

## QUESTIONS AND ANSWERS:

	Questions	Answers
1.	The tender requires spares for 5 years, but there is no confirmation of the number of samples that will be run per day. Can this be supplied so that we can calculate these requirements	We run 5 samples per day.
	Do you require all the recommended spares delivered for 5 years with the instrument?	The spares will be ordered as and when required, we need the numbers to also budget for the cost of spares
	If the operators require additional spares on top of the recommended spares what is the requirement?	It will inconvenient us financially, but we can still modify contract later
