

## **Feed Grinder, Mixer and pelleter for livestock**

### **Description**

Vertical mixer is intended for the preparation of feed, mixing up, crushing, and pelleting the different weighed components. Working system: Different components loaded into the mixer through the receiving bunker, from which with the aid of a conveyor into the bunker-mixer.

<b>Project Item description</b>	<b>Specifications</b>
Feed Grinder, Mixer, pelleter for livestock	High productivity
	Capacity:300-500kg
	Crushing and mixing power: 3-7.5kW
	Weight:200-400kg
	Production per hour: 300 Kg/h
	Voltage: 22v/380v or more
	Dimension (l*W*h): 1560*1160*2800mm or more (Diameter of container: 1-1.5m)
	Application: Livestock
	Function: feed crusher, mixer, pellets
	Raw material: cereal, grass, powder, mash, oil, water
	Colour: green, blue or any
	Feature: High Efficiency Low Cost
	Material: Durable Carbon Steel
	Mixing time: 5-20 minutes
	Rotate speed: 400r/min
Height: 2.5-3.5m
