CPG Partner/s – Service provider/s selected from Umgeni Water's Supply Chain Management (SCM) Enterprise Development Database.

Tenderers (the main supplier irrespective of BBBEE classification) who are on Umgeni Water's SCM Enterprise Development Database are not exempt from this requirement and are still required to have a CPG Partner.

 - Re-measurable Items (including CPA, and provisional sums) – Each re-measurable item change will be evaluated by the Employer's Agent and the Project Manager to determine whether it should be counted as part of CPG or not.

Within 2 weeks of the award of contract, the tenderer will be required to submit a cash flow projection for the main contractor and the CPG Partner/s

Applicability

The CPG target is applicable to all contracts to be adjudicated through the Umgeni Water procurement process and shall be achieved through the following mechanisms:-

- CPG Partner/s selection is concluded **after** adjudication of tenders and **before** contract award is made.
- The CPG Partner/s shall be selected according to the following criteria:

- Value of the work to be sub contracted shall be at least **35% (minimum of 10% shall be due to Black Women participation and another 10% for Local participation)** of the total contract value excluding VAT, CPA and Contingencies.
- CPA is payable to the CPG Partner/s as per the indices stipulated in the contract document.
- The work allocated to the CPG Partner shall be performed by the CPG Partner directly and may not be allocated or sub-contracted out to other contractors/consultants/service providers.

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and State Owned Entities purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1. PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
 - (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a pro-rata basis.
- 1.3 To satisfy the NIP obligation the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.
- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2. REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful tenderers (Suppliers) are required to, immediately after the award of a contract that is in excess of R10 million (ten million Rands), submit details of such a contract to the DTI for reporting purposes.
- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3. TENDER SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF TENDERERS AND SUCCESSFUL TENDERERS (SUPPLIERS)

- 3.1 Tenderers are required to sign and submit this Section together with the tender on the closing date and time.

3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1(d) above and to enable the DTI in determining the NIP obligation, successful tenderers (Suppliers) are required, immediately after being officially notified about any successful tender with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Tender / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.

3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted in telephone (012) 3941401, facsimile (012) 3942401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4. PROCESS TO SATISFY THE NIP OBLIGATION

4.1 Once the successful tenderer (Supplier) has made contact with and furnished the DTI with the information required, the following steps will be followed:

- (a) the Supplier and the DTI will determine the NIP obligation;
- (b) the Supplier and the DTI will sign the NIP obligation agreement;
- (c) the Supplier will submit a performance guarantee to the DTI;
- (d) the Supplier will submit a business concept for consideration and approval by the DTI;

Strategic Stockholding Requirements

The quantities listed on the pricing schedule are our best estimates but should not be considered as binding. Umgeni Water reserves the right to either increase or decrease the quantities actually ordered. The successful supplier is required to hold stock of raw material, equivalent to one month's supply, based on average usage of product by the sites, at his premises and costs. Umgeni Water reserves the right to audit the stock holding of the raw material at the successful supplier's premises, at any time during the contractual period. Should this ever drop to a level below one month of stock, Umgeni Water is to be immediately notified. The contract will be for a period of 60 months.

4. Use of reasonable skill and care

Transportation of Bulk Chemicals for Deliveries

- The vehicle driver must be a Certified Hazchem Driver
- The vehicle used for delivery of chemicals must be adequately equipped to off-load chemicals at the delivery point.
- The vehicle must also be in sound operational condition to ensure no leakage of chemical, oils and other undesirable substances when delivering or transporting chemicals to site.
- All spills are to be cleaned by the Supplier.
- The vehicle is to be clearly marked and carry all necessary safety equipment to ensure that off-loading can be conducted in a manner that will not endanger the environment or personnel
- Non-compliance with the above will render the supplier in breach of contract and any remedial work arising from such situation will be for the supplier's account.

g) The successful supplier must provide emergency contact details of a responsible person who can deal with any situation arising from a delivery or any other problem directly linked to the use of the chemical supplied.

h) Non-compliance with clause c above shall render the vehicle unfit to enter the premises. The successful supplier however, will still be responsible to ensure that the product is delivered.

5. Co-operation with other services providers

Determination of Mass Delivered

a) The successful supplier, at an assized Weighbridge, must determine the mass of each delivery. The method of weighing should accurately reflect the mass of the chemical delivered. A weighbridge at the point of supply is acceptable if it is assized and the method of weighing provided by the successful supplier satisfies Umgeni Water that the mass of chemical delivered is accurate. If no assized weighbridge is available at the point of supply, the successful supplier is to indicate which weighbridge is to be used. The successful supplier is to indicate the distance (in km) from the weighbridge to the delivery point and the method of weighing used to satisfy Umgeni Water that the mass of the chemical delivered is accurately determined.

b) Calibration of the Weighbridge used must be certified assized for any current year by the Government assizer and bear the Official Assize Stamp.

c) The weighbridge certificate of mass determination must be supplied within 24 hours of delivery.

d) The use of any weighbridge other than identified above without prior notification of Umgeni Water would constitute a breach of contract. Such notification would require confirmation by the successful supplier by fax or e-mail. If the use of an alternative weighbridge is accepted by Umgeni Water, the alternative must meet all the requirements as indicated in a), b) and c) above

6. Brief

The quantities listed on the pricing schedule are our best estimates but should not be considered as binding. Umgeni Water reserves the right to either increase or decrease the quantities actually ordered. The successful supplier is required to hold stock, equivalent to one month's supply, based on average usage of product by the sites, at his premises and costs. Umgeni Water reserves the right to audit the stock holding at the supplier's premises, at any time during the contractual period. Should this ever drop to a level below one month of stock, Umgeni Water is to be immediately notified.

The contract will be for a period of 60 months.

7. Reference data

It must be clearly understood that should, in the opinion of Umgeni Water the chemical being supplied, be found at any stage of the duration of the contract to be ineffective in treating the water to the standards specified herein, Umgeni Water reserves the right to buy in any other chemicals necessary to ensure the satisfactory operation of the water treatment process. Any increase in price as a result of such change will be for the Supplier's account.

Following such a change in chemical dosage, the onus will be on the Supplier to demonstrate to Umgeni Water that the chemicals are once again capable of treating the raw water satisfactorily.

8. Applicable national and international standards

The successful supplier must be ISO 9001:2015 and 14001 accredited and must comply with the Occupational Health and Safety Act (Act 85 of 1993). The supplier must further conform to standards deemed necessary by Umgeni Water

9. Particular/Generic specifications

The delivery lead-time from the date of receipt of the order shall be no more than five working days. Deliveries to reach sites during normal working hours between the hours of 08h30 and 14h00, unless otherwise agreed to by the Superintendent of the Works. In the event of a cost being incurred due to late delivery, this will be for the account of the supplier. A certificate of analysis and safety data sheet must accompany each delivery, failing which the delivery will not be accepted.

12. Quality management
