| | PART C2.2 PROVISIONAL BILL OF QUANTITIES | | | | |
| | SECTION NO.1 | | | | |
| | BILL NO. 1 | | | | |
| | PRELIMINARIES | | | | |
| | BUILDING AGREEMENT AND PRELIMINARIES | | | | |
| | The JBCC Principal Building Agreement (May 2018 Edition 6.2) prepared by the Joint Building Contracts Committee shall be the applicable building agreement, amended as hereinafter described | | | | |
| | The following documents form an integral part of this agreement: | | | | |
| | a) JBCC Principal Building Agreement Contract Data Edition 6.2 May 2018 | | | | |
| | PREAMBLES FOR TRADES | | | | |
| | The Model Preambles for Trades (September 2008 edition) as published by the Association of South African Quantity Surveyors shall be deemed to be incorporated in these bills of quantities and no claims arising from brevity of description of items fully described in the said Model Preambles will be entertained. Tenderers are advised to study the GP ASC Rev 1 (General specifications of materials and methods to be used for building contracts) before pricing the bill. The document is readily available at GDID offices for inspection as and when required. | | | | |
| | Tenderers are lso advised to refer to Part C3.1 for Supplementary preambles on other applicable specifications. | | | | |
| | Carried to Collection Section No. 1 | | | R | |
| | Bill No. 1 PRELIMINARIES JBCC 6.2 | | | | |

| Supplementary preambles are incorporated in these bills of quantities to satisfy the requirements of this project. Such supplementary preambles shall take precedence over the provisions of the said Model Preambles | | | |
|--|--|---|----------|
| The contractor's prices for all items throughout these bills of quantities must take account of and include for all of the obligations, requirements and specifications given in the said Model Preambles and in any supplementary preambles | | | |
| STANDARD SYSTEM OF MEASURING BUILDING WORK | | | |
| The measuring system used for the preparation of the bills of quantities is the Standard System of Measuring Building Work (seventh edition, 2015) published by the Association of South African Quantity Surveyors (ASAQS) | | | |
| MEANING OF TERMS "TENDER / TENDERER" | | | |
| Any reference to the words "Tender" or "Tenderer" herein and/or in any other documentation shall be construed to have the same meaning as the words "Bid" or "Bidder" | | | |
| PRELIMINARIES | | | |
| The JBCC General Preliminaries Code 2103, May 2005 for use with the JBCC Principal Building Agreement Edition 6.2, May 2018 is taken to be incorporated herein. The tenderer is deemed to have referred to these documents for the full intent and meaning of each clause. These clauses are referred to by number and heading only. Where standard clauses or options are not applicable to the contract such modifications or corrections as are necessary are given under each relevant clause. | | | |

| | Section No. 1 Bill No. 1 PRELIMINARIES JBCC 6.2 | | | _ |

| Clause 10.0 is amended by the addition of the following clauses: | | | ĺ |
|---|--|---|----------|
| 10.5 Damage to the Works | | | I |
| (a) Without in any way limiting the contractors obligations in terms of the contract, the contractor shall bear the full risk of damage to and/or destruction of the works by whatever cause during construction of the works and hereby indemnifies and holds harmless the Employer against any such damage. The Contractor shall take such precautions and security measures and other steps for the protection and security of the works as the contractor may deem necessary. | | | |
| (b) The Contractor shall at all times proceed immediately to remove or dispose of any debris arising from damage to or destruction of the works and to rebuild, restore, replace and/or repair the works. | | | |
| (c) The employer shall carry the risk of damage to or destruction of the works and material paid for by the employer that is the result of the excepted risks as set out in 10.6 | | | |
| (d) Where the employer bears the risk in terms of this contract, the contractor shall, if requested to do so, reinstate any damage or destroyed portions of the works and the costs of such reinstatement shall be measured and valued in terms of 32.0 hereof. | | | |
| 10.6 Injury to Persons or loss of or damage to Properties | | | ĺ |
| (a) The contractor shall be liable for and hereby indemnifies the employer against any liability, loss, claim or proceeding whether arising in common law or by statute, consequent upon personal injuries to or the death of any person whomsoever arising out of or in the course of or caused by the execution of the works unless due to any act or neglect of any person for whose actions the employer is legally liable. | | | |

| (c) The contractor shall, upon receiving a contract instruction from the principal agent, cause the same to be made good in a perfect and workmanlike manner at his own cost and in default thereof the employer shall be entitled to cause it to be made good and to recover the cost thereof from the contractor or to deduct the same from amounts due to the contractor. (d) The contractor shall be responsible for the protection and safety of such portions of the premises placed under his control by the employer for the purpose of executing the works until the issue of the certificate of practical completion. (e) Where the execution of the works involves the risk of removal of or interference with support to adjoining properties including land or structures or any structures to be altered or added to, the contractor shall obtain adequate insurance and will remain adequately insured or insured to the specific limit stated in the contract against the death of or injury to persons or damage to such property consequent on such removal or interference with the support until such portion of the works has been completed. (f) The contractor shall at all times proceed immediately at his own cost to remove or dispose of any debris and to rebuild, restore, replace and/or repair such property and to execute the works. 10.7 High risk insurance In the event of the project being executed in a geological area classified as a "High Risk Area", that is an area which is subject to highly unstable subsurface conditions that might result in catastrophic ground movement evident by sinkhole or doline formation the following will apply: | | | |

|--|---|-------|----------------|----------------|-------------|
| The contractor shall, from the date of site handover until the date of the certificate of practical completion bear the full risk of and hereby indemnifies and holds harmless the employer against any damage to and/or destruction of the works consequent upon a catastrophic ground movement as mentioned above. The contractor shall take such precautions and security measures and other steps for the protection of the works as he may deem necessary. | | | | | |
| When so instructed to do so by the principal agent, the contractor shall proceed immediately to remove and/or dispose of any debris arising from damage to or destruction of the works and to rebuild, restore, replace and/or repair the works, at the contractor's own costs. | | | | | |
| 10.7.2 Injury to persons or loss of or damage to property | | | | | |
| The contractor shall be liable for and hereby indemnifies and holds harmless the employer against any liability, loss, claim or proceeding arising at any time during the period of the contract whether arising in common law or by statute, consequent upon personal injuries to or the death of any person whomsoever resulting from, arising out of or caused by a catastrophic ground movement as mentioned above. | | | | | |
| The contractor shall be liable for and hereby indemnifies the employer against any and all liability, loss, claim or proceeding consequent upon loss of or damage to any moveable or immovable or personal property or property contiguous to the site, whether belonging to or under the control of the employer or any other body or person whomsoever arising out of or caused by a catastrophic ground movement, as mentioned above, which occurred during the period of the construction. | | | | | |
| 10.7.3 It is the responsibility of the contractor to ensure that he has adequate insurance to cover his risk and liability as mentioned in 10.7.1 and 10.7.2. Without limiting the contractor's obligations in terms of the contract, the contractor shall, within twenty-one (21) calendar days of the commencement date but before commencement of the works, submit to the employer proof of such insurance policy, if requested to do so. | | | | | |

| | B12. SCHEDULE OF VARIABLES | | | | | |
| | B12.1 Schedule of variables | | | | | |
| | This schedule contains all variables referred to in this document and is divided into pre-tender and post-tender categories. The pre-tender category must be completed in full and included in the tender documents. Both the pre-tender and post-tender categories form part of these Preliminaries. | | | | | |
| | Spaces requiring information must be filled in, shown as "not applicable" or deleted and not left blank. Where choices are offered, the non-applicable items are to be deleted. Where insufficient space is provided the information should be annexed hereto and cross-referenced to the applicable clause of the schedule. Key cross reference clauses are italicised in [] brackets. | | | | | |
| | 12.1 PRE TENDER INFORMATION | | | | | |
| | 12.1.1 Provisional Bills of Quantities | | | | | |
| | [2.2] The quantities are provisional YES | | | | | |
| | 12.1.2 Availability of construction documentation | | | | | |
| | [2.3] Construction of documentation is completeYES | | | | | |
| | 12.1.3 Interest of agents | | | | | |
| | [2.4] Details: NIL | | | | | |
| | 12.1.4 Defined works area | | | | | |
| | [3.1] Details: The work area will be pointed out to the contractor by the principal agent to the contractor who will sign written acknowledgement therefore before commencing operations. | | | | | |

| | C1 CONTRACT DRAWINGS | | | |
|-----|--|------|---|--|
| | The drawings issued with the tender documents do not comprise the complete set but serve as a guide only for tendering purposes and for indicating the scope of the work to enable the tenderer to acquaint himself with the nature and extent of the works and the manner in which they are to be executed. Should any part of the drawings not be clearly intelligible to the tenderer he shall, before submitting his tender, obtain clarification in writing from the principal agent. | | | |
| 100 | Fixed:Time: | Item | | |
| | C2 GENERAL PREAMBLES | | | |
| | The document "General Specifications of materials, methods to be used for building contracts (GP ASC Rev 0)", shall be read in conjunction with the bills of quantities / lump sum document and be referred to for the full descriptions of work to be done and materials to be used. | | | |
| 101 | Fixed:Time: | Item | | |
| | C3 IMPORTED MATERIALS AND EQUIPMENT | | | |
| | Where imported items are listed in the tender documents, the tenderer shall provide all the information called for, failing which the price of any such item, materials or equipment shall be excluded from currency fluctuations. (refer to Schedule of Imported Materials and Equipment to be completed by tenderer). Notwithstanding any provisions elsewhere regarding the adjustment of contract prices, the price of any item, material or equipment listed in terms of this clause shall be excluded from the Contract Price Adjustment Provisions (if applicable). | | | |
| 102 | Fixed:Time: | Item | | |
| | C4 HIV/AIDS AWARENESS | | | |
| | It is required of the contractor to promote HIV/AIDS awareness in accordance with requirements of SANS 1921-6 | | | |
| | | | | |
| | Carried to Collection | | R | |
| | Section No. 1 Bill No. 1 PRELIMINARIES JBCC 6.2 | | | |

| | C5 OCCUPATIONAL HEALTH AND SAFETY ACT | | | | |
|-----|--|------|-----|---|---|
| | The contractor shall comply with all the requirements set out in the Construction Regulations, 2003 issued under the Occupational Health and Safety Act, 1993 (Act No. 85 of 1993). It is required of the contractor to thoroughly study the Health and Safety Specification that must be read together with and is deemed to be incorporated under this Section of the bills of quantities / lump sum document. | | | | |
| | The contractor must take note that compliance with the Occupational Health and Safety Act, Construction Regulations and Health and Safety Specification is compulsory. In the event of partial or total noncompliance, the principal agent notwithstanding the provisions of clause A31.0 of Section A or any other clause to the contrary, reserves the right to delay issuing any progress payment certificate until the contractor provides satisfactory proof of compliance. The contractor shall not be entitled to any compensation of whatsoever nature, including interest, due to such delay of payment. Provision for pricing of the Occupational Health and Safety Act, Construction Regulations and Health and Safety Specification is made under this clause and it is explicitly pointed out that all requirements of the aforementioned are deemed to be priced hereunder and no additional claims in this regard shall be entertained. | | | | |
| 103 | Fixed:Time: | Item | | | |
| | C6 LOCAL LABOUR AND BUILDING MATERIALS | | | | |
| | C6.1 GENERAL | | | | |
| | The contractor's attention is drawn to the Labour Intensive Methods and requirements incorporated in the tender documents. (C3.1). | | | | |
| | All requirements of the aforesaid are to be priced hereunder; no additional items or extras to the contract in this regard will be entertained. | | | | |

| General | | | | | |
| The contractor shall carry out the whole of the works with as little mess and noise as possible and with a minimum of disturbance to adjoining premises and their tenants. He shall provide proper protection and provide, erect and remove when directed, any temporary tarpaulins that may be necessary during the progress of the works, all to the satisfaction of the principal agent. | | | | | |
| Water supply pipes and other piping that may be encountered and found necessary to disconnect or cut, shall be effectually stopped off or grubbed up and removed, and any new connections that may be necessary shall be made with proper fittings, to the satisfation of the principal agent. | | | | | |
| Doors, fanlights, fittings, frames, linings, etc which are to be re-used shall be thoroughly overhauled before refixing including taking off, easing and rehanging, cramping up, re-wedging as required and making good cramps, dowels, etc, and easing, oiling, adjusting and reparing ironmongery as necessary, replacing any glass damaged in removal or subsequently and stopping up all nail and screw holes with tinted plasstic wood to match timber, unless otherwise described. Re-painting or re-varnishing is given separately. | | | | | |
| The contractor will be required to take all dimensions affecting the existing buildings on the site and he will be held solely responsible for the accuracy of all such dimensions where used in the manufacture of new items (doors, windows, fittings, etc) | | | | | |
| REMOVAL OF EXISTING WORK | | | | | |

| | CONCRETE, FORMWORK AND REINFORCEMENT | | | | |
| | (CPAP WORK GROUP NO. 110 UNLESS OTHERWISE STATED) | | | | |
| | PREAMBLES | | | | |
| | For preambles refer to "Model Preambles for Trades" | | | | |
| | SUPPLEMENTARY PREAMBLES | | | | |
| | Items, materials or methods to be used specified by trade names or catalogue numbers are only an indication of the quality required. Items, materials or methods of similar quality may be used with prior approval from the architect | | | | |
| | Cost of tests | | | | |
| | The costs of making, storing and testing of concrete test cubes as required under clause 7 "Tests" of SABS 1200 G shall include the cost of providing cube moulds necessary for the purpose, for testing costs and for submitting report s on the tests to the architect. The testing shall be undertaken by an independent firm or institution nominated by the contractor and to the approval of the architect. (Test cubes are measured separately) | | | | |
| | <u>Formwork</u> | | | | |
| | Descriptions of formwork shall be deemed to include use and waste only (except where described as "left in" or "permanent"), for fitting together in the required forms, wedging, plumbing and fixing to true angles and surfaces as necessary to ensure easy release during stripping and for reconditioning as necessary before reuse. The vertical strutting shall be carried down to such construction as is sufficiently strong to afford the required support without damage and shall remain in position until the newly constructed work is able to support itself. | | | | |

| | PLUMBING AND DRAINAGE (PROVISIONAL) | | | | |
| | (CPAP WORK GROUP NO. 148 UNLESS OTHERWISE STATED) | | | | |
| | PREAMBLES | | | | |
| | For preambles refer to "Model Preambles for Trades" | | | | |
| | SUPPLEMENTARY PREAMBLES | | | | |
| | Items, materials or methods to be used specified by trade names or catalogue numbers are only an indication of the quality required. Items, materials or methods of similar quality may be used with prior approval from the architect | | | | |
| | Wire gratings | | | | |
| | Descriptions of gutter outlets etc shall be deemed to include wire balloon gratings | | | | |
| | Stormwater channels | | | | |
| | Descriptions of channels shall be deemed to include all necessary excavation and disposal of surplus material | | | | |
| | uPVC pipes and fittings | | | | |
| | Sewer and drainage pipes and fittings shall be jointed and sealed with butyl rubber rings Soil, waste and vent pipes and fittings shall be solvent weld jointed or sealed with butyl rubber rings | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | Carried to Collection | | R | | _ |
| | Section No. 2 Bill No. 13 PLUMBING AND DRAINAGE | | | | _ |

| | 1 |] 1 | J 1 | |
|--|---|-----|-----|--|
| uPVC pressure pipes and fittings | | | | |
| Pipes for water supply shall be of the class describedPipes of 40mm diameter and smaller shall be plain ended with solvent welded uPVC loose sockets and fittings Pipes of 50mm diameter and greater shall have sockets and spigots with push-in type integral rubber ring joints. Bends shall be uPVC and all other fittings shall be cast iron, all with similar push-in type joints | | | | |
| Copper pipes | | | | |
| Pipes shall be carbon free and of hard drawn Class O as manufactured by "Maksal". Pipes shall not be bent. Fittings to copper pipes shall be "Cobra Watertech" type capillary solder fittings. Capillary solder fittings shall comply with ISO 2016 | | | | |
| Copper pipes are to be installed in accordance with the latest revision of the code of Practice for Copper Plumbing soldering techniques. Flux, solder, etc to be strictly in accordance with the manufacturer's requirements with special attention to copperflux composition | | | | |
| The contractor is to allow for regular inspections and monthly certification by the manufacturer to ensure compliance with the above | | | | |
| Galvanised steel pipes and fittings | | | | |
| Galvanised steel pipes are to be "Tosa" medium class to SABS 62 and fittings are to be manufactured by "Tupy" | | | | |
| Reducing fittings | | | | |
| Where fittings have reducing ends or branches they are described as "reducing". In the case of pipes with diameters not exceeding 60 mm only the largest end or branch size is given. Should the contractor wish to use other fittings and bushes or reducers he may do so on the understanding that no claim in this regard will be entertained. In the case of pipes with diameters exceeding 60 mm all sizes are given and no claim for extra bushes, reducers, etc will be entertained | | | | |
| | | | | |
| Carried to Collection | | R | | |
| Section No. 2 Bill No. 13 PLUMBING AND DRAINAGE | | | | |

| Gratings, covers, etc |] | |
|---|---|--|
| Gratings, covers, etc shall be as manufactured by "Besaans-du Plessis Foundries", unless otherwise described | | |
| Exposed concrete surfaces | | |
| Exposed surfaces of concrete stormwater channels, cover slabs, inspection eye marker slabs, gulley tops, cleaning eye tops, catchpits, inspection chambers, etc shall be finished smooth with plaster | | |
| <u>Excavations</u> | | |
| No claim for rock excavation will be entertained unless the contractor has timeously notified the quantity surveyor thereof prior to backfilling | | |
| "Soft rock" and "hard rock" shall be as defined in "Earthworks" | | |
| Keeping excavations free of water | | |
| Further to clause 5 page 53 of the Standard System of Measuring Building Work, excavations for sumps, catchpits, inspection chambers, junction boxes and the like shall be deemed to include for keeping free of water | | |
| Laying, backfilling, bedding, etc of pipes | | |
| Pipes shall be laid and bedded and trenches shall be carefully backfilled all strictly in accordance with manufacturers' instructions | | |
| Where no manufacturers' instructions exist pipes shall be laid in accordance with clauses 5.1 and 5.2 of each of the following: SABS 1200 L : Medium-pressure pipelines SABS 1200L LD : Sewers SABS 1200 LE : Stormwater drainage | | |
| Pipe trenches etc shall be backfilled in accordance with clauses 3, 5.5, 5.6, 5.7 and 7 of SABS 1200DB: Earthworks (Pipe trenches) Compaction of backfilling in trenches in areas not subject to traffic loads as described in SABS 1200 DB clause 5.7.1 shall be 93% and not 90% of Modified AASHTO maximium density | | |
| | | |
| Carried to Collection | R | |
| Section No. 2 Bill No. 13 PLUMBING AND DRAINAGE | | |

| Pipes shall be bedded in accordance with clauses 3.1 to 3.4.1, 5.1 to 5.3 and 7 of SABS 1200 LB : Bedding (Pipes). | | |
|--|---|--|
| Unless otherwise described bedding of rigid pipes shall be class B bedding | | |
| Selected granular bedding material is to be supplied by the contractor | | |
| Selected filling to pipe trenches is to be obtained from the excavation material and is to be screened where necessary | | |
| Disinfection of water pipework | | |
| All pipework is to be disinfected in accordance with SABS 1 200L | | |
| Sanitary fittings | | |
| Outer edges of sinks, basins, urinals, etc are to be sealed against adjacent surfaces with "Bayer 400F" silicone | | |
| Stainless steel basins, sinks, wash troughs, urinals, etc | | |
| Units shall have standard aprons on all exposed edges and tiling keys against walls where applicable | | |
| Waste unions | | |
| Descriptions of waste unions shall be deemed to include rubber or vulcanite plugs and chains fixed to fittings | | |
| <u>General</u> | | |
| Descriptions of pipes laid in and including trenches, inspection chambers, french drains, septic tanks, etc shall be deemed to include excavation, bedding, backfilling, compaction to a minimum of 93% Modified AASHTO density and disposal of surplus material | | |
| Descriptions of copper service pipes and flexible connecting pipes shall include connections to taps, cisterns, etc and to steel pipes | | |
| Descriptions of wc pans, slop hoppers, etc shall be deemed to include for joints to soil pipes (pan connectors separately measured) | | |

| NO | SECTION 2 | | | |
| | | | | |
| | BILL NO 17 | | | |
| | PROVISIONAL SUMS | | | |
| | | | | |
| | PREAMBLES | | | |
| | For preambles refer to "Model Preambles for Trades" | | | |
| | Selected Sub - Contractors | | | |
| | The following Provisional Amounts are to be tendered separately and the contractor/ specialist to be appointed by the Main Contractor as a Selected Sub Contractor and not as Nominated Sub Contractor. The Main Contractor will be allowed to tender for such work | | | |
| | The Contractor may allow under the "profit" item for any profit he considers necessary. If the Contractor allows an amount for profit, this amount will be adjusted in direct proportion to the final value of the specialist work | | | |
| | Attendance on Nominated and selected Sub- Contractors | | | |
| | Each provisional sum in this bill is followed by an item under which the Contractor may allow for attendance on the specific Sub-contractor | | | |
| | The amounts of the items for "Atttendance" are to allow for giving every facility to attending upon and making good in all trades after the Specialists have completed their work, for providing the use of all water, electricity, storage space for materials, etc., the use of general amenities, i.e. latrines, etc., for the specialists and their workmen. For maintaining conduits, sleeve pipes, etc., in position during the building operations and providing the use of all ordinary scaffolding and plant. The Contractor is to leave erected scaffolding in position for the period required for work by the nominated subcontractors under this contract. | | | |
