**ADDENDUM 01**

Page 23 section 3.4 Stage 2: Functionality Requirements, has the below strikethrough highlighted in red.

*"In determining the bidders capacity and capability to execute the contract/project, bidders will be evaluated on functionality. Functionality is the terminology used to define the technical ability of the Tenderer, based on experience to deliver the required product in accordance with the specialised quality, reliability and functionality.*

*Points allocated for Functionality shall be evaluated in accordance with the criteria as listed below. An overall minimum threshold of **76 points out of 95** must be achieved for the tender to be eligible for further evaluation on Price and Preference (80/20 split). ~~Bidders who also fail to achieve the minimum score per criteria will be disqualified and not be eligible for further evaluations.~~"*

It is no longer a requirement for bidders to achieve the minimum score per criteria, bidders however need to achieve the overall minimum threshold of 76 points out of 95.

*All other tender conditions shall remain unchanged.*
