22		Request for quotations to conduct training on the course : Pressure Reducing valves					One quotation for 15 people.				
23		The tenderer must provide supporting documentation in the form of a letter which must be in the tenderers letter head clearly indicating that they are: - 1. Subject matter experts in the field of munipule water reticulations systems with more than 5 years experience and have successfully offered this training programme before. 2. That they									
24		Training premises must be situated in the Johannesburg Metropolitan area or not more than 40km from the Johannesburg CBD. The training can be conducted at one of JWater sites under conditions that the service provider make all the prior arrangements before the training can start, with includes getting all the resourses to Jwater site for the training.									
25		The service provider must also include catering in their quotation. NB. Coffee and tea , lunch consisting of one starch, one vegetable, one type of meat, salad and one 330 ml soda. Special dietary requirements will be communicated 2 weeks before the training and must be provided for same amount as normal meal stated above. Please include the menu and add total to quote. This will only be applicable if the training is conducted at the services providers venue, therefore it is important for the tenderer to indicate this in their quotation.									
26		The service provider to clearly indicate the duration of the training on their quotation. (NB Preferably 2 days)									
27		The service provider must provide certification for the training after the training is completed.									
28		Target groups: Engineering service men and women									
29		A details scope of how the service provider will cover the theoretical and practical components as listed below must be presented with each quotation. Provide your scope on the below mentioned topics:									
30		The following topic must be covered in the scope: Course outline: •Two day training course covering following topics below: o Theoretical "class-room" type training on Pressure Reducing Valves and Level Control Valves (minimal) o Bulk of the training required must be fairly balanced between the theoretical and practical components of the course. o Training will be focused on management staff (i.e. Operational Managers) and is required to offer a unique practical and theoretical exposure, and in-depth training on how to: <input type="checkbox"/> Maintain control valves (Pressure Reducing Valves & Level Control Valves) <input type="checkbox"/> Commission control valves (Pressure Reducing Valves & Level Control Valves) <input type="checkbox"/> Operation of control valves (Pressure Reducing Valves & Level Control Valves) <input type="checkbox"/> Trouble shoot problems related to control valves (Pressure Reducing and Level Control Valves)
