TERMS OF REFERENCE

BID STRATEGY

APPOINTMENT OF A PANEL OF PROFESSIONAL SERVICE PROVIDERS TO PROVIDE INFRASTRUCTURE PROJECT MANAGEMENT SERVICES, CONDUCT TECHNICAL DISASTER ASSESSMENTS AND PREPARATION OF TECHNICAL REPORTS TOWARDS THE DEVELOPMENT OF BUSINESS PLANS FOR RAPID IMPLEMENTATION OF ECCOGTA FUNDED PROJECTS FOR A PERIOD OF 36 MONTHS.

1. PURPOSE OF THESE TERMS OF REFERENCE

The purpose of these Terms of Reference (TOR) is to invite prospective and suitably qualified bidders to submit proposals for the appointment of a panel of service providers to provide professional infrastructure project management services, conduct technical disaster assessments and preparation of technical reports towards the development of business plans for rapid implementation of ECCOGTA funded projects for a period of 36 months.

This document details the scope of work for potential bidders required by the Department of Cooperative Governance and Traditional Affairs (ECCOGTA). These TORs do not constitute an offer to do business with the Department but merely serve as an invitation to the bidder(s) to submit proposals for the required scope.

2. BACKGROUND AND OBJECTIVES

2.1. BACKGROUND

- 2.1.1. Traditional Leadership Institutions are integral to the cultural and governance frameworks within many communities. They play crucial roles in mediating disputes, preserving cultural heritage and fostering local development.
- 2.1.2. The effectiveness of these Traditional Leadership Institutions is often hampered by inadequate infrastructure. Currently, many palaces and traditional councils operate from outdated or insufficient facilities, lacking modern amenities and technological tools.
- 2.1.3. The Eastern Cape Department of Co-operative Governance and Traditional Affairs is initiating a hands-on support programme, to assist Traditional Leadership Institutions with financial and technical measures and to fast-track infrastructure related service delivery in order to close the identified gap.
- 2.1.4. Section 35 (1) of the Disaster Management Act, 2002 (Act No. 57 of 2020) (DMA) specifies that, “When a disastrous event occurs or threatens to occur in a province, the disaster management centre of the province concerned must determine whether the event should be regarded as a disaster in terms of the Act, and, if so, the centre must immediately initiate efforts to assess the magnitude and severity or potential magnitude and severity of the disaster”.
- 2.1.5. The Province of the Eastern Cape is consistently threatened by hazards of both natural and technological origins. It is increasingly exposed to a number of disaster hazard induced

impacts with devastating effects. These also include disaster risks as listed in the provincial disaster risk profile prepared by the provincial disaster management centre.

- 2.1.6. It is mostly hydrometeorological events such as severe weather, floods, tornados, drought, strong winds, veld fires, etc, that result in loss and damage to property, service delivery infrastructure, loss of life and in some instances diseases.
- 2.1.7. The after-effects of these hazards, often leave poor communities without basic resources including infrastructure, economic and social amenities. Sector departments have a responsibility to provide relief in line with their functions and disaster management centres are mandated to coordinate response efforts during incidents/disasters.
- 2.1.8. The situation requires that appropriate measures / plans must be put in place to ensure swift and effective assessment of the impact or needs of the affected communities. This includes technical assessments on losses and damages to facilitate for interventions by relevant authorities through appropriate legislative frameworks and systems.
- 2.1.9. The ECCOGTA, municipalities and sector departments have limited capacity to conduct technical disaster damage assessments and preparation of technical reports towards the development of business plans which results in delays in the submission of applications to access external support to augment its resources. This also has a negative domino effect which result in delays in supporting the affected communities and the provision of reconstruction and rehabilitation efforts.
- 2.1.10. It is in this context that the province needs additional support and capacity to ensure that necessary and crucial planning processes are implemented post disaster.
- 2.1.11. The department requires to engage suitable qualified and experienced panel of professional service providers in the project management/engineering/planning (Built and Planning Environment) to assist in the implementation of the specified / identified projects.

2.2. OBJECTIVES

The main objective of this process is to appoint a panel of professional service providers that will render services in supporting ECCOGTA and Municipalities for project management services, conduct technical disaster damage assessments and preparation of technical reports towards the development of business plans.

The support envisaged will be in relation, but not limited to, investigations, feasibility studies, project planning, project design, implementation and project close out. This also includes project related matters such as engineering, environmental management, project implementation support and capacity building strategies within ECCOGTA.

3. LEGISLATIVE FRAMEWORK OF THE BID

3.1. Tax Legislation

- 3.1.1.** The tax matters of the successful bidder must be in order, or satisfactory arrangements have been made with South African Revenue Service (SARS) to meet the bidder's tax obligations.
- 3.1.2.** The Tax Compliance status requirements are also applicable to foreign bidders / individuals who wish to submit bids.
- 3.1.3.** Bidders are required to be registered on the Central Supplier Database and the Department shall verify the bidder's tax compliance status through the Central Supplier Database.
- 3.1.4.** Where Consortia / Joint Ventures / Sub-contractors are involved, each party must be registered on the Central Supplier Database and their tax compliance status will be verified through the Central Supplier Database.
- 3.1.5.** Bidders must note that in addition to being tax compliant at the time of award of the contract, which will be verified with SARS or the CSD, it is incumbent upon the successful bidder/s to ensure that they are at all times tax compliant over the entire duration of the contract. Failure to ensure tax compliance may prevent the Department from issuing orders when goods/services are required. In such instances, the Department reserves the right to procure outside of the contract. Furthermore, if the Department is prevented from obtaining the relevant goods/services on the contract, such constitutes a breach of contract and will be dealt with accordingly, including the recovery of damages/adverse costs where applicable.

3.2. Procurement Legislation

ECCOGTA has a detailed evaluation methodology premised on Treasury Regulation 16A3 promulgated under Section 76 of the Public Finance Management Act, 1999 (Act, No. 1 of 1999), the Preferential Procurement Policy Framework Act 2000 (Act, No.5 of 2000) and Preferential Procurement Regulations of 2022.

3.3. Local Economic Development Procurement Framework

In its procurement processes, ECCOGTA employs contents of the Framework of Local Economic Development (LED) in line with Paragraph 2 of the Eastern Cape Provincial Treasury Instruction Note No. 7 of 2016/17, with the purpose of ensuring maximum retention of Provincial fiscal spend. This is aligned to the purpose of the LED Framework which is to provide a platform for state institutions to promote LED through their procurement processes.
