## DECLARATION CERTIFICATE FOR LOCAL PRODUCTION AND CONTENT FOR DESIGNATED SECTORS

This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2017, the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

### 1. General Conditions

- 1.1. Preferential Procurement Regulations, 2017 (Regulation 8) make provision for the promotion of local production and content.
- 1.2. Regulation 8.(2) prescribes that in the case of designated sectors, organs of state must advertise such tenders with the specific bidding condition that only locally produced or manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. Where necessary, for tenders referred to in paragraph 1.2 above, a two stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

- x is the imported content in Rand  
y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the bid as indicated in paragraph 4.1 below.

**The SABS approved technical specification number SATS 1286:2011 is accessible on [http://www.thedti.gov.za/industrial\\_development/ip.jsp](http://www.thedti.gov.za/industrial_development/ip.jsp) at no cost.**

- 1.6. A bid may be disqualified if this Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted as part of the bid documentation;
2. **The stipulated minimum threshold(s) for local production and content (refer to Annex A of SATS 1286:2011) for this bid is/are as follows:**

<u>Description of services, works or goods</u>	<u>Stipulated minimum threshold</u>
_____	_____ %
_____	_____ %
_____	_____ %

3. Does any portion of the goods or services offered have any imported content?  
(Tick applicable box)

YES	<input type="checkbox"/>	NO	<input type="checkbox"/>
-----	--------------------------	----	--------------------------

- 3.1 If yes, the rate(s) of exchange to be used in this bid to calculate the local content as prescribed in paragraph 1.5 of the general conditions must be the rate(s) published by SARB for the specific currency at 12:00 on the date of advertisement of the bid.

The relevant rates of exchange information is accessible on [www.reservebank.co.za](http://www.reservebank.co.za)

Indicate the rate(s) of exchange against the appropriate currency in the table below (refer to Annex A of SATS 1286:2011):

<b>Currency</b>	<b>Rates of exchange</b>
US Dollar	
Pound Sterling	
Euro	
Yen	
Other	

NB: Bidders must submit proof of the SARB rate (s) of exchange used.

4. Where, after the award of a bid, challenges are experienced in meeting the stipulated minimum threshold for local content the dti must be informed accordingly in order for the dti to verify and in consultation with the AO/AA provide directives in this regard.

**LOCAL CONTENT DECLARATION**  
**(REFER TO ANNEX B OF SATS 1286:2011)**

<p><b>LOCAL CONTENT DECLARATION BY CHIEF FINANCIAL OFFICER OR OTHER LEGALLY RESPONSIBLE PERSON NOMINATED IN WRITING BY THE CHIEF EXECUTIVE OR SENIOR MEMBER/PERSON WITH MANAGEMENT RESPONSIBILITY (CLOSE CORPORATION, PARTNERSHIP OR INDIVIDUAL)</b></p> <p><b>IN RESPECT OF BID NO.</b> .....</p> <p><b>ISSUED BY:</b> (Procurement Authority / Name of Institution): .....</p>
--

NB

- 1 The obligation to complete, duly sign and submit this declaration cannot be transferred to an external authorized representative, auditor or any other third party acting on behalf of the bidder.
- 2 Guidance on the Calculation of Local Content together with Local Content Declaration Templates (Annex C, D and E) is accessible on [http://www.thdti.gov.za/industrial\\_development/ip.jsp](http://www.thdti.gov.za/industrial_development/ip.jsp). Bidders should first complete Declaration D. After completing Declaration D, bidders should complete Declaration E and then consolidate the information on Declaration C. **Declaration C should be submitted with the bid documentation at the closing date and time of the bid in order to substantiate the declaration made in paragraph (c) below.** Declarations D and E should be kept by the bidders for verification purposes for a period of at least 5 years. The successful bidder is required to continuously update Declarations C, D and E with the actual values for the duration of the contract.

I, the undersigned, ..... (full names),  
do hereby declare, in my capacity as .....  
of .....(name of bidder  
entity), the following:

- (a) The facts contained herein are within my own personal knowledge.
- (b) I have satisfied myself that:
  - (i) the goods/services/works to be delivered in terms of the above-specified bid comply with the minimum local content requirements as specified in the bid, and as measured in terms of SATS 1286:2011; and
- (c) The local content percentage (%) indicated below has been calculated using the formula given in clause 3 of SATS 1286:2011, the rates of exchange indicated in paragraph 4.1 above and the information contained in Declaration D and E which has been consolidated in Declaration C:

Bid price, excluding VAT (y)	R
Imported content (x), as calculated in terms of SATS 1286:2011	R
Stipulated minimum threshold for local content (paragraph 3 above)	
Local content %, as calculated in terms of SATS 1286:2011	

**If the bid is for more than one product, the local content percentages for each product contained in Declaration C shall be used instead of the table above. The local content percentages for each product has been calculated using the formula given in clause 3 of SATS 1286:2011, the rates of exchange indicated in paragraph 4.1 above and the information contained in Declaration D and E.**

- (d) I accept that the Procurement Authority / Institution has the right to request that the local content be verified in terms of the requirements of SATS 1286:2011.
- (e) I understand that the awarding of the bid is dependent on the accuracy of the information furnished in this application. I also understand that the submission of incorrect data, or data that are not verifiable as described in SATS 1286:2011, may result in the Procurement Authority / Institution imposing any or all of the remedies as provided for in Regulation 14 of the Preferential Procurement Regulations, 2017 promulgated under the Preferential Policy Framework Act (PPPFA), 2000 (Act No. 5

of 2000).

## **1. PURPOSE**

- 1.1 To appoint a service provider to install cameras and associated equipment and software for the development of an Early Warning Fire Detection System in the Garden Route District Municipality within a period of twelve (12) months.

## **2. INTRODUCTION AND BACKGROUND**

- 2.1 The South African Department of Environment, Forestry and Fisheries (DFFE), in partnership with the Government of Flanders, has developed the “Department of Forestry, Fisheries and the Environment Adaptive Capacity Facility” (DFFE-ACF or ACF). The key challenge the ACF aims to address is the lack of effective climate change implementation at a local level in South Africa.
- 2.2 The facility is intended to benefit those citizens and communities of South Africa that are most vulnerable to climate change because of their exposure to various impacts and their lack of capacity to adapt to these impacts. These vulnerable groups are most reliant on effective institutional adaptation measures that can reduce their exposure to the impacts of climate change and increase their adaptive capacity to respond to climate change more effectively.
- 2.3 History and experience have shown that the delay in the detection, warning and response to wildland fires, allowed these fires to progress from the incipient phase to fully developed fires, in a short period of time. Fire spreads quicker because, apart from the indigenous vegetation, all the other vegetation in the Garden Route, is extremely flammable and together with the strong wind conditions also conversant to the Western Cape Province of South Africa, it is a perfect recipe for disaster fires that get out of control very quickly with devastating effects. This makes the management, control and extinguishing of these wildfires extremely difficult. This leaves communities vulnerable to the loss of their entire livelihood as well as damage to their local economy to almost unrecoverable levels.
- 2.4 Therefore, this project was identified as a method to build adaptive capacity through the installation of an Early Warning Fire Detection System, which aims to minimise the incidences of fire by increasing detection and reporting times of wildfires throughout the Garden Route District Municipality. The early detection and warning of these fires should result in an early response by the DM and consequently have these fires extinguished, within the incipient phase of the fire. This is unfortunately a costly exercise but will benefit vulnerable communities in terms of fire resilience to an extent like never before. GRDM envisage to save and protect, not only the economy and property of the communities of the district, but more importantly, human lives with this type of system.

- 2.5 The GRDM is looking to form partnerships with landowners to ensure that the system is implemented within the DM. The DM would like to implement a complete system that covers the entire district with the first and initial installation of the system.

### **3. OBJECTIVES**

- 3.1. The aim of the project is to install a high-resolution automatic smoke detection camera system for the coverage of high-risk areas at various locations in the Garden Route District, where vegetation fire events are likely to occur. The Service Provider is required to install a user-friendly interface that allows the GRDM to monitor the information received by the cameras.
- 3.2. The following are the objectives of the project;
- 3.2.1. To install early detection fire infrastructure in the District Municipality,
  - 3.2.2. To fully operationalize early detection infrastructure,
  - 3.2.3. To undertake an infrastructure maintenance plan for the duration of the contract.

### **4. SCOPE AND EXTENT OF WORK**

The following areas of work are expected to be covered in this project:

- 4.1. An Early Warning System is required which shall be monitored 24/7 by the DM to ensure early detection of all vegetation fire related activities throughout the Garden Route District. The system should be able to report these fires to the Garden Route District Fire Services with no delay, to ensure a quick response to these incidents.
- 4.2. This system shall be installed within a 6–8-month period and must be supported by a warranty of 12 months. The system must be supported by a maintenance plan in particular the maintenance of camera adjustments etc. due to weather condition and any aspects that might not be covered by the warranty.
- 4.3. The GRDM is proposing a minimum coverage of about 80% of the district's total area, achieved with approximately 11 cameras. Proposed site locations and numbers are based on local knowledge of high-risk areas and preferred placements of cameras, where existing structures are located. These sites are not to be considered fixed locations and numbers as yet. Sites and numbers may change after careful analyses and view sheds are done by tenderers prior to submitting their bids. This will confirm the most effective placement of cameras, to satisfy the needs of the GRDM in terms of camera coverage in the district. The service provider will need to develop and maintain an inventory of all assets and equipment used for this project.

- 4.4. The following sites (11 sites) with their co-ordinates are proposed, but are subject to change;
- 4.4.1 Note: These sites serve as a guideline only, and will depend on GRDM requirements, as well as the proposed system layout, including maximising view sheds, and increasing detection ranges, and/or coverage differences. The Department together with the Garden Route District Municipality will arrange for a non-compulsory 2-day site visit of these proposed sites.

5x (ES) Existing Structure and 6x (NS) No structure

- 4.4.2 The service provider is required to provide an indication in their bid of where the optimal placement of cameras would be. This can be done through digital mapping (view shed analysis) and in looking at the high fire risk areas throughout the district. Details must be provided on the methodology used to determine the optimal camera network.
- 4.5. For a fully operational Early Warning System for Wildfires the following components are required and are deliverable of the contract
- 4.5.1 Prepare a control room for the early-detection camera system. The control room for the early-detection camera system will be located at the GRDM fire station to monitor activities in the district and will be independent with its own personnel 24/7. The GRDM will only provide the control room, electricity, and internet. Installation, cabling, computer screens, necessary hardware and backup power requirement analysis need to be done by the service provider to ensure that the full system can run from a single standby generator, and the requirements for such a system must be specified.

4.5.2 Installation of smoke-detection cameras for smoke detection, specifically PTZ (Plan, Tilt, Zoom) smoke detection cameras, with a minimum specification of:

- 30x Optical zoom capability.
- Automatic lens cleaning capabilities.
- Colour HD camera, with Day/Night settings.
- Lightning surge protection.
- Minimum of 10 kilometres radius per camera detection distance.

4.6. Masts for installing cameras

4.6.1 Where structures like watchtowers or communication towers exist at camera locations identified through the digital mapping (view shed analysis), GRDM will liaise and negotiate with property owners to use existing structures for camera installation on their property, provided that the structure complies with GRDM/service provider requirements.

4.6.2 Where no existing structures exist, the number of extra masts needed and mast heights shall be determined by the service provider and in the event of private land, GRDM will also liaise and negotiate with respective landowners for permission to erect a mast on their land.

4.6.3 GRDM will put MOUs in place with landowners for the use of private property to ensure no/ low operational cost.

4.6.4 Suggested mast specifications:

- Mast structures need to be able to withstand at least 40m/second wind speeds.
- Class B structures, terrain category 2 and 3-legged lattice structure.
- Average mast height for project is 36m, but this will vary according to adaptations to other structures, and line of sight calculations (hereafter referred to as LOS).
- At least 2m<sup>2</sup> antenna loading.
- Deflection at top should be 68mm max.
- Rotation at top 0.08° max; critical for the accuracy of camera hardware during high winds.;
- Leg size 38mmø x 3-4mm thick, bracing ø12mm, a minimum requirement.
- Wind loading minimum requirement at 36m = 2.10kN.
- Mast can be stayed or free-standing, taking into consideration, twist and movement on the structure, and the local geography.
- Mast must be fitted with navigational warning lights.

- 4.6.5 Masts can be fixed on an existing structure or free-standing. Masts must be fitted with navigational warning lights painted to South African Civil Aviation Authority (SACAA) specifications; fitted with lightning surge protection, and proper earthing; fitted with safety and fall arrest devices. Provision must be made for a first year re-tensioning and structure inspection. Camera shake must be minimised, from the initial day of install, and not be rectified at a later stage. Provision must be made for SACAA fees/structure for the duration of the project. Provision must be made for insurance coverage for structure failure and protection of all equipment in terms of theft or Baboon/Wildlife damage.
- 4.7. Provision of sustainable power supply
- 4.7.1 All cameras must be completely off the grid (i.e., not reliant on grid-supplied electricity) and make use of renewable energy sources for power supply. Proper surge protection for the mast and power regime must be specified. Onsite equipment box for batteries and other hardware needs to be of sufficient size for the specifications related to the power regime. The power system should have battery power for at least 4 days and service providers must suggest alternative means of recharging battery packs if more than 4 days of bad weather persists.
- 4.8. Setting up information and alert dashboard system from the cameras for communication purposes
- 4.8.1 All images need to be time and date stamped, when leaving from the point of origin and upon arrival at the control system, so that integrated software can detect any data loss or network latency. Daily statistics report needs to be generated for analysis for the above. The wireless routing of data must have sufficient bandwidth to ensure effective and timeous delivery of images for monitoring purposes at the control room.
- 4.8.2 All new cameras and systems must be able to integrate seamlessly with any current system's online capability and must extend to all external applications. It must also have the capability to run on various software platforms including the mobile application currently in use in the Knysna area. User license fees or ownership of operating system/software must be clearly stipulated and detailed for the duration of the contract.
- 4.8.3 Data backup and storage for record purposes must be sufficient and clearly specified. The information system needs to incorporate fire permit data/alerts on approved/permitted burns/fires so that control room operators can distinguish these fires from wildfires. This data must also be made available online for users to check the status of permit applications. The system will be an automated system that sends smoke alerts from the smoke-detection cameras to operators monitoring the system from the GRDM.

4.9. Maintenance and repair for all system components for duration of the contract

4.9.1 A technical team to perform maintenance and repairs to all sites of the system should be included in proposal for the duration of the contract. Maintenance must include the cleaning of mast sites in terms of fuel load management in the event of a veld fire for the duration of the contract. (Prevent any damage to system components). A minimum of 2 years warranty must be included for all electronic equipment. A minimum of 2 years guarantee must be included for all structural work and workmanship of the service provider. Any system glitches and problems must be rectified within 24 hours from the time of such difficulties being reported or within a reasonable time as agreed upon between GRDM and the service provider under certain circumstances.

4.10. Training of GRDM personnel on operating the dashboard and other relevant components of the system.

4.10.1 The service provider should provide training to the GRDM operators and other personnel who will be managing the information system referred to in 4.5.1. The appointed staff should receive training for the additional cameras, as well as become familiar with the software, and hardware in use.

**5. TECHNICAL SPECIFICATIONS REQUIRED**

5.1. Prepare the control room for the early-detection camera system where the early-detection camera system will be located i.e., at the GRDM fire station. This activity comprises activities such as installations and cabling, supplying and installation of computer screens, necessary hardware and backup power requirement analysis to ensure that the full system can run from a single standby generator, and the requirements for such a system must be specified.

5.2. PTZ (Pan, Tilt, Zoom) smoke detection cameras, with a minimum specification of:

- 30 x Optical zoom capability,
- Automatic lens cleaning capabilities,
- Colour HD camera with Day/Night settings,
- Lightning surge protection and
- Minimum of 10 kilometres radius per camera detection distance.

5.3. The service provider is required to provide an indication in their bid of where the optimal placement of cameras would be. This can be done through digital mapping (view shed analysis), as well as looking at the high fire risk areas throughout the district. Details must be provided on the methodology used to determine the optimal camera network.

- 5.4. Mast structures needs to be able to withstand at least 40m/second wind speeds. Suggested structure specifications:
- Class B structures, terrain category 2 and 3-legged lattice structure.
  - Average mast height for the project is 36m, but this will vary according to adaptations to other structures, and line of sight calculations (hereafter referred to as LOS).
  - At least 2m<sup>2</sup> antenna loading.
  - Deflection at top should be 68mm max.
  - Rotation at top 0.08° max; considered critical for the accuracy of camera hardware during high winds.
  - Leg size ø38mm x 3-4mm thick, bracing ø12mm, a minimum requirement.
  - Wind loading minimum requirement at 36m = 2.10kN
  - Masts can be stayed or free-standing, taking into consideration, twist and movement on the structure, and the local geography.
- 5.5. Mast must be –
- fitted with SABS Approved navigational warning lights painted to South African Civil Aviation Authority (SACAA) specifications.
  - fitted with lightning surge protection, and proper earthing.
  - fitted with safety and fall arrest devices.
- 5.6. Provision must be made for a first year, re-tensioning and structure inspection. Camera shake must be minimised, from the initial day of install, and not be rectified at a later stage.
- 5.7. Provision must be made for SACAA fees/structure for the duration of the project.
- 5.8. Provision must be made for insurance coverage for structure failure and protection of all equipment in terms of theft or Baboon/Wildlife damage.
- 5.9. All cameras must be completely off the grid (i.e., not reliant on grid-supplied electricity) and make use of **renewable energy sources for power supply**. Proper surge protection for the mast and power regime must be specified. Onsite equipment box for batteries and other hardware needs to be of sufficient size for the specifications related to the power regime.
- 5.10. The power system should have **battery power** for at least 4 days (e.g., during bad weather) and service providers must suggest alternative means of recharging battery packs if more than 4 days of bad weather persists.

- 5.11. All images need to be time and date stamped, when leaving from the point of origin and upon arrival at the control system, so that integrated software can detect any data loss or network latency.
- 5.12. Daily statistics report needs to be generated for analysis for the above.
- 5.13. The wireless routing of data must have sufficient bandwidth to ensure effective and timeous delivery of images for monitoring purposes at the control room.
- 5.14. All new cameras and systems must be able to integrate seamlessly with any current system's online capability and must extend to all external applications. It must also have capability to run on various software platforms including the mobile application currently in use in the Knysna area.
- 5.15. User license fees or ownership of operating system/software must be clearly stipulated and detailed for the duration of the contract.
- 5.16. Data backup and storage for record purposes must be sufficient and clearly specified.
- 5.17. The information system needs to incorporate fire permit data/alerts on approved/permitted burns/fires so that control room operators can distinguish these fires from wildfires. This data must also be made available online for users to check the status of permit applications.
- 5.18. The system must be an automated system that sends smoke alerts from the smoke-detection cameras to operators monitoring the system from the GRDM.
- 5.19. A technical team to perform maintenance and repairs to all sites of the system should be included in proposal for the duration of the contract.
- 5.20. Maintenance must include the cleaning of mast sites in terms of fuel load management in the event of a veldt fire for the duration of the contract (Prevent any damage to system components).
- 5.21. A minimum of 2 years warranty must be included for all electronic equipment. A minimum of 2 years guarantee must be included for all structural work and workmanship of the service provider.
- 5.22. Any system glitches and problems must be rectified within 24 hours from the time of such difficulties being reported or within a reasonable time as agreed upon between GRDM and the service provider under certain circumstances.

- 5.23. The service provider should provide training to the GRDM operators and other personnel who will be managing the information system referred to in 4.6. The appointed staff should receive training for the additional cameras, as well as become familiar with the software, and hardware in use.

## 6. EXPECTED DELIVERABLES / OUTCOMES

- 6.1. The following are specifications which can be used, as a guide, for service provider to submit their proposals. The deliverables from 1-5 are expected to take between 6-8 months and must be conducted simultaneously. The specifications are summarised below with more details provided under the scope of work.
- 6.2. **Deliverable 1:** Control room prepared for the monitoring of smoke from the early-detection camera system (duration of 6-8 months)
- 6.2.1. All relevant installation and cabling
  - 6.2.2. Provision of computer screens and necessary hardware and software
  - 6.2.3. Backup power requirement analysis to be done by the service provider to ensure that the full system can be run from a single standby generator and the requirements for such a system must be specified
  - 6.2.4. The GRDM will provide the control room, electricity and internet;
- 6.3. **Deliverable 2** (existing sites) & 3 (new sites): Installation of cameras (duration of 6-8 months)
- 6.3.1. The optimal number of smoke detection colour HD cameras with a minimum spec of 30 x Optical zoom capability are to be installed. A minimum of 10 kilometres radius per camera detection distance and coverage of at least 80% of the district.
- 6.4. **Deliverable 3:** Installing the required masts (duration of 6-8 months)
- 6.4.1. The service provider will be required to install required masts depending on the results of the view shed analysis which determines where in the district the cameras should be placed. All masts should follow the required standards as stipulated in the section above.
  - 6.4.2. The GRDM will oversee agreements with landowners where necessary.
- 6.5. **Deliverable 4:** Provision of sustainable power supply (duration of 6-8 months)
- 6.5.1. All cameras must be completely off the grid (i.e. not reliant on grid-supplied electricity) and make use of renewable energy sources for power supply. Battery back-up for four days is mandatory with a solution provided and implemented for back-up power during periods of unfavourable weather for power generation.

- 6.6. **Deliverable 5:** Setting up an information and alert dashboard system from the cameras for communication purposes (duration of 6-8 months)
- 6.6.1. A dashboard should be set up for sending alerts when the cameras detect smoke. The images that are received should be date/time stamped and should be stored on GRDM servers or on the cloud depending on the most viable option available.
- 6.6.2. Software applications utilised should be open-source and must be able to integrate seamlessly with any current system's online capability and must extend to all external applications. It must also have capability to run on various software platforms including the mobile application currently in use in the Knysna area. Licence fees should be specified and included in the bid price by the service provider.
- 6.7. **Deliverable 6:** Maintenance and repair for all system components for duration of the contract
- 6.7.1. A technical team to perform maintenance and repairs to all sites of the system should be included in in proposal for the duration of the contract.
- 6.7.2. Maintenance must include the cleaning of mast sites in terms of fuel load management in the event of a veld fire for the duration of the contract. (Prevent any damage to system components).
- 6.7.3. A minimum of 1 year warranty must be included for all electronic equipment. A minimum of 1 year guarantee must be included for all structural work and workmanship of the service provider.
- 6.7.4. Any system glitches and problems must be rectified within 24 hours from the time of such difficulties being reported or within a reasonable time as agreed upon between GRDM and the service provider under certain circumstances
- 6.8. **Deliverable 7:** Training for GRDM personnel on operating the dashboard and other relevant components of the system
- 6.8.1. A structured training provided to GRDM personnel that will be operating the dashboard to operate the system. The GRDM should also be trained on how to maintain other components of the systems should there not be a framework contract in place for the assets, equipment and software associated with the entire system.

## 7. PERIOD / DURATION OF PROJECT / ASSIGNMENT

- 7.1 The project must be completed within twelve (12) months after the date of signature of the Service Level Agreement by both parties.

## 8. INFORMATION SITE VISITS

8.1. A non-compulsory project site briefing session will be held to give clarity to the interested bidders to clarify the scope and extend of work (as referred to in 4.4.1). The bidders will have the opportunity to ask questions where needed and will be taken to visit the proposed sites where the cameras and/or masts will be constructed and installed.

8.2. The Information site visits session will be held as follows:

Date: 08-09 September 2022

Time: 09:00 – 15:00 (both days)

Venue: Garden Route District Municipality, +27 44 878 1000 | +27 83 941 1994  
17 Pioneer Street, Pacaltsdorp Industrial, 6529, George, 6530, South Africa

8.3. Bidders must bring their own transport with some of the sites requiring a 4x4.

## 9. COSTING / COMPREHENSIVE BUDGET

9.1. A comprehensive fixed costing must be provided on **Pricing Schedule - SBD 3.3** inclusive of all disbursement costs, such as delivery costs, travelling and accommodation costs and other expenses

9.2. DFFE reserves the right to negotiate price with a recommended service provider identified in the evaluation process without offering the same opportunity to any other bidder (s) who have not been recommended.

9.3. The service provider must use the Pricing Schedule-**SBD 3.3** to indicate their rates in line with the provisions of deliverables in section 5 above.

9.4. Price will be valid for 120 days.

## 10. EVALUATION CRITERIA

10.1. The evaluation for this bid will be carried out in Four (4) phases:

- Phase 1: Pre-compliance
- Phase 2: Local Content
- Phase 3: Functionality Evaluation
- Phase 4: Price and B-BBEE

**10.2. PHASE 1: Pre-compliance**

10.2.1. During this phase bid documents will be reviewed to determine the compliance with SCM returnable documents, tax matters and whether proof of registration on Central Supplier Database (CSD) has been submitted with the bid documents at the closing date and time of the bid. Bids which do not satisfy the compliance criteria may not be evaluated further.

10.2.2. The bid proposal will be screened for compliance with administrative requirements as indicated below:

ITEM NO.	ADMINISTRATIVE REQUIREMENTS	CHECK/COMPLIANCE
1	Master Bid Document	provided and bound
2	Electronic Copy (USB)	Same as the master bid document
3	SCM - SBD 1 - Invitation to Bid	Completed and signed
4	Tax Compliance and CSD Registration	Attached CSD registration number/ Proof of CSD registration and/or SARS Tax Pin
5	SBD 3.3 - Pricing Schedule	Completed
6	SCM - SBD 4 – Bidders Disclosure	Completed and signed
7	SCM - SBD 6.1 - Preference Points Claim Form in terms of the Preferential Procurement Regulations 2017	Completed and signed
8	SCM - SBD 6.2 - declaration certificate for local production and content for designated sectors (includes Annexure C Form)	Completed and signed
9	In case of bids where Consortia / Joint Ventures, Consortia/Joint Venture agreement signed by both parties must be submitted with bid proposal	JV agreement completed and signed, if applicable

**10.3. PHASE 2: Local Production and Content**

10.3.1. Does local production and content apply for this bid?

**YES**

10.3.2. Regulation 8 of the Preferential Procurement Regulations, 2017 pertaining to the Preferential Procurement Policy Framework Act, Act no 5 of 2000 provides for the

designation of sectors in line with national development and industrial policies for local production.

- 10.3.3. To give effect to the above requirement the Textiles, Clothing, Leather and Footwear sector has been designated for local production and content with a minimum threshold of 100%.
- 10.3.4. Only locally produced or locally manufactured Textiles, Clothing, Leather and Footwear from local raw material or input will therefore be considered. If the raw material or input to be used for a specific item is not available locally, bidders should obtain written authorisation from the Department of Trade and Industry (the DTI) should there be a need to import such raw material or input.
- 10.3.5. A copy of the exemption letter must be submitted together with the bid document at the closing date and time of the bid.
- 10.3.6. The following designated sector of raw material or input issued by the Department of Trade and Industry will apply, bidders must complete and sign SBD 6.2, Annexure C, D and E.
- 10.3.7. SBD 6.2 and Annexure C must be submitted with the bid documents at the closing date and time of the bid. During this evaluation phase, bidder's responses will be evaluated based on the documents submitted under local production and content.
- 10.3.8. Bidders who fail to comply with any of the minimum threshold of local production and content will be disqualified and will not be evaluated further.
- 10.3.9. Bidders are required to complete a table below by ticking the correct box and attached a proof of the document listed on the table below:

#	COMPONENTS	STIPULATED MINIMUM THRESHOLD	COMPLY	
			YES	NO
1	Electrical and Telecom Cables	90%		
2	<b>Solar PVC Components</b>			
	2.1. Laminated PV Modules	15%		
	2.2. Module Frame	65%		
	2.2. DC Combiner Boxes	65%		
	2.3. Mounting Structure	90%		
	2.4. Inverter	40%		
3	Plastic Pipes and Fittings	100%		
4	Industrial Lead Batteries	50%		

- 10.3.10. Prices referred to in the determination of X must be converted to Rand (ZAR) by using the exchange rate published by the South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the bid.

- 10.3.11. The Declaration Certificate for Local Production and Content (SBD 6.2) together with the Annex C (Local Content Declaration: Summary Schedule) must be completed, signed, and submitted with the bidding documents at the closing date and time of the bid. The rates of exchange used by the bidder in paragraph 3.1 of the Declaration Certificate will be verified for accuracy.
- 10.3.12. A bid may be disqualified if the above-mentioned Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted as part of the bid documentation, and the bidder fails to declare that the Local Content Declaration Templates (Annex C, D and E) have been audited and certified as correct.
- 10.3.13. A contract awarded in relation to a designated sector, may not be sub-contracted in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.

**10.4. PHASE 3: FUNCTIONALITY CRITERIA**

- 10.4.1. Only bid proposals that meets pre-compliance and mandatory will be evaluated on functionality criteria.
- 10.4.2. The bidder must score a minimum of **75%**, during phase 2 (functionality/technical) of the evaluation to qualify for Phase 3 of the evaluation where only points for price and BBBEE will be considered.
- 10.4.3. The ratings from 1 to 5 will be applicable when evaluating functionality:

## DECLARATION CERTIFICATE FOR LOCAL PRODUCTION AND CONTENT

This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2011 and the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:201x.

### 3. General Conditions

- .1. Preferential Procurement Regulations, 2011 (Regulation 9. (1) and 9. (3) make provision for the promotion of local production and content.
- .2. Regulation 9. (1) prescribes that in the case of designated sectors, where in the award of bids local production and content is of critical importance, such bids must be advertised with the specific bidding condition that only locally produced goods, services or works or locally manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- .3. Regulation 9. (3) prescribes that where there is no designated sector, a specific bidding condition may be included, that only locally produced services, works or goods or locally manufactured goods with a stipulated minimum threshold for local production and content, will be considered.
- .4. Where necessary, for bids referred to in paragraphs 1.2 and 1.3 above, a two stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- .5. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- .6. The local content (LC) as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 201x as follows:

$$LC = 1 - \left[ \frac{x}{y} \right] \times 100$$

Where

x imported content

y bid price excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) at 12:00 on the date, one week (7 calendar days) prior to the closing date of the bid as indicated in paragraph 4.1 below.

- .7. A bid will be disqualified if:

- the bidder fails to achieve the stipulated minimum threshold for local production and content indicated in paragraph 3 below; and.
- this declaration certificate is not submitted as part of the bid documentation.

3. Definitions

- .1. **“bid”** includes advertised competitive bids, written price quotations or proposals;
- .2. **“bid price”** price offered by the bidder, excluding value added tax (VAT);
- .3. **“contract”** means the agreement that results from the acceptance of a bid by an organ of state;
- .4. **“designated sector”** means a sector, sub-sector or industry that has been designated by the Department of Trade and Industry in line with national development and industrial policies for local production, where only locally produced services, works or goods or locally manufactured goods meet the stipulated minimum threshold for local production and content;
- .5. **“duly sign”** means a Declaration Certificate for Local Content that has been signed by the Chief Financial Officer or other legally responsible person nominated in writing by the Chief Executive, or senior member / person with management responsibility (close corporation, partnership or individual).
- .6. **“imported content”** means that portion of the bid price represented by the cost of components, parts or materials which have been or are still to be imported (whether by the supplier or its subcontractors) and which costs are inclusive of the costs abroad, plus freight and other direct importation costs, such as landing costs, dock duties, import duty, sales duty or other similar tax or duty at the South African port of entry;
- .7. **“local content”** means that portion of the bid price which is not included in the imported content, provided that local manufacture does take place;
- .8. **“stipulated minimum threshold”** means that portion of local production and content as determined by the Department of Trade and Industry; and
- .9. **“sub-contract”** means the primary contractor’s assigning, leasing, making out work to, or employing another person to support such primary contractor in the execution of part of a project in terms of the contract.

**3. The stipulated minimum threshold(s) for local production and content for this bid is/are as follows:**

<u>Description of services, works or goods</u>	<u>Stipulated minimum threshold</u>
1. Electrical and Telecom Cables	90%
<b>2. Solar PVC Components</b>	
2.1. Laminated PV Modules	15%
2.2. Module Frame	65%
2.2. DC Combiner Boxes	65%

2.3. Mounting Structure	90%
2.4. Inverter	40%
3. Plastic Pipes and Fittings	100%
4. Industrial Lead Batteries	50%

3. Does any portion of the services, works or goods offered have any imported content? YES / NO

4.1 If yes, the rate(s) of exchange to be used in this bid to calculate the local content as prescribed in paragraph 1.6 of the general conditions must be the rate(s) published by SARB for the specific currency at 12:00 on the date, one week (7 calendar days) prior to the closing date of the bid.

The relevant rates of exchange information are accessible on [www.reservebank.co.za](http://www.reservebank.co.za).

Indicate the rate(s) of exchange against the appropriate currency in the table below:

Currency	Rates of exchange

**ISSUED BY:** (Procurement Authority / Name of Institution):  
.....

NB The obligation to complete, duly sign and submit this declaration cannot be transferred to an external authorized representative, auditor or any other third party acting on behalf of the bidder.

I, the undersigned, ..... (full names), do hereby declare, in my capacity as ..... of .....(name of bidder entity), the following:

(a) The facts contained herein are within my own personal knowledge.

(b) I have satisfied myself that the goods/services/works to be delivered in terms of the above-specified bid comply with the minimum local content requirements as specified in the bid, and as measured in terms of SATS 1286.

(c) The local content has been calculated using the formula given in clause 3 of SATS 1286, the rates of exchange indicated in paragraph 4.1 above and the following figures:

Bid price, excluding VAT (y)	R
Imported content (x)	R
Stipulated minimum threshold for Local content (paragraph 3 above)	
Local content %, as calculated in terms of SATS 1286	

If the bid is for more than one product, a schedule of the local content by product shall be attached.

(d) I accept that the Procurement Authority / Institution has the right to request that the local content be verified in terms of the requirements of SATS 1286.

(e) I understand that the awarding of the bid is dependent on the accuracy of the information furnished in this application. I also understand that the submission of incorrect data, or data that are not verifiable as described in SATS 1286, may result in the Procurement Authority / Institution imposing any or all of the remedies as provided for in Regulation 13 of the Preferential Procurement Regulations, 2011 promulgated under the Policy Framework Act (PPFA), 2000 (Act No. 5 of 2000).

## General Conditions of Contract

### 1. Definitions

1. The following terms shall be interpreted as indicated:
  - 1.1 “Closing time” means the date and hour specified in the bidding documents for the receipt of bids.
  - 1.2 “Contract” means the written agreement entered into between the purchaser and the supplier, as recorded in the contract form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
  - 1.3 “Contract price” means the price payable to the supplier under the contract for the full and proper performance of his contractual obligations.
  - 1.4 “Corrupt practice” means the offering, giving, receiving, or soliciting of any thing of value to influence the action of a public official in the procurement process or in contract execution.
  - 1.5 "Countervailing duties" are imposed in cases where an enterprise abroad is subsidized by its government and encouraged to market its products internationally.
  - 1.6 “Country of origin” means the place where the goods were mined, grown or produced or from which the services are supplied. Goods are produced when, through manufacturing, processing or substantial and major assembly of components, a commercially recognized new product results that is substantially different in basic characteristics or in purpose or utility from its components.
  - 1.7 “Day” means calendar day.
  - 1.8 “Delivery” means delivery in compliance of the conditions of the contract or order.
  - 1.9 “Delivery ex stock” means immediate delivery directly from stock actually on hand.
  - 1.10 “Delivery into consignees store or to his site” means delivered and unloaded in the specified store or depot or on the specified site in compliance with the conditions of the contract or order, the supplier bearing all risks and charges involved until the supplies are so delivered and a valid receipt is obtained.
  - 1.11 "Dumping" occurs when a private enterprise abroad market its goods on own initiative in the RSA at lower prices than that of the country of origin and which have the potential to harm the local industries in the

RSA.

- 1.12 "Force majeure" means an event beyond the control of the supplier and not involving the supplier's fault or negligence and not foreseeable. Such events may include, but is not restricted to, acts of the purchaser in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.
- 1.13 "Fraudulent practice" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of any bidder, and includes collusive practice among bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the bidder of the benefits of free and open competition.
- 1.14 "GCC" means the General Conditions of Contract.
- 1.15 "Goods" means all of the equipment, machinery, and/or other materials that the supplier is required to supply to the purchaser under the contract.
- 1.16 "Imported content" means that portion of the bidding price represented by the cost of components, parts or materials which have been or are still to be imported (whether by the supplier or his subcontractors) and which costs are inclusive of the costs abroad, plus freight and other direct importation costs such as landing costs, dock dues, import duty, sales duty or other similar tax or duty at the South African place of entry as well as transportation and handling charges to the factory in the Republic where the supplies covered by the bid will be manufactured.
- 1.17 "Local content" means that portion of the bidding price which is not included in the imported content provided that local manufacture does take place.
- 1.18 "Manufacture" means the production of products in a factory using labour, materials, components and machinery and includes other related value-adding activities.
- 1.19 "Order" means an official written order issued for the supply of goods or works or the rendering of a service.
- 1.20 "Project site," where applicable, means the place indicated in bidding documents.
- 1.21 "Purchaser" means the organization purchasing the goods.
- 1.22 "Republic" means the Republic of South Africa.
- 1.23 "SCC" means the Special Conditions of Contract.
- 1.24 "Services" means those functional services ancillary to the supply of the goods, such as transportation and any other incidental services, such as installation, commissioning, provision of technical assistance, training, catering, gardening, security, maintenance and other such

obligations of the supplier covered under the contract.

1.25 “Written” or “in writing” means handwritten in ink or any form of electronic or mechanical writing.

## **2. Application**

2.1 These general conditions are applicable to all bids, contracts and orders including bids for functional and professional services, sales, hiring, letting and the granting or acquiring of rights, but excluding immovable property, unless otherwise indicated in the bidding documents.

2.2 Where applicable, special conditions of contract are also laid down to cover specific supplies, services or works.

2.3 Where such special conditions of contract are in conflict with these general conditions, the special conditions shall apply.

## **3. General**

3.1 Unless otherwise indicated in the bidding documents, the purchaser shall not be liable for any expense incurred in the preparation and submission of a bid. Where applicable a non-refundable fee for documents may be charged.

3.2 With certain exceptions, invitations to bid are only published in the Government Tender Bulletin. The Government Tender Bulletin may be obtained directly from the Government Printer, Private Bag X85, Pretoria 0001, or accessed electronically from [www.treasury.gov.za](http://www.treasury.gov.za)

## **4. Standards**

4.1 The goods supplied shall conform to the standards mentioned in the bidding documents and specifications.

## **5. Use of contract documents and information; inspection.**

5.1 The supplier shall not, without the purchaser’s prior written consent, disclose the contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the purchaser in connection therewith, to any person other than a person employed by the supplier in the performance of the contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.

5.2 The supplier shall not, without the purchaser’s prior written consent, make use of any document or information mentioned in GCC clause 5.1 except for purposes of performing the contract.

5.3 Any document, other than the contract itself mentioned in GCC clause 5.1 shall remain the property of the purchaser and shall be returned (all copies) to the purchaser on completion of the supplier’s performance under the contract if so required by the purchaser.

5.4 The supplier shall permit the purchaser to inspect the supplier’s records relating to the performance of the supplier and to have them audited by auditors appointed by the purchaser, if so required by the purchaser.

## **6. Patent rights**

6.1 The supplier shall indemnify the purchaser against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the goods or any part thereof by the purchaser.

**7. Performance security**

- 7.1 Within thirty (30) days of receipt of the notification of contract award, the successful bidder shall furnish to the purchaser the performance security of the amount specified in SCC.
- 7.2 The proceeds of the performance security shall be payable to the purchaser as compensation for any loss resulting from the supplier's failure to complete his obligations under the contract.
- 7.3 The performance security shall be denominated in the currency of the contract, or in a freely convertible currency acceptable to the purchaser and shall be in one of the following forms:
  - (a) a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the purchaser's country or abroad, acceptable to the purchaser, in the form provided in the bidding documents or another form acceptable to the purchaser; or
  - (b) a cashier's or certified cheque
- 7.4 The performance security will be discharged by the purchaser and returned to the supplier not later than thirty (30) days following the date of completion of the supplier's performance obligations under the contract, including any warranty obligations, unless otherwise specified in SCC.

**8. Inspections, tests and analyses**

- 8.1 All pre-bidding testing will be for the account of the bidder.
- 8.2 If it is a bid condition that supplies to be produced or services to be rendered should at any stage during production or execution or on completion be subject to inspection, the premises of the bidder or contractor shall be open, at all reasonable hours, for inspection by a representative of the Department or an organization acting on behalf of the Department.
- 8.3 If there are no inspection requirements indicated in the bidding documents and no mention is made in the contract, but during the contract period it is decided that inspections shall be carried out, the purchaser shall itself make the necessary arrangements, including payment arrangements with the testing authority concerned.
- 8.4 If the inspections, tests and analyses referred to in clauses 8.2 and 8.3 show the supplies to be in accordance with the contract requirements, the cost of the inspections, tests and analyses shall be defrayed by the purchaser.
- 8.5 Where the supplies or services referred to in clauses 8.2 and 8.3 do not comply with the contract requirements, irrespective of whether such supplies or services are accepted or not, the cost in connection with these inspections, tests or analyses shall be defrayed by the supplier.
- 8.6 Supplies and services which are referred to in clauses 8.2 and 8.3 and which do not comply with the contract requirements may be rejected.
- 8.7 Any contract supplies may on or after delivery be inspected, tested or

analyzed and may be rejected if found not to comply with the requirements of the contract. Such rejected supplies shall be held at the cost and risk of the supplier who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with supplies which do comply with the requirements of the contract. Failing such removal the rejected supplies shall be returned at the suppliers cost and risk. Should the supplier fail to provide the substitute supplies forthwith, the purchaser may, without giving the supplier further opportunity to substitute the rejected supplies, purchase such supplies as may be necessary at the expense of the supplier.

8.8 The provisions of clauses 8.4 to 8.7 shall not prejudice the right of the purchaser to cancel the contract on account of a breach of the conditions thereof, or to act in terms of Clause 23 of GCC.

**9. Packing**

9.1 The supplier shall provide such packing of the goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the contract. The packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packing, case size and weights shall take into consideration, where appropriate, the remoteness of the goods' final destination and the absence of heavy handling facilities at all points in transit.

9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the contract, including additional requirements, if any, specified in SCC, and in any subsequent instructions ordered by the purchaser.

**10. Delivery and documents**

10.1 Delivery of the goods shall be made by the supplier in accordance with the terms specified in the contract. The details of shipping and/or other documents to be furnished by the supplier are specified in SCC.

10.2 Documents to be submitted by the supplier are specified in SCC.

**11. Insurance**

11.1 The goods supplied under the contract shall be fully insured in a freely convertible currency against loss or damage incidental to manufacture or acquisition, transportation, storage and delivery in the manner specified in the SCC.

**12. Transportation**

12.1 Should a price other than an all-inclusive delivered price be required, this shall be specified in the SCC.

**13. Incidental services**

13.1 The supplier may be required to provide any or all of the following services, including additional services, if any, specified in SCC:

- (a) performance or supervision of on-site assembly and/or commissioning of the supplied goods;
- (b) furnishing of tools required for assembly and/or maintenance of the supplied goods;
- (c) furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied goods;

- (d) performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and
- (e) training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.

13.2 Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.

**14. Spare parts**

14.1 As specified in SCC, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the supplier:

- (a) such spare parts as the purchaser may elect to purchase from the supplier, provided that this election shall not relieve the supplier of any warranty obligations under the contract; and
- (b) in the event of termination of production of the spare parts:
  - (i) Advance notification to the purchaser of the pending termination, in sufficient time to permit the purchaser to procure needed requirements; and
  - (ii) following such termination, furnishing at no cost to the purchaser, the blueprints, drawings, and specifications of the spare parts, if requested.

**15. Warranty**

15.1 The supplier warrants that the goods supplied under the contract are new, unused, of the most recent or current models, and that they incorporate all recent improvements in design and materials unless provided otherwise in the contract. The supplier further warrants that all goods supplied under this contract shall have no defect, arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications) or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.

15.2 This warranty shall remain valid for twelve (12) months after the goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for eighteen (18) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in SCC.

15.3 The purchaser shall promptly notify the supplier in writing of any claims arising under this warranty.

15.4 Upon receipt of such notice, the supplier shall, within the period specified in SCC and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.

15.5 If the supplier, having been notified, fails to remedy the defect(s) within the period specified in SCC, the purchaser may proceed to take

such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

- 16. Payment**
- 16.1 The method and conditions of payment to be made to the supplier under this contract shall be specified in SCC.
- 16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfillment of other obligations stipulated in the contract.
- 16.3 Payments shall be made promptly by the purchaser, but in no case later than thirty (30) days after submission of an invoice or claim by the supplier.
- 16.4 Payment will be made in Rand unless otherwise stipulated in SCC.
- 17. Prices**
- 17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices quoted by the supplier in his bid, with the exception of any price adjustments authorized in SCC or in the purchaser's request for bid validity extension, as the case may be.
- 18. Contract amendments**
- 18.1 No variation in or modification of the terms of the contract shall be made except by written amendment signed by the parties concerned.
- 19. Assignment**
- 19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.
- 20. Subcontracts**
- 20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contracts if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.
- 21. Delays in the supplier's performance**
- 21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.
- 21.2 If at any time during performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.
- 21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.
- 21.4 The right is reserved to procure outside of the contract small quantities or to have minor essential services executed if an emergency arises, the

supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.

21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.

21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without canceling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and without prejudice to his other rights, be entitled to claim damages from the supplier.

## **22. Penalties**

22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services using the current prime interest rate calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

## **23. Termination for default**

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the Supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

23.4 If a purchaser intends imposing a restriction on a supplier or any

person associated with the supplier, the supplier will be allowed a time period of not more than fourteen (14) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated fourteen (14) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.

23.5 Any restriction imposed on any person by the Accounting Officer / Authority will, at the discretion of the Accounting Officer / Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person, is or was in the opinion of the Accounting Officer / Authority actively associated.

23.6 If a restriction is imposed, the purchaser must, within five (5) working days of such imposition, furnish the National Treasury, with the following information:

- (i) the name and address of the supplier and / or person restricted by the purchaser;
- (ii) the date of commencement of the restriction
- (iii) the period of restriction; and
- (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, No. 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

**24. Anti-dumping and countervailing duties and rights**

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidized import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall on demand be paid forthwith by the contractor to the State or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which

may be due to him

**25. Force Majeure**

- 25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if and to the extent that his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.
- 25.2 If a force majeure situation arises, the supplier shall promptly notify the purchaser in writing of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

**26. Termination for insolvency**

- 26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

**27. Settlement of Disputes**

- 27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve amicably such dispute or difference by mutual consultation.
- 27.2 If, after thirty (30) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.
- 27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.
- 27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.
- 27.5 Notwithstanding any reference to mediation and/or court proceedings herein,
- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
  - (b) the purchaser shall pay the supplier any monies due the supplier.

**28. Limitation of liability**

- 28.1 Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to Clause 6;
- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and

- (b) aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.
- 29. Governing language** 29.1 The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.
- 30. Applicable law** 30.1 The contract shall be interpreted in accordance with South African laws, unless otherwise specified in SCC.
- 31. Notices** 31.1 Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail and any other notice to him shall be posted by ordinary mail to the address furnished in his bid or to the address notified later by him in writing and such posting shall be deemed to be proper service of such notice
- 31.2 The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.
- 32. Taxes and duties** 32.1 A foreign supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside the purchaser's country.
- 32.2 A local supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted goods to the purchaser.
- 32.3 No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid the Department must be in possession of a tax clearance certificate, submitted by the bidder. This certificate must be an original issued by the South African Revenue Services.
- 33. National Industrial Participation (NIP) Programme** 33.1 The NIP Programme administered by the Department of Trade and Industry shall be applicable to all contracts that are subject to the NIP obligation.
- 34 Prohibition of Restrictive practices** 34.1 In terms of section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, an agreement between, or concerted practice by, firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder (s) is / are or a contractor(s) was / were involved in collusive bidding (or bid rigging).
- 34.2 If a bidder(s) or contractor(s), based on reasonable grounds or evidence obtained by the purchaser, has / have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act No. 89 of 1998.

- 34.3 If a bidder(s) or contractor(s), has / have been found guilty by the Competition Commission of the restrictive practice referred to above, the purchaser may, in addition and without prejudice to any other remedy provided for, invalidate the bid(s) for such item(s) offered, and / or terminate the contract in whole or part, and / or restrict the bidder(s) or contractor(s) from conducting business with the public sector for a period not exceeding ten (10) years and / or claim damages from the bidder(s) or contractor(s) concerned.
