 - 1.1.2.1. The roles and responsibilities of the parties in providing and managing the required services;

- 1.1.3. The method of remedy framework for non-performance.

1.2. CHANGES TO SERVICES

- 1.2.1. Each party may propose changes to the scope, nature or time schedule of the services being performed under this Service Level Agreement. The parties will mutually agree to any proposed changes, including adjustments to fees and expenses as a result of any changes to the services rendered under this Agreement. All changes are subject to the following change control procedures:
 - 1.2.1.1. Request is logged at the Service Provider's Helpdesk or with the Customer Account Manager.
 - 1.2.1.2. Change request is signed off by authorised technical contact
 - 1.2.1.3. Schedule revised to include changes to the schedule of services
 - 1.2.1.4. Armscor's to acknowledge acceptance and approval of the changes

1.3. EFFECTIVE DATE AND DURATION

- 1.3.1. This SLA will be effective upon operation of the first pair of sites connected onto the private cloud and will run for the duration of the order.
- 1.3.2. There will be no automatic renewal of this agreement.

1.4. SERVICE COVER PERIOD

- 1.4.1. The Service Cover Period (SCP) is the period during which the services will be covered by this SLA. The SCP required is independent of the Service Level offered and any downtime accumulated outside the above-mentioned SCP will be considered as non-contractual downtime and will not be taken into consideration for service credit calculation purposes.
- 1.4.2. The SCP for this SLA is 24x7.

1.5. SERVICE LEVEL METRICS

- 1.5.1. The following standard definitions will apply to the Services provided under the terms of this Agreement.

INCIDENT PRIORITY	STATUS	BUSINESS IMPACT
Priority 1	Critical	Serious
Priority 2	Urgent	Medium
Priority 3	Medium	Minimal

A.

Priority 4	Low	None
------------	-----	------

- 1.5.2. Critical - Business impact serious: Problems impacting entire business and/or all users
- 1.5.3. Urgent - Business impact medium: Problems impacting parts of business and/or some users; Administrative requests for existing services; Sales requests
- 1.5.4. Medium - Business impact minimal: Problems impacting single user / host in non-critical way; Administrative requests for new services; "How do I?" type questions
- 1.5.5. Low - No business impact: Generation of reports; software updates and installations; Cosmetic enhancements
- 1.5.6. Notwithstanding the above, where a resolution is not available at the time the SERVICE PROVIDER will contact Armscor and will attempt to estimate and communicate an expected resolution time.
- 1.5.7. The service provider undertakes to respond and resolve incidences according to the following priority matrix:
 - 1.5.7.1. Priority 1: 2 hours to respond 8 hours MADT per month.
 - 1.5.7.2. Priority 2: 2 hours to respond 12 hours to MADT per month.
 - 1.5.7.3. Priority 3: 4 hours to respond 24 hours to MADT per month.
 - 1.5.7.4. Priority 4: 48 hours to respond and hours to resolve is as mutually agreed

1.5.8. Time to Repair Service Credits

In the event that the Agreed Accumulative Down Time (AADT) for the month exceeds the agreed Maximum Accumulated Down Time (MADT), then the following formula will be used to calculate the appropriate service credit:

$$\text{Service Credit} = \frac{\text{AADT}(hrs) - \text{MADT}(hrs)}{\text{T max}(hrs) - \text{MADT}(hrs)} * (\text{Value for service credits})$$

Value for Service Credits is equal to the total monthly cost per site. Which includes the monthly SLA and any line and infrastructure rental costs for the affected Service Element.

Tmax(hrs) is equal to the total number of hours in a year divided by 12

- System/integration designs,
- Test and Evaluation Methods, etc.

IP typically excludes Project Management activities and Hardware created/built according to a design or following a "recipe".

1.2 How is IP manifested?

IP is typically manifested and embodied in Data Items or Documents.

"Data items or Documents" means any recorded information, however recorded, including but not limited to books, manuscripts, reports, studies, algorithms, computer software, invention descriptions, registered patents, drawings, designs, plans, analyses, calculations, standards, data packs, process documents, instructions, specifications, mathematical or simulation models, compositions, photographs, video recordings, audio recordings, reports, holographic recordings, trademarks, graphical images, etc.

NOTE:

- The document itself is not IP
- The contents of a document represent IP
- The document becomes the tangible and recordable carrier of IP

1.3 What is Background IP?

For definition, refer to A-STD-0020 "Armscor General Conditions of Contract".

"Background IP" belongs to a contractor because he fully paid for the generation thereof or had bought it at his own cost, which may be used or serve as a basis from which to develop new Foreground IP.

1.4 What is Historic IP?

“Historic IP” is existing IP which was created previously, and which may serve as a basis from which to develop new Foreground IP.

1.5 What is Foreground IP?

For definition, refer to A-STD-0020 “Armscor General Conditions of Contract”.

“Foreground IP” is new intellectual property that is created during the execution of the order.

1.6 When is IP Shared or Jointly Owned or Co-owned?

For the definition, refer to A-STD-0020 “Armscor General Conditions of Contract”.

“Shared” or “Jointly Owned” or “Co-owned” IP is IP which belongs to both the DOD and a contractor, because both contributed to the cost of generation thereof. Ownership is typically (and preferably) proportional to contribution.

Historic and Foreground IP may be either

1. Wholly owned by the DOD; or
2. Shared or Jointly Owned or Co-owned between DOD or the contractor

2. IP RECORDAL REQUIREMENTS

It is a requirement that prospective suppliers provide all information about applicable Intellectual Property (IP) to the bid. Armscor will record the information on their IP System that will generate a Statement of IP which will be appended to the order. The Statement of IP will serve as a contractual agreement between Armscor and the contractor in so far as IP related matters are concerned.

The recordal requirements are further described herein and broken down to an appropriate level, as follows:

2.1 Background IP Utilised

For each Background IP Item that will be modified or utilised to generate Foreground IP in the execution of the quoted scope of work, provide the following details:

- Short IP description
- Original Supplier
- Cost of Establishment (If available)

2.2 Historic IP Utilised

For each Historical IP item that will be modified or is required as a prerequisite in the execution of the quoted scope of work, provide the following details:

- Armscor IP Number (if available)
- Short IP description
- The next information is to be provided **per order**, on which Historic IP was established:
 - Order Number on which Historic IP was generated
 - Master record index (MRI) reference
 - Original Supplier
 - Cost of Establishment
 - Percentage Ownership (DOD)
 - Associated Milestone / Line item on the order under which the IP was established

2.3 Foreground IP to be generated

For each new Foreground IP item that will be generated in the execution of the quoted scope of work, provide the following details:

- IP number of Historic IP, if IP is enhanced (modified/improved/upgraded).
- Short IP description
- Master record index (MRI) reference with version and date
- Original Supplier
- Cost of Establishment
- Percentage Ownership (DOD)
- Associated Milestone / Line item on the order under which the IP will be established.

Note 1: The cost of establishment has always been included in item/milestone prices of order, and will continue to be so included, but will in future become visible by being shown separately in the Statement of IP appended to orders in order to proper manage such IP;

Note 2: To facilitate the easy and correct recording of IP, bidders and contractors will be required to utilise the specially constructed spread sheet from Armscor's web site.

After completion, the spreadsheet must be printed and attached to the bid, which will thus form an integral part of the bid.

3. SAFEGUARDING OF IP

3.1 IP Agreement

The IP agreement which will be embodied in the Statement of IP will be concluded with the main contractor in the name of the main contractor and will apply to the creating sub-contractor(s), who will remain the design authority for his particular IP.

3.2 Management and Safeguarding of IP

The main contractor will be responsible for the management of IP he generated during the execution of the order, as well as the management of IP generated by his sub-contractors. Upon completion of the project or order, the relevant IP will be formally transferred to the main contractor, who will then be responsible for the continued management of such IP.

The main contractor will be responsible for proper safeguarding and configuration control of IP, including off-site back-ups, as further described in various other Armscor documents, e.g. A-STD-0020 "Armscor General Conditions of Contract, K-STD-61 "Armscor Standard for Technical Contract Conditions", A-WI-014 "Armscor Security Instruction" and other documents that may be applicable.
