedures included its SCM Policy.

2.3.13 Prepare contract documents

2.3.13.1 If necessary, revise documents that shall form part of the contract and that were issued by the CCT as part of the tender documents to take account of:

- a) notices issued during the tender period,
- b) inclusion of some of the returnable documents, and
- c) other revisions agreed between the CCT and the successful tenderer.

2.3.13.2 Complete the schedule of deviations attached to the form of offer and acceptance, if any.

2.3.14 Notice to successful and unsuccessful tenderers

2.3.14.1 Before accepting the tender of the successful tenderer the CCT shall notify the successful tenderer in writing of the decision of the CCT's Bid Adjudication Committee to award the tender to the successful tenderer. No rights shall accrue to the successful tenderer in terms of this notice

2.3.14.2 The CCT shall, at the same time as notifying the successful tenderer of the Bid Adjudication Committee's decision to award the tender to the successful tenderer, also give written notice to the other tenderers informing them that they have been unsuccessful.

2.3.15 Provide written reasons for actions taken

Provide upon request written reasons to tenderers for any action that is taken in applying these Conditions of Tender, but withhold information which is not in the public interest to be divulged, which is considered to prejudice the legitimate commercial interests of tenderers or might prejudice fair competition between tenderers.

The supplier further warrants that all goods supplied under this contract shall have no defect arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications), or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.

15.2 This warranty shall remain valid for 12 (twelve) months after the goods, or any portion thereof, as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for 18 (eighteen) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in the SCC.

15.3 The purchaser shall notify the supplier promptly, in writing, of any claims arising under this warranty.

15.4 Upon receipt of such notice, the supplier shall, within the period specified in the SCC and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.

15.5 If the supplier, having been notified, fails to remedy the defect(s) within the period specified in the SCC, the purchaser may proceed to take such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

16. Payment

16.1 The method and conditions of payment to be made to the supplier under this contract shall be specified in the SCC.

16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfilment of any other obligations stipulated in the contract.

16.4 Payment will be made in Rand unless otherwise stipulated in the SCC.

17. Prices

17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices tendered by the supplier in his bid, with the exception of any price adjustments authorized in the SCC or in the purchaser's request for bid validity extension, as the case may be.

18. Contract Amendments

18.1 No variation in or modification of the terms of the contract shall be made except by written amendment signed by the parties concerned.

19. Assignment

19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.

20. Subcontracts

20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contract if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.

21. Delays in the supplier's performance

21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.

21.2 If at any time during the performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his or her discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.

21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.

21.4 The right is reserved to procure, outside of the contract, small quantities of supplies; or to have minor essential services executed if an emergency arises, or the supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.

21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.

21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without cancelling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and, without prejudice to his other rights, be entitled to claim damages from the supplier.

22. Penalties

22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services, using the current prime interest rate, calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

23.4 If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than 14 (fourteen) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated 14 (fourteen) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.

23.5 Any restriction imposed on any person by the Accounting Officer/Authority will, at the discretion of the Accounting Officer/Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person is or was, in the opinion of the Accounting Officer/Authority, actively associated.

23.6 If a restriction is imposed, the purchaser must, within 5 (five) working days of such imposition, furnish the National Treasury with the following information:

- (i) the name and address of the supplier and/or person restricted by the purchaser;
- (ii) the date of commencement of the restriction;
- (iii) the period of restriction; and
- (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, Act 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period of not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction, and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

24. Anti-dumping and countervailing duties and rights

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidised import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall, on demand, be paid forthwith by the contractor to the State, or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he or she delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him or her.

25. Force majeure

25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if, and to the extent that, his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.

25.2 If a force majeure situation arises, the supplier shall notify the purchaser promptly, in writing, of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26. Termination for insolvency

26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

27. Settlement of Disputes

27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve such dispute or difference amicably, by mutual consultation.

27.2 If, after 30 (thirty) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.

27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.

27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.

27.5 Notwithstanding any reference to mediation and/or court proceedings herein,

- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
- (b) the purchaser shall pay the supplier any monies due to the supplier.

28. Limitation of Liability

28.1 Except in cases of criminal negligence or wilful misconduct, and in the case of infringement pursuant to Clause 6:

- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and
- (b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.

29. Governing language

29.1 The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.

30. Applicable Law

30.1 The contract shall be interpreted in accordance with South African laws, unless otherwise specified in the SCC.

31. Notices

31.1 Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail, and any other notice to him shall be posted by ordinary mail, to the address furnished in his bid or to the address notified later by him in writing; and such posting shall be deemed to be proper service of such notice.

31.2 The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.

32. Taxes and Duties

32.1 A foreign supplier shall be entirely responsible for all taxes, stamp duties, licence fees, and other such levies imposed outside the purchaser's country.

32.2 A local supplier shall be entirely responsible for all taxes, duties, licence fees, etc., incurred until delivery of the contracted goods to the purchaser.

32.3 No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid the Department must be in possession of a tax clearance certificate submitted by the bidder. This certificate must be an original issued by the South African Revenue Services.

33. National Industrial Participation (NIP) Programme

33.1 The NIP Programme administered by the Department of Trade and Industry shall be applicable to all contracts that are subject to the NIP obligation.

34 Prohibition of Restrictive practices

34.1 In terms of section 4 (1) (b) (iii) of the Competition Act, Act 89 of 1998, as amended, an agreement between or concerted practice by firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder(s) is/are or a contractor(s) was/were involved in collusive bidding (or bid rigging).

34.2 If a bidder(s) or contractor(s), based on reasonable grounds or evidence obtained by the purchaser, has/have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act, Act 89 of 1998.

34.3 If a bidder(s) or contractor(s) has/have been found guilty by the Competition Commission of the restrictive practice referred to above, the purchaser may, in addition and without prejudice to any other remedy provided for, invalidate the bid(s) for such item(s) offered, and/or terminate the contract in whole or part,

and/or restrict the bidder(s) or contractor(s) from conducting business with the public sector for a period not exceeding 10 (ten) years and/or claim damages from the bidder(s) or contractor(s) concerned.

TENDER NO.: 68S/2023/24

TENDER DESCRIPTION: PROVISION FOR THE COLLECTION OF CO-MINGLED DRY RECYCLABLES SERVICES FROM THE TARGETED NORTH-EASTERN METROPOLITAN AREAS AND OPERATING OF THE MATERIALS RECOVERY FACILITY AT THE KRAAIFONTEIN WASTE MANAGEMENT FACILITY.

NAME OF SUPPLIER: _____

I, the undersigned, do hereby confirm and warrant that all the insurances required in terms of the abovementioned contract have been issued and/or in the case of blanket/umbrella policies, have been endorsed to reflect the interests of the CITY OF CAPE TOWN with regard to the abovementioned contract, and that all the insurances and endorsements, etc., are all in accordance with the requirements of the contract.

I furthermore confirm that all premiums in the above regard have been paid.

Yours faithfully

Signed: _____

For: _____ (Supplier's Insurance Broker)

(13) SPECIFICATION(S)

1. DEFINITIONS

In the Contract the following words and expressions shall have the meanings hereby assigned to them except where the context otherwise requires:

Contaminants and tailings shall have the same meaning, namely, the co-mingled waste fraction which has no recycling value and thus passes through the Materials Recovery Facility (MRF) and is disposed of on the Refuse Transfer Station (RTS) apron, thus not being sorted for recycling in the MRF.

2. DESCRIPTION OF THE SERVICES

The City Of Cape Town requires the services of the service provider to:

- 2.1. Recover recyclable materials from the drop-off facility at the Kraaifontein Waste Management Facility (KWMF), sort and process these at the MRF for recycling.
- 2.2. Operate and maintain a MRF situated at the KWMF ensuring maximum recovery of recyclables.
- 2.3. The collection of recyclables from the Kraaifontein Catchment Area. Refer to collection Map.

3. MASS BASED TARGET

The Materials Recovery Facility has a maximum capacity to process approximately 50 tons per day of mixed recyclables. The City or other service providers will be collecting the mixed recyclables from residents and be bringing the material to the MRF for recovery and processing. As the facility has limited storage space it is expected that all recyclables be processed daily to ensure sufficient space is maintained for the uninterrupted disposal of recyclable materials. Below find history of recyclables disposed per month to the MRF. Please note that these values are not guaranteed. It is expected that a certain percentage of the material received will be tailings for which the service provider will have to pay the disposal cost as approved annually by the City.

The estimated service points of **81000** households will produce 243 tons per week. This recyclables are expected to be processed in the MRF at Kraaifontein on a weekly basis to ensure adequate space is maintained for the ongoing receipt of collected recyclables.

The service provider may be required to process recyclables stored and collected from other catchments on the employer's instruction and subject to plant capacity. All associated cost of transport of material to the facility will be for the employer's account.

4. MANAGING AND DIRECTING AT THE KWMF DROP-OFF.

Although the City assumes responsibility for the operation of the public drop-off facility, it is expected of the MRF Operator to provide sufficient staff at the Drop-off to direct the placement of recyclable materials into designated containers, to ensure that full containers of recyclables are removed and the empty containers returned. The MRF operating service provider shall be required to accept certain recyclable wastes dropped off of at the Drop-off for recovery and sorting. Full open containers of single-stream recyclables (e.g. glass, metals, E-waste etc., but excluding builders' and garden wastes) are to be recovered from the site by the MRF operating service provider. It is estimated that an average of approximately 3 tons/day of recyclable wastes may be available and recovered from the public Drop-off source. Directing and supervising members of the public when dropping off recyclable materials into the correct containers.

4.1. OPERATING HOURS OF THE KWMF

The operating service provider may conduct his operations at all times, within legal statutory limitations. However, the delivery of "dry" recyclable wastes and transportation of outward-bound baled and

containerised wastes that require payload mass to be measured at the weigh-bridges, will have to operate within the constraints of the City's working hours which are as follows:

Kraaifontein Waste Management Facility Operating Hours	
Summer	
08:00 – 18:30	Monday – Friday
08:30 – 17:00	Saturday and Public Holidays
09:00 – 14:00	Sunday
Winter	
08:30 – 17:00	Monday – Friday and Public Holidays
08:00 – 17:00	Saturday
09:00 – 14:00	Sunday

KWMF's waste license authorised hours for operations: 06h00 - 18h30. All waste movements (incoming and outgoing) to be recorded over the weighbridge and can therefore only come in or leave during weighbridge operating hours. The service provider will be given due notice of any substantive changes to these hours at any time during the contract period.

5. DETAIL OF SERVICE PROVIDER'S OBLIGATIONS

5.1 Materials Recovery Facility Operations

5.1.1 The Operating service provider will be responsible for the handling, sorting, reuse and/or sale of dry waste (recyclables) recovered from the MRF and Public Drop-off, and no payment by the Employer for further costs will be considered other than the tendered costs. The ownership of the recyclable materials shall vest with the Operating service provider, who shall be responsible for the transportation of such materials from the site for onward sale to the recycling industry. The income received from the sale of the recyclables shall belong to the Operating service provider. The Operating service provider will also be responsible for the transfer of tailings to the RTS and the payment of fees associated with the disposal thereof by the City. **The tailings will therefore be weighed over the weighbridge and the disposal will need to be paid with disposal coupons purchased from the City.** The Operating service provider shall, as a minimum, recover glass, paper, cardboard, plastics and metals from the "dry" comingled waste stream delivered to the MRF, and any other additional materials that it wishes to recover for recycling or reuse purposes.

5.1.2 The MRF and City-owned fixed plant and equipment may only be used for the intended use of recovering recyclable materials and for no other unrelated use.

5.1.3 No claim for any additional expenditure due to a decrease in the demand for recyclables, the non-availability of a sorting area or material recycling infrastructure, the continued participation or participation ratio of residents, the consistency in waste quality or quantity, and continued marketing or any other costs not reflected in the tendered rates, will be considered.

5.1.4 The Operating service provider shall be responsible for the optimal operation of the MRF by recovering recyclable materials in order to minimise the quantities of waste (tailings) to be disposed of (via the Refuse Transfer Station) to the City's landfills. The co-mingled recyclable waste loads received at the MRF are to be processed in accordance with the process flow requirements of the plant under the full-time supervision of a qualified plant superintendent.

5.1.5 The Operating service provider shall ensure that co-mingled recyclables received at the MRF and processed via the processing lines are "clean, dry" recyclables and do not contain large or sharp items or types of materials that may damage the plant and equipment. The bag splitter as well as the multiple deck screens must be by-passed (as provided for in the plant configuration) so as not to cause undue wear and tear or damage to the equipment.

5.1.6 Residual waste that is not removed from the sorting belts and stations, referred to as tailings, is to be conveyed to a dedicated container in the RTS building which will be removed and weighed by the Employer.

The tailings will be measured over the weighbridge and will be billed. The service provider will provide disposal coupons for the disposal of tailings to the waste apron. Alternatives to disposal has to be explored and taken forward to support waste diversion by landfill. Should the tailing amount exceed 15%, Penalties will be instituted.

5.1.7 The Operating service provider shall be required to furnish, maintain and operate sufficient plant and vehicles to undertake the specified services. The Operating service provider shall be required to provide all “non-fixed” plant, vehicles, fuel, lubricants, equipment, tools, materials, labour and any other items required to undertake the MRF operating services described in this tender, other than the fixed plant and equipment provided by the City within the MRF. **Such plant shall include a loader required to load the “bag-opener” and plant for handling the baled materials.** Container-handling plant and transportation vehicles must be provided as and when required. A list and description of the plant, vehicles and equipment (including containers required for use within the MRF) that will be provided by the Tenderer must be stated in returnable Annexure 15D, Information to be provided with the tender, in the tender document.

5.1.8 The Operating service provider shall be required to maintain all buildings and fixed plant and equipment in a clean, sound condition and in full working order. All regular routine inspections, maintenance and servicing shall be carried out by an approved service provider in full compliance with the requirements set out in Schedule A (**Section 15 Maintenance Information**). The Employer may undertake independent plant inspections and audits from time to time and the Operating service provider shall ensure that such inspections are fully accommodated. It should be noted that any negligence or abuse to the plant by the Operator and any costs incurred as a result of such negligence or abuse will be for the cost of the Operating service provider.

5.1.9 The Operating service provider shall insure all of his (or his subcontractor's) own plant and equipment used to undertake the operations required in terms of the Contract. The Employer will be responsible for taking out insurance cover for the buildings and fixed plant and equipment, but this will not relieve the Operating service provider from his responsibility to maintain the MRF's buildings and fixed plant and equipment in a sound condition at his own cost for the duration of the Contract. The requirements of Clause 11 of the “Special Conditions of Contract” regarding insurances shall be fully complied with.

5.1.10 In the event of vehicle, plant or equipment break-down, the Operating service provider will be responsible for all necessary arrangements and costs to restore such vehicle, plant or equipment to full operating order. No costs arising from down-time or stoppages due to failure, servicing or repairs undertaken to mechanical plant or equipment will be paid for by the Employer. Costs for repairs resulting from the Operator's failure to adhere to the instructions stated in the Plant and Equipment Operating Manuals shall be paid for by the Operating service provider.

5.1.11 Electricity shall be provided by the Employer. The KWMP has a stand-by electricity generator to cater for power outages. The Employer cannot, however, guarantee a full, uninterrupted power supply for the full duration of the Contract Period.

5.1.12 The Operating service provider shall supply all baling wire to the correct standard and specifications for the baling machine.

5.1.13 The Operating service provider shall take all reasonable measures to operate the MRF facility in accordance with the Manual and Operating Permit to prevent nuisances such as odour, dust, vectors such as flies, insects and rodents, noise and wind-blown litter. Odour-control and air-extraction systems have been provided, and the Operating service provider shall be responsible for the supply of deodorising materials. Particular attention should be paid to the prevention of, and collection and removal of wind-blown litter originating from the MRF.

5.1.14 In the execution of the service to be provided under this contract, the Operating service provider shall furthermore:

- Pay all levies, taxes and duties payable in respect of all vehicles used and staff employed.
- Ensure that any equipment and all vehicles used are in a mechanically sound, roadworthy and clean condition.

All associated cost is for the service provider's account.**

The waste must always be managed by an accredited waste management service provider in terms of the City's Integrated Waste Management By-law. The City requires monthly proof of the safe disposal of e-waste that may be beneficiated.

5.1.15 The Operating service provider's staff may not under any circumstances interfere with the Employer's operations at the KWMF. It is expected that various tour groups will visit the KWMF for educational tours as approved by the City's Facility Manager and the Operating service provider shall not unreasonably withhold access to such visiting groups to the viewing platforms provided within the MRF. Unfettered access to the MRF shall furthermore be given at all times to the Employer's staff, Health and Safety Inspectors as well as External and Internal Environmental Auditors as and when required.

5.1.16 Proof of all transactions, sale or re-use of recyclables [vehicle registration numbers, date of transaction, volumes and mass per recyclable waste type must be provided on a monthly basis. The service provider will be doing the collection of co-mingled dry recyclables from an identified catchment area. Approximately 81000 green lid recycling bins have been issued to residents in the targeted area. In the targeted area 140l bins are issued to residential customer and sectional title properties may be issued with 240l bins. For sectional titles that fall in the catchment area the 240 litre bins are counted as equalling two (2) x 140 litre bins. Each 240 litre bin therefore equates to 2 pick-up points.

The operating service provider will be paid for providing a weekly collection service to all participating service points in the designated area, delivering the recyclables to the KWMMF Materials Recovery Facility and sorting these in preparation for sale to the recycling markets.

The KWMMF has multiple weigh-bridges dedicated to measure all incoming and outward bound waste vehicles. The mass of incoming mixed "dry" recyclables and recovered recyclables leaving the MRF facility, as well as the tailings transferred to the RTS, will also be measured. In this way, a mass balance can be computed which in turn will determine the efficiency of the recovery operations.

The Service Provider is to ensure there is adequate supervisory staff in the beat to monitor the removal of recyclables on a daily basis. **The service provider is to familiarise themselves with the collection beats and execute the collection of the recyclables in accordance with the beats provided by the employer. Any deviations to the beat must be communicated to the employer for consideration and approval.**

Vehicles and plant must be in a good working condition at all times. **In order to collect the recyclables from the 81000 households it is expected that the service provider have a minimum of 1 vehicle with the carrying capacity of 5 tons for every 5000 households** to effectively do the collections. Please note that catchment sizes may vary for each day of the week and adjustments to collections should be made to collect within weighbridge hours available.

The vehicles and plant must be properly maintained and be kept in a fully roadworthy condition. The Operating service provider shall provide his own vehicle insurances at his own cost.

A full list of vehicles and equipment **dedicated** to this contract must be provided, complete Annexure 15D. This equipment should include loading equipment, container handling equipment and bale handling equipment.

- For leased vehicles provide a list of plant and vehicles available with a draft lease on company letterhead (signed by both parties) confirming availability of vehicles for lease.
- And for purchasing of vehicles and equipment please provide quotation and valid letter of finance from a registered financial services provider for the value of the assets to be procured.

Note that at the time of commencement, all the necessary equipment must be available to execute the services.

5.2.4 Provision of Information

The Operating service provider must on a monthly basis provide the City of Cape Town with detailed information regarding the mass of loads removed by each vehicle on each day. All the above information must be counted and captured continuously and weigh-bridge slips must be provided as the necessary statistical proof on which accurate and verified monthly payments can be based. See **Schedule B** for information required in both electronic and hardcopy format. Accurate records of the quantities of the different fractions of dry materials including tailings received at the MRF must be kept. This information must be recorded on a weekly basis and provided to the City of Cape Town's representative on a monthly basis in both electronic (Microsoft Excel) and hard copy format.

ROUTINE MAINTENANCE & SERVICING

5. Multiple-Deck Screen (CP Manufacturing):

ITEM	COMPONENT	PREVENTATIVE MAINTENANCE
1.	General	1.1 Keep all intakes and exhaust gratings clear of fibre and materials. 1.2 Always run materials out of the screen itself before system shutdown. The system will not process materials efficiently upon restart and may jam the screen motors if materials are left before the system shutdown. 1.3 After shutting down the equipment for maintenance and/or repair, do not restart the Screen until all guards and safety devices have been replaced and all maintenance equipment and personnel have been removed from the interior of the equipment.
2.	Motors	2.1 Blowout any debris from the motor fan and perform motor maintenance as per the Maintenance Manual
3.	Rotor	3.1 Check to see if there are excess materials wrapped around the screen motor shafts. Excessive wrapping will not allow the screen to process materials efficiently and will cause excessive friction causing premature disc wear and nuisance tripping of the drive motors.
4.	Rubber Discs	4.1 Check to see if there are excess materials wrapped around the rubber discs

6. Plastic Bottle Perforator (Perf-o-Mat):

ITEM	COMPONENT	PREVENTATIVE MAINTENANCE		Frequency
1.	Complete Machine	1.1	Check temperature, defects, damage, noise to gear motor and bearings.	Daily
		1.2	Cleaning of the complete PET-bottle perforators	Daily
2	Perforator Drum	2.1	Check Drum, gearing drive unit, wear, damage, noise	Daily
3.	Gearing	3.1	Exchange gear oil	Annually

7. End of contract Maintenance by service provider (Table 7).

Important to note: The below items are required to be replaced at the end of the contract by the appointed service provider. In order to ensure a smooth handover of the plant, the below maintenance should be scheduled during the last 3 months of the contract period.

Item	Items for replacement/repair	Equipment	Notes
1	Replace all bearings including electric motor bearings. Replace all belt return rollers. Replace belt. Repair or replace all damaged structural items. Replace all seals on gearbox. Replace gearbox oil. Replace scraper blade.	Sorting Conveyor 1, 2 and 3:	To be scheduled in the last 3 months of the tender. All items to be replaced.
2	Replace all bearings including electric motor bearings. Replace all belt return rollers. Replace belt. Repair or replace all damaged structural items. Replace all seals on gearbox. Replace gearbox oil.	Tailings Conveyor 1 and 2:	
3	Replace all bearings including electric motor bearings. Replace belt. Repair or replace all damaged structural items. Replace all seals on gearbox. Replace gearbox oil. Check wear on chain guide frames especially the bends on incline units.	Pre-Sort Feed and Sort Feed Conveyors, Baler Feed, Bunker, Fines and Glass Transfer Conveyors	

3.9 Daily maintenance

The following maintenance procedures should be carried out once a day **before start-up** -

Cleaning the main frame –

- ▶ Clean the area behind the platens and around the platen slides.
- ▶ Clean the area around the bale length measuring device.
- ▶ Clean the area around the wire pickup area of the machine.
- ▶ Clean the area around the wire guides on both sides of the machine.
- ▶ Clean the level sensors and level sensor windows in hopper.

Cleaning the tying device -

- ▶ Clean the needle centres and wire guide pulleys.
- ▶ Clean the wire twister hooks and shafts.
- ▶ Clean the wire cutter mechanism.
- ▶ Clean the wire guides.
- ▶ Clean the hydraulic valves on the tying device.
- ▶ Check chains and gears for embedded foreign material that may cause undue tension on such parts. Clear such material before start-up.

General –

- ▶ Ensure no damage has occurred to the machine since its last cycle and make sure that all nuts, bolts and other fasteners are in place and securely tightened, especially in high stress areas, such as the platen guides, the side platen frame and the tying device.
- ▶ Check the oil levels. The oil level in the hydraulic oil reservoir must at all times be visible on the level gauges. Ideally the oil must be above the centre of the top level gauge with all the hydraulic cylinders in a retracted position. The oil should never be above the top of the level gauge.
- ▶ The recommended oil for the Akupak H51 is Castrol AWS68 or equivalent.
- ▶ Make sure there are no foreign objects or materials in the vicinity of the machine that could pose a threat to the machine or personnel on start-up.
- ▶ Check all wear surfaces for undue wear and tear.
- ▶ Make sure all proximity switches are clean.
- ▶ Make sure all the safety switches are operating correctly

The following areas are to be lubricated daily –

- ▶ The wire cutters.
- ▶ The wire guide rollers.
- ▶ The twister shaft thrust washers.
- ▶ The wire guide pivot arms.

3.12 Six Monthly maintenance

- Isolate all power. Remove the lids of the guard safety switches and inspect all terminals for tightness. Clean out any accumulation of fine dirt etc. Check for any sign of wear or damage, e.g. actuator wear, cam assembly wear, contact oxidation etc. and replace if apparent. Replace covers and fully tighten security screws. Reinststate power and check for correct operation.
- If there is any malfunction or damage to guard safety switches, no attempt at repair should be made. The switch should be replaced before the machine operation is allowed.

Please refer to the parts lists for the correct part number specific to this machine.

3.13 Parts replacement

If ordering spare parts, refer to the parts list and machine assembly drawings provided, which give specific part numbers and descriptions.

Always remember to quote your machine model and serial number, which can be found on the machine name plate and at the front of this manual.

3.14 Maintenance records

It is recommended that you log all maintenance work or repairs and note observations by operating and service personnel. Records should include scheduled maintenance details, problems, corrective action, replacement parts, machine down-time and dates, etc. These may help in preventing problems from recurring and save on down-time.

If it should be necessary to call for service assistance, save time by preparing for the visit. Clean the machine thoroughly and where possible, remove equipment guards and covers. Have a maintenance report ready and if necessary, have experience personnel available to assist our service team.

3.15 Spares

Clients should remember that although Akura endeavours to maintain minimum stock levels of standard spare parts at its factory, an unexpected influx of orders may suddenly reduce stocks. It is therefore strongly recommended that you hold a suitable stock of spares yourselves, to avoid unnecessary delays should replacement parts be required. In the unlikely event of a shortage, Akura will do its utmost to keep delivery times to a minimum, although certain parts have a relatively lengthy manufacturing time.

Lubricants and other components required for routine maintenance should be stocked by the client as a matter of course.

It may be possible for arrangements to be made for Akura to stock spares for you, including non-standard parts unique to your machine.

Elevation View CPScreen™

There are numerous design configurations of the CPScreen™. Your screen may be a narrow or wide model, but the operational characteristics are the same. Screen models may contain a flexible coupling, belt drive or a shaft mount gearmotor drive.

The above elevation view shows the various locations of the major components of the screen. Gearmotors, motor disconnects, chain guards, chains/sprockets, oilers/oiling lines, and the like are typically located on one side of the screen or the other depending on the design layout of your plant equipment.

This makes service and maintenance of the equipment easier. Other than greasing the bearings on the opposite side of the screen, most of the major components are located on the "Drive Side" of the unit.
