1. BACKGROUND

The Agrément South Africa Act was accented to by the Honourable President of the Republic of South Africa as Act No 11 of 2015 from 1 April 2017. Agrément South Africa was established as a Schedule 3A entity on 1 April 2017. The entity operates under a delegation of authority from the Minister of Public Works.

The main objectives are:

- To provide assurance of fitness-for-purpose of non-standard construction-related products and systems to specifiers and users.
- To support and promote the process of integrated socio-economic development in the Republic as it relates to the construction industry.
- To support and promote the introduction and use of certified non-standardized construction-related products or systems in the local or international market.
- To support policymakers in minimizing the risk associated with the use of non-standard construction-related products or systems; and
- To be an impartial and internationally acknowledged South African centre for assessment and confirmation of fitness-for-purpose of non-standard construction-related products or systems.

2. INVITATION FOR PROPOSALS

Agrément certification establishes fitness-for-purpose of innovative and non-standard construction products and systems through conducting an independent technical assessment and issuing certificates when the assessment has been conducted successfully. Agrément South Africa extends a call for the submission of proposals from suitably qualified Materials experts to assess the durability of a building system and its compliance with Agrément fit-for-purpose certification criteria for various occupation classes.

3. SPECIFICATIONS

The building system to be assessed is intended for use in all areas of South Africa for the erection of single-storey buildings for applicable occupancy classes set out in SANS 10400 PART A: Table 1 of Regulation A (20) (1). The building system utilises factory-produced wall and roof panels. The walls comprise 10 mm fiberglass skins encapsulating a 40 mm thick PVC core. The building system is a shell structure.

The design and approval of the foundation are always the responsibility of a registered professional competent person.

The assessment will be based Agreement fit-for-purpose certification criteria for durability assessment and other applicable minimum standards (Agrément criteria available on request).

The service provider will be required to assess the properties of the building system and make recommendations regarding the suitability of the product for Agrément certification.

All tests shall either be witnessed by an authorised Agrément South Africa assessor and be conducted by a registered competent person.

All test reports must:

- provide the full name, description and intended use of the product
- provide a technical description of the product
- detail results of every aspect of the test against the performance requirements
- be dated and
- be signed by the test officer and presented in pdf format.

4. SUBMISSION OF PROPOSALS AND EVALUATION CRITERIA

5.1 Submission of procurement documents.

- All suppliers must be registered on the Central Supplier Database. No bid shall be awarded to any supplier that is not registered on the Central Supplier Database.
- Completed and signed standard bidding documents, **SBD 4 and 6.1 forms**.
