## CONTRACT PRICE ADJUSTMENT AND FOREX PAYMENTS – IMPORTATION

Failure to propose contract price adjustment methods, either by completing this document or proposing alternative methods for any portion of the tender price, will lead to that portion of the tender price being considered fixed.

The tender/contract price shall remain fixed where the period between the closing date and the contractual completion date is less than six months.

Where space in this document is insufficient, the tenderer shall submit the required information on separate schedules, duly referenced to this document.

Where foreign exchange is involved, and Eskom will cover the risk forward, the methods of payment listed in Part 1 are the only acceptable methods. It must be noted that Eskom considers **Payment Method 1** to be the default payment method.

### PART 1: PAYMENT OF FOREIGN COMMITMENTS

Payment of Eskom's foreign commitment in foreign currency will be made either:

**Payment Method 1: a) To a nominated bank account in a foreign country in a foreign currency (payment will be made to the party and account nominated by the supplier in the contract, and not to any other party);**

**Applicable (Y/N) .....**

**b) To a valid SARB approved CFC account in South Africa, in a foreign currency (payment will be made to the party and account nominated by the supplier in the contract, and not to any other party). Service related payments are excluded from this option;**

**Applicable (Y/N) .....**

**Payment Method 2: In South African Rand at the selling spot rate of exchange obtained by Eskom's Treasury on the date that the forward cover is cancelled. Eskom will notify the supplier of the date that the forward cover is cancelled as well as the intended payment date, which will be as per the agreed payment terms. Any exchange rate adjustment after Eskom has notified the supplier of the date and the rate which the forward cover is cancelled, will be for the account of the supplier.**

**Applicable (Y/N).....**

An indemnity in writing confirming that the supplier will not buy forward cover is required where Payment Method 1 or 2 is contracted.

Payment Method 2 must be accepted by the Corporate Procurement and Supply Chain Management before the tender documentation is sent out, but at the latest before the tender closing date. If it is not approved before tender closing, Payment Method 1 will be the default

Eskom will require substantiating proof of importation at the time of invoicing, regardless of which payment method is selected.

Where goods were previously imported into stock by the supplier, for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases Eskom will not undertake any foreign exchange commitment or arrange forward cover.

Provided that the tenderer nominates either Payment Method 1 or 2 as the main tender offer, an alternative payment method offering a fixed price not subject to exchange variation may be offered for Eskom's consideration.

Where Payment Method 2 is used and the exchange rate variation is favourable to Eskom at the date of payment, Eskom will debit the difference between the invoice value and the amended value at the date of payment, based on the selling spot rate of exchange obtainable by Eskom's Treasury on the notified payment date.
