Introduction

Geographic Information Systems (GIS) provides the capability to collect, manage, manipulate, analyze and share location-based information. It is an integral part of the decision support infrastructure that can significantly contribute to planning and informed decision-making regarding service delivery. GIS is also a critical tool that supports a number of municipal legislative requirements contained in the Municipal Systems Act (No. 32 of 2000), the Municipal Structures Act (No. 117 of 1998), the Spatial Data Infrastructure Act (No. 54 of 2003), and the Property Rates Acts (no. 6 of 2004).

It is against this background that the Winnie Madikizela-Mandela Local Municipality is in a process of sourcing an external service provider to conduct a Geospatial social Infrastructure accessibility study.

Project Purpose

To evaluate the geographic accessibility and equity of existing social infrastructure—such as schools, healthcare facilities, community centers, libraries, parks, and public transit—across the municipality. The study will identify service gaps, analyze spatial equity, and provide recommendations for improving access and guiding future investments.

OBJECTIVES OF THE PROJECT

The main objective of the project is to seek a qualified and experienced service provider to assist Winnie Madikizela-Mandela Local Municipality in developing a geospatial social infrastructure accessibility study which will assist in the identification of accessibility gaps, provide support Evidence-Based Planning and Decision-Making, promote equity and sustainability, inform funding and policy priorities, enhance community well-being and prepare the municipality for growth and change.

ROLE OF A SERVICE PROVIDER

The successful service provider must assist the WMMLM to conduct a Geospatial social infrastructure accessibility study

SCOPE OF WORK

- Map and inventory all existing social infrastructure assets.
- Analyze accessibility based on travel modes (walking, transit, driving).
- Identify underserved and over-served areas.
- Assess service equity across demographic and socioeconomic groups.
- Provide data-driven recommendations for planning and investment.
- Make 5 copies of the document.

Key Tasks and Deliverables

Task 1: Project Initiation and Planning

- Kick-off meeting with stakeholders.
- Confirm study area boundaries and infrastructure categories.
- Develop a detailed work plan and timeline.

Deliverables:

- Project inception report
- · Finalized list of infrastructure types to include

Task 2: Data Collection and Review

- Collect existing GIS data on infrastructure, road networks, demographics, and land use.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe* se prohibition meaning that it cannot be justified under any grounds.
- Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and

- In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:
- ¹ Includes price quotations, advertised competitive bids, limited bids and proposals.
- ² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
