C3 Scope of works

C3.1 Project Description

C3.1.7 Additional requirements for Construction Activities

C3.1.7.14 Quality control and finished-surface requirements for Large-area Repairs and Large-area Surface Treatments Additional requirements for Construction Activities

C3.1.7.14.14 Acceptance, remedial work and payment

Add the following:

“For every Large Area Repair or Large Area Surface Treatment instructed under Clause C3.1.16.1, the Engineer shall issue a fit-for-purpose Job Instruction.

The Contractor shall remain responsible for the quality and performance of materials in accordance with the approved mix design, workmanship, and execution in accordance with the Contract, approved method statements, applicable specifications and the Job Instruction, but shall not be responsible for the adequacy of the Engineer’s selected treatment where the underlying pavement condition or required intervention falls outside the Contractor’s instructed scope.

If a Large Area Repair or Large Area Surface Treatment fails within twelve (12) months after the date on which it is certified as complete and such failure occurs during the Defects Notification Period, the Employer may extend the Defects Notification Period for the affected repair or treatment so that a full twelve (12)-month warranty period applies, but only to the extent that the failure is attributable to the Contractor’s materials, workmanship or failure to comply with the Contract, an approved method statement, an applicable specification or the relevant Job Instruction.

The Contractor shall not be responsible for failure attributable to the inadequacy of the treatment selected or instructed by the Engineer, a latent or underlying pavement or substrate condition outside the Contractor’s instructed scope, or drainage, moisture, traffic or environmental conditions not reasonably ascertainable by the Contractor before execution.”
