| Technical Requirements | | Weighting | Scoring | Final score | |
| | | 100 | | | |
| 1 | Scoring is based on meeting all the requirements marked as critical criteria which is listed in the attached technical specification sheet, "15m Scissor Lift Technical Specification". The technical specification sheet must be completed (with YES/NO compliance and proof) and returned as part of the tender returnables including the OEM electric scissor lift technical specifications/dataheet sheet. Product brochures will not be accepted. | 30 | Supplier does meets all critical criteria specification = 30 Points Supplier does not meet all critical criteria specification = 0 Points | 100% | |
| 2 | The scissor lift and items supplied must be preferably from a local dealership and service center within the City of Cape Town municipality region. Proof of address for both the dealership and service center must be provided in the submission. Supplier will be scored on the radius distance from the City of Cape Town municipality region. | 36 | Distance < = 60 km = 36 Points Distance < = 120 km = 27 Points Distance < = 500 km = 11 Points Distance > 500 km = 5 Points | | |
| 3 | The bidder must supply proof of the warranty period for the electric scissor lift in the submission. | 17 | Warranty period > = 2 years = 17 Points Warranty period > = 1 years = 14 Points Warranty period < 1 year = 0 Points | | |
| 4 | The bidder must confirm the estimated lead time to respond to sudden on site breakdowns queries during the warranty period. Written proof to be provided in the submission. | 17 | Within 48 hrs = 17 Points Within 72 hrs = 14 Points > 72 hrs = 0 Points | | |
| (Minimum final score required is 71%) Total | | 100 | | | |
