The supreme mandate of the Unemployment Insurance Fund (UIF) is derived from section 27(1) (c) of the Constitution of the Republic of South Africa. The Unemployment Insurance Fund provides social security to its contributors in line with section 27(1) (c) which states that "everyone has the right to social security".

The mandate of the Unemployment Insurance Fund is stated in the Unemployment Insurance Act, No 63 of 2001 (as amended). The Unemployment Insurance Fund was established in terms of section 4(1) of the Unemployment Insurance Act. The Act empowers the Unemployment Insurance Fund to register all employers and employees in South Africa and pay those who qualify for unemployment insurance benefits.

2. PURPOSE OF THIS REQUEST FOR PROPOSALS (RFP)

The purpose of this Request for Proposal (RFP) is to solicit proposals from potential bidder(s) for the provisioning of 17 mobile buses on lease for Provincial use in the provision of services relating to Unemployment Insurance. The Fund will appoint a company that has capacity and capability in specialising in mobile bus services.

This document details and incorporates, as far as possible, the tasks and responsibilities that will be required by the Unemployment Insurance Fund for the provisioning of 17 mobile buses.

This RFP does not constitute an offer to do business with the Unemployment Insurance Fund, but merely serves as an invitation to bidder(s) to facilitate a requirements-based decision process.

3.1 Tax Legislation

In terms of National Treasury Instruction No. 09 of 2017/18, no tender may be awarded to any bidder whose Tax matters have not been declared by the South African Revenue Services (SARS) to be in order. Therefore, bidders must provide the Fund with the tax compliance PIN or the MAAA number obtainable when registering on the CSD. This is required in order for the Fund to verify the tax status of a bidder as part of the tender proposal. The bidder must also ensure that all sub-contractors (if applicable) are tax compliant.

It must be noted that bidders must not only be compliant when submitting a proposal to the Unemployment Insurance Fund but must remain compliant for the entire contract term with all applicable tax legislation, including but not limited to the Income Tax Act, 1962 (Act No. 58 of 1962) and Value Added Tax Act, 1991 (Act No. 89 of 1991).

- The bid price (maximum 90 points)
- Specific Goal score (maximum 10 points)

Stage 1 – Price Evaluation (90 Points)

The following formula will be used to calculate the points for price:

Where:

Ps	=	Points scored for comparative price of bid under consideration
Pt	=	Comparative price of bid under consideration
Pmin	=	Comparative price of lowest acceptable bid

However, if it becomes unclear during the course of the bidding process which preference point system will be applicable, then either the 80/20 or the 90/10 preference point system will apply, based on the lowest acceptable bid which will determine the applicable preference point system that will be used.

OVERVIEW

1. The Unemployment Insurance Fund (UIF) is mandated to provide services to the rural areas of the country through the use of Mobile Buses as stated in the Service Delivery Model. The Fund will provide all relevant and essential services required and mandated. The Fund has got its footprint in all nine (9) provinces. The Fund is looking for an effective service provider to assist with developing a mobile unit that will afford the Fund to offer comprehensive UIF services to beneficiaries and stakeholders in areas that lack labour offices.

The bidders should have the capacity to deal with design, production, procurement, assembly, branding and quality assurance of product for use by the Fund.

It is further expected that the use of the mobile buses will also be utilised over weekend and the bidder/s are requested to have the appropriate number of drivers to service the Provinces with the appropriate driving code and driving experience in the area required.

Mobile units can be classified as – Limited services (applications/registration and service queries) are rendered from a branded mobile truck on a periodic basis (visiting days and times). It is aimed at improving access to services, particularly in remote/rural areas with no infrastructure by bringing the services closer to the citizen on (a) fixed dates and times.

2. Business Problems:

The Unemployment Insurance Fund has committed to be a forward thinking organisation by tapping into new technology and means in delivering excellent service using affordable multiple channels.

The Delivery Model of the Department of Employment and Labour indicates the following:

Services are rendered at nine (9) Provincial Offices, 126 Labour Centres, 40 Satellite Offices and 461 Visiting Points across the country.

In the Eastern Cape, the department delivers services at 16 Labour Centres, 5 Satellite Offices and 79 visiting points with a staff complement of 788 posts

In the Free State the department deliver services at 11 Labour Centres, 3 Satellite Offices and 68 visiting points with a staff complement of 509 posts

In Gauteng the department deliver services at 27 Labour Centres, 1 Satellite Office and 7 visiting Points with a staff complement of 1 580 posts.

In KWA Zulu Natal the department deliver services at 16 Labour Centres, 3 Satellite Office and 49 visiting points with a staff complement of 1 051 posts.

In Limpopo the department deliver services at 13 Labour Centres, 7 Satellite Offices, 19 visiting points and 9 Mobile Labour Centre visiting points with a staff complement of 515 posts.

In Mpumalanga the department deliver services at 14 Labour Centres, 4 Satellite Offices and 27 visiting points with a staff complement of 504 posts.

In the Northern Cape the department deliver services at 7 Labour Centres and 87 visiting points with a staff complement of 324 posts

In the North West Province the department deliver services at 10 Labour Centres, 9 Satellite Offices and 21 visiting points with a staff complement of 433 posts

In the Western Cape the department deliver services at 12 Labour Centres, 8 Satellite Offices and 95 visiting points with a staff complement of 763 post

3. Service Delivery Typology:

Labour Centre (LC) - All key services (UI benefits, COID claims, PES & IES) are rendered weekdays, during the official operating hours in a fixed structure. Ideally, the LCs is located at the most convenient area to cater for the population density and economic activities in that area.

Thusong Service Centre (TSC) - A number of service-providers (government institutions) are housed in same building/under one roof. The main purpose is to provide that citizens

have access to range of government services in a convenient location. All key services (UI benefits, COID claims, PES & IES) are rendered weekdays, during the official operating hours in a fixed structure. However, TSCs that is located within Malls and operates as per trading hours.

Thusong Service Cluster (TS Cluster) - a number of service-providers (government institutions) are housed in separate buildings within a locality of approximately 500m to 2km. The main purpose is to provide that citizens with access to range of services in a convenient location. All key services (UI benefits, COID claims, PES & IES) are rendered weekdays, during the official operating hours in a fixed structure.

Satellite Office (SO) – It is a permanent structure but limited services (applications, registrations and service queries) are rendered, periodically (twice a week and within the business hours). SO are aimed at improving access to services, particularly in remote/rural areas by bringing the services closer to the citizen on (a) fixed dates and times.

Mobile Labour Centre – Limited services (applications/registration and service queries) are rendered from a branded mobile truck on a periodic basis (visiting days and times). It is aimed at improving access to services, particularly in remote/rural areas with no infrastructure by bringing the services closer to the citizen on (a) fixed dates and times.

Online- Service - Beneficiaries are afforded an opportunity to serve themselves via self-help kiosk or internet. Online - Services offers limited services such as applications, track status, submit documents/information, etc.).

Call Centre- It provides access to service, information and expertise, through appropriate channels of communication such as (telephone, email, fax etc.), enabling interactions that create value for the customer and organization.

The key Business issue is that the FUND does not have Mobile Buses to delivery its service to the rural parts of the country. This indicates a major flaw in terms of the Service Delivery Model of the Department of Labour which includes the UIF.

4. Accessibility Standards:

The Geographic Accessibility Standards as determined by the Department of Public Service and Administration (DPSA) are as follows:

Access Distance Standards

- Urban- Driving distance through mobile road transport:
 - Metro: Maximum 15km
 - Major Urban Town: Maximum 15km
 - Urban Town: Maximum 15km
- Rural- Driving distance through mobile road transport:
 - Rural town: Maximum 25km
 - Rural: Maximum 25km

It is for this reason that the Fund will venture into the procurement of Mobile Buses using the REQUEST FOR PROPOSAL process. The mobile buses will be able to provide the full bouquet of services rendered by the Department of Labour, thus taking service delivery to the people who are desperate for our services.
