

The supply, delivery and off-loading of caustic soda to various power stations for a period of five years on an (as and when required) basis. (MWP2539GX)

Tenderer's Clarification Questions	Eskom Response																
We would like to request for more information or clarity with respect to the Transport Rates Adjustments. The tender adjustment does not address monthly fuel rate changes – How is this normally handle by Eskom. The annual escalation is fine as stated below. Just need to address the fuel fluctuations?	The tenderers to propose the Contract Price Adjustment conditions that would work for them																
We need clarity on the NEC in price schedule on block 4 (Rand/30 T load) on how it is calculated or meant by rand/30T load ?	This is the total price for a 30 Ton tanker/ load																
May you kindly confirm if it will be possible to tender 2 or 3 price schedules with guaranteed volumes on the tender?	No, only one price list per tenderer will be accepted.																
Since we are buying the final product (caustic soda) from a local manufacturer, could you kindly let us know if the NIPP document is applicable to Massive Quantum (Pty)Ltd? If so, could you help explain the process as we are not importing directly.	If the pricing has foreign portion equivalent to USD 5 million or more then NIPP will apply. The rest of other SDL&I requirements will apply on the local portion.																
Does Eskom provide support for applications for import duties exemption permits for the importing of caustic soda?	Eskom does not offer support for applications for import duties exemption permits.																
What is the Caustic Soda storage capacity at each power station?	<table border="1" data-bbox="1176 1002 1912 1369"> <thead> <tr> <th data-bbox="1176 1002 1400 1098">Power Station</th> <th data-bbox="1400 1002 1912 1098">Design Storage Capacity of Each Tank (L)</th> </tr> </thead> <tbody> <tr> <td data-bbox="1176 1098 1400 1137">Arnot</td> <td data-bbox="1400 1098 1912 1137">33000</td> </tr> <tr> <td data-bbox="1176 1137 1400 1177">Camden</td> <td data-bbox="1400 1137 1912 1177">34000</td> </tr> <tr> <td data-bbox="1176 1177 1400 1217">Duvha</td> <td data-bbox="1400 1177 1912 1217">73000</td> </tr> <tr> <td data-bbox="1176 1217 1400 1257">Grootvlei</td> <td data-bbox="1400 1217 1912 1257">32000</td> </tr> <tr> <td data-bbox="1176 1257 1400 1297">Hendrina</td> <td data-bbox="1400 1257 1912 1297">30000</td> </tr> <tr> <td data-bbox="1176 1297 1400 1337">Kendal</td> <td data-bbox="1400 1297 1912 1337">34000</td> </tr> <tr> <td data-bbox="1176 1337 1400 1369">Kriel</td> <td data-bbox="1400 1337 1912 1369">30000</td> </tr> </tbody> </table>	Power Station	Design Storage Capacity of Each Tank (L)	Arnot	33000	Camden	34000	Duvha	73000	Grootvlei	32000	Hendrina	30000	Kendal	34000	Kriel	30000

<p>What is the Caustic Soda daily usage at each power station?</p>	<p>The total quantity provided in the enquiry for each power station is based on a projection of each power station's daily requirements for the period of the contract. These daily requirements may vary over time due to a number of operational factors, including the power station's production plan, the demineralised water production rate, process efficiencies, seasonal factors, etc.</p>
<p>How many references should be submitted from the transporter in order to score full points</p>	<p>We don't have a specific "number" of references as a criteria for "full points".</p> <p>The references provided must be able to demonstrate that the transporter has transported this chemical product using bulk tankers.</p>
<p>The original and the hard copy of the tender document, should they be submitted in one or separate envelopes.</p>	<p>Separate envelopes, clearly marked Original and Copy</p>
<p>What are specific goals that are applicable to this tender? Page 69 of 73</p>	<p>Refer to the SD&L document uploaded as part of the tender pack</p>
