The JF operates on challenge fund principles, as a catalyst for innovation and investment in new ways of working that directly contribute to long term sustainable employment creation.

The Jobs Fund complements existing efforts by government to combat unemployment with a targeted programme of support for effective labour market interventions and job creation projects in the short to medium term.

The Jobs Fund receives applications through funding rounds which are opened to target specific job-creating impact sectors. Applications are assessed through a two-stage application process (Concept Note and full Business Case Appraisal) to measure eligibility and proposed impact of the projects.

Due diligence is conducted to verify the plausibility of proposals, job targets, and validity of partner details. Partner administration systems must support good governance, and robust monitoring and evaluation must be built into the project design.
