## 1. INTRODUCTION

The Atlantis Special Economic Zone (ASEZ) is a greentech zone, which focuses on attracting companies and investors which contribute to zero carbon emissions, resource-efficiency, and socially inclusive investment. It is building a sustainable manufacturing environment and actively explores how to also run a zero carbon, transition.” The entity has ambitious goals such as building skills and enterprises in and around the Atlantis environment for application in the green economy, generating and supplying renewable energy to its future investors, being a net-zero water user, and having no waste go to landfill.

The Atlantis Special Economic Zone Company SOC Ltd (ASEZCo) is a state-owned entity as defined in the Companies Act and a provincial public entity listed under schedule 3D of the PFMA and is characterized as a government business enterprise. The shareholders are the Western Cape Government and the City of Cape Town.

The ASEZCo is a geographical area of 118 hectares in the industrial area of Atlantis. It is a Greentech SEZ with the objective of attracting Greentech manufacturers. The ASEZCo currently consists of a number of investors on privately owned land (about 25ha) as well as three separate portions of vacant and industrial zoned land owned by the City of Cape Town (+93ha). This land is in the process of being acquired from the City of Cape Town.

1.2. The ASEZ is a geographical area of 118 hectares in the industrial area of Atlantis. This 118 hectares consists of 25ha of privately owned land which hosts a number of investors on privately owned land, as well as three separate portions of vacant and industrial zoned land owned by the Atlantis Special Economic Zone Company (comprising +93ha). These three portions are referred to as Zone 1, Zone 2 and Zone 3 respectively.

1.3. Zone 1 (22 ha) has been fully serviced, with civil works completed in 2025. This includes perimeter fencing, an off-grid guardhouse with boom gates, internal roads, integrated stormwater and bulk service networks (water, sewer, firewater, electricity, and fibre), solar-ready street lighting with landscaped public areas and security systems. Construction of the first factory on Zone 1 is underway, with operations planned for March 2026. Zone 2 (33 ha) remains an un-serviced greenfield site. Zone 3 (39 ha) is also an un-serviced greenfield site intended for long-term expansion.

1.4. In general, the development plans (2025-2030) for the whole Atlantis SEZ, can be summarized as:

- Complete to-structure rollout in Zone 1 and begin tenant operations.
- Secure civil infrastructure funding and commence development in Zone 2 and Zone 3.
- Progressively provide for factory building on Zone 2 and Zone 3.
- Expand embedded solar generation (rooftop solar panel) for each factory to be built.
- Continue growing sectoral clusters in renewable energy, e-waste, agri-processing, and micro-mobility.
- Deepen skills and enterprise development through the Integrated Ecosystem Services (IES) Programmes, aligning workforce pipelines to tenant demand.

1.5. The ASEZCo aims to contribute to green industrial development, decent work and other economic and social benefits in the region of Atlantis. This includes the broadening of economic participation by promoting small, micro and medium enterprises, and promoting skills and technology transfer. The area is a platform for Greentech industrial development in the Western Cape.

## 2. PURPOSE

2.1 ASEZCo has recognized that its internal professional capacity is insufficient to effectively implement the engineering design, procurement and construction of Solar and Battery Solutions. This has prompted the ASEZCo to embark on a capacity-strengthening process by appointing a **renewable energy Engineering, Procurement, and Construction (EPC) Service Provider, to render comprehensive services for the Planning, Design, and Construction of Solar and Battery Storage Solutions for the Quantum V3 Facility within the Atlantis Special Economic Zone.**

## 3. BACKGROUND

3.2. The ASEZ is being developed in phases. Phase 1 (Zone 1) has already been fully serviced with bulk and internal civil engineering infrastructure. Several top-structure projects are also underway including factory refurbishment (stand-alone site), and new investor facilities.

**3.3. Further phases of development are now in planning and preparation:**

**Zone 2 (±34 hectares):** earmarked for expansion of green manufacturing and related industrial activities.

**Zone 3 (±38 hectares):** planned for larger-scale anchor investors and strategic infrastructure to support regional value chains.

The ASEZCo Master Plan envisions a multi-purpose industrial precinct, and by extension; Quantum V3 Facility, that will accommodate:

- Industrial and manufacturing Facilities
- Office Space
