TERMS OF REFERENCE FOR THE ADDITION OF SERVICE PROVIDERS TO THE EXISTING PANEL OF SERVICE PROVIDERS (GT/GDH/115/2021) OF DENTAL LABORATORY SERVICES FOR GAUTENG HEALTH INSTITUTIONS AND TERTIARY ORAL HEALTH CENTRES.

1. Purpose

The purpose of this tender is to acquire additional service providers on the existing panel for the manufacturing of fixed dental prostheses, removable dental prostheses, maxillofacial prostheses, orthodontic fixed and removable appliances, implant prostheses, surgical guides, and occlusal splints for the Gauteng Department of Health and Tertiary Oral Health Centres that will expire on 30 July 2025.

2. Background

2.1 Oral Health Centres

The dental schools of the Gauteng Department of Health (Sefako Makgato Health Sciences University, University of Pretoria and the University of the Witwatersrand) provide basic and specialized dental services to a vast population of patients in the greater Gauteng areas. Due to the high demand of prostheses fabrication and large patient volumes, the demand cannot be met by in-house laboratories. The prostheses and appliances required for patient treatment are highly specialized and require very specific equipment for fabrication.

The tertiary oral health institutions of Gauteng Department of Health hereby request the permission to obtain a panel of dental laboratories to assist in the fabrication of dental prostheses and appliances, to assist in the overflow of in-house dental laboratory work, and to secure contracts with laboratories.

The Gauteng District Health Services provide basic and specialized Dental services to all patients. The Department has hundred (100) fixed Oral Health clinics, eighteen (18) dental clinics based in various prisons, three (3) satellite clinics, and (10) mobile units. The services provided include, but are not limited to, the provision of dentures to geriatric patients, disabled people, and school learners, and interceptive orthodontics.

3. Motivation

3.1 Oral Health Centres

The tertiary oral health centres of the Gauteng Department of Health have always utilised the services of external laboratories based on their location and the specific services that they render to supply a need in specialized dentistry. The bid adjudication committee stipulated that oral health centres must advertise a contract to outsource dental laboratory services.

There is a large patient pool serviced by tertiary oral health centres that range from basic restorative treatment regimens to very complex facial prosthetics for patients. Although the training institutions are driven by refining techniques and training students on an undergraduate and postgraduate platform, the patients are always at the center of best practice and service rendering. The tertiary oral health centres have a high patient satisfaction rate, which is largely contributed to partnerships with specialized laboratories.

3.2 District Health Services

The dire need for interceptive orthodontic services and denture services is evidenced by the increase in the statistics reports for designated facilities. Furthermore, the availability of this tender has improved payment to the service providers and also this replaced the sundry method which was discontinued as per Treasury Regulations.

The availability of the contract will enable the clinicians to procure required prostheses and appliances as and when required, without any service delivery disruptions. This will significantly reduce patient's waiting times for services, thereby enhancing the patients' quality of life.
