DEVELOPMENT OF A LOCAL BIODIVERSITY STRATEGY AND ACTION PLAN (LBSAP) AND A MUNICIPAL OPEN SPACE STRATEGY (MOSS) FOR THE CITY OF MBOMBELA

1. BACKGROUND

The gazetted City of Mbombela Environmental Management Framework (2021) indicated that the COM is biodiversity rich and; its key terrestrial biodiversity features that require adequate protection include the following:

- Three biomes, namely Savanna, Grassland and Forest;
- Twenty vegetation types;
- Seven threatened terrestrial ecosystems;
- Various formally protected areas, including the KNP and Barberton Makhonjwa Mountains World Heritage Site (WHS);
- The Songimvelo-Malolotja Transfrontier Conservation Area (TFCA);
- The Kruger to Canyons Biosphere Region;
- The Barberton Centre of Endemism;
- Three Important Bird & Biodiversity Areas (IBAs); and
- Terrestrial Critical Biodiversity Areas (CBAs) and Ecological Support Areas (ESAs)

In addition, the Municipality's Wetland Inventory and Ecological Integrity Assessment report (2022) revealed that there about 2700 wetlands in the municipal area providing several ecosystem services that has to be restored and conserved. The LBSAP seeks to clearly identify conservation priorities that ought to be integrated into spatial plans; with a view to pro-actively guide development away from priority areas and potentially improve spatial decision-making that benefits both economic and biodiversity conservation requirements.

2. ADAPTIVE APPROACH TO BIODIVERSITY PLANNING

According to the CSIR (2024) the City of Mbombela will experience significant effects of climate change particularly as a result of increased temperatures and rainfall variability. The uncertainties projected by climate analysts and the municipality's commitments to climate change adaptation requires that biodiversity planning employ an adaptive approach to build climate resilience.

3. RATIONALE FOR BIODIVERSITY PLANNING:

- Identify opportunities to enhance biodiversity conservation.
- Avoid or prevent biodiversity destruction by providing alternatives with less potential for biodiversity loss.
- Minimize biodiversity loss/damage through design modification.
- Provide information to decision-makers (developers and town planners) to divert development away from high-priority conservation areas.
- Pro-actively identify ecosystem-based / biome-based climate adaption potential projects.

4. SCOPE OF WORK

We require the services of qualified and experienced scientists to conduct extensive research and compile the City's LBSAP and a MOSS. It is envisaged that this work will be completed within 18 months.

A. Develop an implementable Local Biodiversity Strategy and Action Plan for the City of Mbombela

- Determine the state, status and distribution of biodiversity in the municipal area.
- Produce maps showing biodiversity distribution (City Maps and Regional Maps).
- Identify conservations options.
- Determine priorities for conservation action and planning.
- Identify critical biodiversity areas.
- Identify ecological support areas.
- Identify biodiversity stewardship opportunities.
- Identify possible community-public-private partnerships around conservation.
- Identify wildlife economy and green jobs opportunities.
- Propose possible conservation/management options.
- Identify economic opportunities, development corridors and landscape initiatives.
- Identify possible community-based initiatives with a view to build climate resilience and adaptive capacity.
- Identify protected-area expansion opportunities.
- Identify and map ecosystems/areas that have a high exposure to climate change impacts.
- Establish vulnerabilities of the Municipality's biological diversity to changing climatic conditions and propose mitigation measures.
- Develop an action plan with realistic goals, targets and actions.
- Stakeholder Engagement: Conduct four regional workshops to obtain indigenous knowledge and grass-root level information pertaining to biodiversity management practices.

B. Develop a Municipal Open Space Strategy (MOSS)

The Mbombela Transformative River and Stormwater Management Program (2023) recommended that the Municipality develops a Municipal Open Space Strategy (MOSS) in order to ensure that natural resources and assets are adequately protected, and to limit further loss and fragmentation of important biodiversity open space resources. A MOSS can also serve to support stormwater management by reducing the impact of development on drainage patterns. The key objective of the MOSS of the City of Mbombela is to improve connectivity of open spaces in the City.

- Identify and prioritize additional open spaces for passive recreation and environmental preservation.
- Propose additional open lands to make a case for biological diversity.
- Rationale for open space planning and propose open space categories.
- Develop an Open space Spatial Layer that builds on existing information contained in the current COM Spatial Development Framework.
- Concisely show the role of open spaces as Nature Based Solutions. Equally, propose areas that may be 'acquired' for both biodiversity and climate resilience
- Succinctly link the MOSS to the LBSAP.

- Provide a separate shapefile for existing municipal developed recreational parks.
- Identify and map greenbelt / green corridors (existing/proposed) for conservation purposes.
- Suggest open spaces suitable for community pocket parks in line with the Mbombela Transformative River and Stormwater Management Program (2023).
- The MOSS should include open spaces that are degraded requiring restorative interventions.
- Facilitate a virtual learning exchange session between COM and another Municipality in South Africa on the integration of the LBSAP and MOSS into LUMS.

5. REPORTING

The Service Provider is expected to report project progress quarterly with quarterly reports and presentations.

6. SPECIAL CONDITION

The Project Team should be comprised of the following experts / specialists:

- Biodiversity Specialist
- Climate Scientist
- Town Planner
- GIS Specialist

To be considered, the Specialists should be registered with their respective professional bodies and have more than five years' experience (five years and above) in their respective fields. Bidders who do not meet this requirement will be disqualified.

7. EVALUATION CRITERIA

Quality/Functionality will be used as an evaluation criterion, but not for the purposes of points in terms of the 80/20 point system. Only those bids that fully comply with quality (responsive bids) will proceed to the scoring for price and B-BBEE points. This means that functionality will be a pre-qualifying criterion. Thus bidders **MUST** score a minimum **of 40 points** to qualify for further evaluation on price and B-BBEE status level of contribution

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a) take all reasonable steps to prevent such abuse;
 - b) reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c) cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
