It is emphasized that mandatory registration for VAT is a legislative requirement once enterprises exceed R1 million in sales within a 12-month period. Other enterprises may elect voluntary registration for VAT even if they do not meet the mandatory threshold for registration.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Form “E” must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Chain Management Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This Form “E” serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (Form “E”) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

Bowser	A mobile fuel tanker or trailer-mounted tank used for on-site or depot-level refuelling.

Contaminated Fuel	Fuel that does not meet the relevant SANS specification, or that is adulterated with water, sediment, micro-organisms, or any other substance not permitted by the applicable SANS standard.
Depot	Any City of Ekurhuleni facility at which fuel is dispensed, stored, or consumed under this contract.
DMRE	The Department of Mineral Resources and Energy, or any successor department responsible for publishing the regulated wholesale and retail fuel price.

SANS	A South African National Standard issued by the South African Bureau of Standards.
Service Provider	A bidder appointed to the Panel under this contract.
SLA	the Service Level Agreement concluded between the City and each Service Provider, incorporating this specification.
Wholesaler	a person licensed as a wholesaler in terms of the Petroleum Products Act, 1977, including its regulations.

2. INTRODUCTION AND BACKGROUND

The City of Ekurhuleni operates more than 36 depots across its area of jurisdiction, with an estimated annual fuel consumption of approximately 13,043,976 litres. Petrol and automotive diesel are essential commodities required to sustain uninterrupted service delivery across critical functions, including Health, Disaster Management, Waste Business Unit, Roads and Stormwater, and Ekurhuleni Metro Police Department.

This specification establishes a new Panel of appointed Service Providers to supply, deliver, and off-load petrol and automotive diesel on an as-and-when-required basis from the date of award until 30 June 2029.

The City intends to appoint multiple Service Providers to a single Panel, rather than awarding separate, parallel contracts per product line. This approach is set out in Form K, and is intended to improve security of supply, prevent reliance on a single supplier for an essential commodity, and provide a documented, auditable basis for allocating work among appointed Service Providers.

3. OBJECTIVES OF THE CONTRACT

The objectives of this contract are to:

- Ensure continuous, reliable supply of petrol and automotive diesel to all City depots for the duration of the contract;
- Secure supply through a Panel of multiple qualified Service Providers, reducing the City's exposure to the failure of any single supplier;
- Obtain fuel at a fair, market-related, and verifiable price through a transparent rebate mechanism benchmarked against the DMRE-regulated wholesale price;
- Ensure that fuel supplied meets the applicable SANS specifications and is free from contamination or adulteration;

- Promote the participation of EMEs, QSEs, and Historically Disadvantaged Businesses without compromising the City's security of supply; and
- Establish a governance framework, including key performance indicators, reporting, and audit rights, sufficient to detect and respond to underperformance, fraud, or non-compliance promptly.

4. SCOPE OF WORK

4.1 Products

This contract covers the supply, delivery, and off-loading of two products, both of which must be quoted and supplied by every appointed Service Provider/s:

- Item 1: Petrol – Unleaded 95 Octane, complying with SANS 1598.
- Item 2: Automotive Diesel, Sulphur 50 ppm or less, complying with SANS 342.

Bidders are required to submit a Rebate per litre for both Item 1 and Item 2 in the Pricing Schedule (Form K). This requirement exists because the City requires each appointed Service Provider to act as a single point of accountability for fuel supply, quality, and quantity reconciliation at every depot to which it is allocated, and every depot is provided with dispensing facilities for both products. **Failure to submit a Rebate per litre for both Item 1 and Item 2 will render the bid non-responsive, and the bid will not be evaluated further.**

4.2 Sites and depots

Fuel is to be supplied to all City depots listed in below, as may be amended from time to time by written notice from the City. Depots may be reorganised under the City's fleet and refuelling rationalisation plan during the contract term; estimated quantities in Form K are for evaluation purposes only and do not constitute a guaranteed order volume.

The Service Provider shall co-operate fully with the operation of this system, including providing delivery data in the format and within the timeframes required by the City.

Every delivery shall be accompanied by a delivery note recording the depot, product, quantity delivered, vehicle registration, driver name, and time of delivery. This record constitutes the chain of custody for that delivery and shall be retained by the Service Provider for the duration of the contract and for a period of five years thereafter, or such longer period as may be required under the Municipal Finance Management Act record-keeping requirements.

The City may conduct fuel reconciliation at any depot at any time, comparing delivery records against dispensing records and physical fuel levels. The City shall maintain a consolidated Panel management record, recording every order allocated, the Service Provider to whom it was allocated, the rotation position applied, and any deviation from the standard rotation sequence together with the reasons recorded. This record must be available for internal audit, external audit, and Auditor-General review on request.

16. HEALTH, SAFETY AND ENVIRONMENTAL MANAGEMENT

All vehicles used to transport dangerous goods under this contract shall comply with the South African National Road Traffic Act, 1996, Chapters V and VIII, and with the following SANS standards as applicable: SANS 1518 (design, construction, testing, approval and maintenance of road vehicles for the transport of dangerous goods), SANS 10231 (operational requirements for road vehicles), SANS 10232 Parts 1, 3 and 4 (emergency information systems), and SANS 10368 (transport of low-hazard goods in bulk). 17. FORCE MAJEURE

Neither party shall be liable for failure to perform its obligations under this contract to the extent that such failure results from an event beyond its reasonable control, including natural disaster, civil unrest, or a declared national fuel shortage, provided that the affected party notifies the other in writing within 48 hours of becoming aware of the event, and takes all reasonable steps to mitigate the impact of the event on its performance.

A declared market shortage affecting fuel availability is addressed specifically, and separately from this general force majeure clause, which permits the City to deviate from the standard rotation sequence in such circumstances.

18. AUDIT RIGHTS

The City, its Internal Audit function, and the Auditor-General of South Africa shall have the right, on reasonable notice, to inspect any record, document, vehicle, or facility relevant to the performance of this contract, including delivery records, fuel testing records, the Panel management record described in clause 15, and financial records relevant to the Service Provider's pricing and rebate offered.

19. FRAUD PREVENTION AND ANTI-COLLUSION

Each Service Provider warrants that its bid was prepared independently, without collusion with any other bidder, and that the rebate offered reflects a genuine, sustainable commercial offer rather than an artificially suppressed or inflated figure intended to manipulate the evaluation outcome.

Any suspected fraud, corruption, collusion, or material misrepresentation identified during the bid process or the contract term shall be referred to the City's Internal Audit and Forensic Investigation functions and may be reported to the relevant law enforcement authorities, without prejudice to the City's rights under clauses 13 and 14. The Council reserves the right to request proof of the validity of the insurance policy at any point during the contract period.

The successful bidder shall, for the duration of this Agreement, be required to maintain in force such sufficient insurance cover for its performance under this Agreement. The level of insurance will be kept under review by the Successful Provider on an annual basis, to ensure its adequacy, provided that any variation to the level of such insurance shall be entirely at the discretion of the Successful bidder.

Insurance Cover will include relevant applicable insurance policies for risk associated with the scope of work, such as Public Liability and such Insurance will be determined by the City of Ekurhuleni (CoE). The Successful Bidder shall present Certificates of Insurance to CoE (Risk and Legal Department)

before the commencement of works, but not later than Fourteen (14) days after having been informed of the acceptance of this bid.
