

## New Electronic Procurement Solution (ePS)

# Supplier Information

“ We are transitioning from the old Integrated Procurement System (IPS) to the new Electronic Procurement Systems (ePS).

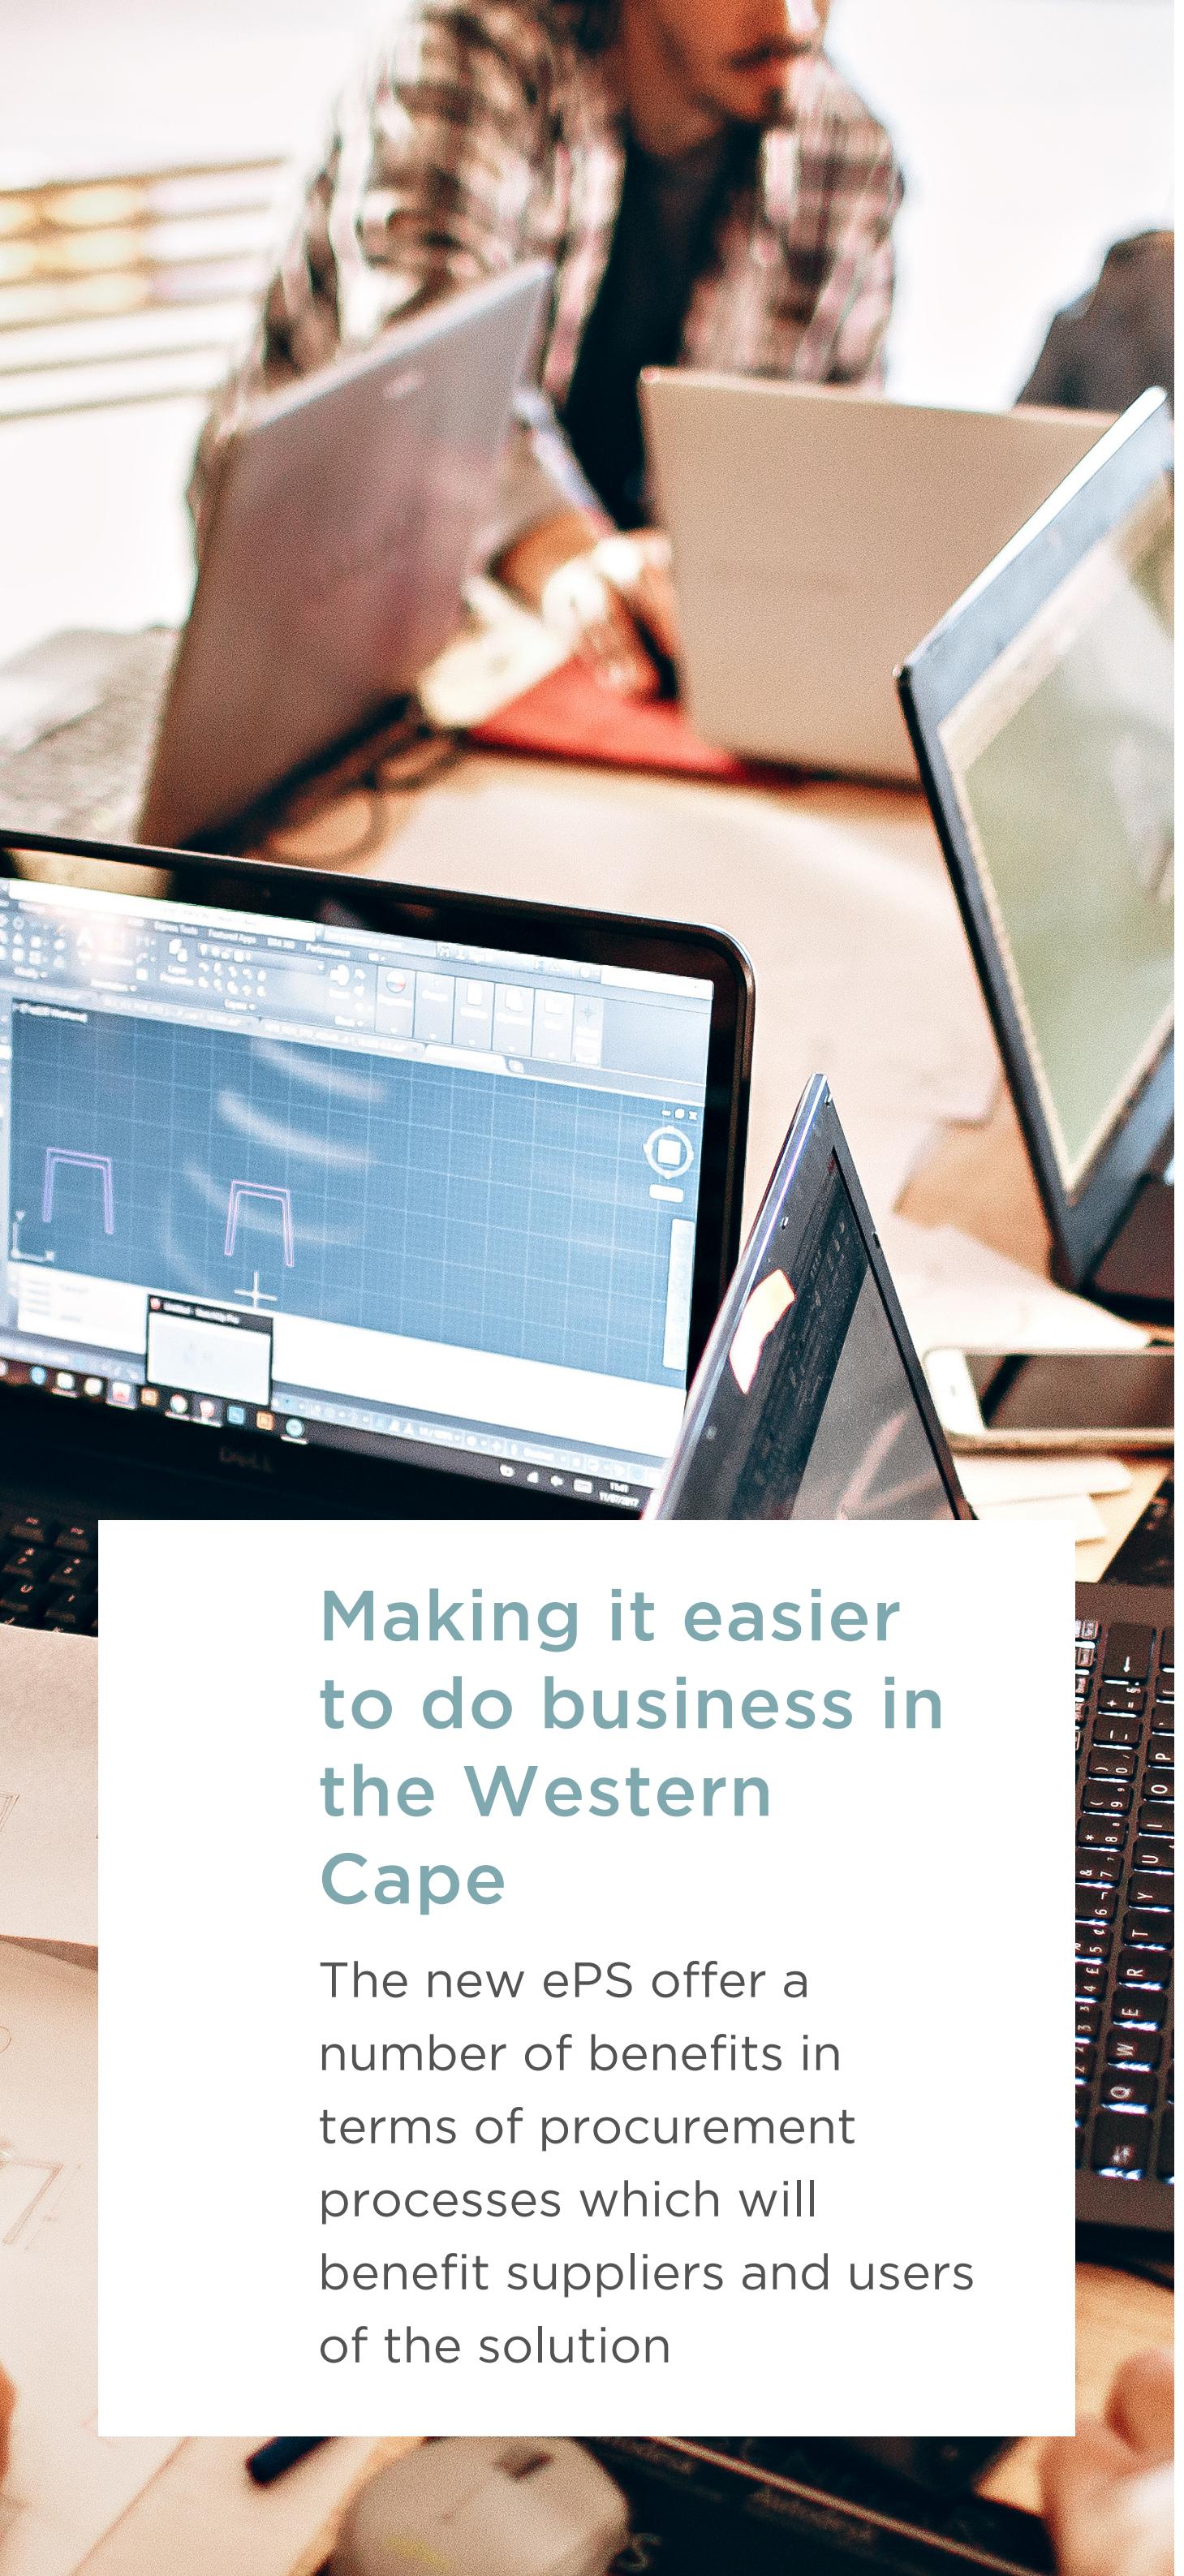

We are dedicated to providing you with only the best procurement solutions and advice.

”

Western Cape  
Government

Provincial Treasury

## Making it easier to do business in the Western Cape

The new ePS offer a number of benefits in terms of procurement processes which will benefit suppliers and users of the solution

### Process automation

Manual procurement processes will be automated

### Compliance

The solution complies with Section 217 of the Constitution

### Streamlined control processes

Internal control processes and transparency are streamlined

### Verified supplier information

The ePS will assist in keeping supplier information up to date

### Transparency and fairness

Ensure a fair and transparent procurement system that limits the possibility of irregularities/fraud and collusion

### Audit best practice

Audit trail of all transactions

### Automated scoring

RFQ's are automatically scored in line with the PPPFA

### Account management

New user account management functionality

### User migration

All users will be migrated to the new ePS (link will be provided in due course)
