

**Schedule 2**  
**Notice of Contracted Capacity Form**

***[For a Dispatchable Facility]***

***[Date]***

***[To be placed on the letterhead of the Independent Engineer]***

The City of Cape Town  
12 Hertzog Boulevard,  
Cape Town,  
Western Cape,  
South Africa  
CC copy to email address: [●]<sup>1</sup>

Attention: [●]<sup>2</sup>

**Facility Notice of Contracted Capacity Form of a Dispatchable Facility**

Dear Sirs

1. We refer to the Short Term Power Purchase Agreement entered into between [●] and the City of Cape Town on [insert date] (the "**STPPA**").
2. All capitalised terms in this notice ("**Notice**") shall, unless separately defined herein, bear the meaning ascribed to them in the STPPA.
3. This Notice is the Notice of Contracted Capacity Form as defined in and required to be issued in terms of the STPPA.
4. We hereby represent and warrant the following:
  - 4.1. the Facility [is/has been] successfully connected to the System as required in terms of the Transmission Agreement or the Distribution Agreement (as the case may be) and the Codes;

---

<sup>1</sup> Buyer to insert appropriate address on or before the execution of this Agreement.

<sup>2</sup> Buyer to insert appropriate officer on or before the execution of this Agreement.

- 4.2. the Facility is compliant with the Codes;
  - 4.3. the NDC Tests required to be carried out in terms of Schedule 4 (*Inspection and Testing*) of the STPPA have been successfully completed; and
  - 4.4. the Facility is capable of providing the residual Net Dependable Capacity of [●]MW to the Buyer in accordance with the STPPA, which Net Dependable Capacity is equal to or greater than the Minimum Acceptance Capacity required by the Buyer in terms of the STPPA; and
  - 4.5. the Metering Installation has been [procured, installed,] tested [and successfully commissioned]<sup>3</sup> in accordance with the STPPA and the Buyer is able to remotely access the Metering.
5. The Facility is ready to make the Contracted Capacity Available and to deliver Energy Output to the Buyer.

Yours faithfully,

**[NAME OF INDEPENDENT ENGINEER]**

---

**Representative of the Seller**

---

<sup>3</sup> Paragraph to be amended to provide for either existing or new Metering Installations.

## **Notice of Contracted Capacity Form**

***[For a Non-Dispatchable Facility]***

***[Date]***

***[To be placed on the letterhead of the Independent Engineer]***

### **Facility Notice of Contracted Capacity Form of a Non-Dispatchable Facility**

Dear Sirs

1. We refer to the Short Term Power Purchase Agreement entered into between **[●]** and the City of Cape Town on [insert date] (the "**STPPA**").
2. All capitalised terms in this notice ("**Notice**") shall, unless separately defined herein, bear the meaning ascribed to them in the STPPA.
3. This Notice is the Notice of Contracted Capacity Form as defined in and required to be issued in terms of the STPPA.
4. We hereby represent and warrant the following:
  - 4.1. the Facility has been successfully connected to the System as required in terms of the Transmission Agreement or the Distribution Agreement (as the case may be) and the Codes;
  - 4.2. the renewable energy technical evaluation committee (RETEC) has certified that the Facility is in compliance with the Codes as at the Effective Date;

- 4.3. the Facility is capable of providing the residual Capacity of [●]MW to the Buyer in accordance with the terms of the STPPA; and
- 4.4. the Metering Installation has been [procured, installed,] tested [and successfully commissioned]<sup>4</sup> in accordance with the STPPA and the Buyer is able to remotely access the Metering.
5. The Facility is ready to commence operation and to deliver Energy Output to the Buyer.

Yours faithfully,

**[NAME OF INDEPENDENT ENGINEER]**
