## **SECTION 1**

### **1. Background**

The City of Johannesburg (CoJ) administration is committed to the achievement of sizable economic growth by 2021. To this end, job creation, especially in the technical field, has been identified as one of the key components towards the achievement of this objective.

The Department of Economic Development, through the Integrated Regional Economic Development Directorate (IREDD), seeks to capacitate unemployed youths within the City of Johannesburg (through the provision of skills programme training registered with the Sector Education and Training Authority - Construction Sector Education and Training Authority SETA CETA as part of the economic opportunity creation effort for unemployed youth in the regions D and G.

The targeted regions for the skills programme include the following:

provider accredited by an Education Training and Quality Assurance (ETQA) body in terms of the Skills Development Act No. 97 of 1998.

A skills programme is a type of short learning programme that is unit standard-based and credit bearing in terms of the South African Qualifications Act (SAQA), Act No 58 of 1995 and registered on the NQF system in terms of the National Qualifications Framework Act, Act No. 67 of 2008.

**2. Rationale for the National Certificate: Construction of Roadworks Skills Programme**

The rationale for the National Certificate: Construction of Roadworks Level 2 based on unit standards is to allow learners to develop skills required in the Construction sector. The stream or context in which the learner will apply the generic competence forms part of the qualification title in this case Roadworks which is an indication of the area of specialisation at this level. Some of the applicable elective unit standards allow the learners to develop team leader competencies. This qualification will provide the learners with an opportunity to balance their practical skills with essential knowledge needed to earn a formal qualification in construction without formal education becoming a barrier to that objective. While skills programmes are important as an intervention to create job opportunities, particularly for youth, it is important to note that this programme has some basic requirement which needs to be adhered to. This programme assumes that learners are already competent in the following areas: 1. Communication and Language at NQF Level 1 2. Mathematical Literacy at NQF Level 1. This qualification permits the recognition of prior learning (RPL)

**3. Purpose of National Certificate: Construction of Roadworks Skills Programme**

This qualification is offered to people who work or intend to work within the construction context on a site, and who seek recognition for essential skills in the roadworks part of construction operations.

- 3.1. The main objective/s of this training is to enable learners accredited with this qualification to be able to do the following:

- Communicate in a road construction environment (verbally, writing, signs);

- Use mathematics in a road construction environment (calculate quantities, set out work);
- Perform team leader supervisory functions (when such unit standard are selected);
- Conduct general construction activities (as reflected in unit standard elected)
- Perform supplementary roadworks construction activities

Learners who receive this qualification will have knowledge and skills to conduct the essential operations associated with efficient safe work in roadworks.

#### **4. Scope of Work**

**MBD 9**

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

1. This Municipal Bidding Document (MBD) must form part of all bids<sup>3</sup> invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>4</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a. take all reasonable steps to prevent such abuse;
  - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
  - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

---

<sup>3</sup> Includes price quotations, advertised competitive bids, limited bids and BIDs.

<sup>4</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
