Clarification NR 2 (25.09.2025)**Clarification request No.1:**

We wanted to find out regarding the Artisans (Electrician) qualification. For the Red Seal Electrical Trade Test, would a person with N4 and Electrical Trade Test issued by QCTO be applicable

Response:

Yes, it will be applicable.

Clarification request No.2:

We saw the response about the electrical phase needed for this tender, your response says "Only single phase needed" that means if we have 3 Phase or Master Installation Electrician we do not need to tender?

Please clarify for us whether we bid for this tender or not because we have an electrical installation phase that is more than the single phase.

Response:

The response was referring to the question that was asked by one supplier asking if the requirements for the contract should not be that of a MIE holder instead of single phase. So, we responded by saying we already have MIE contract for three phases and other hazardous area installations therefore for this contract we were only looking at a person who can issue single phase COC.

To answer the question, they are eligible to tender.
