

Notice on Tender Document Applicable Pricing Schedules

It has been observed that there is a high possibility that a system glitch occurred during the document loading process last week, affecting both bulk-loaded and single-loaded tender documents on the NTCSA Tender Bulletin and/or the National Treasury e-Tender Portal.

Between **16 and 18 March**, the tender documents were **re-verified**, and the system was subsequently **refreshed**. During this process, it was confirmed that the **strategy document containing estimates figures**, which may previously have been absorbed by the websites during the initial loading, **is no longer available**.

This strategy document is **not applicable for external use by suppliers, was not signed, and must not be considered for tendering purposes**.

For pricing purposes only, suppliers must use:

- **Pricing Schedule – Annexure AA**
- **Pricing Schedule – Annexure AB**

The **estimated quantities reflected in Annexure AA and AB**, as published on the tender websites, are the only quantities to be used for pricing and bid submission.

If it happen that the strategy was accessible before the above indicated period, note that it is invalid and must be disregarded.
