D.SPECIFICATION

1. BACKGROUND

Safemail is set up for bulk mailing of valuable items, AARTO Traffic fines and all other bulk recorded mail. The division was established in 1996 to operate an impermeable security system that is supported by the most advanced technology available. The introduction of Safemail product has seen the growth of mail volumes by more than 300%. This has put a lot of strain on Safemail current IT equipment's thus affecting productivity, speed and dependability. The process of supporting and repairing this equipment take at least six weeks. During the six weeks period Operations experience difficulties in meeting their production targets due to shortage of working tools.

The current repair method is off-site, time and material which in many cases works to our disadvantage.
