PRICE ADJUSTMENTS

A NON-FIRM PRICES SUBJECT TO ESCALATION

1. IN CASES OF PERIOD CONTRACTS, NON-FIRM PRICES WILL BE ADJUSTED (LOADED) WITH THE ASSESSED CONTRACT PRICE ADJUSTMENTS IMPLICIT IN NON-FIRM PRICES WHEN CALCULATING THE COMPARATIVE PRICES
2. IN THIS CATEGORY PRICE ESCALATIONS WILL ONLY BE CONSIDERED IN TERMS OF THE FOLLOWING FORMULA:

$$Pa = (1 - V)Pt \left(D1 \frac{R1t}{R1o} + D2 \frac{R2t}{R2o} + D3 \frac{R3t}{R3o} + D4 \frac{R4t}{R4o} \right) + VPt$$

Where:

Pa	=	The new escalated price to be calculated.
(1-V) Pt	=	85% of the original bid price. Note that Pt must always be the original bid price and not an escalated price.
D1, D2..	=	Each factor of the bid price eg. labour, transport, clothing, footwear, etc. The total of the various factors D1, D2...etc. must add up to 100%.
R1t, R2t.....	=	Index figure obtained from new index (depends on the number of factors used).
R1o, R2o	=	Index figure at time of bidding.
VPt	=	15% of the original bid price. This portion of the bid price remains firm i.e. it is not subject to any price escalations.

3. THE FOLLOWING INDEX/INDICES MUST BE USED TO CALCULATE YOUR BID PRICE:

INDEX	DATED	INDEX	DATED	INDEX	DATE

 GAUTENG PROVINCE PROVINCIAL TREASURY REPUBLIC OF SOUTH AFRICA	PROVINCIAL SUPPLY CHAIN MANAGEMENT	
	PRICING SCHEDULE – NON - FIRM PRICES (PURCHASES)	Page: 4 of 4

4. FURNISH A BREAKDOWN OF YOUR PRICE IN TERMS OF ABOVE-MENTIONED FORMULA. THE TOTAL OF THE VARIOUS FACTORS MUST ADD UP TO 100%.

FACTOR (DA, D2, etc. eg. Labour, Transport etc.)	PERCENTAGE OF BID PRICE

B. PRICES SUBJECT TO RATE OF EXCHANGE VARIATIONS

1. Please furnish full particulars of your financial institution, state the currencies used in the conversion of the prices of the items to South African currency, which portion of the price is subject to rate of exchange variations and the amounts remitted abroad.

PARTICULARS OF FINANCIAL INSTITUTION	ITEM NO	PRICE	CURRENCY	RATE	PORTION OF PRICE SUBJECT TO ROE	AMOUNT IN FOREIGN CURRENCY REMITTED ABROAD
				ZAR=		
				ZAR=		
				ZAR=		

2. Adjustments for rate of exchange variations during the contract period will be calculated by using the average monthly exchange rates as issued by your commercial bank for the periods indicated hereunder: (Proof from bank required)

AVERAGE MONTHLY EXCHANGE RATES FOR THE PERIOD	DATE DOCUMENTATION MUST BE SUBMITTED TO THIS OFFICE	DATE FROM WHICH NEW CALCULATED PRICES WILL BECOME EFFECTIVE	DATE UNTIL WHICH NEW CALCULATED PRICE WILL BE EFFECTIVE

 GAUTENG PROVINCE REPUBLIC OF SOUTH AFRICA ANNEXURE B: GT/GDH/061/2025 - PRICING SCHEDULE FOR SUPPLY, DELIVERY, INSTALLATION, COMMISSIONING AND MAINTENANCE OF VARIOUS REHABILITATION EQUIPMENT AND ACCESSORIES TO VARIOUS GAUTENG HEALTH INSTITUTIONS FOR THE PERIOD OF THREE YEARS

9.2	New	Sensory develop vision sensory pack small	Sensory develop vision sensory pack small, selection of developmental resources: vision, glow sensory LED pebble; 3 spiral liquid timers; colour changing mood blocks set of 4; foam batons pack of 6; spinning ball projector wand; shake and shine glitter lamp; visual development soft cubes; disco light bulb	Each																
9.3	New	Video Stroboscopy	Video Stroboscopy. Must include scopes, continuous light source, appropriate camera, stroboscopy light source, software for recording and archiving. Should include software and compatible PC/Laptop if required. Must include probes, cables, and power supply, printer compatibility. Mobile and carrier case options to be made available if required. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
9.4	New	Video Stroboscopy Starter Kit	Video Stroboscopy Starter Kit of accessories and consumables.	Kit			N/A													
9.5	New	Spectrographic Voice Analysis Equipment	Spectrographic Voice Analysis Equipment is an instrument that displays graphical representations of the strengths of various components, frequencies of a sound as time passes. Used for analysing vocal output and should be able to be used for real time biofeedback in voice training and therapy. Should be able to perform voice analysis in both white band and narrow band. Needs to contain acquisitional module, audio device (interface card), speaker, microphone and headphones, connection cables, adapter for EEG input. Should include software and compatible PC/Laptop if required. Must include probes, cables, and power supply, printer compatibility. Mobile and carrier case option to be made available if required. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation).	Each																
9.6	New	Spectrographic Voice Analysis Equipment Starter Kit	Spectrographic Voice Analysis Equipment Starter Kit of accessories and consumables.	Each			N/A

9.7	New	Computerised Speech Lab Computerized speech lab	Computerised Speech Lab Computerized speech lab, (CSL) equivalent to or better model 4150B, highly advanced acoustic analysis system with robust hardware for data acquisition complemented by the most versatile suite of software available for speech/voice analysis, measurement, and therapy, equivalent or better CSL 4150B contains an external module with user controls and an internal plug-in card for the host computer, the external module offers many advantages over systems using an internal I/O headphones) and easy volume adjustments. Must include probes, cables, and power supply, printer compatibility. D9 Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable.	Each																
9.8	New	Computerised Speech Lab starter kit Accessories	Computerised Speech Lab starter kit Starter Kit of accessories and consumables.	Kit			N/A													
SECTION B. AUDIOLOGY																				
10 OTOSCOPES																				
10.1	New	Pocket Size Otoscope	Pocket size portable otoscope A pocket size, durable, portable otoscope. Must have a viewing window with no less than 2.5 magnification strength. To include a range of speculi, LED light bulbs and starter kit batteries. Must have at least a one year warranty.	Each																
10.2	New	Wall Mounted Otoscope	Wall Mounted Otoscope A wall mountable high-quality otoscopes with a range of illumination options and wide-angle viewing. To include a range of speculi, light bulbs and power supply. Must have at least a one year warranty.	Each																
10.3	New	Video otoscope	Video otoscope A pocket size digital video otoscope, live video streaming connected to an app, with speculi for adults and children's sizes. With a minimum of one year warranty.	Each																
11.	TYMPANOMETRY																			

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	%TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
11.1	New	Screening Immittance starter kit	Screening Immittance Handheld portable screening tympanometry testing and ipsilateral acoustic reflex testing. Tympanometry measurement capability of 226Hz and 1000Hz. Must include probes, probe cable, clips, nubs, carry case and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration). Software must have the capacity to be upgraded if applicable	Each																
11.2	New	Stand Alone Diagnostic Immittance	Screening Immittance starter kit of accessories and consumables.	Pack			N/A													
11.3	New	Stand Alone Diagnostic Immittance starter kit	Stand Alone Diagnostic Immittance Stand Alone, durable Diagnostic immittance system, with multifrequency testing measurement capabilities (wideband tympanometry), ipsilateral acoustic reflex threshold testing, contralateral acoustic reflex threshold testing (option to do BBN reflexes), eustachian tube functioning testing, reflex decay testing, ideally to be able to do ESRT. Includes nubs, carry case and A/C power supply. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
11.4	New	Portable diagnostic immittance	Stand Alone Diagnostic Immittance starter kit of accessories and consumables.	Pack			N/A													
11.5	New	Portable diagnostic immittance starter kit	Portable diagnostic immittance Portable Diagnostic immittance system, with multifrequency testing measurement capabilities (wideband tympanometry), ipsilateral acoustic reflex threshold testing, contralateral acoustic reflex threshold testing (option to do BBN reflexes), eustachian tube functioning testing, reflex decay testing. Must include probes, probe cable, clips, nubs, carry case and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration). Software must have the capacity to be upgraded if applicable	Each

11.6	New	Portable diagnostic immittance starter kit	Portable diagnostic immittance starter kit of accessories and consumables.	Pack			N/A													
12 AUDIOMETER																				
12.1	New	Portable Screening Audiometer	1 channel audiometer with standard testing frequency range of 125Hz to 8000Hz. Accessories to be included, post aural headphones or insert earphones. Ideally should have noise cancellation headset. May have additional test options such as tympanometry etc. Must include probes, probe cable, clips, nubs and power supply Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration). Carrier options should be made available. Software must have the capacity to be upgraded if applicable	Each																
12.2	New	Diagnostic Audiometer	Diagnostic high frequency Audiometer Clinical 2-channel diagnostic audiometer with standard testing frequency range of 125Hz to 8000Hz. Must have high frequency audiometry option up to a maximum of 20000Hz. Accessories to be included, post aural headphones, insert earphones, bone conductor, high frequency headphones and speakers. Able to perform live speech testing through a microphone and recorded voice through a compatible method. Must have the ability to upgrade to do specialised testing such as Threshold Equalising Noise test (TENS) tests, AMLD tests or better. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each

12.3	New	Diagnostic high frequency Audiometer	Diagnostic Audiometer Clinical 2-channel diagnostic audiometer with standard testing frequency range of 125Hz to 8000Hz. Accessories to be included, post aural headphones, insert earphones, bone conductor, and speaker. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
12.4	New	Audiometer with VRA compatibility	Audiometer with VRA compatibility Clinical 2-channel diagnostic audiometer with standard testing frequency range of 125Hz to 8000Hz. Accessories to be included, post aural headphones, insert earphones, bone conductor, and a minimum of two speakers, compatible visual screens and the reinforcement switch box. observer clinician to hear signals presented in the test room as well as communication with the tester via two communication headsets. Must include probes, probe cable, clips, nubs and power supply Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
13	ELECTROPHYSIOLOGY																			
13.1	New	Screening Distortion Product Otoacoustic Emissions (DPOAE) starter kit	Screening Distortion Product Otoacoustic Emissions (DPOAE) Portable and rechargeable system allowing for the screening of outer hair cell functioning with software allowing for test and patient management. Should have predefined and user defined protocols, may have the ability to do Transient Evoked Otoacoustic Emissions. Should be able to connect to a PC or printer. Must include probes, probe cable, clips, carry case, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each

13.2	New	Screening Automated Auditory Brainstem Response with handheld headsets	Screening Distortion Product Otoacoustic Emissions (DPOAE) starter kit of accessories and consumables. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Pack																
13.3	New	Screening Automated Auditory Brainstem Response with handheld headsets starter kit	Screening Automated Auditory Brainstem Response with handheld headsets Portable handheld and rechargeable system allowing for the screening of auditory brainstem response. Should contain integrated electrodes, with docking station, with headsets. A compatible PC/ laptop must be included if required. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
13.4	New	Diagnostic Otoacoustic Emissions (OAE)	Screening Automated Auditory Brainstem Response with handheld headsets starter kit of accessories and consumables.	Pack			N/A													
13.5	New	Diagnostic Otoacoustic Emissions (OAE) starter kit	Diagnostic Otoacoustic Emissions (OAE) Diagnostic clinical Outer Acoustic Emissions system, able to perform Transient Evoked Otoacoustic Emissions (TEOAEs), Distortion Product Otoacoustic Emissions (DPOAEs) or better. Should include software and compatible PC/Laptop if required. D67	Each																
13.6	New	Diagnostic Electrophysiology system	Diagnostic Otoacoustic Emissions (OAE) starter kit of accessories and consumables.	Pack			N/A													

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
13.7	New	Diagnostic Electrophysiology system starter kit	Diagnostic Electrophysiology system Complete evoked potential system able to perform diagnostic ABR, auditory steady state response (ASSR), diagnostic OAEs. Should include software and compatible PC/Laptop if required. Must include probes, probe cable clips, nubs and power supply, printer compatibility. Must include electrodes, insert earphones, post aural headset, bone conductor, speaker, and carry case. Must have supporting software and a starter kit of accessories and consumable. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation).	Each																
13.8	New	Otoacoustic Emissions (OAE) tips for OAE diagnostic equipment	Diagnostic Electrophysiology system starter kit of accessories and consumables.	Pack			N/A													
13.9	New	Otoacoustic Emissions (OAE) tips for OAE diagnostic equipment starter kit	Otoacoustic Emissions (OAE) tips for OAE diagnostic equipment Tips of varying sizes that are compatible with OAE probes for use with diagnostic OAE equipment. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
13.10	New	Advanced Diagnostic Auditory Evoked potential (AEP)	Otoacoustic Emissions (OAE) tips for OAE diagnostic equipment starter kit of accessories and consumables.	Pack			N/A													

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	%TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
13.11	New	Advanced Diagnostic Auditory Evoked potential (AEP)starter kit	Advanced Diagnostic Auditory Evoked potential (AEP) Complete evoked potential system able to perform diagnostic ABR, auditory steady state response (ASSR), diagnostic OAEs, evoked potential; electrocochleography (ECoChG), middle latency response (MLR), late latency responses (LLR), P300/MMN. Must be able to do EABR, vemps, free field aided ABR testing capacity. Should include software and compatible PC/Laptop if required. Must include probes, probe cables, clips, nubs and power supply, printer compatibility as required. Must include electrodes, nubs, insert earphones, post aural headset, bone conductor, probe cables, speaker, and carry case as required. Must have supporting software which can be upgraded if applicable. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installations).	Each																
13.12	New	Advanced Diagnostic Auditory Evoked potential (AEP)starter kit	Advanced Diagnostic Auditory Evoked potential (AEP) starter kit of accessories and consumables.	Pack			N/A													
14. VERIFICATION																				
14.1	New	Standalone Hearing Aid Verification starter kit	Standalone Hearing Aid Verification Standalone hearing aid fitting instrument allowing for verification of hearing aid fitting. Should have NAL-NL1, NAL-NL2, DSL5 prescription targets. Stored equalisation allowing for verification of open fittings. Must have speech mapping facility, real ear to coupler difference (RECD) and test box verification option. Needs to include probe, cables and power supply. Can be NOAH compatible or be used with standalone software's. Must have supporting software or PC/Laptop compatible included if required. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each			N/A													
14.2	New	Portable Hearing Aid Verification	Standalone Hearing Aid Verification starter kit of accessories and consumables.	Pack			N/A

14.3	New	Portable Hearing Aid Verification starter kit	Portable Hearing Aid Verification Portable hearing aid fitting instrument allowing for verification of hearing aid fitting. Should have NAL-NL1, NAL-NL2, DSL5 prescription targets. Stored equalisation allowing for verification of open fittings. Must have speech mapping facility, real ear to coupler difference (RECD) and test box verification option. Needs to include probe, cables and power supply. Can be NOAH compatible or be used with standalone software's. Must have supporting software or PC/Laptop compatible included if required. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
14.4	New	Hearing Aid fitting programming station - desktop	Portable Hearing Aid Verification starter kit of accessories and consumables.	Pack			N/A													
14.5	New	Hearing Aid fitting programming station - desktop starter kit	Hearing Aid fitting programming station - desktop Complete mobile hearing aid fitting programming station to fit hearing aids. Included should be a laptop with a minimum spec of (Core i7 processor, 8Gb RAM minimum, 1Tb Hard Drive, Windows 10 compatible), a digital hearing aid programmer compatible to all hearing aids (e.g. HIPRO or better) plus integrated database management software for hearing aid fittings complete with installation guide and assistant (e.g. NOAH or better). Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
14.6	New	Real Ear Measurements (REM) probe for hearing aid verification	Hearing Aid fitting programming station - desktop starter kit of accessories and consumables.	Pack			N/A													

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	%TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
14.7	New	Real Ear Measurements (REM) probe for hearing aid verification starter kit	Real Ear Measurements (REM) probe for hearing aid verification starter kit Real ear coupler difference (RECD) transducer and cable compatible with hearing aid verification equipment. Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility., as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Each																
14.8	New	Hearing Aid fitting programming station - laptop	Real Ear Measurements (REM) probe for hearing aid verification starter kit of accessories and consumables.	Pack			N/A													
14.9	New	Hearing Aid fitting programming station - laptop starter kit	Hearing Aid fitting programming station - laptop Complete mobile hearing aid fitting programming station to fit hearing aids. Included should be a laptop with a minimum spec of (Core i7 processor, 8Gb RAM minimum, 1Tb Hard Drive, Windows 10 compatible), a digital hearing aid programmer compatible to all hearing aids (e.g. HIPRO or better) plus integrated database management software for hearing aid fittings complete with installation guide and assistant (e.g. NOAH or better). 15.1	New	Videonystagm ography starter	Videonystagmography Diagnostic assessment equipment for the assessment of balance with calorics and visual tracking systems e.g. light bar, and water/air caloric options. The complete test battery must have saccades, optokinetic, gaze, static positional, dix Hallpike, and other specialised tests or better. Video goggles with fixation light for VNG. Must have simplified recording, review, and transfer of video sequences to allow for sharing of information. Should include software and compatible PC/Laptop if required. Software must have the capacity to be upgraded if applicable	Package																
15.2	New	Videonystagm ography starter	Videonystagmography starter kit of accessories and consumables.	Per Pack			N/A													
15.3	New	Vestibular Evoked Myogenic Potential (VEMPS) starter kit	Vestibular Evoked Myogenic Potential (VEMPS) Equipment that allows for the neurophysiological assessment technique used to determine the function of the otolithic organs (utricle and saccule) of the inner ear. Must include insert phones, software, preamplifier, electrodes, cables, probes and monitor guide. Should include software and compatible PC/Laptop if required.	Package																
15.4	New	Rotational chair	Vestibular Evoked Myogenic Potential (VEMPS) starter kit of accessories and consumables.	Per Pack			N/A													
15.5	New	Rotational chair	Rotational chair rotary chair with the ability to produce angular accelerations that can be precisely controlled and computed. Multiple stimuli of varying intensities can be applied to vestibular system. It should allow for the evaluation of the vestibular ocular reflex, the optokinetic neuro pathways, caloric testing and rotational test as primary requirements or better. There must be a system in place to avoid vibration. It must have a comfortable and adjustable chair for caloric testing and must be able to decline to the horizontal position for positional testing. The parameters in terms of frequency, speed and amplitude should be programmable. It should be fully controlled by software. Should include software and compatible PC/Laptop if required. Must include probes, cables, and power supply Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility. as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of	Package

15.6	New	Central Posturagraphy Equipment (CDP)	Rotational chair starter kit of accessories and consumables.	Per Pack			N/A	N/A												
15.7	New	Central Posturagraphy Equipment (CDP) starter kit	Central Posturagraphy Equipment (CDP) Equipment that allows for a non-invasive specialised clinical rehabilitation used to quantify the central nervous system adaptive mechanisms involved in the control of posture and balance, both in normal and abnormal conditions. Can be used for vestibulotoxicity monitoring & required for monitoring ototoxicity due to e.g. TB meds. It should utilise a dynamic force plate with rotation and translation capabilities to quantify the vertigo forces exerted through the patient's feet to measure centre of gravity position and postural control; and a dynamic visual surround to measure the patient's use of visual information to maintain balance. It should provide assessment and retraining capabilities with visual biofeedback and either a stable or unstable support surface and in a stable or dynamic visual environment. Should include software and compatible PC/Laptop if required. Must include probes, cables, and power supply, printer	Package																
15.8	New	Central Posturagraphy Equipment (CDP) starter kit	Central Posturagraphy Equipment (CDP) starter kit of accessories and consumables.	Per Pack			N/A													
15.9	New	Objective video Frenzzle	Objective video Frenzzle Lenses Objective Video frenzzles lenses that is compatible with a video recording source. Must include an eye movement analysis system to assess various eye movements, such as: Saccades and nystagmus. It should allow for positional testing and manoeuvres, which monitors the eye movements. Should include software and compatible PC/Laptop if required. Must include probes, cables, and power supply, printer compatibility Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Package																
15.10	New	Objective video Frenzzle Lenses starter kit	Objective video Frenzzle Lenses starter kit of accessories and consumables.	Per Pack			N/A

15.11	New	Video head impulse test (VHIT) starter kit	Video head impulse test (VHIT) Video Head Impulse Test with intergraded features for diagnosing peripheral vestibular loss in the adult and paediatric population, it is also effectively detecting horizontal canal dysfunction specific to otolith functioning. Graphical presentation of head versus eye movements for all 6 semicircular canals. Should measure gain and velocity. Should include software and compatible PC/Laptop if required. Must include probes, cables, and power supply, printer compatibility as required. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Package																
15.12	New	Balance Assessment and Training Systems	Video head impulse test (VHIT) starter kit of accessories and consumables.	Per Pack			N/A													
15.13	New	Balance Assessment and Training Systems starter kit	Balance Assessment and Training Systems Vestibular assessment and training system with the use of virtual reality feature, which can be connected to a computer (to be supplied by company with appropriate software). Must have a set of protocols to at least 4 or more vestibular balance function test such as: posturography, Fall Risk, Unilateral Stance, Romberg test etc. as well as at least 4 vestibular ocular motor test such as: Smooth Pursuit, Saccadic, Optokinetic Nystagmus, VOR (Vestibular Ocular Reflex) etc. To include games and balancing exercises for older paediatrics. Must include probes, cables, and power supply, printer compatibility as required. Must have minimum one year warranty of 5 years. (Be inclusive calibration and installation). Software must have the capacity to be upgraded if applicable	Package																
15.14	New	Dynamic Visual Assessment (DVA)	Balance Assessment and Training Systems starter kit of accessories and consumables.	Per Pack			N/A

15.15	New	Dynamic Visual Assessment (DVA) starter kit.	Dynamic Visual Assessment (DVA)Dynamic Visual Assessment (DVA), used to measure Vestibular ocular reflex (VOR) function and visual acuity during head movements. Can also be used as a rehabilitation module to evaluate vestibular compensation via Vestibular Rehab Training (VRT). Software and compatible PC/Laptop if required. Must include probes, cables, and power supply, printer compatibility as required. Software must have the capacity to be upgraded if applicable	Package																
15.16	New	A vestibular portable kit	Dynamic Visual Assessment (DVA) starter kit of accessories and consumables.	Per Pack			N/A													
15.17	New	A vestibular portable	A vestibular portable kit A vestibular portable kit for assessing dizziness, balance problems, and/or motion sensitivity. With the use of stair stepping, force plates and rocker boards, which may connect to a laptop (supplied by the company with the associated software to measure the patients' functional movements and biofeedback). Must include normative protocol where possible. Must include probes, cables, and power supply, printer compatibility as required. Needs minimum one year warranty and 5-year maintenance plan (inclusive of calibration and installation). Software must have the capacity to be upgraded if applicable	Package																
15.18	New	A vestibular portable kit starter kit	A vestibular portable kit starter kit of accessories and consumables.	Per Pack			N/A													
16	RECORDED SPEECH																			
16.1	New	Recorded Speech Testing software - Afrikaans	Recorded Speech Testing software - English Prerecorded software that contain speech reception testing (SRT) and speech discrimination (SD) in English word lists used during the diagnostic audiological assessment of patients. May have the option to be upgraded and versions needs to be audiometer compatible	Each																
16.2	New	Recorded Speech Testing us/software - IsiZulu	Recorded Speech Testing software - Afrikaans Prerecorded software that contain speech reception testing (SRT) and speech discrimination (SD) in Afrikaans word lists used during the diagnostic audiological assessment of patients. May have the option to be upgraded and versions needs to be audiometer compatible	Each																

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	%TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED	
16.3	New	Recorded Speech Testing us/software - IsiZulu	Recorded Speech Testing software - IsiZulu Prerecorded software that contain speech reception testing (SRT) and speech discrimination (SD) in isiZulu word lists used during the diagnostic audiological assessment of patients. May have the option to be upgraded and versions needs to be audiometer compatible	Each																	
17 CENTRAL AUDITORY PROCESSING DISORDER																					
17.1	New	Temporal Processing Task	Temporal Processing Task Software that contains the latest random gap detection task as a measure of temporal resolution which indicates the presence of a temporal processing problem which may influence the ability to comprehend running speech.	Each																	
17.2	New	Temporal Processing Task	Temporal Processing Task Software that contains the latest temporal ordering task in the form of a pitch pattern sequence test whereby the listener is required to report the pattern heard verbally. This requires efficient interhemispheric transfer of acoustic information from the right hemisphere to the left hemisphere.	Each																	
17.3	New	Dichotic Task	Temporal Processing Task Software that contains the latest temporal ordering task in the form of a frequency pattern sequence test whereby the listener is required to hum the pattern heard verbally, thus removing linguistic labelling and interhemispheric transfer component.	Each																	
17.4	New	Monaural Low redundancy	Dichotic Task Software that contains the latest binaural integration task in the form of dichotic digits where different stimuli are presented to each ear simultaneously. The binaural integration part of the test requires that the patient repeats everything that is heard in both ears. The binaural separation part requires them to ignore what is presented to one ear and repeat the information from the target ear. This test binaural separation and integration.	Each																	
17.5	New	Monaural Low redundancy	Monaural Low redundancy Software that contains the latest auditory closure test in the form of low pass filter task, where each ear is tested independently with distorted words to assess the patient's ability to understand and repeat.	Each																	
17.6	New	Masking Level Difference	Monaural Low redundancy Software that includes the latest auditory closure test in the form of time compressed speech/ time compressed speech with reverberation.	Each																	

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	%TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
17.7	New	Battery tests for CAPD (children)	Masking Level Difference Software that tests for binaural integration or binaural fusion. The patient is asked to identify a tone or word as it emerges from competing background noise.	Each																
17.8	New	Battery tests for CAPD (adolescents and adults)	Battery tests for CAPD (children) Software that allows for the differentiation of auditory processing difficulties from auditory comprehension skills related to specific language impairment (SLI) and auditory attention difficulties. Features to include screening tasks (gap detection task, auditory figure ground task, competing words task), diagnostic tasks (filtered words task, competing words task, competing sentences tasks) and supplementary tests (auditory figure ground task, time compressed sentences task).	Each																
17.9	New	CAPD Test battery (App based)	Battery tests for CAPD (adolescents and adults) Software that allows for the differentiation of auditory processing difficulties from auditory comprehension skills related to specific language impairment (SLI) and auditory attention difficulties. Features to include screening tasks (gap detection task, auditory figure ground task, competing words task), diagnostic tasks (filtered words task, competing words task, competing sentences tasks) and supplementary tests (auditory figure ground task, time compressed sentences task).	Each																
17.10	New	Battery tests for CAPD (combination children, adolescents and adults)	CAPD Test battery (App based) An app based central auditory processing assessment tool with affiliated KOSS UR10 headsets. Must include features of assessing Frequency Pattern and Dichotic Digits Test. To include games and exercises for paediatrics. Software and compatible PC/Laptop if required. Must include probes, cables, and power supply, printer compatibility and a starter kit of accessories and consumables. Needs minimum one year warranty and 5-year maintenance plan.	Each

17.11	New	Battery tests for CAPD (combination children, adolescents and adults)	Battery tests for CAPD (combination children, adolescents and adults) Software that allows for the differentiation of auditory processing difficulties from auditory comprehension skills related to specific language impairment (SLI) and auditory attention difficulties. Features to include screening tasks (gap detection task, auditory figure ground task, competing words task), diagnostic tasks (filtered words task, competing words task, competing sentences tasks) and supplementary tests (auditory figure ground task, time compressed sentences task).	Each																
17.12	144247	Post-aural audiocups	Headphone shell/audiocup that is able to fit over standard TDH39 post aural headphones. It allows for noise reduction. Should include cups, adjustable headband, headband cover, lead assembly - ear cushions, trunnion, platform - and foam maltese cross.	Each																
17.13	144254	Insert earphones for audiometer testing Eartone 3A (ER3A) - 10 Ω (Ohm)	Insert earphones attachable to audiometers. Should have sound tube adaptors, dual mono replacement 7" cable assembly, velcro clips, replacement sound tube with adaptors. Should have an impedance 10Ω, and sensitivity of 102.5dB SPL in HA-2 coupler. Outputs meet or exceed 110dB at standard audiometric frequencies between 500Hz and 4000Hz. Must meet ANSI or equivalent standards. Should include 2 packets of small (pink) foamtips and large (yellow) foamtips, neonate earlips (red). Needs 2 year warranty.	Each																
17.14	144260	Replacement audiocups for post-aural headphones	Audiocup cushions that fit onto standard post aural headphones. Should meet ANSI or equivalent standards.	Each																
18	COCHLEAR																			
18.1	New	Programming pod for Medel CIP system	Programming kit for Cochlear implants for Medel Recipients A start up kit including, the pod, programming cables and USB cable to connect to programming pod compatible with Medel cochlear implants	Each																
18.2	New	Programming cables for Medel CIP system	Programming pod for Medel CIP system Pod compatible for programming Medel® cochlear implants	Each																
18.3	New	USB cable to connect to programming pod for Medel CIP system	Programming cables for Medel CIP system Cable compatible for programming Medel® cochlear implants	Each

18.11	New	USB cable to connect to programming pod for Cochlear CIP system	Programming cables for Cochlear CIP system Cable compatible for programming Cochlear CIP® cochlear implants	Each																
18.12	New	USB cable compatible for programming Cochlear CIP® cochlear implants	USB cable to connect to programming pod for Cochlear CIP system USB cable compatible for programming Cochlear CIP® cochlear implants	Each																
19.	CERUMEN MANAGEMENT																			
19.1	New	Portable and rechargeable LED diagnostic procedure headlight	Cerumen management tool that has a video Cerumen management, tool, that has a video ability connected via an app, with tablet or cell phone, ear wax removal tool with real-time remote video, 3-in-1 ear cleaner earwax, removal kit with ear pick & tweezers mode, ear camera otoscope with light	Each																

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	%TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
19.2	New	LED Headlight	Portable and rechargeable LED diagnostic procedure headlight LED Procedure Headlight; White LED with rigid headband; and rechargeable battery. Ideal for foreign body removal, and procedures that require a small, bright spot. Lightweight, providing maximum comfort with well-defined, shadow-free illumination. Use with a direct power supply or rechargeable battery for portability. LED provides up to 50,000 hours of life and 60 minutes of continuous run-time on a fully charged battery or better. Must have a minimum of a one year warranty	Each																
19.3	New	Cerumen mana	LED Headlight Ultra bright coaxial illumination, working distance of 250 mm. Ensures true colour tissue for the most accurate diagnosis, LED Operating Life Up to 50,000 hours. Angle of Declination: Stepless and individually adjustable for every examination. Headband-mounted. Operating time of 8.5 hours	Each																
19.4	New	Cerumen mana	Cerumen management, tool Cerumen management, tool with Lightsource, replacement for lighted cerumen management tips and forceps.	Each																
20	HEARING AID REPAIRS																			
20.1	New	Drill, electric hand held small	Drill electric small hand held with bits Drill electric, hand-held electric drill with bits suitable for drilling earmolds, small, such as: "Proxxon drill with frisch d/b" equal or better, minimum pack of 10 bits to be supplied	Each																
21.	BOOTHS																			
21.1	New	Audio Booth (small)	Audio Booth (small) Soundproof booth with ventilation and extractor fan. Minimum external dimensions of length: 975mm, width: 735mm, height 1917mm. Minimal internal dimensions of length: 850mm, width: 610mm, height: 1720mm. Should contain observation window, with one way mirror and work platform attachment. The booth should have sound absorption in accordance with ISO 9001, SANS or equivalent. Inside ambient noise levels compliant with the ANSI S.1-1999 or equivalent. Fire resistance in compliance with EN13823 and SANS 10177 or equivalent. Needs minimum one year warranty and calibrations and installation	Each																

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND %PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
21.2	New	Audio Booth (medium) with soundproof observation/clinician area	Audio Booth (medium) Soundproof booth with ventilation and extractor fan. Minimum external dimensions of length: 1998mm, width: 1998mm, height 2277mm. Minimal internal dimensions of length: 1783mm, width: 1783mm, height: 1960mm. Should contain observation window, with one way mirror and work platform attachment. The booth should have sound absorption in accordance with ISO 9001, SANS or equivalent. Inside ambient noise levels compliant with the ANSI S.1-1999 or equivalent. Fire resistance in compliance with EN13823 and SANS 10177. Comes standard with wheelchair access ramp. Needs minimum one year warranty and calibrations and installation	Each																
21.3	New	Audio Booth (medium) - with soundproof observation/clinician area	Audio Booth (medium) - with soundproof observation/clinician area Soundproof booth with ventilation and extractor fan Minimum external dimensions of length: 1998mm, width: 1998mm, height 2277mm. Minimal internal dimensions of length: 1783mm, width: 1783mm, height: 1960mm. Should contain observation window, with one way mirror, and work platform attachment in the soundproof observation/ clinician area. Observation soundproof area should have external dimensions of width: 1998mm, height 2277mm, length: 1998mm or smaller as per customer request before manufacture and internal dimensions of width: 1783mm, height: 1960mm, length: 1783mm or smaller as per customer requests before manufacture. The booth should have sound absorption in accordance with ISO 9001, SANS or equivalent. Inside ambient noise levels compliant with the ANSI S.1-1999 or equivalent. Fire resistance in compliance with EN13823 and	Each

21.4	New	Audio Booth (large)	Audio Booth (large) Soundproof booth with ventilation and extractor fan. Minimum external dimensions of length: 2200mm, width: 2200mm, height 2400mm. Minimal internal dimensions of length: 2000mm, width: 2000mm, height: 2000mm. Should contain observation window, with one way mirror, and work platform attachment. The booth should have sound absorption in accordance with ISO 9001, SANS or equivalent. Inside ambient noise levels compliant with the ANSI S.1-1999 or equivalent. Fire resistance in compliance with EN13823 and SANS 10177. Comes standard with wheelchair access ramp. Needs minimum one year warranty and calibrations and installation	Each																
21.5	New	Customise Audio booths	Customise Audio booths Soundproof booth with ventilation and extractor fan. Dimensions to be determined by the institutional needs, optional extras may include observational sound treated area, wheelchair access ramp. Should contain observation window, with one way mirror, and work platform attachment. The booth should have sound absorption in accordance with ISO 9001, SANS or equivalent. Inside ambient noise levels compliant with the ANSI S.1-1999 or equivalent. Fire resistance in compliance with EN13823 and SANS 10177. Needs minimum one year warranty and calibrations.	Each																
21.6	New	Visual Reinforcement Audiometry (VRA) Audio Booth	Visual Reinforcement Audiometry (VRA) Audio Booth Custom measured and made to fit area with a minimum inside floor test area of estimated 12m ² with a separate soundproof observation area, with observation window, with one way mirror, into test area. Lights should be able to be dimmed (optional). Facility for the distractor/ observer clinician to hear signals presented in the test room as well as communication with the tester, i.e. 2-way communication system. The booth should have sound absorption in accordance with ISO 9001, SANS or equivalent. Inside ambient noise levels compliant with the ANSI S.1-1999 or equivalent. Fire resistance in compliance with EN13823 and SANS 10177. Must include power surge protector plug and wireless 2-way communication system. Comes standard with wheelchair access ramp. Needs minimum one year warranty and calibration.	Each

21.9	New	Wireless 2-way Communication System	Wireless 2-way Communication System Facility for the distractor/ observer clinician to hear signals presented in the test room as well as communication with the tester, i.e. wireless 2-way communication system. It must have the ability to connect to an audiometer, as well as include a set of headphones for the distractor/ observer clinician. Batteries and charger cables to be made available Must include probes, probe cable, clips, nubs and power supply as required, as well as printer compatibility. Needs minimum one year warranty.	Each																
21.10	New	Power surge protector plug	Power surge protector plug Power surge protector that can protect electronic equipment. The modules must have multiple stages of protection capable of blocking severe lightening and power surges, without additional earthing. Functional indication length display that indicates the protection status of the unit to be included. Maximum continuous voltage 250V, 50Hz, and maximum continuous current is 16A. Needs to include line filtration and fire hazard protection. Needs to have a minimum of 1m power cord cable. To be able to be connected to medical equipment and general power. Needs minimum one year warranty.	Each																
21.11	New	Ultraviolet germicidal irradiation/ Air sterilizer (UV light)	Ultraviolet germicidal irradiation/ Air sterilizer (UV light) Ultraviolet germicidal irradiation (UVGI) that is effective in controlling circulation of airborne infectious particles such as those related to tuberculosis (TB). Needs to be wall and ceiling mountable. Needs to have an input of 12V, 2A. Should have an area target of 20m ² or more, and have an airflow of 70m ³ per hour or more, a source of UVC, 254nm, germicidal, and a design radiation dose of 1000µW/cm ² (effective against micro-organisms up to Fungal Spore Level). Needs minimum one year warranty.	Each																
21.12	New	Ventilation units for TB protection	Ventilation units for TB protection Silent ventilation system with input and extraction unit for complete air ventilation of testing room and air sterilisation. Needs a power consumption of 14w, current of 0.085A, air capacity of 107m ³ /h, protecting rating of IP X4, low watt electronic motor, and overheating protection. Needs minimum one year warranty.	Each

142	143757	Traction lumbar, cervical, thoracic-	Traction bed including traction unit Minimum 3 pull patterns deliver pull forces that closely mimic the hand-delivered feel clinicians provide, and add gradient, progressive range of motion and oscillations Isolation of all phases of pull with independent timing for pretension, progression, traction and regression Variable speed control for patient comfort and increased treatment flexibility Pretension step eases guarding and provides greater comfort for the acute patient Provides maximum patient comfort in prone and supine positions for both manual therapy and traction therapy. Pelvic Tilt section provides flexion of lumbar spine to improve positioning in traction and address pelvic asymmetry. Improved patient stabilization (optional: with removable axilla posts that prevent slippage during supine traction). Tilting (0°-35°) repositionable headpiece cradles the patient's head comfortably, allowing flexion in prone or extension in supine positions Height adjustable traction bed. Electric complete traction system with a uniquely engineered and sophisticated traction unit. Should be able to apply cervical, thoracic, lumbar traction. Must have emergency stop button. Must have wheels with breaks or Swivel Wheel raising mechanism (retractable wheels), wheels with brakes, for easy movement of the couch. Include all standard accessories.	each																	
143	143758	Traction unit cervical, lumbar and thoracic traction	Electric complete traction system with a uniquely engineered and sophisticated traction unit. Should be able to apply cervical, thoracic, lumbar traction. Must have emergency stop button. Minimum 3 pull patterns deliver pull forces that closely mimic the hand-delivered feel clinicians provide, and add gradient, progressive range of motion and oscillations Isolation of all phases of pull with independent timing for pretension, progression, traction and regression Variable speed control for patient comfort and increased treatment flexibility Pretension step eases guarding and provides greater comfort for the acute patient. Traction unit must be compatible with traction bed. Must easily attach to traction bed. 5year maintenance plan	each																	
144	143759	Traction bed, lumbar, cervical, thoracic traction.	Must be compatible with traction unit. Provides maximum patient comfort in prone and supine positions for both manual therapy and traction therapy Pelvic tilt section provides flexion of lumbar spine to improve positioning in traction and address pelvic asymmetry Improved patient stabilization (optional: with removable axilla posts that prevent slippage during supine traction) Tilting (0°-35°) repositionable headpiece cradles the patient's head comfortably, allowing flexion in prone or extension in supine positions Height adjustable traction bed. Upholstered surface with room for both patient and therapist imitation leather upholstery contains no phthalates and is flame retardant. Cushioning - FOAM DENSITY: Standard: +38 Kg/m3.	each			N/A

153	new item	Cold compression Bottle and tube	use cooler, tube assembly,cuff for cold therapy and compression. Cooler hold enough water and ice for six to eight hours of cryotherapy . It have two models: gravity assisted cryo/cuff or cryo/cuff IC with integrated pneumatic pump. Cryo cuff IC pump within the cooler lid has a 30 second for automatic intermittent compression. Cyclical compression mixes chilled water inside cuff and maintains pressure necessary to help prevent hemarthrosis an dohter cryo thery.)	each			N/A													
154	143770	Cold compression Shoulder	Effective device for cooling and compression is used for the first two weeks to control swelling and pain. Shoulder Cold compression ShoulderCold compression combines focal compression with cold to provide optimal control of swelling, edema, hematoma, hemarthrosis, and pain. Simplicity of design and ease of operation makes it ideal for the ER, post-op, training room and home.Key Benefits Anatomic cuff design for complete coverage Easy to apply and remove Detachable cooler Portable Controlled cold; no known risk of tissue damage Durable and economical. Sizes Medium (12A), Medium w/extra long strap (12AXL).	each			N/A													
155	143771	Cold compress	Cold compressioncombines focal compression with cold to provide optimal control of swelling, edema, hematoma, hemarthrosis, and pain. Simplicity of design and ease of operation makes it ideal for the ER, post-op, training room and home. Key Benefits Anatomic cuff design for complete coverage. Sizes Medium (10C), Large (10B). Indications: Turf toe, Post-op.	each			N/A													
156	new item	Cold compress	Knee Cold compression Immediately post-injury, the focus is on regaining full range of motion and decreasing swelling. The knee Cold compressionis an effective device for cooling and compression, and seems much easier for the patient to handle than ice packs and compression bandages." Swelling control is essential in the early phases of post-operative rehabilitation. The Cold compressionis used for the first two weeks to control swelling and pain. Key Benefits: Anatomic cuff design for complete coverage, Easy to apply and remove, Detachable cooler, Portable Controlled cold; no known risk of tissue damage, Durable and economical	each			N/A													
157	new item	Cold compress	Elbow Cold compression Elbow Cold compressionby Aircast combines focal compression with cold to provide optimal control of swelling, edema, hematoma, hemarthrosis, and pain. Simplicity of design and ease of operation makes it ideal for the ER, post-op, training room and home.Key Benefits Anatomic cuff design for complete coverage Easy to apply and remove Detachable cooler Portable Controlled cold; no known risk of tissue damage Durable and economical. Sizes One-size-fits-all (15A). Indications: Epicondylitis, Throwing Injuries, Post-op. Cold compression combines focal compression with cold to provide optimal control of swelling, edema, hematoma, hemarthrosis, and pain. Simplicity of design and ease of operation makes it ideal for the ER, post-op, training room and home.	each			N/A

182	new item	Spirolab	Multitasking and versatile spirometer ideal for accurate and early diagnosis (COPD, Asthma, FVC, VC with breathing pattern plus MVV test with real time curves. high resolution colour display simple icon based menu on the keyboard. Pre-test and related post test are shown superimposed. 6000 test memory and up to 8 test on screen. include pediatric incentive program which will help the child to make correct spirometry tes. Selected language and pricted values Customisable printout format. Connectivity : USB and andard Features: portable desktop diagnostic spirometer with definition display. PC software, USB cable , miniflowmeter with cable,power supply/battery charger, roll of thermal paper, 2 spare fuses, nosedclip, disposable turbine flowmeter with mouthpiece, adult reusable oximetry finger sensor, carry case and CD with multilanguage user manual. 5 year maintenance	each																
183	new item	Short Wave Diathermic unit	Provides thermal and athermal effects through qualitative dosimetry selection. Treatment setup via thermal dosimetry. Quick link indications or clinical protocols. Minimum 200 user defined protocols storage slots.Minimum 90 clinical protocols. Full colour graphics library of anatomical images and pathologies. minimum 140 applicator placement images diathermy rational, diathermy contraindication, average power of 64 Watts in pulsed mode. Fully adjustable pulse rate a 1nd pulse width. continuous (100Watt) and pulsed (200Watt) power modes. Patient documentation of treatment sessions,pre and post treatment patient pain scales. Mapping and pain types all captured on patient data cards. Full colour LCD touch screen interface. Multilingual software. Adjustable treatment timer. Automatic resonance timing. two outputs channels. 360degr swivel rotation interface. Robust, mult-joined, pivoting electroide arms. Patient safety switch.	each																
184	new item	Shock wave therapy machine	Radial pressure waves offer a non invasive treatment solution for long term insetion and soft tissue pathologies. Local treatment of the affected area will enhance and reset the healing pattern, while reducing pain and improving function. 2 channel output connection: allows the connection of the 2 hand pieces. Easy to use menu-driven touch screen technology. Pre-programmmed clinical protocols, Ramp feature providing a gradual, automatic and smooth intensity increase during treatment includes graphics library of the anatomical images and pathologies. Full colour LCD touch screen interface. Convenients storage platform for secure and easy access of the hand piece, transmitters and gel. 360degr swivel rotation of the interface. storage drawer for keeping clinical supplies. Multilingual softwre. Patient data records treatment sessions. Patients pain scales, pain type and mapping. 5 year warranty , must be available with all accessories	each

185	new item	Mobility trainer	combination of treadmill, parallel bars and hoist/suspension *3-in 1 mobility trainer unit. Speed range to accommodate very weak patient included ventilated patients(from 0.2- 10km/hour), computer display- which include - program,distance,pulse, speedtime, calories. quick touch speed (up and down) and incline (up and down). Programmes: pre-set, manual, 3 program. must have built in reciever. Incline range: +12% to -3%. Product assembled size: 215x90x270cm(h). Suspension system to prevent patient from falling. Suspension loading capacity of 600kg maximum. Super low running speed (lowest =0.2km/h). Air cylinder device can lift your weight up from 5kg-35kgs. Extra long nd wide running area (56x152.5cm), loading user weight of 150kg.	each			N/A														
186	new item	Patient Walker	Hydraulic height adjustable patients rehabilitation walker with: simple graduated height adjustment; low position assists with rising; easily readable height scale; four braked castors; strong durable construction; adjustable ergonomic handles, padded arm rest; footbrakes on all four wheels; lockable hand brakes and lockable swing and parking brakes. dimension:700mm length , width 660mm. Forearm height adjustable :850mm-1335mm. Maximum weight: 150	each			N/A														
187	new item	Patient Walker	Electric height adjustable patients rehabilitation walker with: simple graduated height adjustment; low position assists with rising; easily readable height scale; four braked castors; strong durable construction; adjustable ergonomic handles, padded arm rest ; footbrakes on all four wheels; lockable hand brakes and lockable swing and parking brakes. dimension:700mm length , width 660mm. Forearm height adjustable :850mm-1335mm. Maximum weight: 150	each			N/A														
188	new item	Patient Walker	Single adjustable walker with a choice of either manual height adjustment. Both single and double adjustable versions are available with or without hand brakes. Walker with height and width adjustable handles and four castors. Brakes on the rear castor . Handle height adjustment: 850-1180mm .Handle with adjustable : 80-440mm. Foot print:670x 620mm . padded arm rest.Weight: 13kg. Maximum user weight: 102kg	each			N/A														
189	new item	Patient Walker	Single adjustable walker with pneumatic height adjustment. Both single and double adjustable versions are available with or without hand brakes.patient. Walker with height and width adjustable handles and rear braked castors. Four castor .Handle height adjustment: 850-1180mm .Handle with adjustable : 80-440mm. Foot print:670x 620mm . padded arm rest.Weight: 13kg. Maximum user weight: 102kg	each			N/A														
190	new item	Patient Atlas	adjustable height atlas walking frame with padded arm rest, four castors, brakes on the rear castor for additional safety. Dimension: height adjustable 93-142cm; overall width 63cm. Overall depth: 76cm	each			N/A

191	new item	Bariatric High	Multi-functional aid for : walking and mobilising patients with weigh up to 325kg. It has a built in two handgrip function tha allows the user to stand using small step and being in full control of the manoeuvre. Adjustable armrest in width and angle giving optimal support to the user. The bar-mounted hand-brakes are not only useful for stopping but also for speed control and turning. Brakes can be locked when required. Dimension : width =760mm; Heigth adjustable =1000 to 1300mm, Maximum user weight = 325 kg.	each			N/A													
192	new item	Aqua ring walk	Rustproof, available in different sizes for varying weights. Latex free. For assistance in walking in pool	each			N/A													
193	new item	Aquatic swim	Two floats on long cushioned hand bar, suitable for both hands on bar	each			N/A													
194	new item	Aquatic hand	Nonslip hand grips. Two floats on a hand bar (for 1 hand)	each			N/A													
195	new item	Buoyancy belt	Aquatic buoyancy belt that suspends the body at shoulder level in water. Contoured design that promotes correct posture, supports lower back and tone abdomianl muscles.	each			N/A													
196	new item	Portable shock	Weight less than 11 kg, with user interface, pulse counter screen, frequency screen, intensity adjustment, pulse counter reset, frequency adjustment, including optional accessories as needed. 5 Year maintenance plan; minimum 2 years warranty	each			N/A													
197	new item	Wireless elect	Wireless technology, muscle intelligence technology with personalised stimulation, multiple programs covering pain relief, rehabilitation, vascular, neurologic rehabilitation, conditioning and aesthetic categories. Docking station, travelling case, remote control, favourite programs, detailed practical guide, motor point pen, charger, 5 year service	each			N/A													
198	new item	Sensory balan	balance in sitting training. Air-filled cushion with an integrated electronic sensor, which registers the tilts of thecushion. It connects to a persons laptop or computer either via USB cable or via optional wireless connection. Standard software included for training neuromuscular control. Cushion 30-40cm diameter. Exercise sheet. Standard USB connection cable. Includes software that is able to measure and archive information as well as for diagnosis and comparison purposes. Should have pre-programmed training exercises (minimum 10) and minimum 10 levels of exercise. Must be availible with all accessories.	each			N/A													
199	new item	Vibromat	Device to provide vibration in treating chest conditions. Must have a rubber massage pad. Two speed electric motor. Easy to clean. Includes all accessories. Designed to replace worn parts easily. Impct-resistant synthetic material. Veatures vertical as well as horizontal oscillations providing deep tissue vibration. Must come with electric connection and plug.	each			N/A

200	new item	Gait re-trainer	Gait re-trainer that makes natural walking possible patient secured with pelvic safety belt. First stepping impulse comes from the patient's pelvis. Pelvis and upper body are completely flexible and move actively during walking, accelerating, braking, riding the curves, turning on the spot is possible. Equipped with a drive block and electric motor. Solid 25cm rubber tyres on each side minimum 4 wheels: the drive wheels move the unit at a set speed. Range 0-3.5Kmh. Shock resistant and easy to clean. Control and display unit with 2.7" colour screen. Exercise parameters: speed fast/slow, direction right or left, direction forward or backward.	each			N/A													
201	new item	Caliper, skinfold	Caliper, measuring skinfolds, aluminum construction with plastic-covered handle for comfortable grip, double spring system with spring pressure of 10g/mm ² ± 0.2g/mm ² , range of 80mm with accuracy of ±0.2mm, packed in padded transport case, includes instruction manual. A minimum of full comprehensive one year warranty.	each			N/A													
202	new item	Caliper, large bone	Caliper, large bone, tool for measuring chest depth and shoulder width and hip width, made of aluminum with anodized aluminum main bar and hard ABS plastic arms, dual adjustable/removable arms, dual reading scale, range of approximately 0-70cm, resolution of 1mm, measurements in mm and cm, packed in padded transport case, includes instruction manual. A minimum of full comprehensive one year warranty.	each			N/A													
203	new item	Pilates ring	Pilates ring, ring add resistance to workout to increase muscle strength and to aid joint mobility and increase flexibility, made of durable fiberglass sleeved in soft rubber material, provide variable amount of resistance, 2 double side padded handles on opposite sides of ring, handles on inside and outside of ring, diameter of ±30cm, easy cleanable.	each			N/A													
204	new item	Multi-adjustable bench with knee extension	Multi-adjustable bench with knee extension (Also known as multipurpose fitness bench), synthetic leather material, integrated wheels and handles. Seat must be square and NOT triangular. 7 back rest angle settings: (0°, 15°, 30°, 45°, 60°, 75°, 85°) and 3 seat angle setting: (0°, 15°, 30°). Length: 118 124cm, Height: 118cm 124cm, Width: 59-65 cm, Holding capacity: 110 kg. A minimum of full comprehensive one year warranty.	each			N/A													
205	new item	Hydraulic height adjustable plinth 2 section	Two Adjustable sections, Head piece adjusts from 0-90°. Load capacity up to + 200 kg Head section folds down completely for better access of the cervical region Removable long nose hole with insert Optional a triangular nose hole Wheel raising mechanism for easy movement of the couch Height can be adjusted hydraulically (no mains lead needed) Height High Position >90cm, Low Position < 45cm Overall Length +180cm Overall Width +60cm. Optional tapering of head and foot piece to a minimum of 50cm. FOAM DENSITY: Standard: 38 Kg/m3 and 4-6cm thick. Upholstered surface with room for both patient and therapist imitation leather upholstery contains no phthalates and is flame retardant. 5year maintenance plan, minimum one year warranty	each

213	new item	CPM Upper limb Shoulder with seat and headrest	Must be able to go through full normal physiological shoulder range of motion. Adduction/ Abduction 0/30/175. Internal/external rotation: 90/0/90. Elevation: 0/30/175. Horizontal adduction/abduction: 0/0/120. Timer with 1-300max minutes. Adjustable speed. Mobile with wheels (minimum 2) that swivel in all directions and have breaks. Adjustable head rest and seat (FOAM DENSITY: Standard: 38 Kg/m3 and 4-6cm thick. Upholsered surface with room for both patient and therapist imitation leather upholstery contains no phthalates and is flame retardant.) Minimum 1 strap. Must have ability to make quick adjustments, pause features and visual bio-feedback mechanism, can be used for isolated or synchronised movement training. Washable / wipeable padding for comfortable use. 5year maintenance plan, minimum one year warranty	each																	
214	new item	CPM Upper limb Shoulder pole mounted or free standing	Must be able to go through full normal physiological shoulder range of motion. Adduction/ Abduction 0/30/175. Internal/external rotation: 90/0/90. Elevation: 0/30/175. Horizontal adduction/abduction: 0/0/120. Timer with 1-300max minutes. Adjustable speed. Mobile with wheels (minimum 3) that swivel in all directions and have breaks. Minimum 1 strap. Must have ability to make quick adjustments, pause features and visual bio-feedback mechanism, can be used for isolated or synchronised movement training. Digital remote control. Must have emergency stop function. Washable / wipeable padding for comfortable use. 5year maintenance plan, minimum one years warranty	each																	
215	new item	CPM Upper limb Elbow with seat and headrest	Must be able to go through full normal physiological elbow range of motion. Range of motion: Extension/flexion: -5/0/140. Pronation/Supination: 90/0/90. Timer with 1-300max minutes. Adjustable speed. Mobile with wheels (minimum 2) that swivel in all directions and have breaks. Adjustable head rest and seat (FOAM DENSITY: Standard: 38 Kg/m3 and 4-6cm thick. Upholsered surface with room for both patient and therapist imitation leather upholstery contains no phthalates and is flame retardant.) Minimum 1 strap. Must have ability to make quick adjustments, pause features and visual bio-feedback mechanism, can be used for isolated or synchronised movement training. Washable / wipeable padding for comfortable use. 5year maintenance plan, minimum one year warranty	each

216	new item	CPM Upper limb Elbow pole mounted or free standing	Must be able to go through full normal physiological elbow range of motion. Range of motion: Extension/flexion: -5/0/140. Pronation/Supination: 90/0/90. Timer with 1-300max minutes. Adjustable speed. Mobile with wheels (minimum 3) that swivel in all directions and have breaks. Minimum 1 strap. Must have ability to make quick adjustments, pause features and visual bio-feedback mechanism, can be used for isolated or synchronised movement training. Digital remote control. Must have emergency stop function. Washable / wipeable padding for comfortable use.5year maintenance plan, minimum one year warranty	each																
217	new item	CPM Upper limb Wrist free standing or arm mounted	Must be able to go through full normal physiological wrist range of motion. Range of motion: Extension: 0-90. Flexion:0-90. Complete radial and ulnar deviation max 90deg. Timer with 1-300max minutes. Adjustable speed. Mobile with wheels (minimum 3) that swivel in all directions and have breaks. Minimum 1 strap. Must have ability to make quick adjustments, pause features and visual bio-feedback mechanism, can be used for isolated or synchronised movement training. Digital remote control. Must have emergency stop function. Washable / wipeable padding for comfortable use. Max weight 4kg. Optional battery operated.5year maintenance plan, minimum one year warranty	each																
218	new item	Nebuliser Ultrasonic	Hospital grade. Nebulisation capacity: 2-5ml per minute. Medicine chamber capacity 50-100ml. Timeout function 0-1 hour. Particle size 3 um to 8 micron. All accessories available. Must be able to connect to a mask. 5 year maintenance plan, minimum one year warranty	each																
219	New Item	Portable suction	Pumping rate of 10-15L/min. Negative pressures ranging from 0- to +- 0.8. Available with all accessories. Electrical cable optional: battery backup. Weight max 6Kg. Easy to clean. 5year maintenance plan, minimum one year warranty	each																
220	new item	Ice Machine (ice cubes)	Minimum 20Kg Ice in 24 hours capacity. Easy on/off (thermostat). Optional timer. Able to produce ice 24 hours. Minimum 9Kg ice storage capacity. Made of Stainless steel. Optional Automatic maintenance reminder. Optional Antibacterial pouch mounted in storage bin. Must make ice cubes. Rust-resistant. Must have easy access to air filter for cleaning. Must be easy to clean.5year maintenance plan; minimum one years warranty	each																
221	new item	Ice Machine (ice flaker)	Minimum 20Kg Ice in 24 hours capacity. Easy on/off (thermostat). Optional timer. Able to produce ice 24 hours. Minimum 20Kg ice storage capacity. Made of Stainless steel. Optional Automatic maintenance reminder. Optional Antibacterial pouch mounted in storage bin. Must make ice flakes. Rust-resistant. Must have easy access to air filter for cleaning. Must be easy to clean.5year maintenance plan, minimum one year warranty	each

222	new item	Infrared lamp (standing)	LED device that emits red and infrared light that penetrates the skin to stimulate the energy production and other metabolic processes in targeted areas. Pain management. Allows treatments within minutes. Has a 150mW small probe for treating small or difficult to access areas, while the optional high-power 600mW or 1200mW probes provide you with a greater treatment surface for treating large areas. 5year maintenance plan, minimum one year warranty	each																
223	new item	Intermittent pneumatic compression device	Gradient calibrated, dimensions: 5.5 x 12 x 8 (H x W x D); weighs 7 lbs, pressure range 0 - 125 mm Hg, electrical rating 120 VAC, 60Hz, 5 A. Cycle time 40 seconds, deflation 6 seconds, warranty for Mfr. Defect minimum one year. Bilateral w/ adapter. Must come with full arm ,leg sleeves and trouser sleeve. 5year maintenance plan	each																
224	new item	Ultrasound for womens health	Various imaging modes. Gray scale 256 or colour display. 10"non interlaced, transducer frequency: 2.5-10MHz. Transducer connector: 1(Standard), 2(optional). Dynamic imaging technology: Digital beam-forming, Dynamic Receiving Focus, Up to 16 Zone transmitting focusing, Dynamic Frequency Scan, Real-time Dynamic Aperture, Dynamic Receiving Apodization. Scanning angle from 60 to 120 (or better) degree (depending on transducers. Scanning depth (mm) from 21.6 to 248 (or better)(depending on transducers). Image processing, Pre-processing: dynamic range, edge enhancement, frame correlation, 4-segment TGC adjustment, IP (image process), acoustic power adjustment high LED/LCD screen: 2/3D resolution/high frame rate select. Post-processing, gray/ colour map, left-right reverse, up-down reverse. Functions: Cine loop(128 frame cine loop memory). Storage media: internal flash and USB. Zoom: panoramic in real-time and frozen condition. Built-in image archive: permanent storage up to 90 images (or more). Measurement and calculation: distance, circumference, area, volume, angle, ratio, histogram, profile,s%. Distance, time, velocity, heart rate (2cycles). Software packages: Abdomen, gynecology, obstetrics, orthopaedics. Peripheral port: video output 1, USB port 1, VGA output port 1, DICOM3.0 1 (optional). Power supply: 100-240VAC+/- 10%, 50Hz/60Hz. Dimensions: 360mm(W) x 320mm (L) x 270mm (H). Net weight 9.5Kg. Standard configurations: DP: 2200main unit. 10" non-nterlaced monitor. One transducer connector. 128-frame image storage. One or more	each																
225	new item	Standing frame Adult four wheeled	Must have backward/forward adjustable back rest. Distance from table to footrest cm +85min to +124max Adjustment heel-supports in width 27 / 35cm Adjustment knee-pads in width 19 - 49cm Adjustment knee-pads in height 35-45cm Min to 60Max Minimum width of frame 80cm Total length cm 103-113 Dimensions of the table 65-75 x 55-65 cm Four wheels in the front for easy transportation with brakes. 5year maintenance plan; minimum one year warranty	each

226	new item	Anti-gravity Treadmill	Must a provision for use in Anti-gravity mode Weight reduction Aerobic conditioning Unweighting is achieved by using air in a pressure-controlled chamber to gently lift the user. Precise calibration using patented technology allows for very specific unweighting from 100-20% of the users body weight in 1% increments. It must have the following: user weight range of 40 - 180 kg; body weight adjustment of 0 - 80% reduction; body weight increment of 1%; speed range of 0 - 12 mph; speed adjustment increment of 0.1 mph; incline range of 0 - 15%; reverse 0 -3 mph. Dimensions: length 2.13 m; width 96.52 cm; height 1.88 m; weight 340.2 kg. Must include medical electronic isolation. 5year maintenance plan; minimum one year warranty	each																	
227	new item	Treadmill	0-22+ degrees incline range Full medical handrails standard. Emergency stop button. Large (within the ranges of) 56cm x 157cm belt constructed from carbon-weave, low friction material that is resistant to static buildup or stat belt. Max Weight: +200 Kg Dimensions: within the ranges of 218.5 x 970 x 147.0 cm Net Weight: within the range of 165.5Kg Speed: manually adjustable - within the range of 0-25km/h Central handle bar Safety cord that attaches to patient for emergency stop of treadmill. Displays heart rate information Adjustable levelers to allow for a steady platform. 2 moving wheels Utility/bottle holder. 5year maintenance plan; minimum one year warranty	each																	
228	new item	Exercise bicycle ergometer	<ul style="list-style-type: none"> •Comfortable training in a sitting position. •Comfortable seat with ergonomically safe backrest (recumbent). •A sitting ergometer combines the ideal features of a bike ergometer with training positions that are safe for the joints of the user. •Relieving the load on the spine makes it possible for persons with back problems to perform endurance training. •Seat has to be adjustable , forwards or backwards, hand rails next to seat and on monitor, adjustable monitor height. 5year maintenance plan , minimum one year warranty 	each

229	new item	Exercise bicycle - (manual / electrical)	<p>Exercise bicycle</p> <ul style="list-style-type: none"> Upright bicycle - medical exercise equipment Gel covered saddle, is equipped with a seatheight adjusting, as well as an horizontal seat modulation. Magnetical tension control functions very silent, and results combined with the heavy-duty flywheel Ergonomical handlebar Multi-functional LCD, monitoring all functions simultaneously: speed, timer, distance, calorie burn watt and heart-rate. Programmable up to (+/-)16 levels and (+/-)16 time-intervals, Personal user profile programming integrated. HR training in different settings, including heart rate recuperation. Manual tension control from (+/-)10 up to (+/-)350 Watt, (+/-)5 Watt interval steps Telemetric heart rate receiver for continuous feedback is optional. Programme Profiles: (+/-)12 Max User Limit: 140 kg User Profiles: (+/-)1 Dimensions: 1480x90x980 mm Watt Control: Yes Flywheel Heart Rate Control: Yes Weight: (+/-)41 kg Recovery Function: Yes Manual Control: Yes Time: Yes Speed: Yes Distance: Yes 	each																	
230	new item	Mobile hoist Electric / hydraulic (patient lifting device)	<p>Lightweight compact and moveable. Easy to service and maintain. Electric leg opening U-shape (chassis) opening (1150mm). User friendly clip-on handset. Controlled manual lowering for emergencies. Alarm at 50% battery level. Control box includes emergency stop and charge status. Lifting capacity of <180Kg to 250kg. Battery: Charging time of <5 to 14 hours. Lifting height 1200mm -1910 and release from ground level to 440mm. Release speed graded for slow release and/or adjustable speeds. All slings come in different material, comfort polyester/ Nylon/ parachute material. Lifting material must be available in all sizes. Must have minimum 4 wheels that can swivel in all directions and have breaks. 5year maintenance plan, minimum one year warranty</p>	each																	
231	new item	Mobile hoist Manual/ Hydraulic (patient lifting device)	<p>Lightweight compact and moveable. Easy to service and maintain. Manual/hydraulic leg opening U-shape (chassis) (1150mm). User friendly clip-on handset. Controlled manual lowering for emergencies. Alarm at 50% battery level. Lifting capacity of <180Kg to 250kg. Lifting height 1200mm -1910 and release from ground level to 440mm. Release Manually operated, graded for slow release and/or adjustable speeds. All slings come in different material, comfort polyester/ Nylon/ parachute material. Lifting material must be available in all sizes. Must have minimum 4 wheels that can swivel in all directions and have breaks. 5year maintenance plan, minimum one year warranty</p>	each

232	new item	CPM Lower limb knee and ankle	Lightweight multipurpose for knee and ankle. Compact, anatomically correct machine is programmable and features ROM automatic set up. Different treatment modes: Warm up, modulation, ROM by pass, Session time. Hyperextension -10deg to flexion 120deg. Weight maximum 18Kg. Patient sizing full leg: must be adjustable in length and width from children to large adults. Must have minimum 4 straps and a thigh strap to secure patient leg and washable / wipeable padding for comfortable use. Foot pad included. Digital remote control. Patient sizing Full leg: 60cm - 120cm, Tibia: 30 to 60cm, Femur: 30cm to 50cm. Must have emergency stop function. 5year maintenance plan, minimum one year warranty	each																
233	new item	CPM Ankle	Lightweight multipurpose for ankle. Compact, anatomically correct machine is programmable and features ROM automatic set up. Different treatment modes: Warm up, modulation, ROM by pass, Session time. Hyperextension -10deg to flexion 120deg. Weight maximum 18Kg. Patient sizing: must be adjustable in length and width from children to large adults. Must have minimum 3 straps and washable / wipeable padding for comfortable use. Foot pad included. Digital remote control. Must have emergency stop function. Training time 1min-to max 300minutes.5year maintenance plan , minimum one year warranty	each																
234	new item	Neuromodulation device	urgent PC neuromodulation system designed to provide percutaneous tibial nerve stimulation for the treatment of urinary frequency,urgency, urge incontinencer and feacal icontinence. * the urgent pc stimulator must be reusable with a reusable pc leads and disposable sterile acupuncter needles. * the urgent PC must provide visual and auditory feedback on operation. fixed pulse frequency of 20Hz. pulse width of 200u sec squer waveforms. adjustable current setting deliveriesbetween 0Am and 9mA. test mode to confirm patient response.preset therapy treatment session of 30min with an option to restart session. device hand handled and battery operated. the lead set transfere the electrical current from the urgent PC stimulator to the tibial nerve. the lead wire is made with attache surface electrode and needle electrode clip.5year maintenance plan, minimum one year warranty	each

235	new item	Spirolab	Multitasking and versatile spirometer ideal for accurate and early diagnosis (COPD, Asthma, FVC, VC with breathing pattern plus MVV test with real time curves, high resolution colour display simple icon based menu on the keyboard. Pre-test and related post test are shown superimposed. 6000 test memory and up to 8 test on screen. include pediatric incentive program which will help the child to make correct spirometry tes. Selected language and pricted values Customisable printout format. Connectivity : USB and andard Features: portable desktop diagnostic spirometer with definition display, PC software, USB cable, miniflowmeter with cable,power supply/battery charger, roll of thermal paper, 2 spare fuses, noseclip, disposable turbine flowmeter with mouthpiece, adult reusable oximetry finger sensor, carry case and CD with multilanguage user manual. 5 year maintenance; minimum one year warranty	each																
236	new item	FES (Functional Electrical Stimulation)	Single channel stimulator designed to correct drop foot and upper motor neuron conditions. Skind surface electrodes. Stimulation must produce dorsiflexion and eversion of the foot and must be able to stimulate a withdrawel reflex e.g. knee flexion. Exercise mode that provides cyclic stimulation for muscle conditioning prior to walking or strengthening other muscle groups. should also provide early gait re-training or other muscle actions such as hip flexion, knee flexion/extension and push off in terminal stance. must have a facility for data logging enabling patient progress and compliance. Frequency 20-60Hz +- 10% in 5Hz steps. Pulse width: 0-360 microseconds +- 10% and 3.6micro seconds steps. Ramping time 0-2seconds +-10% in 50millisecond steps. Symmetrical or asymmetrical biphasic passive charge balanced. Size: 72 x 62 x 26mm. Electrodes easy to clean. must include channel wires. 5year maintenance plan; minimum one year warranty	each																
237	new item	Manual variable height tilt table Adult	Manually operated (Hydraulic pump) With minimum 3 Straps to secure patient. Load capacity up to + 200kg Optional Wheel raising mechanism for easy movement of the bed or minimum 4 wheels with brakes. Height can be adjusted hydraulically (no mains lead needed) Height High Position +90cm, Low Position +45cm (horizontal) Overall Length +180cm Overall Width +60cm. Optional tapering of head and foot piece to a minimum of 50cm. FOAM DENSITY:Standard: 38 Kg/m3 and 4-6cm thick. Upholsered surface with room for both patient and therapist imitation leather upholstery contains no phtalates and is flame retardant. Overall tilt 0deg to 85-90deg. Must have tilt locking mechanism. Comfortable foot rest with non slip surface. All accessories included (work surface, side handles etc.). 5year maintenance plan; minimum one year warranty	each

238	new item	Electrical Variable height tilt table Adult	Electrically operated, with minimum 3 Straps to secure patient. Load capacity up to 200kg + Optional Wheel raising mechanism for easy movement of the bed or minimum 4 wheels with brakes. Height can be adjusted hydraulically (no mains lead needed) Height High Position +90cm, Low Position +45cm (horizontal) Overall Length +190cm Overall Width +60cm. Optional tapering of head and foot piece to a minimum of 50cm. FOAM DENSITY: Standard: 38 Kg/m3 and 4-6cm thick. Upholsered surface with room for both patient and therapist imitation leather upholstery contains no phthalates and is flame retardant. Overall tilt 0deg to 85-90deg. Must have tilt locking mechanism. Comfortable foot rest with non slip surface. All accessories included (work surface, side handles etc.). Optional back up battery and or manually operated option in case of emergency. 5year maintenance plan; minimum one year warranty	each																	
239	new item	Manual variable height tilt table Paediatric	Manually operated (Hydraulic pump) With minimum 3 Straps to secure patient. Load capacity up to +60kg Optional Wheel raising mechanism for easy movement of the bed or minimum 4 wheels with brakes. Height can be adjusted hydraulically (no mains lead needed) Height High Position +90cm, Low Position +45cm (horizontal) Overall Length +130cm max 150cm Overall Width +37 max 60cm. FOAM DENSITY: Standard: 38 Kg/m3 and 4-6cm thick. Upholsered surface with room for both patient and therapist imitation leather upholstery contains no phthalates and is flame retardant. Overall tilt 0deg to 85-90deg. Must have tilt locking mechanism. Comfortable foot rest with non slip surface. All accessories included (work surface, side handles etc.). 5year maintenance plan; minimum one year warranty	each																	
240	new item	Electrical Variable height tilt table Paediatric	Electrically operated. With minimum 3 Straps to secure patient. Load capacity up to +60kg Optional Wheel raising mechanism for easy movement of the bed or minimum 4 wheels with brakes. Height can be adjusted hydraulically (no mains lead needed) Height High Position +90cm, Low Position +45cm (horizontal) Overall Length +130cm max 150cm Overall Width +37 max 60cm. 241	new item	Shock wave therapy machine	Radial pressure waves offer a non invasive treatment solution for long term inseton and soft tissue pathologies. Local treatment of the affected area will enhance and reset the healing pattern, while reducing pain and improving function. 2 channel output connection: allows the connection of the 2 hand pieces. Easy to use menu-driven touch screen technology. Pre-programmed clinical protocols, Ramp feature providing a gradual, automatic and smooth intensity increase during treatment includes graphics library of the anatomical images and pathologies. Full colour LCD touch screen interface. Convenient storage platform for secure and easy access of the hand piece, transmitters and gel. 360degr swivel rotation of the interface. storage drawer for keeping clinical supplies. Multilingual softwre. Patient data records treatment sessions. Patients pain scales, pain type and mapping. Must be available with all accessories . 5year maintenance plan; minimum one year warranty	each																	
242	new item	Mobility trainer unit	combination of treadmill, parallel bars and hoist/suspension *3-in-1 mobility trainer unit. Speed range to accommodate very weak patient included ventilated patients(from 0.2- 10km/hour), computer diplay- which include - program ,distance,pulse, speedtime, calories. quick touch speed (up and down) and incline (up and down). Programmes: pre-set, manual, 3 program. must have built in reciever. Incline range: +12% to -3%. Product assembled size: 215x90x270cm(h). Suspension system to prevent patient from falling. Suspension loading capacity of 600kg maximum. Super low running speed (lowest =0.2km/h). Air cylinder device can lift your weight up from 5kg- 35kgs. Extra long nd wide running area (56x152.5cm), loading user weight of 150kg, 5year maintenance plan. minimum one year warranty	each																	
243	new item	Portable shockwave	Weight less than 11 kg, with user interface, pulse counter screen, frequency screen, intensity adjustment, pulse counter reset, frequency adjustment, including optional accessories as needed. 5 Year maintenance plan; minimum one year warranty	each																	
244	new item	Wireless electrotherapy unit	Wireless technology, muscle intelligence technology with personalised stimulation, multiple programs covering pain relief, rehabilitation, vascular, neurologic rehabilitation, conditioning and aesthetic categories. Docking station, travelling case, remote control, favourite programs, detailed practical guide, motor point pen, charger, 5 year maintenance plan; minimum one year warranty	each																	
245	new item	Gait re-trainer	Gait re-trainer that makes natural walking possible patient secured with pelvic safety belt. First stepping impulse comes from the patient's pelvis. Pelvis and upper body are completely flexible and move actively during walking, accelerating, braking, riding the curves, turning on the spot is possible. Equipped with a drive block and electric motor. Solid 25cm rubber tyres on each side minimum 4 wheels, the drive wheels move the unit at a set speed. Range 0-3.5Km/h. Shock resistant and easy to clean. Controll and display unit with 2.7" colour screen. Exercise parameters: speed fast/slow, direction right or left, direction forward or backward. 5year maintenance plan. minimum one year warranty	each

			Example			R25 000,00	R1 000,00	R26 000,00													
1	143844	Mobile Splinting Trolley	Splinting trolley with 4 swivel wheels with foot brakes on wheels, with push handles on either side of the trolley; made of durable stainless steel, must have lockable cupboards with shelves and removable drawers inside for splinting material storage; 105cm length x 60cm width x 70cm height.	each			N/A														
2	143846	Portable electric frying pan	Portable electrical frying pan with built in adjustable thermostat with SA compatible electrical cord and 3pin plug, 220 - 250 volts, must come with a removable heat resistant lid with handle, lifting handles on each side of the pan, 40cm length x 32,5cm wide x12,5cm height; concealed heating element with non-stick liner to prevent splinting material from adhering to heatpan base; must be able to work with heat activated thermoplastic materials.	each			N/A														
3	143851	Non Stick Scissors - right handed	Non-stick scissors with stainless steel blades and durable heavy duty plastic handles, must be able to cut through glue, tape, sticky velcro and other adhesives without damaging the blades, easy to clean (including sticky material on the blades) with a damp cloth; 20cm length of blades, Right handed, enlarged bottom handle to fit 4 fingers.	each			N/A														
4	143852	Non Stick Scissors - left handed	Non-stick scissors with stainless steel blades and durable heavy duty plastic handles, must be able to cut through glue, tape, sticky velcro and other adhesives without damaging the blades, easy to clean (including sticky material on the blades) with a damp cloth; 20cm length of blades, left handed, enlarged bottom handle to fit 4 fingers.	each			N/A														
5	143853	Heavy duty shears scissor - right handed	Heavy duty shears scissors with high carbon 22,5cm stainless steel blades and handles (handles covered with durable heavy duty hard plastic); to trim thermoplastic splint material evenly as hardening begins; 20 cm length, Right handed, enlarged bottom handle to fit 4 fingers.	each			N/A														
7	143854	Heavy duty shears Scissor -left handed	Heavy duty shears scissors with high carbon 22,5cm stainless steel blades and handles (handles covered with durable heavy duty hard plastic); to trim thermoplastic splint material evenly as hardening begins; 20 cm length, left handed, enlarged bottom handle to fit 4 fingers.	each			N/A														
8	143855	Curved scissors - right handed	Used to cut curves easily to the right, heavy duty, stainless steel blades and handles, for use with warm thermoplastic splinting material; 20cm length, enlarged bottom to fit 4 fingers	each			N/A														
9	143856	Curved scissors -left handed	Used to cut curves easily to the left, heavy duty, stainless steel blades and handles, for use with warm thermoplastic splinting material; 20cm length, enlarged bottom to fit 4 fingers	each			N/A														
10	143857	Heavy duty scissors - right handed	Heavy duty high quality ultra light weight scissors with stainless steel blades and handles (handles insulated with durable heavy duty hard plastic); used for cutting heated thermoplastic splinting material, leaves a smooth edge, 20cm long, Right handed enlarged bottom handle to fit 4 fingers.	each			N/A														
11	143858	Heavy duty scissors - left handed	Heavy duty high quality ultra light weight scissors with stainless steel blades and handles (handles insulated with durable heavy duty hard plastic); used for cutting heated thermoplastic splinting material, leaves a smooth edge, 20cm long, Left handed enlarged bottom handle to fit 4 fingers.	each			N/A														
12	143860	Unlimited Scissors	Heavy duty scissors with stainless steel (blades and handles) - handles insulated with durable heavy duty hard plastic, powerful leverage for greater mechanical advantage, cuts unheated thermoplastic splinting material and metal, flexible non-stick handles for a comfortable grip, enlarged bottom handle to fit 4 fingers.	each			N/A														
13	143861	Bandage scissors	18cm Stainless steel serrated slanted blades, with blunt tips and needle destroyer, with a non-stick coating, handles covered with heavy duty durable hard plastic, enlarged bottom handle to fit 4 fingers.	each			N/A														
14	143862	Dressing scissors	Stainless Steel blades, 5cm blades, 14 cm in total length.	each			N/A														
15	143863	Soft touch scissors - right handed	Off set handle scissors to make cutting on flat surfaces easy, oversized cushioned handles to distribute pressure evenly and to allow use of the whole hand. Blades open after each cut due to a gentle spring action, blades can be secured with an easy slide lock, stainless steel blades, right handed.	each			N/A														

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	INDIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
16	143864	Soft touch scissors - left handed	Off set handle scissors to make cutting on flat surfaces easy, oversized cushioned handles to distribute pressure evenly and to allow use of the whole hand. Blades open after each cut due to a gentle spring action, blades can be secured with an easy slide lock, stainless steel blades, left handed.	each			N/A													
17	143865	Cast scissors for serial finger casts - right handed	High quality heavy duty stainless steel scissors, 1.3cm slant design on cutting surface, 9cm length, right handed, providing excellent force while increasing patient's safety.	each			N/A													
18	143866	Cast scissors for serial finger casts - left handed	High quality heavy duty stainless steel scissors, 1.3cm slant design on cutting surface, 9cm length, left handed, providing excellent force while increasing patient's safety.	each			N/A													
19	143867	Plaster (POP) scissors - right handed	High quality stainless steel scissors cast scissors, with 15cm handle and slanted 6cm blades. Total length of 20cm, right handed.	each			N/A													
20	143868	Plaster (POP) scissors - left handed	High quality stainless steel scissors cast scissors, with 15cm handle and slanted 6cm blades. Total length of 20cm, left handed.	each			N/A													
21	143869	All purpose snips - right handed	High quality stainless steel blade snips to cut a wide variety of materials, stainless steel spring, positive safety latch and comfort grip handles, to be used for cutting low temperatures thermoplastic at room temperature. Latex free, right handed.	each			N/A													
22	143810	All purpose snips - left handed	High quality stainless steel blade snips to cut a wide variety of materials, stainless steel spring, positive safety latch and comfort grip handles, to be used for cutting low temperatures thermoplastic at room temperature. Latex free, left handed.	each			N/A													
23	143811	Revolving hole punch	High quality heavy duty, durable revolving punch made from stainless steel, side spring that automatically adjust the tubes in position for punching. Total length 22cm, throat depth 3.8 cm; 6 tube sizes: 2.4mm; 2.8mm; 3.2mm; 4mm; 4.4mm; 4.8mm.	each			N/A													
24	143813	90 degrees Wire bender	Heavy duty for bending copper wire that is used in dynamic splint outriggers. Vinyl cushion grips on handles.	each			N/A													
25	143815	Needle nose pliers - right handed	Heavy duty stainless steel pliers with highly hardened cutting edges; rubber coated handles; 15cm length; right handed.	each			N/A													
26	143816	Needle nose pliers - left handed	Heavy duty stainless steel pliers with highly hardened cutting edges; rubber coated handles; 15cm length; left handed.	each			N/A													
27	143819	Knurled bladed needle nose Plier	Knurled jaws, rounded edges, heavy duty stainless steel pliers with rubber coated curved handles to maximise wrist bending; 5cm plier jaws; 20cm overall length.	each			N/A													
28	143820	Cutting mat - plastic	Reversible with durable 3 layer construction, one side is marked with 2.5cm increments; mat must be 45,5cm x 61cm in size; must clean easily with soap and water; protects work surface from being scratched from utilising scissors, knives or drills. Made of durable hard plastic.	each			N/A													
29	143823	Cutting mat - rubber	Reversible with durable 3 layer construction, one side is marked with 2.5cm increments; mat must be 45,5cm x 61cm in size; must clean easily with soap and water; protects work surface from being scratched from utilising scissors, knives or drills. Made of heavy duty/hard rubber.	each			N/A													
30	143825	Ergonomic hand exerciser (Finger flexion + extension)	Light weight frame that adjusts easily for blocking finger extension + flexion; must permit a custom fit for different hand sizes and must conform to the architecture of the hand for comfort and even dispersion of resistance across the palm; handle must be anatomically designed, padded and contoured to fit in the palm. All rubber bands are 8,9cm long and latex free; frame to come complete with four bags of various graded tensions (resistance) of rubber bands, each bag to contain 150 rubber bands of the following sizes respectively: 1,3mm; 3,2mm; 6,4mm and 9,5mm.	Per kit			N/A													
31	143826	Curved ergonomic hand exerciser (Finger flexion + extension)	Light weight curved frame that adjusts easily for blocking finger extension + flexion; exercises different flexor and extensor muscle groups; includes 4 ranged limiting clips; must permit a custom fit for different hand sizes and must conform to the architecture of the hand for comfort and even dispersion of resistance across the palm; handle must be anatomically designed, padded and contoured to fit in the palm. All rubber bands are 8,9cm long and latex free; frame to come complete with four bags of various graded tensions (resistance) of rubber bands, each bag to contain 150 rubber bands of the following sizes respectively: 1,3mm; 3,2mm; 6,4mm and 9,5mm.	Per kit			N/A													

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	INDIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED	
32	143828	Graded Pinch Exerciser	Designed for graded resistive exercise for increasing pinch strength and coordination; includes 5 different graded stainless steel springs in colour coded pinch pegs; the range of resistance approximately 0.45kg, 0.9kg, 1.8kg, 2.7kg and 3.6kg; three metal rods of different diameters accommodate the various openings of each pinch peg; kit includes a vertical metal rod 95cm high to combine upper extremity shoulder range of motion exercises with resistive pinch exercises; includes a total of 35 graded spring pinch pegs, 7 of each resistance; consists of a wedged open base box made of durable heavy duty hard plastic (or better); height 22cm; length 33cm and width 32cm;	Per kit			N/A														
33	143829	Egg-shaped squeeze ball	For hand exercises needs to fit the contours of the hand; material needs to be non-allergenic, polymer; will not crack, leak or melt; should not be made from natural rubber latex; must come complete as a set with graded resistance / tensions which can be colour coded for each level of tension; the graded tension must be extra soft, soft, medium and firm	per set			N/A														
34	143830	Spherical shaped squeeze ball	Material must be capable of heating and chilling for various hand conditions; should help to strengthen grip and increase dexterity, mobility and fine & gross motor skills; must come with graded tensions /resistance of extra soft, soft, medium and firm.	per set			N/A														
35	143832	Theraband flexi bars - extra light	To help strengthen hand, wrist, & forearms. Should allow for oscillation movements for neuromuscular re-education. Tension as follows: extra light = +/- 3.5cm.	each			N/A														
36	143833	Theraband flexi bars - light	To help strengthen hand, wrist, & forearms. Should allow for oscillation movements for neuromuscular re-education. Tension as follows: light = +/- 3.75cm.	each			N/A														
37	143834	Theraband flexi bars - medium	To help strengthen hand, wrist, & forearms. Should allow for oscillation movements for neuromuscular re-education. Tension as follows: medium = +/- 4.37cm.	each			N/A														
38	143836	Theraband flexi bars - heavy	To help strengthen hand, wrist, & forearms. Should allow for oscillation movements for neuromuscular re-education. Tension as follows: heavy = +/- 5cm.	each			N/A														
39	143837	Extensor finger exerciser	Unit should be able to isolate finger and thumb extension, must have varied resistance levels, must come with various graded tension rubber bands, tension must be graded from extra light, light, medium. Elastic band must be latex free.	per set			N/A														
40	143838	Flexor & extensor finger exerciser with spherical grasp	To strengthen finger flexor & extensor muscles; unit must consists of 3 different resistances, one resistance ball with flexible bands of each resistance graded from: soft, medium & firm.	Per kit			N/A														
41	143840	Stacking cones - small	Textured, plastic cones with a non-slip grip & for tactile stimulation. Must come in a set of 30 cones which are in different colours. Cones must be made of latex free material. The cones must be +/- 18cm long, 9,5cm top circumference and 15cm base circumference.	per set			N/A														
42	143895	Incline / Elevation Tilling Easel board - Plastic	Must be made of heavy duty durable plastic, can be used at any angle, from horizontal to vertical, must have a lip at the bottom of the easel. Height of unit must be +/- 70cm x 70cm. Must have adjustable mechanism to adjust the degree of inclination. must have a non-slip under-surface.	each			N/A														
43	143802	Digital goniometer	Used to measure range of motion of large joints of the human body. Made of powder coated steel, integral vertical and horizontal levels are incorporated into digital goniometer arm, LCD screen reads 0 to 180 degrees, freeze angle measurement, level to indicate starting point, includes 9volts battery, has 180 degrees scale marked in 1 degree increments that read in either direction. Linear in inches and centimeters.	each			N/A														
44	143803	Horizontal ring tree	User should be able to sit or stand while increasing the range of motion, strength, balance, and perceptual motor skills. 3 horizontal metal rods are 30cm, 61cm and 91cm long respectively. The rods can be placed in any one of the 6 holes on the 72cm upright post. Base is 91cm long and can be permanently or temporarily attached to the table. It should include 36-48 durable plastic rings, 12 each of 3cm, 4cm and 5cm in diameter. The unit should be latex free.	each			N/A														
45	143804	Vertical ring tree	Can be used for increasing ROM, Hand/Eye coordination, manipulation, endurance and sequencing. Base is 55cm long, 37cm wide and 4cm deep. The diameter of rods vary between 8.4mm and 25mm, includes 12-20 rings for each plastic rod. The unit must be able to disassemble and packed into a cupboard base for storage. It must be latex free.	each			N/A														
46	143805	Wrist arm exerciser	It must consist of a wire tree with approximately 25 bends in 152cm of wire. It includes a plastic disc ring which is movable around the wire to position the wrist, elbow and shoulder in order to get plastic disc to slide from one end to the other. Handles / Base of unit is 6.4cm-10 tall and is latex free.	each			N/A														

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	% DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
47	143806	Pronation supination wheel	Circular wheel like structure made of durable plastic of approximately 20 - 30cm diameter with comfortable hand bar within the wheel to accommodate any hand size as well as flexion glove where necessary. The outside rubber surface should provide non-slip motion during exercising. Hand bar within the wheel should be no-slip. Unit should weigh 1-2 kg.	each			N/A													
48	143807	Figure 8 board system	Unit should consist of 110 x 66cm figure 8 shoulder exercise board, a hand skate and a resistance system. A steel reinforcing rim should make the board rigid without being heavy. The surface of the board should be able to reduce the sound of the skate which should have quiet ball castors and moulded hand piece with a fastening strap. Hooks at four points permit adding the weight system fastens to provide resistance in any direction and in the specific amount needed.	each			N/A													
49	143808	Quad board	Padded top is upholstered and durable, wipe clean vinyl and can be positioned at a variety of angles. Base is 63,5 x 15cm.	each			N/A													
50	144124	Plastic model of spine with femur heads and pelvis	Plastic model with metal stand, height 83cm-100cm; weight 2.1-3 kg.	each			N/A													
51	144125	Anatomical wall charts - shoulder and elbow	Charts are markable (write on/wipe off); metal eyelets in top corners for wall hanging or use with chart stands. Can be rolled and will not curl when hung; flexible , plastic, 1,5mm lamination, colour pictures with detailed illustrations, size 50cm wide x 64cm height.	each			N/A													
52	178067	Anatomical wall charts - hip and knee	Charts are markable (write on/wipe off); metal eyelets in top corners for wall hanging or use with chart stands. Can be rolled and will not curl when hung; flexible , plastic, 1,5mm lamination, colour pictures with detailed illustrations, size 50cm wide x 64cm height.	each			N/A													
53	177994	Anatomical wall charts - hand and wrist	Charts are markable (write on/wipe off); metal eyelets in top corners for wall hanging or use with chart stands. Can be rolled and will not curl when hung; flexible , plastic, 1,5mm lamination, colour pictures with detailed illustrations, size 50cm wide x 64cm height.	each			N/A													
54	177993	Anatomical wall charts - The vertebral column	Charts are markable (write on/wipe off); metal eyelets in top corners for wall hanging or use with chart stands. Can be rolled and will not curl when hung; flexible , plastic, 1,5mm lamination, colour pictures with detailed illustrations, size 50cm wide x 64cm height.	each			N/A													
55	118963	Anatomical wall charts - Understanding arthritis	Charts are markable (write on/wipe off); metal eyelets in top corners for wall hanging or use with chart stands. Can be rolled and will not curl when hung; flexible , plastic, 1,5mm lamination, colour pictures with detailed illustrations, size 50cm wide x 64cm height.	each			N/A													
56	144130	Plastic model of full arm	Full plastic arm model with removable parts to depict different muscles, blood vessels and nerves. Metal stand must be included. Dimensions: 81cm W x 44,5cm L x 25,5cm H.	each			N/A													
57	144131	Shape sequence peg board	Wooden pegboard comprising of 3 dimensional colour coded shapes which consist of squares, circles, rectangles and triangles. The board is used for understanding sizes , measurements, grasping, pinching, and coordination training. Five different block heights measure 3,8 to 10cm. Wooden board measures 18 to 22cm.	each			N/A													
58	144133	9-Hole pegboard	This pegboard may be used to conduct finger dexterity and fine motor coordination exercises. The board measures 12cm x 12cm; Slide panel on the side of the board with 2 compartment slots for storing pegs. Easy to grip wooden pegs have 0,64cm diameter and are 3,8cm long.	each			N/A													
59	144136	Anatomical charts - major nerves of the upper limb - anterior aspect	Flexible plastic laminated, colour pictures with detailed illustrations, size 50cm W x 64cm H.	each			N/A													
60	144137	Anatomical charts - major nerves of the upper limb - posterior aspect	Flexible plastic laminated, colour pictures with detailed illustrations, size 50cm W x 64cm H.	each			N/A													
61	144142	Anatomical charts - origin of cutaneous nerves - anterior view	Flexible plastic laminated, colour pictures with detailed illustrations, size 50cm W x 64cm H.	each			N/A													
62	144167	Anatomical charts - origin of cutaneous nerves - posterior view	Flexible plastic laminated, colour pictures with detailed illustrations, size 50cm W x 64cm H.	each			N/A													
63	144169	Measuring tapes - Hard	Dual measuring scales, retractible measuring tape, measures inches (60) and centimeters (150).	each			N/A													
64	144171	Timer and stopwatch	Electronic stopwatch / Timers, LCD screen, includes batteries, counts hours, minutes, seconds, nanoseconds and shows elapsed time.	each			N/A													
65	144172	Volumeters - Hand set	Objectively measures volume of a body part by using fluid displacement, measurements help determine the degrees of oedema. Must include volumeter, overflow cup and measurement vessel. Dimensions for hand set: 7,5cm W x 12,5cm L x 22,5cm H.	each			N/A													

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	INDIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
66	144173	Volumeters - Arm set	Objectively measures volume of a body part by using fluid displacement. Measurements help determine the degrees of oedema. Must include volumeter, overflow cup and measurement vessel. Dimensions for hand set: 17.5cmW x 17.5cm L x 75cm H.	each			N/A													
67	144175	Volumeters - Forearm set	Objectively measures volume of a body part by using fluid displacement. Measurements help determine the degrees of oedema. Must include volumeter, overflow cup and measurement vessel. Dimensions for hand set: 15cm W x 15cm L x 60cm H.	each			N/A													
68	144525	Minnesota Manual Dexterity Test	Two different tests that can be administered to measure fine motor dexterity. Two-coloured discs, 60 board pieces of durable plastic; 50 blank record sheets, Boards fold for storage and portability, plastic carrying case, evaluation and normative data. Must be the latest edition.	Per case			N/A													
69	144186	Stereognosis Kit	The kit consists of 17 different common items (e.g. marbles, peg, key, coins, pin, dice, rubber band etc) and matching cards for evaluation of stereognosis. The 8 cm x 13 cm cards are laminated for long term use. Each card has a drawing and the name of the item in English. On the back of the card is the name of the item for use by evaluator.	Per case			N/A													
70	144190	Functional dexterity test	Small, portable and easy to administer. Test involves turning pegs over as quickly as possible using the non-injured hand, followed by a timed test of each hand. "Time Only" score quantifies the speed and the "Time Plus Penalty" score quantifies the quality of performance. Includes a functional level score sheet based on hand dominance and normal speed performing activities using three-jaw chuck prehension pattern. Hardwood pegboard measures 21cm square with a locking cover. The 16 wooden pegs measures 0.2cm x 4.1cm.	Per case			N/A													
71	New item	Traction measuring dynamometer	Used to measure static and dynamic splint tractions. A ring is attached to one end and a clip to the other. A maximum weight of 600grams. To include calibration certificate. Minimum one year warranty.	each			N/A													
72	144198	Digital hand dynamometer	Dynamometer provides precise grip-force readings for accurate measurements from 0.1 to 300 lbs (4.5g to 136kg) with an easy to read LCD display. Monitor grip strength and grasp endurance for functional capacity testing. Features an electronic zero calibration system to ensure the accuracy of each grip strength. Memory can store up to 20 tests data results. Transfer grip force readings directly to your PC with a data transfer cable and software. Set up made to display year, month, date and time of testing date. Includes protective carrying case, requires 2 AAA batteries (included). Minimum one year warranty.	per kit			N/A													
73	144206	Digital pinch gauge	Designed for accurate pinch force evaluations from 4.5g to 16kg with an easy to read LCD display. Features an electronic zero calibration for accurate rehabilitation. Memory can store up to 20 data results. Must include AAA batteries. Includes instructions and carry case. Minimum one year warranty.	each			N/A													
74	144242	Multi-Phase desensitization Kit	It is a sensory integration activity designed to provide tactile stimulus for the forearm, hand or wrist. The kit includes 10 stackable bins filled with various graded stimuli. Each bin features a front cut-out design and plastic front cover to avoid spills. The stimuli used are as follows: 1. Pom Pom, 2. Soft Plastic Discs, 3. Smooth Plastic Pellets, 4. Rough plastic Pellets, 5. Small Plastic Discs, 6. Large Plastic Discs, 7. Plastic Shavings, 8. Fine Graded Pebbles 9. Large Pebbles, 10. Marbles. Dimensions: the bins with lids are 7 x 8.25 x 14.75 inches.	per kit			N/A													
75	144243	Functional activity board	Multi-purpose bolt board. It can be used horizontally or vertically at 45 degrees angle on a Rack Station. Includes 30 bolts and nuts, two wrenches and one Allen wrench, includes 28"width x 18"height x 17"depth board.	per set			N/A													
76	144244	Electronic Push / Pull Dynamometer	Superior load cell force measurement taking 30 readings per second, rugged aluminium housing, separate peak memory for push and pull results, auto-shut off, push button calibration and LCD display in pounds, kilograms or Newtons. Sets include 3 padded attachments and a single handle for push tasks, a hook, a double handle set for pulling and lifting tasks, a 9 volt battery, a 3 pin South African power plug, plastic carrying case and a user manual, measures 9cm x 6cm x 4cm, weighs less than 1 pound (0.453kg), latex free.	each			N/A													
77	144245	Hydraulic Push / Pull Dynamometer	Includes four force application attachments, a padded curve application, a padded straight applicator, a 1 cm non-padded circular applicator, medium hook, oval step hook and case, use directly or with chain, the swivel hook attachment is used for pulling and lifting tests. The analogue model has a peak needle to record maximum effort, additional handles can be attached to any unit 0.7 kg, weighs only 7 kg and latex free.	each			N/A													

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	INDIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED	
78	144520	Work Ability Screening Profile (WASP)	For use in work capacity evaluations. Screening battery for clients not in-depth measure of work ability, comprises of 12 job samples: 1. Basic Cognitive Skills; 2. Basic Writing Skills; 3. Functional Reading and Comprehension; 4. Functional Mathematics; 5. Following Instruction; 6. Visual Perceptions; 7. Problem Solving; 8. Coordination & Dexterity; 9. Dynamic Postures; 10. Money Management; 11. Organizing & Planning; 12. Computer skills. In addition Psychosocial Batteries which include: 1. Time management Worksheet; 2. Stress Questionnaire; 3. Social Adjustment & Work; 4. Goal Setting for Work. The measurable components of the WASP are Competence / Ability and Speed. Latest edition.	per kit			N/A														
79	144521	Modular Arrangements of Pre-Determined Time Standards (MODAPTS) Manual	A Manual of the predetermined motion time system that can be used to measure how long a specific task should take, based on the different motions and requirements of the task. Provides objective criterion referenced measurement of functional performance at a given point in time. The time needed to carry out any task is determined by what the person performing the task has to do. MODAPTS provides a code for describing an action and provides a time for that action. The MODAPTS codes show the time needed for the part of the body involved to carry out the necessary action at a comfortable pace, which could be maintained as part of a work cycle for a full working day. All MODAPTS times are multiples of 0.129 seconds. The time module of 0.129 seconds, also called a MOD, equals the movement of a finger. Modapts has 21 elements that are assigned time modules that are multiples of the basic module 0.129 seconds. Latest edition.	each			N/A														
80	144522	Chessington Occupational Therapy Neurological Assessment Battery (COTNAB)	A Standardised Neurological Assessment Battery for Brain Injury and stroke. The comprehensive tests evaluate four functional areas each with three tests of increasing sensitivity. The functional areas are visual perception (overlapping figures, hidden figures, sequencing); Constructional ability (20 & 30 construction, blocking); Sensor-motor ability (stereognosis & tactile discrimination, dexterity, coordination, and the ability to follow written, visual and spoken directions. Each test has been standardised across sections of the population within the age ranges 16 - 65 + years. Kit includes two binders containing instructions, background information, test details and score tables. Includes treatment resource file with programmes for specific diagnoses, pads of scoring forms / sheets and functional profiles. Introductory manual including case studies and printed test materials. Includes a sturdy wooden box with castors for easy transport and storage. Latest edition.	per kit			N/A														
81	144523	Delux Vestibular System with Frame	Incorporates 360° vertical rotation for unrestricted range of movement to create vertical and rotational experiences. Height adjustment assembly; Can be fixed in a stable position or set for swinging. Includes metal frame, net swing, flexidisc, prone net swing, mat, platform swing, roll swing, rope with ascenders. Maximum user weight of 227 kg. Accessories dimensions: 1. Frame with rope ascenders height of 2320 mm; 2. Platform swing 380 mm x 760 mm; 3. Flexidisc 514 mm; 4. Roll Swing diameter 360 mm, length 1220 mm; 5. Prone net swing ; 6. net swing with positioning seat; 7. Mat 1520 mm x 2130 mm; 8. Horse roll diameter 914 mm; 9. Platform Swing length 1524 mm.	per set			N/A														
82	144524	Therapy Blocks	Hard firm blocks covered with smooth plastic; 3 dimensional blocks: dimensions: 1. 30cm x 45cm x 45cm; 2. 40cm x 40cm x 40cm; 3. 50cm x 50cm x 10cm; 55cm x 55cm x 15cm; 4. 60cm x 60cm x 20cm; 5. 65cm x 65cm x 25cm.	per set			N/A														
83	143896	High Volume Pump	High volume pump to inflate and deflate therapy balls; must include nozzles that can be attached / inserted into the therapy ball when inflating / deflating a therapy ball. Electronically operated.	each			N/A														
84	143897	Firm arm support	Firm arm support to position the hand in elevation/incline when splinting. Durable plastic cover that can be wiped, contoured to fit the various persons' forearms whilst splinting	each			N/A														
85	143898	Hardwood Transfer Board	Hardwood, durable wooden board for transferring patient; transfer board are tapered to 3.2mm for easy sliding. Smooth lacquer finish; Dimensions of the board: 20cm width, 19mm thick in the centre; weighs 1.4kg; must be able to support 113kg.	each			N/A														
86	143900	Flexion, extension, pronation, supination (FEPS) device	The device is made of metal which is a square box and handles on either side. The unit is used to facilitate movements at the wrist i.e. Flexion, extension, pronation and supination of the forearm.	each			N/A														
87	143902	Help Arm Exerciser	Adjustable arms allow for internal and external shoulder rotation. The amount of arm swing can be restricted for elbow flexion and extension. Gliding cord track lets client move arms with ease. Can be used from a supine or sitting position. Includes seven pairs of slings for wrists and elbows, twenty 1-oz. weights, eight 1-lb. weights, plastic storage case for accessories, and a wrench for assembly and adjustment. Adjustable weights provide resistance as well as assistance to utilize existing strength of client. Weights store on metal rods at back of base. Product measures 32"W x 30"D x 72"H. Latex free.	each			N/A

88	New Item	Purdue Pegboard	A standardized test to evaluate unilateral and bilateral hand coordination to determine fine motor coordination. The test must include the board, pegs, collars, washers, manual and scoring sheet. Latest edition.	each			N/A													
89	188154	Therapists portable assessment lab (T-PAL)	Therapists portable assessment lab, TPAL, consists of 12 work modules, compact wheeled carrying case, manuals and scorepads, auditory directions screening exercise, career assessment battery survey, learning styles inventory survey, mail sort, alphabetizing, visual maze, payroll computation, patient info memo, small parts A, small parts B, pipe assembly, block design, colour sort, circuit board, pc software for the CAB, LSI, and VSS that will operate on an PC or equivalent, career assessment battery, learning styles inventory, valpar scoring system, auditory directions screen, anchored to DOT and RHAJ job analysis factors, MTM industrial performance standards, easy upgrade path to Valpar work samples and Pro3000 software. Latest edition.	per set			N/A													
90	133272	Valpar 9	The work sample consists of a two-part frame of steel tubing, 36 inch wide and adjustable in 3 inch increments from 5'9" to 7'3" in height. There are three work panels attached to the frame. A fourth diagonal panel is attached to the bottom work panel and separates that panel into two parts. The diagonal panel has three permanently mounted forms on it. Each of the four work areas (panels 1, 2, 3, and 4) has permanently mounted bolts to hold three plastic forms: a black triangle, a white square, and a red kidney. These forms are fastened to the panel with small stainless steel nuts for shipping. These should be removed and replaced with the included white plastic nuts when setting up the work sample for use. A nut tray is attached to the steel frame at the top center of Panel 3.	per set			N/A													
91	143973	Valpar 6	The work sample is a box 23 1/2" x 23 1/2" x 3" made of particle board and covered with blue plastic laminate. It has a removable cover for protection during shipping and storage. A mounted, hinged, scoring board is centered in the front of the box, and a master card with three designs is centered in the upper part of the box. Also included is a bound set of 55 testing cards, a scoring stylus, a pad of 100 answer sheets, a pad of 100 scoring sheets, and a manual. Valpar container for storage of work sample components. Latest edition.	per set			N/A													
92	143974	Valpar 201	The work sample is divided into two parts. Part one, Dynamic Strength, consists of six exercises: Lifting, Continuous Lifting, Two-Handed Grip, Palm Press, Horizontal Press, and Vertical Press. Part two, Mobility Evaluation, has 15 exercises that require the evaluatee to balance on each leg, walk forward, walk backward, walk from heel to toe, walk on toe, walk on heel, squat, climb, kneel, crawl, stoop, crouch, and more. Components: 1 weight scale, 1 standing platform, 1 lifting apparatus (bar, springs, chains, sheet metal plate), 1 hinged climbing board, 1 5 ft. (152 cm.) cloth measuring tape, 1 pad of 100 scoring sheets, 1 pad of 100 body charts, 1 manual. Latest edition.	per set			N/A													
93	143975	Valpar 205	Components: The worksample consists of 4 pieces, hinged assembly board with a folding side screen with arm holes. It comes with the following parts: manual, hinged screen/assembly board, parts bin A with assorted steel rods, washers, hitch pins, hitch pin clips, and springs, Parts bin B with an assembly post and assorted springs, washers, hitch pin clips, hex bolt and steel flange. Laminated illustration, Evaluator scoring aid, Pad of 100 scoring sheets, Latest edition.	per set			N/A													
94	143976	Electric Knife	Knife, electric, with replaceable stainless steel blade. Used for carving and cutting high density foam	each			N/A													
95	143977	Foam Cutter	The Foam Rubber Cutter is needed to cut foam material and rubber. One hand guidance with an on/off switch built into the handle grip gives exact control of this exceptionally balanced and light-weight tool. Four wheel support in the base results in smooth guiding and accurate cutting. The footplate is removable, just one screw holds it firmly and removes quickly to change the tool's depth of cut. The cutting is accomplished by two blades, which reciprocate cutting simultaneously in opposite directions. A universal motor of proven reliability supplies ample power: 3,200 strokes per minute, low motor temperature (even under continuous heavy-duty loads), electronically balanced armature for vibration-free operation. 115 Volt, 60Hz operation. 3 pin South African compatible plug.	each			N/A

96	143979	Nintendo Wii	Movement is controlled by the Wii remote, nunchuk, or balance board (or in combination). The Wii remote uses a three-axis accelerometer to translate body movement into onscreen movement in the surroundings. Up to 4 controllers can be connected wirelessly allowing group play & social interaction. Wii remote also provides basic audio & vibration feedback. An expansion device (Wii MotionPlus), which attaches to the Wii remote, allows for more accurate motion capture & complex game-play. The Wii MotionPlus does this with a single- and dual axis gyroscope. A secondary controller, the nunchuk also incorporates motion-sensing technology and provides additional controls. The balance board incorporates pressure sensors to translate the movement of the player's center of pressure. The signals from the controllers are received by a sensor bar. The console comes with Wii Sports (Nintendo), a game package for the Wii remote and nunchuk with Tennis, Baseball, Boxing, Bowling, and Golf. Wii Fit (Nintendo), uses the balance board to incorporate games that test balance, fitness, and strength.	each																	
97	143980	Standing frame adjust paediatrics large	Standing frame, fully adjustable, paediatrics, large, pelvic & knee straps, laptray/worktable, head-, shoulder and 2 lateral trunk supports	each			N/A														
98	143981	Standing frame adjust paediatrics medium	Standing frame, fully adjustable, paediatrics, medium, pelvic & knee straps, laptray/worktable, head-, shoulder and 2 lateral trunk supports	each			N/A

101	143984	Standing frame rigid double upright paed	Standing frame, rigid double upright, paediatrics, 10cm pelvic strap, 10cm chest strap, 10cm heel strap	each			N/A														
102	143985	Test of Visual-Perceptual Skills (non-motor)	This test covers the age range 4 through 18 years. The TVPS includes the following subtests: visual discrimination, visual memory, visual-spatial relationships, form constancy, visual sequential memory, visual figure-ground, and visual closure. Latest edition.	each			N/A														
103	143986	Motor-Free Visual Perceptual Test	The MVPT assesses an individual's visual perceptual ability without any motor involvement needed to make a response. Ages: 4 through 94 years. An individually administered test designed to assess overall visual perceptual ability. Test includes perceptual tasks such as spatial relationships, visual discrimination, figure-ground, visual closure, and visual memory. Complete kit includes: Manual, Test Plates, and package of Record Forms. Latest edition.	each			N/A														
104	New Item	The Bayley Scales of Infant and Toddler Development	Consists of a core battery of five scales, caregiver report form, behaviour observation inventory, rolling case and scoring rules. Latest edition.	each			N/A														
105	143988	Sensory Profile - Winnie Dunn	The Sensory Profile consists of 125 items grouped into three main sections: Sensory Processing contains six item categories that reflect particular types of sensory processing as part of daily life. Modulation contains five item categories that reflect various combinations of input for use in daily life. Behavioral and Emotional Responses contains three item categories that reflect emotional and behavioral responses that might indicate a child's sensory processing abilities. Items on the Caregiver Questionnaire unite to form nine meaningful groups or factors: Sensory Seeking, Emotionally Reactive, Low Endurance/Tone, Oral Sensory Sensitivity, Inattention/Distractibility, Poor Registration, Sensory Sensitivity, Sedentary, and Fine Motor/Perceptual. Latest edition.	each			N/A														
106	143993	Neonate Behavioural Assessment Scale (NBAS)	Consists of 28 behavioral items and also includes an assessment of the infant's neurological status on 20 items. The NBAS items cover the following domains of neonatal functioning: autonomic regulation; motor organization; state organization and regulation and attention and social interaction. Latest edition.	each			N/A

115	193889	Rocker board	Made of non-slip cork surface (wooden). 50cmx50cm	each			N/A													
116	176698	Trampoline sturdy steel frame polyethylene	Trampoline, sturdy, steel frame with six(6) non slip feet, polypropylene fabric, thirty two(32) springs to ensure even tension., 1020mm diameter, thick padded edge for added safety, 100kg maximum user weight	each			N/A													
117	New item	Cocoon 2m spandex-single layer	Cocoon, size: 2m x 1.5m, spandex-stretch (single layer-hammock). To include durable safety hooks and bungee cord for attachment to suspension.	each			N/A													
118	New Item	Cocoon 2m spandex-double layer	Cocoon, size: 2m x 1.5m, spandex-stretch (double layer-hammock). To include durable safety hooks and bungee cord for attachment to suspension	each			N/A													
119	127844	Cocoon 2m spandex-triple layer	Cocoon, size: 2m x 1.5m, spandex-stretch (triple layer-hammock). To include durable safety hooks and bungee cord for attachment to suspension	each			N/A													
120	144012	Monkey swing	Made of hard durable plastic, can rotate 360°; must come with all hardware for installation with installation instructions and safety measures. Must include durable safety hook for attachment, dimensions: 280mm x 40mm. Must be suitable for children 3 yrs plus weighing up to 70kg. Supplier to install in the facility and must include 2yr maintenance plan.	each																
121	144013	Flexion swing (Sausage swing with circular base)	Dimensions: Base plate 60cm diameter, Pole Height 65cm. Installation instructions and all hardware must be included with durable safety hook for attachment and bungee cord. Weight limit of 100kg. Supplier to install in the facility and must include 2yr maintenance plan.	each																
122	144014	Trapeze swing (33cm long)	Dimensions: 33cm long, 2.5cm diameter. Trapeze to be made of hard durable wood with non-slip surface for easy grip. Must include all hardware and installation instructions. Included with durable safety hook for attachment and bungee cord. Must include 2yr maintenance plan.	each																
123	144015	Trapeze swing (61cm long)	Dimensions: 61cm long, 3cm diameter. Trapeze to be made of hard durable wood with non-slip surface for easy grip. Must include all hardware and installation instructions. Included with durable safety hook for attachment and bungee cord. Must include 2yr maintenance plan	each																
124	144016	Frog swing	Made with soft cushioned based covered in easy to clean plastic which can be wiped. Has double straps on both sides of the cushioned base for better support. Dimensions: 60cm x 30cm. Included with durable safety hook for attachment and bungee cord.	each			N/A													
125	144017	Ring swing	Made of hard durable non-slip plastic for easy grip, must come with all hardware for installation with installation instructions and measures. Dimensions: plastic suspended rings must be 20cm diameter. Included with durable safety hook for attachment and bungee cord.	each			N/A													
126	144018	Metal ruler (1 m)	1 meter ruler made of hard, firm metal. The ruler must have all markings etched which are unremovable. Measurements must be marked in centimeters and millimeters.	each			N/A													
127	144019	Metal ruler (30cm)	30 centimeter ruler made of hard, firm metal. The ruler must have all markings etched in which are unremovable. Measurements must be marked in centimeters and millimeters.	each			N/A													
128	144020	Munch mat	Mat filled with cushy foam for sensory stimulation, sturdy for jumping, must have washable nylon cover with zipper. Wipes clean and disinfects with spray disinfectant. Dimensions: 89cm x 46cm x 4cm.	each			N/A													
129	144021	Big flop mat	Big flop mat filled with foam chip, easy to wipe plastic cover for cleaning. Dimensions: 200cm length x 140cm width x 15cm height.	each			N/A													
130	144022	Half flop mat	Half flop mat filled with foam chip, easy to wipe plastic cover for cleaning. Dimensions: 100cm length x 140cm width x 15cm height.	each			N/A													
131	144023	Abacus	Made of hard durable plastic, large standing frame abacus with 10 rows of plastic counting beads. Adjustable standing frame that can fold flat. Size 520mm x 500mm.	each			N/A													
132	144024	Climbing board and bar	Seven rubber-tipped extensions on each side that are 10cm apart. Made of hardened aluminium, the climbing board bar is 96-97cm and has grip handles that protect the hands. Dimensions of climbing board: 91cm height x 62cm length. The base has 2 holes drilled for permanent attachment or can be temporarily attached. Includes installation.	each			N/A													
133	144025	Dressing Cube	Includes six different skills for children to practice: button, zip, buckle, snap, hook and loop. Dimensions: 203mm x 203mm x 203mm. Made of 100% cotton and must be washable.	each			N/A													
134	144026	Form Board	Board consists of 12 shapes for evaluation and training. Dimensions: 620mm x 410mm x 13mm. Shapes are 22mm high. Made of hard durable plastic.	each			N/A

174	143883	Bean bags	Bean bag, polystyrene bead filled support cushion which allows for firm comfortable postural support, size 50cmx35cmx12cm, outer cover is a flexible PVC (Vinyl) which is waterproof and can be wiped down with disinfectant.	each			N/A													
175	186534	Pin Board	Game, pin board, standard size, 20 pegs 9 pins of five different colours are placed on a square 17cmx17cm board.	each			N/A													
176	184118	Peg board	225mm square board with 25 peg holes spaced 25mm apart, in which 25 coloured pegs of 25mm diameter by 60mm height can be inserted into, pegs are coloured red, blue, yellow, green, black.	each			N/A													
177	143884	Vestibular cushion	Disc-shaped sensory air cushion, smooth on one side and bumpy on the other side.	each			N/A													
178	143885	Pressure mapping system	FSA system base consisting of computer interface model type 5, USB cable, 9 volts power adapter, latest FSA software (version 4.0.225 or better). It must also include the FSA sensor mat (16 x 16 sensors: 16/53 UT1010), FSA back sensor mat (16 x 16 sensors: 16/53 UT1010) and auto calibrator. The essential equipment to be included are digital camera, laptop (minimum 1 Gb hard drive, 1 Gb memory) fully set-up and pre-loaded with pressure mapping software (includes lock down cable and slot, windows 7 or better and integrated bluetooth) and colour laser printer. Must be delivered with all relevant accessories to be set up for immediate use. Must include Minimum one year warranty and 5 years maintenance plan.	each																
179	New Item	Pictionary	Game, pictionary, junior, suitable from 7 to 12 years	each			N/A													
180	183534	Pictionary	Game, pictionary, adults	each			N/A													
181	191162	Knitting needle aluminium (thick)	Needle, knitting, 30cm length, aluminium, 4.5mm diameter	each			N/A													
182	191160	Knitting needle aluminium (medium)	Needle, knitting, 30cm length, aluminium, 4mm diameter	each			N/A													
183	170365	Knitting needle aluminium (thin)	Needle, knitting, 30cm length, aluminium, 3mm diameter	each			N/A													
184	185075	Crochet Needle (long)	Needle, crochet with hook, 17.5cm length, aluminium, 4.5mm diameter.	each			N/A													
185	170364	Crochet Needle (short)	Needle, crochet with hook, 15 cm length, aluminium, 4.5mm diameter.	each			N/A													
186	143886	Work Bench	Cut-out front allows bilateral work that duplicates a hidden, confined work area. Compact design allows positioning at various heights while sitting, standing or lying. Heavy-duty black plastic, 19" x 15" x 6" bench has 11 rows of 7 different styles of nuts, bolts, washers and screws. Attached rack keeps tools organized—includes 6" and 8" adjustable wrenches, two screwdrivers and four hex keys. A tool box for the hardware is included. Built-in side handles for easy transporting. Light assembly required.	each			N/A													
187	143887	Resistive Prehension Bench	36 springs deliver measured resistance up to 14 lbs. Four different knob styles allow grading of prehension throughout the range of resistance. Different surface textures on knobs aid in decreasing hypersensitivity. 16" x 16" on 5-1/2" legs. Heavy-duty aluminum. Assembly required.	each			N/A													
188	New Item	Hose Pipe 20m	Hose, pipe, garden, PVC and reinforced with nylon cords, 20m roll length, 30mm diameter. Must include roll up carrier case.	each			N/A													
189	143888	Hose Pipe 30m	Hose, pipe, garden, PVC and reinforced with nylon cords, 30m roll length, 30mm diameter. Must include roll up carrier case.	each			N/A													
190	143889	Hula Hoop Set	Six sturdy, plastic, lightweight seamless hoops. In a range of sizes from 30" to 40"	Set			N/A													
191	143891	Shape sequence block board	Includes 20 coloured bright coloured, solid wooden blocks of varying shapes and sizes that can be sorted sequentially. Five different block height measures 3.8cm to 10cm. Wood block board measures 18cm x 22cm.	per set			N/A													
192	144692	100 piece wooden block set	Comes in four colors and nine shapes for stacking, building, and knocking down in countless colorful combinations for fine motor skills and dexterity, color and shape recognition, and pre-math skills. Average dimensions of the blocks: 2.5cm(l)x2.5cm(w)x3.5cm(h).	per set			N/A													
193	189019	Beads small	Rounded beads with thread hole, small, assorted colors, 100g. To include thread.	per set			N/A													
194	185204	Beads medium	Beads medium rounded beads with thread hole, medium, assorted colors, 100g. To include thread.	per set			N/A													
195	189020	Beads large	Rounded beads with thread hole, large, assorted colors, 100g. To include thread.	per set			N/A													
196	121532	Foosball game table	Foosball game table, 1.5x0.7x1.5m, wooden frame, steel bars, plastic handle, plastic men and plastic balls, 11 blue men and 11 red men with green field and black frame	per set			N/A													
197	196521	Gross motor kit	Bag to include 2 netballs size 4, 2 rugby balls size 4, 2 soccer balls size 4, 1 cricket set mini, 2 plastic whistles, 2 stopwatches, 5 tennis balls, 4 plastic tennis rackets, 2 skipping ropes, cones set of 50, 2 T-ball bats, 1 ball pump, 2 club bags, 10 bean bags, 5 hula hoops, 2 frisbees	per set			N/A													
198	New Item	Blunt nose scissors (left handed)	Blunt nose tipped scissors, left handed. For paediatric use. 130 mm length.	each			N/A													
199	143893	Blunt nose scissors (right handed)	Blunt nose tipped scissors, right handed. For paediatric use. 130 mm length.	each			N/A

5.17	New	Nail file, teflon, single medium head, fine cut, 13-14cm	Nail file, teflon, high grade, rust free, blacks file, single medium head, fine cut, 13-14cm, must be sterilisable	each			N/A													
5.18	New	Nail file, teflon, single medium head, course cut, 13-14cm	Nail file, teflon, high grade, rust free, blacks file, single medium head, course cut, 13-14cm, must be sterilisable	each			N/A													
5.19	New	Nail file, teflon, single small head, standard cut, 13-14cm	Nail file, teflon, high grade, rust free, blacks file, single small head, standard cut, 13-14cm, must be sterilisable	each			N/A													
5.20	New	Nail file, teflon, double head, fine cut end and course cut end, 13-14cm	Nail file, teflon, high grade, rust free, blacks file, double head, fine cut end and course end, 13-14cm, must be sterilisable	each			N/A													
6	NAIL CHISELS																			
6.1	New	Nail chisel, stainless steel, 1mm swan neck blade, 13-15cm	Nail chisel, stainless steel, high grade, rust free, 1mm swan neck blade, 13-15cm long, must be sterilisable	each			N/A													
6.2	New	Nail chisel, stainless steel, 2mm straight blade, 13-15cm	Nail chisel, stainless steel, high grade, rust free, 2mm straight blade, 13-15cm long, must be sterilisable	each			N/A													
6.3	New	Nail chisel, stainless steel, 3mm angled blade, 13-15cm	Nail chisel, stainless steel, high grade, rust free, 3mm angled blade, 13-15cm long, must be sterilisable	each			N/A													
6.4	New	Nail chisel, stainless steel, 4mm angled blade, 13-15cm	Nail chisel, stainless steel, high grade, rust free, 4mm angled blade, 13-15cm long, must be sterilisable	each			N/A													
6.5	New	Nail chisel, titancarbonide, 1mm swan neck blade, 13-15cm	Nail chisel, titancarbonide, high grade, rust free, 1mm swan neck blade, 13-15cm long, must be sterilisable	each			N/A													
6.6	New	Nail chisel, titancarbonide, 2mm straight blade, 13-15cm	Nail chisel, titancarbonide, high grade, rust free, 2mm straight blade, 13-15cm long, must be sterilisable	each			N/A													
6.7	New	Nail chisel, titancarbonide, 3mm angled blade, 13-15cm	Nail chisel, titancarbonide, high grade, rust free, 3mm angled blade, 13-15cm long, must be sterilisable	each			N/A													
6.8	New	Nail chisel, titancarbonide, 4mm angled blade, 13-15cm	Nail chisel, titancarbonide, high grade, rust free, 4mm angled blade, 13-15cm long, must be sterilisable	each			N/A													
6.9	New	Nail chisel, teflon, 1mm swan neck blade, 13-15cm	Nail chisel, teflon, high grade, rust free, 1mm swan neck blade, 13-15cm long, must be sterilisable	each			N/A													
6.10	New	Nail chisel, teflon, 2mm straight blade, 13-15cm	Nail chisel, teflon, high grade, rust free, 2mm straight blade, 13-15cm long, must be sterilisable	each			N/A													
6.11	New	Nail chisel, teflon, 3mm angled blade, 13-15cm	Nail chisel, teflon, high grade, rust free, 3mm angled blade, 13-15cm long, must be sterilisable	each			N/A													
6.12	New	Nail chisel, teflon, 4mm angled blade, 13-15cm	Nail chisel, teflon, high grade, rust free, 4mm angled blade, 13-15cm long, must be sterilisable	each			N/A													
7	CURRETS																			
7.1	New	Curette, stainless steel, 1mm single ended, 13-15cm	Curette, stainless steel, high grade, rust free, 1mm single ended, cup hole, 13-15cm long, must be sterilisable	each			N/A													
7.2	New	Curette, stainless steel, 2-3mm double ended, 13-15cm	Curette, stainless steel, high grade, rust free, 2-3mm double ended, cup hole, 13-15cm long, must be sterilisable	each			N/A													
7.3	New	Curette, titancarbonide, 1mm single ended, 13-15cm	Curette, titancarbonide, high grade, rust free, 1mm single ended, cup hole, 13-15cm long, must be sterilisable	each			N/A													
7.4	New	Curette, titancarbonide, 2-3mm double ended, 13-15cm	Curette, titancarbonide, high grade, rust free, 2-3mm double ended, cup hole, 13-15cm long, must be sterilisable	each			N/A													
7.5	New	Curette, teflon, 1mm single ended, 13-15cm	Curette, teflon, high grade, rust free, 1mm single ended, cup hole, 13-15cm long, must be sterilisable	each			N/A													
7.6	New	Curette, teflon, 2-3mm double ended, 13-15cm	Curette, teflon, high grade, rust free, 2-3mm double ended, cup hole, 13-15cm long, must be sterilisable	each			N/A													
8	SPATULAS																			
8.1	New	Spatula, stainless steel, swan neck, narrow head, 10-15cm	Spatula, stainless steel, high grade, rust free, double ended spatula packer, swan neck, narrow head, 10-15cm long, must be sterilisable	each			N/A													
8.2	New	Spatula, stainless steel, straight flat, round head, 10-15cm	Spatula, stainless steel, high grade, rust free, double ended spatula packer, straight flat, round head, 10-15cm long, must be sterilisable	each			N/A													
8.3	New	Spatula, stainless steel, straight pointed, round head, 10-15cm	Spatula, stainless steel, high grade, rust free, double ended spatula packer, straight pointed, round head, 10-15cm long, must be sterilisable	each			N/A

8.4	New	Spatula, stainless steel, one end probe, one end spatula, straight, 10-15cm	Spatula, stainless steel, high grade, rust free, double ended, one end probe, one end spatula, straight, 10-15cm long, must be sterilisable	each			N/A													
8.5	New	Spatula, titanium, swan neck, narrow head, 10-15cm	Spatula, titanium, high grade, rust free, double ended spatula packer, swan neck, narrow head, 10-15cm long, must be sterilisable	each			N/A													
8.6	New	Spatula, titanium, straight flat, round head, 10-15cm	Spatula, titanium, high grade, rust free, double ended spatula packer, straight flat, round head, 10-15cm long, must be sterilisable	each			N/A													
8.7	New	Spatula, titanium, straight pointed, round head, 10-15cm	Spatula, titanium, high grade, rust free, double ended spatula packer, straight pointed, round head, 10-15cm long, must be sterilisable	each			N/A													
8.8	New	Spatula, titanium, one end probe, one end spatula, straight, 10-15cm	Spatula, titanium, high grade, rust free, double ended, one end probe, one end spatula, straight, 10-15cm long, must be sterilisable	each			N/A													
8.9	New	Spatula, teflon, swan neck, narrow head, 10-15cm	Spatula, teflon, high grade, rust free, double ended spatula packer, swan neck, narrow head, 10-15cm long, must be sterilisable	each			N/A													
8.10	New	Spatula, teflon, straight flat, round head, 10-15cm	Spatula, teflon, high grade, rust free, double ended spatula packer, straight flat, round head, 10-15cm long, must be sterilisable	each			N/A													
8.11	New	Spatula, teflon, straight pointed, round head, 10-15cm	Spatula, teflon, high grade, rust free, double ended spatula packer, straight pointed, round head, 10-15cm long, must be sterilisable	each			N/A													
8.12	New	Spatula, titanium, one end probe, one end spatula, straight, 10-15cm	Spatula, titanium, high grade, rust free, double ended, one end probe, one end spatula, straight, 10-15cm long, must be sterilisable	each			N/A													
9	PROBES																			
9.1	New	Probe, stainless steel, single ended, straight, flat, 10-15cm	Probe, stainless steel, high grade, rust free, single ended probe, straight, flat, 10-15cm long, must be sterilisable	each			N/A													
9.2	New	Probe, stainless steel, single ended, angled tip, flat, 10-15cm	Probe, stainless steel, high grade, rust free, single ended probe, angled tip, flat, 10-15cm long, must be sterilisable	each			N/A													
9.3	New	Probe, stainless steel, single ended, swan neck, spoon head, 10-15cm	Probe, stainless steel, high grade, rust free, single ended probe, swan neck, spoon head, 10-15cm long, must be sterilisable	each			N/A													
9.4	New	Probe, titanium, single ended, straight, flat, 10-15cm	Probe, titanium, high grade, rust free, single ended probe, straight, flat, 10-15cm long, must be sterilisable	each			N/A													
9.5	New	Probe, titanium, single ended, angled tip, flat, 10-15cm	Probe, titanium, high grade, rust free, single ended probe, angled tip, flat, 10-15cm long, must be sterilisable	each			N/A													
9.6	New	Probe, titanium, single ended, swan neck, spoon head, 10-15cm	Probe, titanium, high grade, rust free, single ended probe, swan neck, spoon head, 10-15cm long, must be sterilisable	each			N/A													
9.7	New	Probe, teflon, single ended, straight, flat, 10-15cm	Probe, teflon, high grade, rust free, single ended probe, straight, flat, 10-15cm long, must be sterilisable	each			N/A													
9.8	New	Probe, teflon, single ended, angled tip, flat, 10-15cm	Probe, teflon, high grade, rust free, single ended probe, angled tip, flat, 10-15cm long, must be sterilisable	each			N/A													
9.9	New	Probe, teflon, single ended, swan neck, spoon head, 10-15cm	Probe, teflon, high grade, rust free, single ended probe, swan neck, spoon head, 10-15cm long, must be sterilisable	each			N/A													
10	PODIATRY KIT

10.1	228561	General instrument kit, stainless steel	All items must be stainless steel, high grade, rust free, must be sterilisable. (1) Nail nipper (x1), fine pointed, long thin small tip, 10-15cm long. (2) Nail nipper (x2), rounded, concave jaw, 15-20cm long. (3) Scalpel handle (x2), size no 3. (4) Scalpel handle (x2), size no 4. (5) Scalpel handle (x2), size no 9. (6) Forcep (x2), short fine serrated jaw, straight, 10-15cm. (7) Nail file (x1), double ended, fine cut, 13-14cm. (8) Probe (x2), double ended, swan neck and spoon head, 10-15cm long. (9) Spatula (x2), double ended spatula packer, straight flat, round head, 10-15cm long. (10) Scissor (x2), screw joint straight, one sharp pointed/one blunt blade, 10-15cm. (11) Instrument tray with lid, 440mm length x 320mm width x 64mm depth. (12) Tweezers, double pointed straight serrated tips, for gripping of small tissue, 10-12cm long.	each			N/A															
10.2	228562	Nail wedge kit, stainless steel	All items must be stainless steel, high grade, rust free, must be sterilisable. (1) Thwaites (x2), 10-15cm, one flat jaw and one round sharp jaw. (2) Thwaites (x2), one flat jaw and one round sharp jaw, 15-20cm. (3) Scalpel handle, size no 3. (4) Scalpel handle, size no 4. (5) Scalpel handle, size no 9. (6) Forceps (x2), artery forceps, short fine serrated jaw, straight, 10-12cm. (7) Forceps (x2), artery forceps, short fine serrated jaw, straight, 13-15cm. (8) Forceps (x3), artery forceps, short fine serrated jaw, straight, 13-15cm. (9) Nail chisel (x2), 3mm angled blade, 13-15cm long. (10) Nail chisel (x2), 2mm straight blade, 10-15cm long. (11) Spatula (x2), double ended spatula packer, straight flat, round head, 10-15cm long. (12) Dental syringe, normal, 1.8-2.2ml cartridge. (13) Kidney dish, small, 8cm. (14) Kidney dish, medium, 25cm. (15) Gauze applicator, large. (16) Instrument tray, 440mm length x 320mm width x with lid.	each			N/A															
11	PATELLA HAMMER																					
11.1	New	Patella hammer, stainless steel, rubber percussion head, needle probe and brush, 19-23cm	Patella hammer, stainless steel, high grade, rust free, buck, neurological, rubber percussion head with needle probe and brush, 19-23cm long, must be sterilisable	each			N/A															
11.2	New	Patella hammer, round head, plastic handle with probe, 36cm	Patella hammer, round head, plastic handle with probe end, 36cm long	each			N/A															
11.3	New	Reflex hammer, chrome plated handle with probe and rubber head	Reflex hammer, with a 18-20cm long octagonal chrome plated handle with probe and synthetic rubber head	each			N/A															
12	TUNING FORK																					
12.1	New	Tuning fork, 128Hz	Tuning fork, high grade metal, 128Hz.				N/A															
13	TOE SPREADER																					
13.1	New	Toe spreader, stainless steel, curved rectangular blade, small	Toe spreader, stainless steel, high grade, rust free, spring loaded toe spreader, curved rectangular retractor blade, small, must be sterilisable	each			N/A															
13.2	New	Toe spreader, stainless steel, curved rectangular blade, medium	Toe spreader, stainless steel, high grade, rust free, spring loaded toe spreader, curved rectangular retractor blade, medium, must be sterilisable	each			N/A															
13.3	New	Toe spreader, stainless steel, curved rectangular blade, large	Toe spreader, stainless steel, high grade, rust free, spring loaded toe spreader, curved rectangular retractor blade, large, must be sterilisable	each			N/A															
14	TUBULAR GAUZE APPLICATOR																					
14.1 - new	New	Tubular gauze applicator, stainless steel, hollow cylindrical shape with rounded tip, small	Tubular gauze applicator, stainless steel, high grade, hollow cylindrical shape with rounded tip to allow for easy insertion of tubular gauze on the toe, small, must be sterilisable	each			N/A															
14.2 - new	New	Tubular gauze applicator, stainless steel, hollow cylindrical shape with rounded tip, large	Tubular gauze applicator, stainless steel, high grade, hollow cylindrical shape with rounded tip to allow for easy insertion of tubular gauze on the toe, large, must be sterilisable	each			N/A															
15	INSTRUMENT TRAY WITH LID																					
15.1 - new	123056	Tray instrument, stainless steel, 440x320x64mm with lid	Tray instrument, surgical, stainless steel, high grade, 440mm length, 320mm width, 64mm depth, sterile, with lid, must be sterilisable	each			N/A															

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
15.2	170090	Tray instrument, stainless steel, 200mmx120mmx50mm with lid	Tray instrument, surgical, stainless steel, high grade, rectangular, 200mm length, 120mm width, 50mm depth, and lid, must be sterilisable	each			N/A													
16	SCAPELS																			
16.1	New	Dental syringe, stainless steel, normal	Dental syringe, stainless steel, high grade, rust free, normal, 1.8-2.2ml cartridge, must be sterilisable	each			N/A													
16.2	New	Scalpel handle, stainless steel, no 3	Scalpel handle, stainless steel, high grade, rust free, size no 3. Must be sterilised.	each			N/A													
16.3	New	Scalpel handle, stainless steel, no 4	Scalpel handle, stainless steel, high grade, rust free, size no 4. Must be sterilised.	each			N/A													
16.4	New	Scalpel handle, stainless steel, no 9	Scalpel handle, stainless steel, high grade, rust free, size no 9. Must be sterilised.	each			N/A													
17	OTHER EQUIPMENT																			
17.1	New	Podiatrist chair	Podiatrist/Practitioner chair, adjustable padded base approximately 45 to 75cm, load capacity of 150kg, width and depth of approximately 450x500 mm padded backrest with thickness of approximately 30mm, chrome foot rest, smooth rolling medical grade casters/wheels and 360 swivel for mobility around patient. Optional arm rest, fire resistant upholstery and choice of color.	each			N/A													
17.2	New	Podiatry foot care chair	Podiatry foot care chair, for the patient to sit on while been treated, hydraulic chair, individual leg sections are adjustable in both length and angle from +40° to -90°. The fold-down adjustable angle arm rests enhance both patient security and comfort. Features: (1) Easily detachable, padded leg supports, leg supports can be moved out by 30 degrees. (2) Adjustable leg length of 31cm min to 53cm max. (3) Width 78cm. (4) Foot height support 133cm max. (5) Seat depth 49cm max. (6) Maximum load bearing 170kg. (7) Weight of chair approximately 75kg. (8) Choice of hand or footswitch on electric models. (9) Choice of linked large wheel base or retractable wheel base. (10) Extending leg rests. (11) Power assisted backrest and foot section adjustment. (12) Fold down armrests. (13) fire resistant upholstery and choice of color. Optional couch accessories: paper roll holder, Phlebotomy arm, breathing hole and plug. Optional software products: detachable head cushion, face ring and heapad.	each			N/A													
17.3	New	Monofilament, retractable, 10g	Monofilament, nylon, retractable, 10g, with a minimum of 10 extra replacement tips	each			N/A													
17.4	New	Goniometer, plastic, set	Goniometer, durable plastic, angle measure, must come in different sizes with 360 degrees measurements, suitable for different joints. Sizes: Approximately 6"/15.24cm, 8"/20.32cm and 12"/30.48cm.	each			N/A													
17.5	New	Therm tip	Therm tip, polymer base with metal alloy head, tool for the early diagnosis of distal symmetric polyneuropathy by testing temperature sensitivity. It is not dependent on external power sources, is practically indestructible, easy to handle, small and lightweight. Guarantees reproducible test results in ambient temperature up to 23 °C. Equal or better to Tip Therm.	each			N/A													
17.6	183597	Ultrasound vascular doppler	Ultrasound vascular doppler, portable, mains power or battery operation, battery life of >6 hours from full charge, compatible with vascular probe: 8MHz, liquid crystal display bi-directional flow information, full bi-directional vascular capabilities, true separated audio outputs to headphones, waveform calibration function, integral storage compartment for probes and gel, built in loudspeaker, should include all accessories and safety equipment. Full comprehensive minimum one year warranty and 5 year maintenance plan.	each			N/A													

ITEM NO	SAP NO	PRODUCT CATEGORY	ITEM DESCRIPTION	UNIT OF MEASURE	STATE PACKAGING /BOX QUANTITY	TENDER PRICE/UNIT	MAINTENANCE PRICE PER YEAR	TOTAL COST PER ITEM	BRAND	LEAD TIME (DAYS)	DIRECT MATERIAL: % IMPORTED	DIRECT MATERIAL: % LOCAL CONTENT	%DIRECT LABOUR	% TRANSPORT	% OTHER OVERHEADS AND PROFITS	% TOTAL	RATE OF EXCHANGE	ADJUSTMENT FREQUENCY	IMPORTED	LOCALLY MANUFACTURED
17.7	179912	Kit diabetic foot assessment vascular	Kit, diabetic foot assessment, provides the professional vascular or diabetes specialist with a system to help in the assessment of neuropathy, ankle brachial pressure index and toe brachial pressure index, Bi-directional dopple, probe, neuropen (includes 10g monofilament), trigger operated sphyg, arm/ankle latex free cuff, large latex free cuff, small toe latex free cuff, educational DVD, hard carry case, set of guides, headphones, box of neuropen tips, "Huntleigh dopplex DFK" equal or better. Full comprehensive minimum one year warranty and 5 year maintenance plan.	each			N/A													
17.8	new	Ankle Brachial Pressure Index machine	Ankle Brachial Pressure Index machine. Measures the ankle-brachial pressure index (ABPI) using an enhanced oscillometric technique and plethysmography. Multi cuff technology to simultaneously measure both ankle and brachial pressure. Must be able to measure severe cases of peripheral arterial disease (PAD). The screen must provide guided measurements with automatic arm detection. Must be able to produce quick results. Must come with rechargeable battery. Must include software for data management and multiple cuff sizes. Must come with a mobile stand. Full comprehensive minimum one year warranty and 5 year maintenance plan.	each			N/A													
17.9	new	Neurothesiometer kit	Neurothesiometer, monitoring the progress of peripheral neuropathy which is associated with diabetes. Dimensions: in closed carrying case L220mm x W370mm X H100mm. Weight - complete instrument 3.25kg. Length of vibrator cord 1m. Battery pack with rechargeable battery and charger. Full comprehensive minimum one year warranty and 5 year maintenance plan.	each			N/A													
17.10	105491	Hyfrecator-coagulator	Hyfrecator-coagulator, minor surgical procedures, includes: machine, 1 x re-usable diathermy pencil, 1 x set of 4 re-usable electrodes, 1 x foot pedal. Full comprehensive one year warranty and 5 year maintenance plan.	each			N/A													
17.11	188595	Cabinet podiatry	Cabinet, podiatry, workstation with UV compartment, 3 drawers, white wood decoration, ±73cm width, ±73cm height, ±44cm depth, one large retractable compartment and one retractable motor compartment (empty), one large UV compartment, complete and ready for use, compact footcare cabinet with smooth gliding, braked castor roller feet for effortless change of location. Full comprehensive minimum one year warranty.	each			N/A													
17.12	New	Autoclave, bucket type	Autoclave, bucket type, 9-11 liter capacity, complete with cassettes boxes fitted in a rack, multi safety features, electromechanical interlock, electronic circuitry and pressure vessel at 134°C similar or better. Full comprehensive minimum one year warranty and 5 year maintenance plan.	each			N/A													
17.13	New	Drill, podiatry	Drill electric, podiatry, micromotor handpiece, variable speed motor, rotate clockwise and anti-clockwise, 500W motor, approximate 285 x 154 x 184mm (w h d), 7000-40000rpm, compact control unit with dust extraction, replaceable dust bags, interchangeable hand pieces that operate on micromotor technology, hand pieces compatible to all burs, high torque with low vibration, variable speed, suction capacity 300-600ws. Full comprehensive minimum one year warranty and 5 year maintenance plan.	each			N/A													
17.14	New	Drill dust bag	Drill dust bag, micro bacterial filter bag, compatible to drill, inserted vacuum motor and suction hose of the drill.	each			N/A

17.15	New	Podiatry foot care chair	Podiatry foot care chair, for the patient to sit on while been treated, hydraulic chair, individual leg sections are adjustable in both length and angle from +40° to -90°. The fold-down adjustable angle arm rests enhance both patient security and comfort. Features: (1) Easily detachable, padded leg supports, leg supports can be moved out by 30 degrees. (2) Length of leg and foot supports 31cm min and 53cm max. (3) Width 78cm. (4) Foot height support 133cm max. (5) Seat depth 49cm max. (6) Maximum load bearing 170kg. (7) Weight of chair - 74kg. (8) Choice of hand or footswitch on electric models. (9) Choice of linked large wheel base or retractable wheel base. (10) Extending leg rests. (11) Power assisted backrest and foot section adjustment. (12) Fold down armrests. (13) Choice of upholstery colours. Optional couch accessories: paper roll holder, Phlebotomy arm, breathing hole and plug. Optional software products: detachable head cushion, face ring and healpad.	each			N/A														
17.16	New	Podiatrist chair	Podiatrist chair, adjustable tilt and height so that it can be adapted to a person's individual working position. Has a plastic, 5-star castor base for support and balance. Fire retardant upholstery to meet current Health & Safety regulations.	each			N/A														
17.17	New	Magnifying lamp, medical	Magnifying lamp, medical, ring with 3-D joint. Painted metal, preferably white. Included in delivery: clamp mounting suitable for all tables. Arm length: 35cm. Mounting for attachment to mobile support column or table. Electrical supply: 230 V/AC, 50-60 Hz. 22 watt. Magnification: 2.5 dioptres. Lens diameter: 110mm. Magnifying head diameter: 230mm. Maximum reach: 110mm. Full comprehensive minimum one year warranty and 5 year maintenance plan.	each																	
17.18	New	Tripod foot rest	Tripod foot rest the foot of a person at an ideal working height. Ideal for domiciliary use. The foot rest is adjustable and lockable. The foot rest has a sturdy moulded plastic top. Dimensions: Height: min 45cm & max 67cm. Weight: 1.6kg / in bag 2kg. Together with a carry bag and an adjustable strap for easy transportation. Full comprehensive minimum one year warranty.	each			N/A														
17.19	New	Podiatry home visit case	Podiatry home visit case, transportable, mobile footcare station on wheels. Extended transport assistant (telescopic handles). Functional layout with fold-out front to enable easy access to contents. Easy-clean surface: plastic coating inside and aluminum outside. Includes two removable storage trays. Includes two empty glass bottles for disinfection agents, instrument bag without contents and one treatment lamp. Dimensions approximate: Height: ±53cm, Width: ±45cm, Depth: ±21cm, Weight (empty): ±7kg. Full comprehensive minimum one year warranty.	each			N/A														
18	EDUCATIONAL EQUIPMENT																				
18.1	New	Model biomechanical of foot life size	Model, biomechanical of the foot, life size, shows statistics and dynamics of whole foot, the shifting of individual bones from a normal position to inversion and eversion in an unstrained foot can be semi-quantitatively recognized., also gives insight into movement patterns of the foot under physiological and pathoanatomical circumstances, for medical education	each			N/A														
18.2	New	Model anatomy foot flat size dissected	Model anatomy, foot, flat, life size, dissected to show muscles, tendons and bones, cannot be taken apart, for medical education	each			N/A														
18.3	New	Model anatomy foot arched size dissected	Model anatomy, foot, arched, life size, dissected to show muscles, tendons and bones, cannot be taken apart, for medical education	each			N/A

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 **To be completed by the organ of state**

[TICK APPLICABLE BOX]

	The applicable preference point system for this tender is the 90/10 preference point system.
	The applicable preference point system for this tender is the 80/20 preference point system.
	Either the 90/10 or 80/20 preference point system will be applicable in this tender. The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

PREFERENCE POINTS CLAIM FORM

Page: 2 of 7

1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	
SPECIFIC GOALS	
Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) **“tender”** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) **“price”** means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) **“rand value”** means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) **“tender for income-generating contracts”** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) **“the Act”** means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,
- then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.
