**INVITATION FOR A QUOTATION REFERENCE**  
**NUMBER: RFQ011404GRAP252023**

Kindly provide PACOFs with a signed quotation for **GRAP25** as per specifications below. Please note that a non-tax compliant status on CSD at the date of the closing date of the RFQ will automatically disqualifies the quotation.:

The following is the required scope of work: (Please see **Annexure A** for functionality)

In terms of **GRAP 25.86**, the scope of work for actuarial assumptions for post-benefit obligation should be unbiased and mutually compatible. They should be based on the best estimates of the variables that will provide the ultimate cost providing for post-employment benefits:

(a) demographic assumptions about the future characteristics of current and former employees (and their dependants) who are eligible for benefits. Demographic assumptions deal with matters such as:

- mortality, both during and after employment;
- rates of employee turnover, disability and early retirement;
- the proportion of plan members with dependants who will be eligible for benefits; and claim rates under medical plans.

(b) financial assumptions, dealing with items such as:

- the discount rate (see paragraphs .91 to .95);
- future salary and benefit levels (see paragraphs .96 to .100);
- in the case of medical benefits, future medical costs, including, where material, the cost of administering claims and benefit payments (see paragraphs .101 to .104); and
- the expected rate of return on plan assets (see paragraphs .122 to .123)

Actuarial assumptions are unbiased if they are neither imprudent nor excessively conservative.

1. Please provide your CSD supplier and unique registration number for verification on the CSD database. Please attach a valid tax clearance and B-BBEE certificate.
