AWARD STRATEGY

This tender will be awarded to highest scoring bidder.

1. SCOPE OF WORK

1.1 Background

Johannesburg Water (JW) has a high percentage of Unaccounted for Water due to aging infrastructure and ill use of water by residents. In response to the challenges above, JW continues to implement Infrastructure upgrading projects to minimise the continuous overflow of water as a result of ageing infrastructure. While the technical intervention is crucial to address these challenges, a social approach is also important by a social consultant to complement the work that will be undertaken by technical contractors. This will create an environment where the communities will be engaged in a language that they will understand in ensuring that water is conserved. A rigorous public participation and public education will be conducted in the communities where technical projects are being rolled out in an effort to change the behaviour with regard to water usage.

The public participation process normally includes the introduction of projects to relevant City Of Johannesburg Regional Offices (Regional Director, Ward Governance and the Citizen Relationship and Urban Management (CRUM)), one-on-one meetings with the Ward Councillors (Cllrs), Stakeholder meetings and Public meetings. Thereafter the Facilitators appointed to conduct door-to-door campaigns, where they will be signing the Service Level Agreements (SLAs), or any other forms informing and educating residents about the projects coming to their areas, raising awareness about water conservation and taking care of infrastructure, educating customers about the meter functionality and making follow ups to ensure that customers are satisfied with the work that has been carried out in their properties. The public participation process would be done within a short a space of time in the past. At times communities would feel that they were not properly consulted and this would reduce the level of community buy-in and resistance in the projects. Based on the previous experience, the Stakeholder Relations Department would like to do public awareness, public education and public participation way before the technical roll out of the projects. Learning is an ongoing process and therefore there is a need for ongoing engagement with stakeholders to make sure all parties are on board.

To have a dedicated service provider(s) who will provide social facilitation which is inclusive of public awareness to support water demand management and basic service projects on an as and when basis for a period of thirty six (36) months.

The service provider(s) involvement will be before, during and post implementation of CAPEX projects in communities. This will assist customers to understand correct water use, water conservation, the effects of abuse and infrastructure encroachment so that correct messages can be communicated to the communities that are part of the project. It will also encourage those who have encroached to remove the structures before JW and the City take action.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
