3. TERMS OF REFERENCE

3.1 INTRODUCTION

3.1.1 The Social Housing Program is an important human settlement program, and government investment is on the increase to expand the program. The social housing program is also challenged by the fact that social housing units may only be delivered in designated restructuring zones. These zones are intended to provide the geographic focus for accommodation opportunities for low to middle-income earners that are close to facilities, amenities, and income-generating opportunities. This ensures that social housing developments protect low to middle-income earners from displacement and bring them into areas of economic and other opportunities.

3.1.2 The key strategic priorities for the Free State Province are to:

- 3.1.2.1 Create suitably structured and capacitated organisational responses to rental housing in designated restructuring zones.
- 3.1.2.2 Boost the supply of targeted, state-subsidised rental housing in designated restructuring zones.
- 3.1.2.3 Facilitate and promote intergovernmental cooperation in the development of rental housing opportunities.
- 3.1.2.4 Facilitate and promote appropriate restructuring zone management to promote rental housing effectively and efficiently.
- 3.1.2.5 Facilitate viable rental property management capacity, arrangements, and systems.
- 3.1.2.6 Develop a strategy and implementation plan for enhancing the delivery of government-driven social and rental housing in the Province.
- 3.1.2.7 Align the efforts within the Province by ensuring cooperative and integrated planning, budgeting, prioritization, and monitoring of initiatives.

RFB - Appointment of a service provider for the development of the Free State province rental housing strategy, implementation plan and provincial market and demand study for social housing.

- 3.1.2.8 Facilitate the removal of blockages to rental housing implementation.
- 3.1.2.9 Share and promote best practices on rental housing and the rental housing sector.
- 3.1.2.10 Promote the establishment of restructuring zones and encourage municipalities to develop such restructuring zones to their full potential.
- 3.1.3 In terms of the “Breaking New Ground” policy framework, the emphasis on housing for the subsidised market is to move away from the predominance of ownership as a form of tenure to creating a range of housing choices to suit people’s needs.
- 3.1.4 The programmes and initiatives are directly supported by social housing legislation, social housing policy, and the Community Residential Units policy framework. These affordable rental housing programmes have well-developed process plans, grant financing mechanisms, process flows, and technical support arrangements. National policies and programmes on the provision of rental housing opportunities for low- to medium-income households have also been developed, including Social Housing and Community Residential Units.
- 3.1.5 The rental housing policies clarify the role of all three spheres of government as well as Social Housing Institutions (SHIs) and private sector delivery agents (ODAs) in undertaking the delivery and management of the stock. It recognises the importance of the Free State Province in the following functions:
- Ensure the development of provincial and municipal rental housing plans and strategies.
 - Align the involvement of the key government and other stakeholders in delivering the strategy.
 - Facilitate the removal of blockages to delivery.
 - Manage the development and broad approval of project pipelines for the different programmes.
 - Recommend and endorse projects for approval by the SHRA concerning social housing in line with the minimum investment criteria.

RFB - Appointment of a service provider for the development of the Free State province rental housing strategy, implementation plan and provincial market and demand study for social housing.

- Track progress made on delivery against agreed strategies and recommend interventions, if deemed necessary.
- Provide oversight on monitoring and evaluation of the implementation of projects.
- Performing day-to-day activities related to cooperative governance arrangements.
- Test and develop generic templates for the systems, processes, and institutional arrangements for approvals, implementation, monitoring, and evaluation of rental housing projects.
- Promote the identification of restructuring zones, facilitate the submission of restructuring zones to the Minister of Human Settlements for approval, and promote and encourage the development of gazetted restructuring zones to their full potential.
- Exercise overall budget oversight.
- Encourage communication with SHIs and ODAs, community structures, professionals, funding agencies, and contractors/ developers to participate in the rental housing programs.
- Conciliate differences between the representatives from the three spheres of government.
- Develop Medium Term Development Plan (MTDP) targets for the rental housing program.
- Promote full project readiness and viability of pipeline social housing projects before it is recommended to the SHRA for accreditation.
- Facilitate and encourage capacity development in the rental housing sector.
- Facilitate good relations between landowners and tenants and facilitate capacity building for both regarding their obligations, rights, and responsibilities.

3.1.6 Given the assignment of this critical role and to achieve the above, Provinces must provide a strategic framework and implementation model within which the Rental Program can be delivered in a clear and focused manner. In terms of the Medium-Term Development Plan (MTDP) of the National Department of Human

Settlement, 13,000 social housing units need to be delivered and constructed over a five (5) year period from 2024-2029.

- 3.1.7 It is for these reasons that the Free State Province requires the development of a **Free State Provincial Housing Strategy and Implementation Plan** that can guide practical implementation as part of the province's mandate to ensure the delivery of social housing opportunities in the province.
- 3.1.8 These factors provide a clear indication that the Free State Province needs to play a leading role in creating a range of housing choices and tenure options to suit the demand for housing. Affordable rental housing is an option to expand the range of choices in the province.

- 3.2.3 Also, recommendations including those for policy revision or the development of new policies that will enable the rental program must be presented.

- **Residential Market Analysis** – South Africa affordable housing overview, local residential market activity in the surrounding areas, residential demand modelling, what is an overview of the residential market trends underlining the source market area.
- **Social Housing sector analysis** – size of the existing portfolio, what is the size of the planned and approved developments, what are the occupancy vs vacancy rates, what are the average vacancy filling turnaround times, what are the unit types and sizes for which the market shows most appetite.

5. EVALUATION PROCESS

COMPLIANCE WITH MINIMUM REQUIREMENTS

All bids duly lodged will be examined to determine compliance with bidding requirements and conditions. Bids with obvious deviations from the requirements/conditions, will be eliminated from further adjudication.

FUNCTIONALITY EVALUATION

All remaining bids will be evaluated as follows:

The functionality calculation will be done based on the defined criteria and weighting thereof. Functionality will be scored out of a 100. If it is deemed necessary, presentations may be held with Bidders who have met the minimum functionality criteria. If presentations are held, the functionality score will be adjusted whereby 50 percent will be awarded to the original functionality evaluation and 50 percent will be scored for the average presentation score. **If a bidder fails to score a minimum of 70% out of 100% for overall functionality (including presentation where applicable), the bid will be disregarded from further consideration.**

ELIMINATION OF BIDS ON GROUNDS OF FUNCTIONALITY

Bids that score less than 70% of the 100% available for functionality will be eliminated from further consideration. Points will therefore not be awarded for their cost bids or for specific goals.

The percentage scored for functionality should be calculated as follows:

Each bidder shall award values for each individual criterion on a score sheet. The value scored for each criterion shall be multiplied with the specified weighting for the relevant criterion to obtain the marks scored for the various criteria. These marks should be added to obtain the total score. The following formula should then be used to convert the total score to a percentage for functionality:

$$Ps = \frac{So}{Ms} \times Ap$$

where

Ps = percentage scored for functionality by bid/bid under consideration

So = total score of bid/bid under consideration

Ms = maximum possible score

Ap = percentage allocated for functionality

The percentages of each panel member shall be added together and divided by the number of panel members to establish the average percentage obtained by each individual bidder for functionality.

RFB - Appointment of a service provider for the development of the Free State province rental housing strategy, implementation plan and provincial market and demand study for social housing.

After calculation of the percentage for functionality, the prices of all bids that obtained the minimum score for functionality should be taken into consideration.

OBJECTIVE CRITERIA

SHRA reserves the right to use objective criteria, where the points difference between the bidder that scored the highest points and the second-ranked bidder is within 15%, the right is reserved to award to the bidder that scored highest on specific goals (80/20 principle).

6. PRESENTATIONS

- a) SHRA may decide to have compulsory presentations made by shortlisted Bidders who met the minimum functionality criteria once the functionality score has been calculated.
- b) Presentations shall only affect the marks awarded for functionality.
- c) If the date of the presentation meeting is not indicated in the bid document, at least three days' notice will be given to bidders required to attend a presentation.
- d) Presentations will be made to the full Evaluation Committee.
- e) Points determined by the presentation will be awarded to each bidder by each member of the Evaluation Committee and then an average calculated.

7. AWARDING OF PREFERENCES POINTS

- a) Points for specific goals will be awarded according to the table indicated in the preference points claim form(s).

8. COMBINING PRICE AND PREFERENCE POINTS

- a) In accordance with PPPFA Act No. 5, 2000 (f), the contract must be awarded to the tenderer who scores the highest points unless objective criteria justify the award to another tenderer.
- b) SHRA intends to use objective criteria, where the points difference between the bidder that scored the highest points and the second-ranked bidder is within 15%, the right is reserved to award to the bidder that scored highest on specific goals (80/20 principle). In the event of a tie, a proportionate follow through will be applied.

9. ADJUDICATION OF BID

- a) The Adjudication Committee will consider the recommendations and make the final award. The successful bidder that will be appointed is the bidder that will meet the minimum threshold of 70% for functionality and are tax compliant as per their CSD certificates
