1. BACKGROUND

- 1.1 uMshwathi Municipality is responsible for ensuring that all employees are placed in the right positions, at the right place and at the right time, doing their tasks as per job description and most importantly doing things that are economically most useful for the Municipality. The municipality also has the responsibility of examining each job which is on the staff establishment and determining more efficient methods to perform tasks and the times taken when performing each task.
- 1.2 There are challenges identified by management relating to the municipal staff compliment as there is a perception that the municipality might be overstaffed and thereby leading to a perception that there may be employees whom are not utilised fully on an eighty (8) hourly basis (redundancy), this has a direct impact on the total cost of personnel to income ratio and service delivery.
- 1.3 uMshwathi Municipality has identified a need to conduct a work study, review job profiles and job descriptions (where there is a need to do so, based on the findings of the workstudy). This might (based on the findings) result in the review of its organogram and restructuring of the entire organisation.
- 1.4 External skills and expertise will assist uMshwathi Municipality to expedite this process and ensure that business processes are developed and/or a responsive structure is designed; proposed and implemented that will result in sustainable governance and a high level of service delivery.
- 1.5 The Municipality therefore invites proposals for the provision of professional services to perform a work-study (i.e. the systematic examination of the methods of carrying out activities such as to improve the effective use of resources and to set up standards of performance for the activities carried out, including time-studies where necessary)
- 1.6 The Municipal terms and conditions shall apply in accordance with the agreement which shall be concluded with the preferred service provider / s once the contract has been awarded.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
