Z1.17 ***Contractor's Responsibility for the Design***

The *Contractor* reviews the fire-protection Concept Design annexed to the Scope, verifies its compliance with the latest ASIB Rules, relevant SANS standards and statutory requirements, and develops it into fully coordinated detailed design drawings, calculations and specifications.

From the starting date the Concept Design becomes the *Contractor's* design: the *Contractor* assumes full professional liability for its adequacy, safety, fitness for purpose and constructability, and for every amendment made during the Works. No change that alters the functional intent of the Concept Design may be made without the *Project Manager's* prior acceptance. All design deliverables, revisions and as-built drawings are prepared, checked and signed by an ECSA-registered Professional Engineer, who issues SANS Form 2 before construction and Form 4 at Completion and discharges the duties of "Designer" under Regulation 6 of the Construction Regulations (OHS Act 85 of 1993).

The *Contractor* provides all services equivalent to ECSA Stage 5, maintains the required professional-indemnity insurance for the period stated in the Contract Data, and remains responsible for the design notwithstanding any acceptance by the *Project Manager*; failure to accept these obligations constitutes a breach of contract.
