

Item	Description	Mark-Up % (Provide Mark-up % for each category of goods)
A.3.7	Data Network Cable Reticulation Management Systems	
A.3.8	Electrical Infrastructure Cabling and Components	
A.3.9	Data Network Cabinets and Components	
A.3.10	Civil Works & Core Drilling <ul style="list-style-type: none"> • Materials for Trenching including but not limited to: • Pilot Holes • Wet cutting up to 40mm depth • Engineering Difficulties (Hard Rock) • Bedding – SNAS 1200 LB 1983 (Bedding – Pipes) • Padding • Backfill • Trench tape • Dynamic Cone Penetrometer test (DCP test) • Shoring in > 1,5meter deep trenches • Materials for Reinstatements including but not limited to: • G3 – G5 sub-base material • Bitumen treated base layer (BTB) • Prime coat gravel layer works (Bitumen) • Continuously graded medium 20mm thick in side walks • Continuously graded medium 40mm thick in roadways • Vla sealing joints (Bitumen) • Paving • Tiles • Curbs • Cobbles • Grass • Materials for Trenchless Technology including but not limited to: • Scanning for existing services • Drilling establishments • Directional drilling • Pipe jacking • Sleeving (pipework)
