**Contract No: 1D-32020**

**Contract Title: Stormwater Upgrade and Gabion Protection Works along Mnyayiza Road KwaMashu E  
- Ward 46**

**FIRST NOTICE TO TENDERERS**

Following the compulsory site inspection held on Thursday, the 17<sup>th</sup> of July 2025, the following information is set out for clarification and forms part of the tender document.

**1. ALTERATION TO/AMENDMENTS:**

C.2: Tenderers Obligations, clause C.2.1.3, Table 2: Works of a Similar Nature is depicted as follows:

<b>Table 2: Works of a Similar Nature</b>
<b>Provision of Stormwater Drainage Structures</b>
Projects of a similar nature that will be considered will be one, or a combination of, the following types of projects: <ul style="list-style-type: none"> <li>• Retaining walls (reinforced concrete, masonry, gabion, proprietary block systems etc).</li> <li>• Reinforced concrete construction.</li> <li>• Reinforced concrete repairs (spalling, member replacement, use of specialist products etc).</li> <li>• Structural steel construction and repairs and application of steel protection systems.</li> <li>• Specialist proprietary product repair systems or approved product applicator for specific specialist proprietary products.</li> <li>• Reinforced concrete pedestrian bridges.</li> <li>• Structural steel pedestrian bridges.</li> <li>• Reinforced and prestressed concrete pedestrian and road bridges.</li> </ul>

The table has been amended to the following:

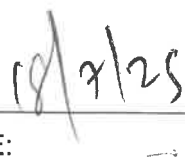

<b>Table 2: Works of a Similar Nature</b>
<b>Provision of Stormwater Drainage Structures</b>
Projects of a similar nature that will be considered will be one, or a combination of, the following types of projects: <ul style="list-style-type: none"> <li>• <b><u>Projects for which the main works are:</u></b> Retaining walls (reinforced concrete, masonry, gabion, proprietary block systems etc), reinforced concrete construction and installation of stormwater drainage systems such as stormwater pipes and manhole structures.</li> <li>• Additional supplementary works on each project must consist of at least two of the following elements: bulk earthworks, roadway layer-works, asphalt roadway surfacing, kerbing / channelling, sidewalk / walkway construction, traffic calming measures, dealing with underground services (watermains, sewers, electricity / communication infrastructure).</li> <li>• Projects that ONLY focus on rehabilitation, road maintenance, and the construction of gravel roads are excluded.</li> </ul>

**Important changes to note:**

1. The works of similar nature have been amended to correct the erroneous requirements of the original tender document. The requirements of the original tender document align with a structural scope of works.
2. The amended table consists of requirements which align with the stormwater infrastructure required for the project. In terms of C.2: Tenderers Obligations, clause C.2.1.3, Table 2, tenderers are to only submit the projects which align with the requirements of the amended table.

Note: This notice forms part of the tender document and a copy of this notice must be signed, dated and returned with the tender document before the tender closing date as advertised.
