2 OVERVIEW

2.1 STATUS QUO

Ga-Rankuwa station is in the in the Northwestern Part of the City of Tshwane. PRASA has consistently been monitoring the daily commuting of the rail passengers, consisting of local and guests, with the aim of identifying more opportunities to provide/ maintain these commuters with access to the metropolitan rail network.

Following the 2019 annual stations conditional assessment. The reports indicated the numerous stations in the country, including Ga-Rankuwa station was in poor condition and thereafter in 2021 after the pandemic lockdown, further reports were conducted which later reflected that there was an increase in the number of stations that are in a poor state due to the escalated level of theft and vandalism. As a result, amongst the many, Ga-Rankuwa Station is one of the extremely vandalized which have minimal infrastructural means to operate because of architectural, structural, mechanical, electrical defects and lastly no electricity and to the main infrastructure building.

Therefore, to reinstate the station to full functionality, a Request for Proposal (RFP) procurement strategy will be adopted for the appointment of a contractor to complete the works. **The appointed professional team of consultants have assessed the existing site conditions and produced documentation detailing the scope of works for refurbishing the station.**

2.2 PROBLEM STATEMENT

PRASA is required to provide its commuters with stations that are functional, clean, safe, universally accessible, and reliable. The stations in their current state are not meeting majority of the standards mentioned above. It is therefore crucial for the stations to be completed and available for use by the community.

Grounds for rejection	5	Consider rejecting a tender if there is any effort by a <i>tenderer</i> to influence the processing of tenders or contract award.
Disqualification	6	Instantly disqualify a <i>tenderer</i> (and his tender) if it is established that the <i>tenderer</i> offered an inducement to any person with a view to influencing the placing of a contract arising from this invitation to tender.
Test for responsiveness	7	Determine before detailed evaluation, whether each tender properly received • meets the requirements of these Conditions of Tender, • has been properly signed, and • is responsive to the requirements of the <i>tender documents</i>.
	8	Judge a responsive tender as one which conforms to all the terms, conditions, and specifications of the <i>tender documents</i> without material deviation or qualification. A material deviation or qualification is one which, in PRASA 's opinion would • detrimentally affect the scope, quality, or performance of the works, services or supply identified in the Contract Data, • change PRASA's or the <i>tenderer's</i> risks and responsibilities under the contract, or • affect the competitive position of other <i>tenderers</i> presenting responsive tenders, if it were to be rectified.
Non-responsive tenders	10	Reject a non-responsive tender, and not allow it to be subsequently made responsive by correction or withdrawal of the non-conforming deviation or reservation.
Arithmetical errors	11	Check responsive tenders for arithmetical errors, correcting them as follows: • Where there is a discrepancy between the amounts in figures and in words, the amount in words shall govern. • If a bill of quantities applies and there is a discrepancy between the rate and the line item total, resulting from multiplying the rate by the quantity, the rate as quoted shall govern. Where there is an obviously gross misplacement of the decimal point in the rate, the line item total as quoted shall govern, and the rate will be corrected.

	Where there is an error in the total of the Prices, either as a result of other corrections required by this checking process or in the <i>tenderer's</i> addition of prices, the total of the Prices, if any, will be corrected.
	12 Reject a tender if the <i>tenderer</i> does not accept the corrected total of the Prices (if any).
Evaluating the tender	13 Evaluate responsive tenders in accordance with the procedure stated in the RFP / Scope of work/ specification. The evaluated tender price will be disclosed only to the relevant PRASA tender committee and will not be disclosed to <i>tenderers</i> or any other person.
Clarification of a tender	14 Obtain from a <i>tenderer</i> clarification of any matter in the tender which may not be clear or could give rise to ambiguity in a contract arising from this tender if the matter were not to be clarified.
Acceptance of tender	15 Notify PRASA's acceptance to the successful <i>tenderer</i> before the expiry of the <i>validity period</i> or agreed additional period. Providing the notice of acceptance does not contain any qualifying statements, it will constitute the formation of a contract between PRASA and the successful <i>tenderer</i>.
Notice to unsuccessful tenderers	16 After the successful <i>tenderer</i> has acknowledged PRASA's notice of acceptance, notify other <i>tenderers</i> that their tenders have not been accepted, following PRASA's current procedures.
Prepare contract documents	17 Revise the contract documents issued by PRASA as part of the <i>tender documents</i> to take account of - Addenda issued during the tender period, - inclusion of some of the <i>tender returnables</i>, and - other revisions agreed between PRASA and the successful <i>tenderer</i>, before the issue of PRASA's notice of acceptance (of the tender).
Issue final contract	18 Issue the final contract documents to the successful <i>tenderer</i> for acceptance within one week of the date of PRASA's notice of acceptance.
