2. PART B: TERMS OF REFERENCE

2.1 INTRODUCTION AND MANDATE

- 2.1.1 The NGB is a statutory body established in terms of the National Gambling Act, 2004 (Act 7 of 2004) to provide for the co-ordination of concurrent national and provincial legislative competence over matters relating to casinos, racing, gambling and wagering, and to provide for the continued regulation of those matters.
- 2.1.2 The NGB is listed as a Schedule 3A public entity in the Public Finance Management Act, 1999 (Act 1 of 1999).

2.2 PROJECT OBJECTIVE

- 2.2.1 The NGB envisages to conduct a mass media promotion campaign around legal versus illegal gambling, gambling addiction and responsible gambling, to be placed prominently in various mass community radio stations. The campaign will bring additional context to the campaigns conducted by gambling operators to advertise their products and services (especially the rising number of sports-betting advertising campaigns) with messages about legal and responsible gambling.
- 2.2.2 The media promotions campaign will focus on achieving a national footprint (including rural, urban and township areas) using mass community radio stations.
- 2.2.3 Mass communication to citizens in rural areas is best suited to the multimedia platform of radio, as access to television, social media or newspapers in these areas are not widespread.
- 2.2.4 The service provider will be required to:
 - 2.2.4.1 Research community radio channels that will create a national footprint (including rural areas, urban areas and township areas) as it relates to the placement of mass community radio adverts.
 - 2.2.4.2 Scripting, recording and packaging of the radio advert (content creation).
 - 2.2.4.3 Create impact through the scope and reach of the mass community radio stations selected by placing radio adverts.
 - 2.2.4.4 Conduct the media buying needed for placement of campaign materials on selected mass community radio stations.
 - 2.2.4.5 Coordinate and track media placement and monitor the impact.
 - 2.2.4.6 Submit a final report on the conducting of the mass community radio campaign and its impact.

2.2.5 To ensure uniformity of messaging and a polished, professional end product, it is recommended that a pre-recorded and pre-packaged 60 second radio advertisement, which can be flighted on targeted radio stations in rural areas, is produced. The benefit of this approach is that the advertisement is then usable on social media and the NGB website to inform users of these digital platforms. It may also be re-used in future to run additional radio campaigns.

2.2.6 To further enhance the understanding of the messaging, the radio advert should be tailored to the dominantly spoken language of the targeted rural area. This is also a priority for government to communicate with citizens in their language of preference. It is recommended that the scripted message be translated from English and recorded in English plus the most predominantly spoken language per province.

2.2.7 The NGB envisages running eight (8) promotional campaigns in each of the nine (9) provinces in South Africa from 1 April 2026 to 31 March 2028. Each campaign will be conducted on a quarterly basis. The NGB reserves the right to reduce the number of campaigns based on operational requirements.

2.2.8 Each promotional campaign must comprise:

2.2.8.1 placement of the radio advertisements which must be on four (4) community radio stations per province:

2.2.8.1.1 two (2) targeting rural consumers and two (2) targeting urban/township consumers, for a period of 10 days each (excluding Saturday and Sunday) - one morning drive slot and one afternoon drive slot per radio station).

2.2.8.1.2 a minimum of 20 radio slots per targeted radio station be procured, over a period of two weeks (10 days) per quarter. Repetition of the message ensures that the message is heard and understood by the listener, since radio adverts are generally short (30 – 60 seconds). It also ensures the possibility for a larger percentage of the listeners of a radio station to hear the advert if it is repeated over a number of days. The morning and afternoon programmes, when listeners are commuting to and from work or school, are preferred as it attracts higher numbers of listeners than daytime or evening shows.

2.2.9 The target audience to be educated through this mass media campaign is primarily the existing gambling punter who is over the legal gambling age of 18 (whether rural or township/urban) and secondarily the general South African public of all ages (rural and township/urban). This target audience should guide the potential bidder in terms of the selection of radio stations and placement of the mass media campaign to reach the highest number of audience members.

2.2.10 In terms of content of the script: a primary focus must be on conveying messages around legal versus illegal gambling, gambling addiction and responsible gambling, which is a growing concern for the NGB.

2.2.11 Additionally, the size of the amount spent on the placement of the advert might qualify NGB to request an interview.
