A. Introduction

The South African Qualifications Authority (SAQA) is mandated by statute to oversee the further development and implementation of the National Qualifications Framework, ensuring quality qualifications, which lead to the full development of each learner and the social and economic development of the nation at large.

B. Purpose

SAQA intends to appoint a suitably qualified service provider to implement and support the following services for its critical services:

- Virtual machine Cloud hosting as per the table below, (IaaS)
- Backup services; and
- Disaster recovery.

SAQA seeks to implement cloud hosting, backup service, and Disaster Recovery as a Service on a public cloud provider service model that allows the Organisation to host, backup, and recover its data and provide all the disaster recovery orchestration to regain access and functionality to IT infrastructure after a disaster. The main objective of the required solution is to provide an appropriate level of resilience and response measures aimed at:

- Ensuring the continuity of critical processes through which programs and services are delivered, before SAQA's survival is threatened by their loss.
- Limiting the period and impact of operational disruption, and
- 99,9% availability SLA of the environment.
